### Legion Fanfare

The favorable results of the first week of the American Legion Fanfare Campaign show very clearly the attitude of the people of Geneva regarding this organization.

Every contribution carries votes for the contestant soliciting and helps them one step nearer their goal, a new 1934 Chevrolet.

Keep in mind there are two cars to be given away, one to the holder of the lucky ticket and one to the contestant receiving the most votes. Help your favorite win by giving them your donation today.

7th Annual Geneva-on-Seneca-Lake Regatta, Saturday and Sunday, July 7 and 8.

### Eat Snakes and Lizards

The Australian and African bushmen think nothing of eating most kinds of snakes and lizards that occur in their native countries. Large snakes, iguanas, lizards and turtles are relished by Indians living in the American tropics, while the Seminoles in Florida and many other peoples eat small alligators and crocodiles.

### Summer Breezes

A new diving tower and pier have been erected at Cottage City Inn, Cottage City, Canandaigua Lake.

Give us a day once in a blue moon when we don't have to make good.

Why not arrange to enjoy your Fourth of July dinner at beautiful Averhill, East Lake Road, Canandaigua Lake? The cool Rathskeller, an innovation of last season, is again open this summer.

Once lemonade was so rare that it was seldom seen except on circus day and the Fourth of July.

Sax Smith and his Cavaliers, whose music is familiar to WHAM listeners throughout this area, has been engaged for the season at Cottage City Pavilion, Canandaigua Lake. Dancing, July 4th, and each Wednesday, Saturday and Sunday evening.

A tall man isn't necessarily high minded.

The Dance Hall at Roseland Park, Canandaigua Lake, is now open every night except Monday. Reggie Johnson's Orchestra will be the attraction from June 26 through July 8, after which it will be the park policy to present a different orchestra each week, starting on Tuesday nights.

You may be sure no ancestors of yours left \$80,000 in a bank 100 years ago, unclaimed.

A fine place for a summer home—"Wyckoff Glen," East Shore Seneca Lake.

The Sutherland Radio Service, formerly of 72 Grove street is now located at 388 Exchange street, corner Tillman street.

### White Phosphorous Banned

Sunday and Monday brings you Kay Francis and Warren Williams in a screen play by Charles Kenyon, "DOCTOR MONICA".

On Tuesday and Wednesday, July 3 and 4, the celebrated team Wheeler and Woolsey in a hilarious comedy "COCKEYED CAVALIERS".

Coming Thursday and Friday, July 12 and 13: Gilbert and Sullivan's comic opera, "H. M. S. PIN-AFORE" with a chorus, cast and orchestra selected from the outstanding talent from Geneva and surrounding territory, all under the direction of Stuart Gracey, chairman of Opera for the New York Federation of Music Clubs.

Cast and Orchestra will number approximately 250. No advance in regular admission prices.

**Scott Hid Name**

For many years Sir Walter Scott's novels were published anonymously, for Scott, seriously and with good reason, believed that if he put his name to "Waverly" and "Guy Mannering" he would injure his reputation as a poet and even his character as a gentleman—a good commentary on the social standing of the novelist in his days.

Your name will not be printed, but names and addresses must accompany recipes.

## Lemon Sponge Cups

- 1 cup sugar.
- 2 tablespoons butter.
- 3 eggs.
- 1½ cups milk.
- 5 tablespoons lemon juice.
- Rind of one lemon (grated).
- Pinch of salt.

Cream butter and sugar, add flour, salt, lemon juice and grated rind. Stir in beaten egg yolks mixed with milk. Fold in stiffly beaten egg whites. Pour mixture into custard cups, set in pan of water and bake in moderate oven 45 minutes.

L. M. A., Argyle St.

## Jellied Salmon

- 2 teaspoons salt.
- ½ teaspoon mustard.
- ¼ teaspoon pepper.
- ¾ tablespoon gelatine.
- 1 egg yolk.
- 1 tablespoon butter.
- 3 tablespoons vinegar.
- ½ cup of milk.

Cook the above in double boiler stirring constantly until mixture coats the spoon. Strain and allow to stand until it begins to thicken. Pour over a can of Salmon picked into small pieces. Fold in ½ cup of stiffly beaten cream, mold and chill.

#### Birds in North America

The bureau of biological survey says that there are 802 specimens of native birds in North America, north of Mexico. This number includes more than 1,400 sub-species. As far as individual specimens are concerned, it is estimated that there are two birds per acre in the United States and Canada.

There are one and one-half drivers to every auto in the United States. The sad part is that the half-drivers are at the wheel most of the time.—*Wichita Eagle*.

## CHRISTMAS THRIFTIES MAKE HIT WITH LOCAL SHOPPERS

The nationally known Christmas Club, a corporation with executive offices at 461 Eighth Avenue, New York City, sponsors of the service bearing its name and used by thousands of banking institutions throughout the U. S., have recently started a new plan, known as Christmas Club II, applicable to retailers.

The inauguration of the original Christmas Club dates back to 24 years ago. The idea at that time was to find a method that would effect a closer contact between the public and the banker, to stimulate banking habits and to create a psychological urge for thrift development.

After many years of study and far flung research and a careful analysis of human impulses, Herbert F. Rawll, who is founder and President of Christmas Club, a Corporation, a national organization of thrift development, has developed another Christmas Club idea which promises to mark a new era in retail merchandising. The plan, unlike the Christmas Club at the banks, offers an opportunity of building an extra fund for Christmas as you buy the necessities, comforts and luxuries of life. It is a save-as-you-spend plan.

The achievement and success of the Christmas Club is based on that psychological appeal and intriguing urge of "saving for a purpose," of storing away money in small amounts during the year, when it is felt the least and the reward of getting it all back, in one lump sum, when it is needed most.

Banks and the public alike have supported and approved the Christmas Club idea to the extent that as many as 11,000,000 people have accumulated more than \$600,000,000.00 in one year, in 8,000 banks.

The new save-as-you-spend plan, is known as Christmas Club II, and is operated by retail stores. It is designed to assist and stimulate retail buying as it presents the same intriguing appeal to store customers as the original plan holds for bank customers.

Merchants identified with the new activity, in effect, through the facilities of the Christmas Club Corporation, start a special savings account for the exclusive benefit of their customers subscribing to the plan. Into this savings account is deposited for these merchants, an amount to redeem Christmas Club Thrifties. Thrifties are given with all purchases. One with a 25c purchase, two with a 50c purchase, etc.

The redemption value of these Thrifties is  $\frac{1}{2}$  cent each and may be amassed in a special Thrifties pass book provided, without cost, to the customer by the merchant. Thrifties, then represent a 2% discount on all purchases.

A list of Geneva merchants enrolled in the plan will be found on page 1 of this issue.

It is said that this plan makes a valuable contribution to the "New Deal" as it contemplates attraction of a few pennies saved on an individual transaction and substitute a greater attraction of accumulating these pennies into a substantial year end accumulation remitted in one lump sum. That is the link with the original Christmas Club idea—"Save-for-a-Purpose".

### Bait

The young lady from the East was spending her vacation on a dude ranch in Wyoming. One day she noticed a cowboy pulling a long rope, so she inquired, "What do you use that rope for?"

"I use it to catch cows with, ma'am," replied the man.

"Well," persisted the guest, "what do you use for bait?"

### Dumb Buffalo

An efficiency expert was sent out in the Colorado mountains to advise the miners. One old miner, driving the expert through the snow and cold, spread a buffalo laprobe over the knees of both of them as they sat side by side.

"You ought to turn the hair on the inside," said the expert; "don't you know it's a great deal warmer to have the hair next to your body?"

The old miner obeyed, and then sat there chuckling.

"What are you laughing about? Are you laughing at me?" exclaimed the expert, with an air of dignity.

"No," replied the miner, finding it difficult to restrain himself, "I was just thinking about the buffalo. What a fool he was all his life long not to know a simple thing like that!"

Mrs. Franklin D. Roosevelt will be heard July 9 over N. B. C. from a Century of Progress sponsored by Simmons beds.

When Will Rogers completes his present Sunday evening series over WHAM—NBC his place will be filled by broadcasts originating abroad. The first on July 15 from London; on later programs Berlin, Paris, and Vienna will be heard.

On June 12, WHAM's antenna system was struck by lightning,

smashing the huge insulators to dust and piling three-quarters of a ton of aerial on the ground. Two hours later an emergency antenna was in operation. That night after sign-off, aided by a battery of ground lights, new cables were placed in position. It takes two hours of work on a two-man winch to lift the antenna into position.

Eddie Cantor will return in the fall over the Columbia network sponsored by the makers of Pebecco toothpaste.

If on your next trip to New York, you wish to see your favorite radio star in action write the sponsors in care of the network carrying the program. They will supply tickets to the broadcasts. The addresses are: National Broadcasting Co., 30 Rockefeller Plaza, New York, and Columbia Broadcasting System, 485 Madison Ave., New York City.

Clyde Morse, Program manager and announcer of WHAM has resigned in order to devote more time to concert piano work and teaching. Prior to his connection with WHAM in 1929 Morse was featured by west coast stations and RKO vaudeville. He is well known for his daily broadcasts "Among My Souvenirs." His place as program manager will be filled by Ken Loy-sen.

A new network is in the making with WMCA as the key station in New York. By fall they expect to have stations as far west as St. Louis.

Radio, the great educator. From one program we learn that this summer it is toenails that are to be "glorified." What next?

### The Samoyed Dog

In his native countries, the Samoyed dogs born in higher altitudes were always pure white, while those born farther south were of various colors resembling the Newfoundland. In winter, the color of their nose changes from black to brown—returning to black with the approach of warm weather.

### Habits of Squirrels

Differing from the red squirrel in the way he stores his winter's food supply, the gray variety doesn't stock his provisions in an old hollow tree, but buries it in the ground, each nut in a separate place, and then paws the snow away and scratches it up when hunger sets in in the cold winter months.

### Winnek Post Drum and Bugle Corps Wins Competition

Six American Legion Bugle and Drum Corps competed before more than 5,000 persons at the Newark Airport last Sunday afternoon in a celebration sponsored by Washington Post of Newark on the opening day of Old Home Week.

The corps from Geneva won first place. The contest was conducted by Frank Kluck of Painted Post, chairman of drum corps for the seventh district, and was according to state rules regarding bugle and drum corps competitions.

Among high officials of the legion present were: State Commander Robert Minnich, who announced the winners; James Quinn, grand chef de gare of the 40 and 8, and George Clancey, past vice-commander, of Rochester.

### Leisure in the Barnyard

A family which had struggled for years with poverty, had suddenly come into possession of a considerable fortune. They purchased a farm and stocked it with cows, pigs, and chickens.

One day a visitor was being shown over the place by the young daughter of the owners. "Do your hens lay many eggs?" he asked.

"Oh, they can, all right," haughtily replied the girl. "But, of course, in our position it isn't necessary."

### The American Legion Fanfare

The campaign now in progress to secure funds for new uniforms for the Drum and Bugle Corps of the American Legion has a definite place in the civic life and interest of every Genevan.

Since the conception of this organization in 1929 they have been a real success and a source of satisfaction to every one. They have existed solely on the prizes they have won and this was made possible only by the untiring efforts and cooperation of every member, plus hours of study and drill each week.

There is no other means of advertising our fair city more adequately than by sending our own Drum and Bugle Corps out on the field of competition fully equipped and with the satisfaction that every citizen of Geneva has done his or her part to make victory certain.

The Drum and Bugle Corps have always been ready to do their share in any undertaking of the city or the various organizations within the city. National holidays would certainly be incomplete without the familiar sound of the Drum and Bugle Corps.

### Summer Breezes

Free Picnic Grounds and tables are available for your family picnics at Cottage City Inn, Cottage City, Canandaigua Lake.

The management of Roseland Park, Canandaigua Lake has announced a series of free acts to be changed every week throughout the season. The Fourth of July attraction was a balloon ascension, featuring a boy sixteen years of age in a spectacular parachute jump.

Averhill, on the East Lake Road, Canandaigua Lake—for that Sunday dinner is ideal.

The Seventh Annual Geneva-on-Seneca-Lake Regatta, Saturday and Sunday, July 7 and 8 promises to be exciting, and a large crowd is expected.

Starting Thursday, July 5th for a two-day engagement Shirley Temple the adorable little girl of "Little Miss Marker" comes to you again in "BABY TAKES A BOW" with James Dunn and Claire Trevor.

Saturday July 7th one day only, a mixed-up comedy of matrimonial errors "HERE COMES THE GROOM" starring Jack Haley, Patricia Ellis, Mary Boland and Neil Hamilton.

Sunday and Monday Schine's Geneva presents the screen play of the book that swept the nation! "LITTLE MAN WHAT NOW." As Elsie Robinson the famed syndicate writer says: "Here are two loving, living, frightened, stupid, brave youngsters and their story is our modern world. It is the story of the struggle of two plain young people in a society robbed of beauty, decency and dignity by the greedy, powerful and selfish!" Featuring Margaret Sullavan, Douglas Montgomery, Fred Kohler, Alan Hale, Mae Marsh, George Meeker, Muriel Kirkland, DeWitt Jennings, Hedda Hopper. From the novel by Hans Fallada.

She had driven past a red light, then stalled her car in the midst of heavy traffic, made a left turn against the light, and finally pulled over to the curb and started to park against a water plug.

A policeman rushed over to her. "Lady!" he shouted, "are you familiar with *any* of the rules governing drivers?"

She looked up at him with a lovely smile. "Why, yes, officer," she said. "What would you like to know?"—*Christian Science Monitor*.

## Pecan Cookies

3 egg whites  
4½ tablespoons flour  
1½ cups brown sugar  
¾ lb. or 3½ cups pecan meats

Beat egg whites very stiff, add flour into which has been mixed the sugar and salt. Stir in broken pecan meats and drop in small amounts, about ½ teaspoon on greased baking sheet. Bake 5 to 10 minutes in hot oven.

L. C., Center St.

## Pineapple Sherbet

1 teaspoon gelatine  
4¼ cups water  
1 cup sugar  
Juice of 3 lemons  
1 small can grated pineapple

Soak gelatine in ¼ cup of cold water for 10 minutes. Cook sugar and 2 cups of water for 5 minutes. Add dissolved gelatine, lemon juice, pineapple and remaining 2 cups of water and freeze.

I. T., Andes Ave.

## Mocha Milk Shake

2 tablespoons grated chocolate  
3 tablespoons hot water  
½ cup rich milk  
1 cup strong coffee  
2 tablespoons sugar  
½ teaspoon vanilla

Melt chocolate in hot water, add other ingredients in order given. Shake well with cracked ice. 1 large or 2 small servings.

## Chocolate Cream Roll

4 egg yolks (beaten until lemon colored)  
⅔ cup sugar beaten into egg yolks  
2 sq. chocolate (melted and added to above)  
5 tablespoons all purpose flour  
¼ teaspoon baking powder  
¼ teaspoon salt

Sift dry ingredients and add to first mixture, and lastly fold in the 4 beaten egg whites flavored with vanilla. Pour into shallow greased pan and bake in hot oven (400 degrees) for 12 to 15 minutes. When cake is baked, turn out on towel dusted with powdered sugar. Roll towel up along with cake and when cool, unroll and spread cake with following:

1½ cups heavy cream whipped stiff with ⅓ cup confectionery sugar, flavored with vanilla. Roll up and dust with powdered sugar.

P. S., Pulteney St.

## Cauliflower Duchesse

1 medium cauliflower  
2 tablespoons butter  
3 tablespoons vinegar  
¼ teaspoon salt  
2 tablespoons chopped pimento  
2 tablespoons chopped green pepper

Cook cauliflower until tender, drain and separate into flowerets or leave whole if desired. Pour over sauce made by melting butter, adding to it the vinegar, salt, chopped green pepper and pimento. Serves six.

## CAMP YOUNG

The purpose of the program of Camp Young is to help each boy to attain the fullest development that is possible in every branch of his life. With that in view, the program is planned so as to contribute to his intellect, to his physical development, and to help him find a congenial relationship with his friends, and with his God.

Camp Young opens its eleventh season on July 16 for two weeks for boys 12 to 18 years of age and from August 2nd to 16th for boys from 9 to 13.

A program has been carefully arranged for the welfare of the boys of different classes by the directors of the camp who are all selected for their ability in the different activities which the camp offers.

The camp equipment consists of a large roomy lodge, containing the dining room and kitchen and a large recreation room, nature study room and the camp administration offices. In case of rain the lodge serves as the assembly place for the entire camp. The boys are housed in large roomy tents with suitable bunks. The athletic equipment consists of an athletic field, tennis court, volley ball court, quoit courts and many conveniences for other healthful sports. There are rowboats, motor boats, swimming raft and pier for water sports.

The camp possesses a fully equipped hospital, and several leaders who have passed the requirements in American Red Cross advanced First Aid. Phone service and automobile service make it possible to

### Lonely Seal Visits City

Believed to have strayed from its native haunts in the Antarctic, a lonely seal recently visited Wellington, New Zealand. It was first seen by bus passengers on a road, but escaped into a river, only to be caught later and placed in the Wellington zoo. It was white and measured 7 feet.

### Cascades and High Sierras

The Cascades and High Sierras are two separate ranges of mountains to the west of the Rocky mountains proper. They may be considered a part of the same system of mountain formation, but the actual chain of the Rocky mountains is farther East.

### Right Hand in Greeting

When you offer your right hand in greeting you are unconsciously following the lead of the knight who held out his empty hand as an indication that his sword was sheathed and that he had no intention of using it. And just as the courtly baron of the days of Crecy always removed his gauntlet before offering his hand to a lady so the polite man of today takes off his glove.

### Eskimo Language

All Eskimos use the same language, whether they live in British Canada, Russia's Siberia, America's Alaska or Denmark's Greenland. Some of the words are written and spoken in several hundred different ways, each way having its own meaning.

Compiled by M. F. DEVANEY

"Worry is simply interest paid on trouble before it is due."

"The good Lord furnishes food for the little birds, but He doesn't throw it into the nests."

"A cheerful man is one who knows that things cannot be as bad as he thinks they are."

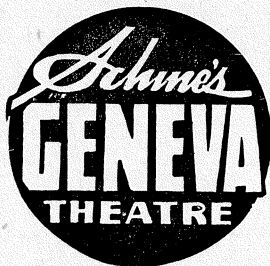

"The experience gained by hard knocks is never fully appreciated until the soreness has disappeared."

"Every treasure is not a friend, but every friend's a treasure."

"When you are up against a blank wall, there is either a hole under it or a way over it, or there isn't any wall."

"Keep busy so that temptation cannot take aim. Remember it's the bird that sits, that gets shot."

### THE DRUMS OF GENEVA

A few years ago a very interesting event occurred in the life of the American Legion in Geneva—the organization of a Drum and Bugle Corps—starting from scratch—no funds—no equipment—but plenty of enthusiasm, the Winnek Drum and Bugle Corps became a part of the Legion here and finally became one of the leading drum corps of the country, winning several prizes and putting their city and legion on the map as a real place in which to live, and a real organization. They started with a few drums and bugles and no musicians, but that obstacle was easily overcome through the efforts of Bill Ashworth and Harry Williams, who took it upon themselves to develop the drummers and buglers, and after a short time with the interest taken by all concerned they could finally “beat a step” and blow a trumpet. Then came their real chance to make good and as everybody knows they did—the boys with their drums, bugles and kahki uniforms went on parade and won recognition from the town folks, veterans and the press. That was the start of the Drum Corps that has since won State prizes and at the State Fair last year in Syracuse won first prize in an open competition of all corps in the State and in more recent days won cash prizes and cups in all events they entered. They need new equipment and more uniforms, so do your bit and help the Fanfare contestants put the “Geneva Boys” on the map at the National Convention in Miami this year.

Say you read it in “The Geneva Community News”.

## SEVENTH ANNUAL REGATTA

Geneva will be host to about 100 of the nation's fastest outboard racing pilots next Saturday and Sunday when the Geneva Regatta Association and the Chamber of Commerce stage the Seventh Annual Geneva on Seneca Lake Powerboat Regatta. Besides the pilots, their mechanics and friends upwards of 30,000 people are expected to view the two-day racing program, the largest and most outstanding outboard regatta in Eastern United States this year.

The weather was the only factor which regatta officials under the leadership of Harry M. Seagers, T. Schuyler Smith, Lee A. Taylor and Erle E. Snelgrove were not prepared to cope with. Given a favorable break by the weather man and the 1934 regatta will be bigger and better than any of the six previous ones which have made Geneva one of the bright spots on the nation's powerboat racing circuit.

The racing schedule has not yet been definitely set as to starting times of the races but is expected to get under way at 1:30 o'clock Saturday afternoon with the first race for Class A. All four outboard classes will race over the one and one-quarter mile oval course, raced four times around for five miles for each heat. There are three heats of five miles each to each race for each class. The four outboard classes are A, B, C, F.

The big feature of the regatta is the Second Annual New York State Outboard Championship for the Governor Herbert H. Lehman Trophy. This was won last year by J. C. "Cab" Walier, Syracuse, N. Y. professional who will defend his title this year. Walier has also won twice the Finger Lakes Championship and needs a win this year to take permanent possession of this beautiful trophy.

The Hotel Seneca Trophy given for the amateur driver scoring the greatest number of points in the regatta will again be in competition. It was won last year by Roy J. Straley of Eggertsville, N. Y.

Racers began arriving here early this week coming to Geneva directly from Worcester, Mass., where the intercollegiate championships were staged last weekend.

Among the early arrivals were James C. and Stewart Nunneley accompanied by their father, Commodore C. H. Nunneley of Detroit, Mich. Jim Nunneley will be remembered here as the boy who broke the world's record for Class F. Div. 1 (amateur) in the 1934 regatta and who staged such a thrilling, hair-raising race in the three heats for this class.

The regatta course will be laid out again the same as last year paralleling Lake street. A radio public address system in charge of C. A. Beyer and enlarged to cover more territory this year will be used to carry a running description and results of the races to the crowds on shore.

United States Coast Guard Patrol Boat CG-211 in charge of Boatswain Guy A. Morse, from Olcott, N. Y., will patrol the regatta. It is a 75-foot patrol boat and will act as official committee boat.

Flagship of the large fleet of visiting yachts which will come to Geneva for regatta is the 83-foot power yacht of Commodore David C. Wende, of the Buffalo Launch Club. The yacht is named Restless II and is considered one of the fastest and most luxurious yachts on the Great Lakes.

## Real Efficiency

The police had photographed the convict in six positions and sent the picture throughout the country, asking the authorities to apprehend him. Promptly came the reply from the marshal of Hicksville Corners, which read as follows:

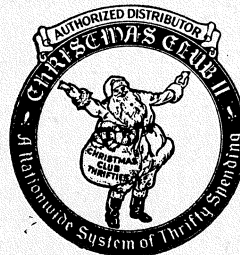

"Received the pictures of criminals. Have captured five of them and am on the trail of the sixth."—*American Girl*.

To help you find the summer dance programs we present this list of dance bands broadcasting over the chain networks: C—Columbia, R — Red WEAf-NBC, B—Blue WJZ-NBC:

When Amos and Andy go on a 2 months vacation beginning about July 13, their place will be filled by Frank Buck of "Bring 'Em Back Alive" and "Wild Cargo" fame. He will tell a dramatized story of his adventures to a young boy.

Even the foreign stations are being hit by U. S. commercialism. Tune in the Philco program over station EAQ in Madrid, Spain on 30.40 meters every Sunday evening at 6 P. M.

Do you enjoy war stories of spy intrigue? Then tune in K7 on WEAf-NBC Sunday evening at 6:00 for an exciting half-hour. This Sunday the story of the "Battalion of Death" will be dramatized.

get a physician in ten minutes, if one is not in camp.

The swimmers, during the swimming periods, are guarded by a crew of experienced life savers, and the

swimming area is restricted. The buddy system is used for a check on every boy.

In every way the safety and health of the camper is watched and protected.

Mrs. Boyd Trump is again in charge of the camp "eats" and a splendidly cooked and balanced menu is assured for the health of the camp.

The charges for the camp are nominal and boys will be accepted only for two weeks, except in rare cases, as it takes a boy at least a week to get acclimated and the second week gives him a chance to get the best out of the camp.

Camp is reached via Lehigh Valley Railroad to Lodi—walk ten minutes west on road and you will be at camp.

By motor—take State Highway to Lodi, turn west down hill to cemetery and turn right, then the second turn to left brings you straight to camp.

The continuance of Camp Young this year is made available through the efforts of the Geneva Kiwanis Club.

### Our Delivery System

Those entrusted with the delivery of the Geneva Community News to residences have strict instructions to make such delivery carefully as follows: The paper must be placed behind storm or screen doors or rolled between door knob and door jamb. This does not mean thrown on the porch nor stuck in the porch rail.

At any time your copy is not delivered in accordance with our instructions we will consider it a great favor if you will kindly notify us. Mail card to P. O. Box 146, Geneva, or phone 2108.

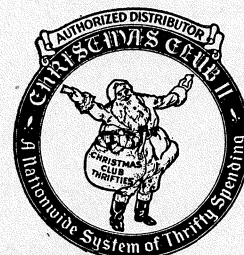

Frank Buck, of "Bring 'Em Back Alive" and "Wild Cargo" fame, will tell a dramatized story of his adventures to a young boy in his forthcoming series substituting for Amos 'n Andy while they vacation.

On October 27 Station KYW leaves Chicago and moves to Philadelphia. This will relieve the mid-western area of crowding and boost service in the less congested eastern zone.

### Radio Flashes

By RALPH LEBRUN

Joe Penner, NBC's duck salesman was recently presented, absolutely free, a \$16,000 motor car by the Isotta-Franchini Co. Joe is Hollywood bound to appear in a movie. As he is traveling by boat, the gas buggy is being sent overland to meet him at the coast.

Kate Smith returns over the Columbia system on July 16 with programs on Monday, Thursday, and Friday at 7 P. M.

Al Jolson returns to the Whiteman Kraft Thursday night show on July 19. Incidentally he will no longer occupy so much time on the hour but will be held down to a few songs.

The amount of light in your radio tubes is no indication of their condition. Also the silvering or other dark coating inside the tube means nothing. It is only a deposit which remains after burning the last bit

of air out of the tube during the process of manufacturing.

The Arlington classic will be described over WHAM-NBC Saturday, July 14 at 5 P. M. Such famous contenders as Cavalcade, High Quest, and Discovery will be in the line-up.

Campbell's Soup will be broadcast in the fall over CBS featuring Ted Fiorito's band from the coast.

The cost of the trans-atlantic broadcast on the Sunday evening Gulf program replacing Will Rogers will be less than the land wire charges to bring Will's voice from California.

Babe Ruth signs off July 13 after scoring an ethereal home-run. Listeners sent in 850,000 cereal box tops and the Babe received over 1,000,000 letters. His sponsors distributed 9,900 baseballs and 1,100 gloves.

The National Broadcasting Co., made a profit of \$1,300,000 in 1932

and \$400,000 in 1933. The Columbia System is reported to have made approximately \$700,000 for each of these same two years.

### Advances Cosmic Rays Theory

Exploding stars that burn with a fire equal to 100,000,000 suns for six days and then are reduced from a diameter of 500,000 miles to little spheres fourteen miles thick are the cause of cosmic rays, an authority states.

## THE FUNNYBONE

### Reformed

Stern Parent—Tommy, you are not to play with young Smith any more; I think he's a bad little boy.

Tommy—Oh, daddy, he isn't—he's a good little boy. He's been in reform school twice, and each time he's been let out for good conduct.

### Consolidated

Tommy—Where are those apples that were on the top shelf in the cupboard?

Tommy—Guess they are with the pie that was on the bottom shelf!

### A Matter of Diet

First Cannibal: "The chief has hay fever."

Second Cannibal: "It serves him right. I told him not to eat that grass widow."

### Still at It

"Can anyone tell me," demanded the orator, "who did most in the nineteenth century to raise the working classes?"

"Yes, guv'nor," replied one of the crowd; the "inventor of alarm clocks."

### 'Twas Ever Thus

Before little Stanley went to the party with his sister Helen the usual instructions which precede a children's party were given by mother. However, the youngster seems to have fallen short of expectations, for when the two returned home, Helen reported, "It was awful, mother. Stanley did all the don'ts."

Out of the Telephone: "Hello, hello, I'd like to know where I could get hold of Miss Smitherfield?"

Operator: "I couldn't say; she's awfully ticklish."

### Too Good to Be True

"What's all this noise about, you young rascal?"

"Well, Mary said if I kept on crying, a great big mouse with big green eyes would come and sit on the end of my bed, and I've kept on, but it hasn't come yet!"

### Made Fine Escape

"I though you said if I was sociable to the judge that he'd let me off," said one neighbor to another.

"Well, didn't it work?"

"Sure did—in reverse. I said, 'Good morning, judge. How's aboy today?'"

"And what did he say?"

"Fine—ten dollars."

### In Some Cases

The teacher was examining the class in physiology.

"Mary, you tell us," she asked, "what is the function of the stomach?"

The little girl answered, "It is to hold up the petticoat."

### Little Mary

Mother was teaching little Mary, age three, the prayer, "Our Father," by having her repeat each short sentence, as mother said it. Mary was learning nicely the first week of her lesson.

The second week, when mother came to the sentence, "Give us this day our daily bread," Mary hesitated slightly, looked up at mother and said, "Mother, I want some peanut butter on my bread."

## "H. M. S. PINAFORE" AT SCHINE'S GENEVA WITH LARGE CHORUS AND ORCHESTRA

The comic Opera "H. M. S. PINAFORE" by Gilbert and Sullivan will be presented the evenings of July 12 and 13 in connection with the regular picture "WHERE SINNERS MEET" which will be shown before and after the Opera.

"H. M. S. PINAFORE" is undoubtedly one of the most popular and successful comic operas ever written and is a satire on conditions in the British Navy during the latter part of the last century. It is noted not only

## OLD FIDDLERS

An old time fiddlers' contest which is expected to draw the best talent from this area will be staged at Schine's Geneva theatre, August 4th at 9 o'clock.

The contest is being sponsored by John A. McDermott, whose name is widely known through his activities in broadcasting and recording, will be the Master of Ceremonies for the occasion.

Veteran fiddlers from this area will be eligible to compete for prizes which will be awarded on the basis of popular applause. Mr. McDermott has conducted fiddling contests with such decided success in his home community that they have become an annual affair.

Many an old violin has been taken from its dusty case again and tuned by the fiddlers who recall the spirit of the early '90s as they start their daily practice for this contest.

for its delightful tunes and melodies, but as well for its fun and humor.

On Saturday, July 14, one day only, we offer you "CHARLIE CHANS COURAGE" which introduces a novel twist in mystery stories. Warner Oland, portraying the wily detective, finds the evidence of a murder, guesses the murderer, but can not find the murdered man.

A galaxy of Hollywood's comedy starts a wistful and touching romance, an array of new hit tunes, are the principal features of the newest melody-comedy-romance, "SHOOT THE WORKS" which starts Sunday at the Geneva theatre for a two day engagement.

This picture, which serves to introduce Ben Bernie to film audiences, features Jack Oakie, Dorothy Dell, Arline Judge, Roscoe Karns, Alison Skipworth and William Frawley. It was adapted from the Broadway play, "The Great Goo," by Ben Hecht and Gene Fowler, and was directed by Wesley Ruggles.

The story treats of the strange and whimsical members of a broken-down side-show troupe whose promoter, Jack Oakie, specializes in beautiful blondes, but cautiously side-steps love.

As is usually the case, he falls with a thud for the one and only girl, who is played by Dorothy Dell. And although his first effort at reforming for her sake fails, and he almost loses her, he wins her back again, and with his long sought fame.

Tuesday and Wednesday, July 17 and 18, is William Powell's latest stellar vehicle, "THE KEY". It is said to be the most dramatic and thrilling production in which that star has yet appeared.

### SUMMER BREEZES

The "baby monk," born May 17, is still attracting more than its share of attention at Roseland Park. Grown some, but still a playful "baby." Have you seen it?

The "free acts" at Roseland are also drawing large crowds from far and near and there is a fireworks display every Wednesday night.

Welcome the good laugh. Eternity cannot deprive you of that.

A party of tourists stopping at Hotel Seneca, Saturday, visited Cottage City Inn, Saturday night, attracted there, they said, by the ad appearing in the GENEVA COMMUNITY NEWS. Dancing now at "The Inn" every Thursday night.

Whatever retreating chins indicate, double chins do not indicate firmness of character.

A cool place to visit these warm afternoons and evenings—the Averhill Rathskeller, East Lake Road, Canandaigua Lake. The Averhill dining room is under the supervision of one of the most cordial of hostesses, Mrs. C. J. Averill. Don't overlook Averhill as one of "the places" to dine.

Thousands will inevitably go back to the place where there are two slices of ham in the sandwiches.

Frank Skultety and his orchestra continue as the attraction at Cottage City Pavilion. Skultety's smooth, pleasing, dance rhythm is familiar to listeners of WHAM.

We do everything better than primitive man except sleep.

Shoreham, on East Lake Road, Canandaigua Lake, is under the management, this season, of two well-known Genevans, Elwood Cox and Miss Helen Wertman. Miss Wertman was formerly assistant dietician at Mechanics Institute, Rochester.

Pilgrim Fathers spent all their days in eluding a good time.

### LOCAL INSURANCE MEN REPORT GAINS

The Phoenix Mutual Life Insurance Company of Hartford, Connecticut, reports that on Monday, July 9, it received the largest number of applications for life insurance of any single day in its Company's entire history of more than 80 years.

The first six months of the year also record substantial gains. New paid-for life insurance for the first half of 1934 shows a net increase of 62% over the same period in 1933, while 5,252 more policies were issued than in the first six months of last year, with the same sized field force. Considering the month of June alone, the Company issued 108% more new business than in June, 1933. This was the largest amount of any month in more than two years.

LaVerne Darling, Thomas Neary, and Clyde Gelder, local representatives, speaking of this outstanding record, said: "The present upswing in business has definitely proved itself to be no temporary spurt. On the contrary, June marks the eleventh consecutive month in which our sales records have consistently outdistanced those of a year ago.

Since our business necessarily reflects conditions in nearly every section of the country, this seems a reliable indication of a sure, steady return to normal times. We believe, too, that there could be no more reassuring promise of permanent prosperity than the fact that people are turning, as never before, to the contracts offered by the life insurance companies as a safe place to put their money—a sure means of protecting their homes, educating their children, and guaranteeing their own financial independence in later years."

This week's international broadcast is from Salzburg, Austria. The composer Richard Strauss will conduct Beethoven's "Fidelio" over station EATH on 37.03 meters from Austria and rebroadcast by NBC-WEAF, Saturday at 1:15 p. m.

Time alone on the full CBS network will cost Campbell Soup, \$15,000 per broadcast.

Rothafel's friends will be delighted to hear that "Roxy and His Gang" will return to the air over CBS in September under the sponsorship of Fletcher's Castoria.

Last week the press gave considerable attention to tests conducted at Schenectady with police cars equipped for communication both to and from the cars.

Actually there has been such a system in successful operation in two communities for almost a year. The first, Bayonne, N. J., comprising a central headquarters and nine cars; the second, Eastchester, N. Y., a department with only two cars.

Of particular interest next to its fine results is its low cost. The entire Bayonne installation including the apparatus at headquarters and in all nine cars was under \$5,000.

This outfit is a ultra short wave system operating on about 8.6 meters. Low power is possible on these waves. The stations may be close together as the waves travel only about 25 to 30 miles and there is no static.

Its greatest advantage is the ease with which the occupants of the speeding police cars can talk back to headquarters.

In comparison, a standard police transmitter must use higher power. It costs upwards of \$10,000 and the cars cannot be efficiently equipped to talk back. The waves travel a considerable distance and much trouble is being experienced by interference between stations and static.

There is no doubt but that the smaller communities can now with the small expenditure necessary equip its police cars with this new ultra short wave system and increase the efficiency of its department to an unmeasurable degree.

## FINGER LAKES ASSOCIATION

Geneva, along with other communities of the lake country, will next week observe the 15th anniversary of the founding of the Finger Lakes Association, the oldest regional promotion organization of its kind in the state. Monday of this week, as a preliminary to such observance, association officers took stock of past achievements and possibilities for the future.

An outstanding fact revealed was that for every penny subscribed to the association and spent by the organization in regional advertising to attract tourists, visiting motorists leave about \$20 in the region. This is new money brought in from outside. It is a cash crop and it comes at a time of year when local trade is at low ebb.

In brief, the tourist business yearly brings an average yearly income of 10 million dollars to the Finger Lakes Region. Of each such tourist dollar, an analysis shows that 26 cents goes for merchandise, 20 cents to restaurants, 17 cents to hotels for rooms, 11 cents to gas and accessory stations and 26 cents for general spendings.

In other words more than half of tourist expenditures go directly for merchandise and general spendings.

More surprising still, the figures disclose, there is returned to the Finger Lakes Region each year from the State nearly one million dollars from gasoline tax moneys, a large share of which comes from tourists.

The aim of the regional organization of which Geneva is a part may be summed up thus: "More tourists, better roads, better parks, better business."

Since the association was formed 15 years ago the State has spent \$34,000,000 in constructing 1,000 miles of state highways within the region. And of this total, 94 per cent of the roads were recommended and urged upon the State by the association.

The Finger Lakes Association was the father of the Finger Lakes State Parks Commission. It worked to get this region's share of state park moneys years ago. The result has been that the state has created eight new parks in the region

and spent \$4,000,000 on these parks since 1924. And the parks are visited in season by as many as 75,000 persons per day.

How persistent, continuous advertising is affecting this region was indicated a few days ago in a report in the New York Herald Tribune. The article revealed that the touring bureau head of the New York Automobile Club in analyzing inquiries from thousands of New York City autoists found that the regions throughout the United States which secured the heaviest metropolitan patronage were the Finger Lakes Region and the Adirondacks. Next came the New England States. Finger Lakes advertising is getting touring results here.

The vast volume of tourist spendings are hard to comprehend. When money is heavily sprinkled over a

wide area it is difficult to realize its magnitude. Last summer at the World's Fair in Chicago, the operator of the pay-toilet concession took in over three quarters of a million dollars in nickels. Amounts coming in to this region from the gas tax are in small amounts but they loom large in the aggregate. And today, the cash tourist crop is one of the largest industries the lake country enjoys.

As the Finger Lakes Association enters upon its 16th year, it is planning an elaborate dedication of the opening about September 1 of the Cherry Valley Turnpike or U. S. Route 20, which through Geneva merges with Route 5. This air-line, short route across the state will in future be one of the greatest feeders for Geneva. And this city, about

## Dorothy Goes Shopping

The lovely full fashioned chiffon and service stockings from the **J. W. Smith Dry Goods Co.** are getting more and more popular. A beautiful lustre and an exquisite sheerness express their quality. You will find them very practical, durable and reasonable.

When you are tired and warm, stop in **George's Candy Kitchen** and enjoy an ice cold, delicious soda. They are a treat and they are **George's** specialty.

Clever purchases enable you to buy at moderate prices the latest summer styles in dresses for Child, Miss and Matron, at **Peck's Millinery**. The children's dresses in attractive colors and styles are washable and practical for school in early fall.

You will wonder how you ever missed **Ringer's** famous doughnuts and home-made cakes. They are delightful and just the thing these warm days—for lunch, picnic, or supper. Try them!

Stock up with a supply of films from **McCarthy's Pharmacy**. You will need them to take pictures over the week-end. If you desire better pictures, ask about their Eastman Kodaks.

For work that pleases, stop at **Carl's Shoe Repair Shop**. He will make your shoes like new. Experienced labor by a competent person enables you to have the highest grade of shoe repairs.

For the Miss and Matron, **Peck's** have a select variety of afternoon and evening frocks. Choose from many hues in trim gingham, seersuckers, laces, eyelets, silks, and sheers. They run in small, medium, and large sizes.

Take a tip! The **Budget Dress Shop** at 22 **Seneca St.** (over Neisner's) has truly individual styles priced at \$2.90 and up.

Summer clearance at **Wheeler's Furniture Store** shows all articles of furniture reduced to new, low prices. Have you seen their stock? Profit with pride at this July clearance sale!

One of the most important requisites in the vacation wardrobe of every girl is sparkling newness in costumes and shoes. At the **Brownbilt Shoe Store, 492 Exchange St.**, are many attractive styles now on sale at \$2.49 to \$3.89.

Going by **Hadlow's Haberdashery**, I noticed white shirts in the window and marveled at the quality for only \$1.65 each. And the ties on sale at 65c each are outstanding values for such seasonable patterns. Visit this store. I'm sure you'll like it.

Summer hats are closing "out" at **Peck's Millinery**. Pre-fall taffetas and felts are "in". All merchandise is selected by Mrs. Peck who has catered to millinery for 35 years.

Quality hand in hand with fashion is felt and seen in the made to measure lingerie handled by **Mrs. J. C. Loman, 233 Washington St.** There are all sizes and 13 colors from which to choose. The tea rose and white crepe de chine trimmed with lace is lovely. Moderate prices. Phone 3184.

### Patient Has Glassy Stare

During a recent major operation in Northern Hospital, Liverpool, England, a young doctor was given the duty of seeing whether the patient's eye contracted or dilated under the anesthetic. To the observer's horror it did neither, and the patient was hastily revived. It then was discovered that the eye was a glass one.

mid-way across the state, will be a logical stopping place for the stream of tourists down U. S. 20, which is a federal highway spanning the American continent.

Geneva, a pioneer member of the association when its roster contained but six towns, is today a leading member when 40 communities comprise the membership. Geneva will next week participate in the 15th anniversary program and she will keep her place upon the highway map and in the line of tourist spendings through continued, wholehearted cooperation with the regional organization.

### Porcupine Gets Around

The yellow-haired porcupine is Colorado's largest rodent, next to the beaver, says Nature Magazine. It occurs abundantly in the mountain country but it is a great wanderer and often is encountered far out on the plains. Not infrequently adventurous individuals invade cities and towns, and they have been discovered wandering unconcernedly on the busiest streets of Denver.

## About Tulips

Many who have admired the marvelous coloring of Tulips in the Spring may have asked what species they were.

This may answer the question.

Tulips have been grown commercially for over 250 years and in Holland catalogues all told there are over 2,500 varieties listed.

Out of this list the Royal Horticultural Society in England in 1917 drafted a classification in the belief that tulip growers would have a better understanding of the characteristics of the different varieties.

According to this classification, Tulips are divided into three general classifications. 1. Native or natural-growing species. 2. Early flowering. 3. Late or May flowering.

The native species of Tulips are those original native species growing in Europe, Asia, England, etc. It is from these that the numerous horticultural varieties have been derived.

The Early Flowering Tulips comprise 1. Single early tulips; 2. Double early tulips; 3. Duc Von Tholl Tulips.

The late or May flowering Tulips comprise groups known as: 1. Darwins; 2. Breeders; 3. Cottage Tulips; 4. Parrots; 5. Rembrandts; 6. Byblooms; 7. Bizarres; 8. Late double tulips; 9. Lily flowered Tulips; 10. Mendel Tulips; 11. Triumph Tulips.

During the bulb craze in Holland (1634-1637) as high as 5,000 Guilders (\$2,000.00 then) was paid for a single bulb; bulbs were handled as precious stones, not sold by the piece

but negotiated at troy weight on a gold scale. Because of this situation the Government of Holland was compelled to end these transactions.

At present the Holland government regulates the exportation of all Holland bulbs, designating both the quantity that can be produced and sold; they regulate the size, price and conditions under which they can be sold for export.

After the tops of tulips have turned brown they can be dug and stored in a dry place until October when they can be replanted, when this is done every three or four years many small bulbs will be found which can be set by themselves and grow on to add to your plantings.

### Race Horse's Temperament

The temperament of a race horse is as important as his speed. The cavorting, prancing racer, with his sheeny coat glistening with perspiration, is not wanted by the veteran trainer. Give him the phlegmatic, go-as-you-please horse which takes everything as it comes. If he has not such a horse he endeavors to make all conditions tend toward making such a one.

### Some Snakes Hatch Own Eggs

Not all egg-laying snakes bury their eggs in the sand and let the sun do the hatching. The python is one that takes care of the incubating itself by coiling around the clutch until the young emerge. The pine or bull snake performs in the same manner.

### IT'S NOT A HOME

#### UNTIL IT'S PLANTED

The above statement needs no confirmation as since civilization began, trees, vines and other growing things have been an essential part of real living and ever since the discovery of the Garden of Eden, gardens have occupied much of our leisure time.

It is true that in our early American history we had so many trees it was necessary to remove them by the thousands to provide the space needed for the growing of food, materials for clothing, etc., but today we are realizing that we perhaps have gone too far and now there is a real nation-wide sentiment for reforestation.

Just as in days of old we are constantly seeking better living conditions; we want our homes to provide comfort and pleasure to the fullest extent of our ability. We

## IT'S NOT A HOME UNTIL IT'S PLANTED

(Continued from page 8)

want plenty of trees, shrubs, plants and flowers growing about them and the nurseryman of today is playing a most important part in this inherent desire to make every house a home for it is not a real home until it is planted and it is the well chosen planting that makes the most humble cottage a real home.

Then the desire for improvement has caused nurserymen as well as private individuals to work constantly for improvement of old varieties as well as developing entirely new species with the result that today we have roses, shrubs and other plants and trees which are far superior to any our forefathers could secure regardless of cost.

Hundreds of varieties of roses are now available compared with perhaps a few dozen outstanding varieties a hundred years ago to say nothing of the almost unbelievable number of improved varieties of fruits which are now within reach and which the home owner can plant with confidence of satisfying results and the reason is simple.

It is because nurserymen have nursed these things through their

baby stages before they are turned over to you. That's why they are called nurserymen. When you get them, if you buy on the basis of quality rather than price, they are thrifty, vigorous youngsters, ready to dig in and grow if you give them a chance and the beauty of it is that you do not have to plant them over again each spring, because once established, your tree, your shrub, or hardy perennial or rose bush will keep on growing with much less care than you now bestow on an annual flower which requires replanting each succeeding season.

And, the few hours planning for and planting of these things needed to make your house a real home will be the building of the foundation of years of pleasure and joy and beauty.

There is no other investment in the world where you can put in so little time and money and take out such long-lasting, and such increasing dividends.

There is real joy and profit in being a builder of beauty.

But don't take anyone's word about planting being a good investment, just look around your community. You know the ones who have the planting habit. Their places show it. Aye, and their faces show it too. They have real

homes, and they and theirs are getting real fun out of it; real fun and real profit.

Plants, shrubs, or trees that cost you a dollar or two apiece you would not part with after a few years for many times their original cost.

With the many reliable nurseries located in Geneva and the inspiration provided by the many beautiful gardens about private homes as well as the elaborate plantings about our Experiment Station grounds there should be no reason why Geneva should not continue to live up to its reputation as being one of the most beautiful small cities in America.

**SCHINE'S GENEVA THEATRE**

Friday and Saturday, July 27 and 28, the circus comes to town for the kids and the grown-ups who enjoy hokum amusement in the latest Joe E. Brown picture, "THE CIRCUS CLOWN". It's a real three ring circus; the whole melange—big tents, clowns, freaks, acrobats, barkers, roustabouts, animals and parades—all serving as the atmospheric background and providing the excitement for its basic romance-drama tinged human interest character comedy. These qualities naturally suggest the colorful, flamboyant exploitation that would precede its public presentation. The rest of the cast includes Patricia Ellis, Dorothy Burgess, Gordon Westcott and others.

Starting Sunday, July 29th, for a five day engagement ending Thursday, August 2nd. Will Rogers in "HANDY ANDY". The critics proclaim Will Rogers as uproarious in this, according to the preview reports. In the picture his wife Peggy Wood wants him to play—and he does! And thereby hang most of the hilarious situations that go to make this his funniest picture.

Things run smoothly as long as Rogers is in his drug store. But when he sells out and starts to play, he finds life complicated. First he raises pigeons, until they escape into the house. Then he tries golf with screamingly funny results.

But the climax comes when he goes with his wife to New Orleans to attend the Madri Gras. He refuses to attend the ball with her. Later, however, wandering around alone, he encounters a fellow druggist and his lovely girl friend, Conchita Montenegro.

Mellowed by a few cocktails, Will decides to attend the ball after all, and he chooses a leopard skin as his costume. A few more cocktails lend him the courage to try an adagio dance with the lithe Conchita. Then the fun begins. His rough and tumble dance starts a fight that ends in a riot. And there's a surprise ending that hasn't been divulged in advance of the showing. You're really missing something if you don't see this.

**RADIO FLASHES**

By RALPH LE BRUN

Molasses and January will have roles in Lanny Ross' new movie "Mississippi". These Maxwell House comedians will shoot their portion of the film in the Astoria, L. I. studio. The scenes will be shipped west and cut into the picture at the coast.

Keenan Wynn, 18 year old son of Ed Wynn, is an inboard motorboat pilot of no mean ability. Taking care of and piloting his own boat he has already won several races and is hot on the trail of more laurels.

"Full Speed Ahead" is the title of a new program which takes Ted Husing for a fast ride every Thursday evening at 9:45. During this broadcast he is heard from various speeding crafts in and about New York City. Already he has been heard from a harbor patrol launch and a speeding hook and ladder truck. On August 2, he will talk from a police radio patrol car on duty. Tune in for a few thrills.

The highest wooden tower in the world has just been completed at Muehlacker, Germany. It is 625 feet high and has at its top an antenna ring 10 feet in diameter and weighing 1320 pounds.

Among the new radio models announced for the coming season is one that does everything but "put out the cat." Just above the tuning controls is a clock with automatic tuning arrangement which enables the listeners to pre-select programs over a twelve-hour period. The set then automatically turns on and off, tunes in a station and moves to the next at the selected time with no attention.

Radio amateurs gave a lusty cheer a few days ago when they were given permission to operate ultra short wave transmitters and receivers on any movable object. Now, cars, boats, or even roller skates can be radio equipped and the occupants can carry on conversation while in motion. This permission is limited to licensed amateurs and the transmission cannot have any commercial aspect. No doubt the time is not far distant when our trucks, buses and taxis will talk with headquarters without even slowing down. This ultra short wave equipment is very light and small in size, operating similar to the police outfit described in last week's Community News. The wave used by these amateurs is just below the police band.

**Size of British Empire**

The British empire covers 13,166,582 square miles, about one-fourth of the inhabitable land surface of the earth. The population according to estimates is 485,302,865, which is about 15,000,000 less than one-fourth of the total number on the earth.

**Home of the Diamond**

India was the original home of the diamond as a jewel. For centuries India remained the sole source of Europe's diamond supply. Diamonds were discovered in Brazil in 1730 and in South Africa in 1867. South Africa furnishes 90 per cent of the world's supply.

**SUMMER BREEZES**

Averhill on the East Lake Road, Canandaigua Lake, under the supervision of Mrs. J. C. Averill, is featuring a special Sunday night supper this Sunday. Supper to be served in main dining room or Rathskeller.

The free act attraction at Rose-land Park this week is Snyder's 3 Bears. Featuring Martha, the won-

der bear with the human mind. These bears were with Ringling Bros. circus for several years, and were one of the big attractions at the World's Fair last year. Don't miss this act as it is one of the best to be booked for the season.

Shoreham, on East Lake Road, Canandaigua Lake, invite you to make use of their 300 ft. bathing

beach. Shoreham is under the management of Miss Helen Wertman and Elwood Cox, two well-known Genevans.

Copy No. 720 of our July 26 issue is good for two theatre tickets if mailed to us, complete, at one. So is copy No. 405.

**New Hampshire Gateway**

Portsmouth, a city more than three hundred years old, is New Hampshire's gateway to the Atlantic ocean. There is, perhaps, no other city of its size in the United States as rich in history.

A Washington questions and answers editor has this to contend with: "I want to build a compass. What are the directions?"—Detroit News.

### Old Stove Contest

An old stove contest is being conducted in the City of Geneva by local gas range dealers and the Empire Gas & Electric Company. Many housewives have entered their old range in this contest already. Today's gas range prices are at depression lows. Housewives should take advantage of this opportunity and equip their homes with a modern gas range. All dealers are making liberal allowances on old stoves during this contest period. Terms are in accordance with present day budgets.

If you have not entered your old stove in this contest, do it today. You can obtain entry blank from your local gas company or any local dealer. There is no obligation to buy. Your old stove may win a new fully insulated gas range. Any type of stove will be accepted. This contest is limited to customers on gas mains and old stove must be in use.

Contest closes August 11th.

### No Free Speech

A temperance orator, who had been interrupted a number of times in the past, hired a prize-fighter to keep order while he made an address in a workingman's hall. During his address he contrasted the clean, quiet home of the temperance man with the squalid home of the drunkard. "What do you want when you return home from your daily work?" he asked. "What is it you desire to ease your burdens, gladden your hearts and bring smiles of joy to your face?"

As he paused, the prize-fighter shook his fist at the occupants of the gallery and said, "Mind, the first bloke what says 'beer' I'll throw out on his ear."

### READ CAREFULLY

What was the number in the copy of the Geneva Community News which you received last week?

Was It Number 770?

If so, mail the copy to us, complete, at once, with your name and address. Also inform us from which advertiser in today's issue you wish to receive \$1.00 worth of goods or service.

We will then mail you an order to be presented to the advertiser you select and it will be honored to the amount of \$1.00.

If you did not receive the above mentioned number perhaps you did receive one of the following numbers which will also be honored in the same manner: Nos. 316, 3967, 2018 and 1191.

### A Famous Mountain

The Jungfrau is a famous mountain in Switzerland, with a hotel at the very top, 11,140 feet high. The mountain is snow covered, with many glaciers. The Jungfrau is one of the highlights of Switzerland.

The continued talk of lengthening man's span of life reminds us of the conversation between the traveling man and a farmer. "You did a good job in reaching the age of 100 years," said the traveling man, "but I doubt if you will see another hundred." "Oh, I don't know about that," replied the farmer, "I am much stronger now than when I started the first hundred."

It pays to read the Geneva Community News.

"Theoretically, yes," rejoined the modern bride; "but from a practical standpoint it will be advisable to order dinner for two."—Ex.

### Farmer Does Providing

An old farmer was complaining bitterly to the minister of the terribly bad weather for the crops, when the latter reminded him that he had much to be grateful for, all the same.

"And remember," said the good man, "Providence cares for all. Even the birds of the air are fed each day."

"Aye," replied the farmer, darkly, "off my corn."

When you spend your money for a car—get your money's worth. Get a car that has a V-type engine—the type of engine that powers the world's fastest automobile, the world's fastest speed boat, and the world's fastest plane. No other car under \$2500 HAS a V-8 engine—EXCEPT the Ford V-8.

Once you sit behind the wheel of the Ford V-8—and feel its satin-smooth “pick-up”—you'll readily understand why thousands of former expensive car owners are now owners of Ford V-8's.

We'll gladly let you make a convincing trial. Just call us for a demonstration.

### Tower to Attract Bats

Heidelberg, Germany, is to have a bat tower which will rival the famous Flittermouse tower in Bergen. It will be constructed on a plan which will attract hosts of bats. People in the wooded valley of the Neckar are plagued by mosquitoes, gnats and other insects and it is hoped that the bats will war on the pests.

### New Continent Under Pacific

Stretching beneath the surface of the North Pacific lies a continent hitherto unknown, with huge plains broader than an above-surface continent, has been revealed by a depth finder's echo.

### Many on Islands of Japan

The main islands of Japan, with an area equal to only one-twentieth of the United States, contain a population of one-half ours.

### Catacombs at Rome

The Catacombs at Rome, the sepulchers of the early Christians, sometimes go five stories below the surface of the earth.

### 3,000 GOBS TAKE PART IN MAKING OF PICTURE OF NAVY

On the stage at Schine's Geneva Theatre, Saturday, August 4th, at 9 p. m., John McDermott, Champion Old Time Fiddler, presents an OLD TIME FIDDLERS CONTEST to determine the champion in this territory. All old time fiddlers are eligible to compete. The entries to date are as follows: Frank M. McDonnell, Geneva, a real Old Maestro on the fiddle; Eugene Haggerty, Clifton Springs, will appear with one of his new hand made fiddles; Homer Gage, Canandaigua; J. L. Whitney, Romulus; Thomas McIntyre, Canandaigua; J. C. Jones, Cortland.

It required a cast of more than three thousand persons to bring to the screen the dramatic values of "HERE COMES THE NAVY" which comes to Schine's Geneva Theatre, for a 3-day engagement, starting Sunday.

About twenty of this huge human ensemble were professional actors. The balance of the cast consisted of the officers and men of the U. S. S. Arizona, Captain M. Milne, commanding; the men at the United States Naval Training in San Diego, together with the officers in charge of the station; the officers and the crew of the U. S. Dirigible Macon, and the personnel of the western dirigible base of the Navy, at Sunnyvale, California.

No single picture has ever undertaken to present dramatically so many different aspects of the Navy and its significance in the country's defenses as does "Here Comes The Navy".

James Cagney, Pat O'Brien, Frank McHugh, Gloria Stuart, Dorothy Tree, Willard Robertson and Robert Barrat have the important roles in this romantic drama of Uncle Sam's tars afloat and ashore.

### "Going West"

The expression "Going West," meaning death, is variously derived from the ancient Egyptians, the Greeks and the American Indians. It was a common term in the Boer war among the soldiers.

### Fuse Saves Wires From Birds

Because of the too-great industry of a South Carolina woodpecker, a power company of that state has been forced to adopt a new type of outdoor cutout fuse installation. The woodpecker played havoc with the exposed portion of soft wire in a number of the fuses formerly used. These have now been replaced with fuses in which the exposed parts are of copper, a substance too tough for the bird's beak to penetrate.

### Rocket for Wreck Victims

The crew of a sinking ship forced to take to boats will have a better chance of being found by use of a rocket recently invented in Bremen, Germany. Tests have been satisfactory. The rocket works automatically when thrown into the water, and consequently can be operated by men who are floating the waves. It rises to a great height before it throws out flares attached to a parachute, and these flares are visible for nearly two minutes.

### Houses of Gold

In recent years improved methods  
of gold mining have made it possible  
to extract the metal from ore which  
formerly was considered too poor to  
be profitable. Guanajuato, a Mexi-  
can town, was built with earth taken  
from the workings during an early  
gold rush. Years later a man was  
demolishing one of the houses and  
realized that the walls contained gold  
in sufficient quantities to be ex-  
tracted with profit. The news  
spread, and before long every house  
in the town had been knocked down  
by eager owners for sale to a pro-  
spective company.

### Goose Ignores Water

cooked and hastily eaten meals, de-  
clares a European scientist.

### New Fuel Handling Plant

A new Timber Bin Coal Handling  
Plant now being constructed for the  
Rapalee Coal & Coke Co. on Gates  
Avenue is expected to be completed  
about September 15th.

This new modern method of  
handling Coal and Coke is being  
built by the Klug Construction Co.  
of Utica, N. Y. who are using all  
local union labor.

The new plant is so arranged that  
12 trucks can be loaded at one time.  
Also the percentage of breakage and  
dust is very small due to the newest  
modern method of handling.

### Another First Prize

Winnek Post American Legion  
Drum and Bugle Corps marched  
away with first prize in the open  
competition held at Enna Jettick  
Park, Auburn, last Sunday. Among  
the 5000 spectators were 1500 Ge-  
nevans who saw the Geneva boys  
win over seven other competitors,  
to bring home the \$150.00 in cash.

Second, third and fourth prizes  
were taken by Syracuse Post No.  
41, Cortland, and Seneca Falls, re-  
spectively.

(By Ralph LeBrun)

Outstanding events of the 68th National Encampment of the Grand Army of the Republic to be held in Rochester, August 12 to 15 will be broadcast by WHAM. This includes a memorial service on Sunday, business meeting with Gov. Lehman on Monday, the parade on Wednesday (starting at 10 A. M.) and the Campfire on Wednesday evening.

Lowell Thomas is spending the summer months right at his home in Dutchess County. He finds it so comfortable at home that he has moved his office force and broadcasts directly from there, paying the wire charges out of his own pockets.

Another NBC news commentator, John B. Kennedy, spurns his fine private office at Radio City for the Press Department, the noisiest spot in the building to prepare material for his broadcast.

WHAM is already preparing for the Canada Cup Races to be held on Lake Ontario starting August 20. Spray-proof microphones have been installed on a submarine chaser together with powerful short-wave equipment. This race, second in importance only to the "America's Cup" event staged annually between the Royal Canadian Yacht Club and the Rochester Yacht Club, present holder of the trophy.

Jessica Dragonette, after a long vacation, returns over WEA-FNBC Friday, 7 p. m. replacing Countess Albani. She will present three solo selections: "Love, Your Magic Spell is Everywhere", "Home to Our Mountains", from "Il Trovatore", and "Meditations" from "Thasis".

Woodbury's promise the return very soon of Elsie Hitz and Nick Dawson in the "Dangerous Paradise" series.

## Sponge Cake

2 eggs  
1 cup sugar  
1 cup flour  
1 teaspoon baking powder  
½ cup hot milk  
Lemon or vanilla flavoring

Separate eggs and beat yolks and whites separately. Add sugar to yolks gradually and beat until creamy. Mix flour and baking powder and add to above mixture, alternately with hot milk. Lastly fold in stiffly beaten egg whites and bake in moderate oven. Do not use greased cake pan.

E. C., North St.

## Cream Puffs

2 tablespoons butter  
½ cup water

Place in sauce pan over fire and when boiling add quickly ½ cup flour and stir until smooth. Cool mixture, add one egg and beat until smooth, then add one more egg and beat in same manner. Drop batter by spoonfuls on greased pan and bake ½ hour in moderate oven. Fill with custard or whipped cream.

### Germany's Only Gold Mine

The little town of Reichenstein, on the Silesian-Czech frontier, which has only 2,500 inhabitants, is renowned for its possession of Germany's only gold mine. The mine's yield of the precious metal is 18 pounds a month. Reichenstein gold used to be famous. In the Sixteenth century the amount worked from the Reichenstein mines was over 20,000 ducats. The great Fugger family owned 145 shafts in the Seventeenth century and many royal rings were made from the gold.

### Fog Sailors' Worst Enemy

Of the six dangers of the sea, fog, fire, icebergs, storm, rocks and shoals, sailors reckon fog as far their worst enemy.

### Colorado Mother of Rivers

Colorado is the mother of rivers, says Nature Magazine. From high mountains great streams radiate like the spokes of a wheel. One system reaches the Mississippi through the Platte and the Arkansas, another courses southward through the Rio Grande to the gulf, while a third flows westward through the Colorado to the Pacific. These rivers have fixed the routes of land transportation, the areas of irrigated agriculture, and the location of cities and towns.

### Arabs Skilled Workmen

The Arabs were practical artificers and manufacturers. They fashioned beautiful objects from gold, silver, copper, bronze, iron and steel. In the famous Damascus blade they produced something that only modern alloy steel can match. In the treatment of textile fabrics the modern manufacturer finds it hard to surpass them. They processed leather, dyed cloth and manufactured paper.

### Hamilton's Home

Alexander Hamilton, first secretary of the treasury of the United States, though born in Nevis, in the West Indies, spent his youth and young manhood in St. Croix, Virgin islands. Hamilton's desk and stool are still used in the dingy store where he formulated the dreams that were to come true in the United States.

## HIGH FIDELITY SOUND SYSTEM INTRODUCED BY SCHINE'S GENEVA THEATRE

Last Sunday marked the debut of the new R.C.A. High Fidelity sound system at Schine's Geneva Theatre, and the setting of a new high mark in the quality of theatre sound in Geneva.

The new equipment, which is the same as that recently installed in the Radio-City super-theatres, in Rockefeller Center, New York, provided a quality of reproduction that was revolutionary. According to C. C. Young, Manager of Schine's Geneva, the new system is actually capable of reproducing a wider range of sound than many of the motion pictures now made can provide. In any case however, High Fidelity reproduction gets the utmost of the recorded film and literally recreates the sound in all its original brilliance.

Friday and Saturday, August 10 and 11, Edward G. Robinson in "THE MAN WITH TWO FACES". A baffling drama of mystery. Supporting Robinson in the cast are Mary Astor, Ricardo Cortez, and Mae Clarke.

"THE GIRL FROM MISSOURI" year's most amusing comedy romance, opens at Schine's Geneva Theatre, Sunday, for a 3-day engagement. Starring Jean Harlow, who plays the role of Eadie Chapman, who is determined to marry a millionaire.

As Eadie, Miss Harlow gives one of her finest performances in a role that is admirably suited to her talents. The deft manner in which she takes care of the characterization is very reminiscent of those early successes that brought her stardom—"Red Headed Woman", "Hold Your Man" and "Red Dust".

This time Miss Harlow is teamed with Lionel Barrymore, who appears as the very wealthy T. R. Paige, whose political appletart is almost upset by Eadie Chapman's campaign to win his son, Tom. Franchot Tone is seen as Tom. And Lewis Stone gives his

usual great performance as Cousins, millionaire bachelor.

Wednesday and Thursday, August 15 and 16—George Brent and Bette Davis in "HOUSEWIFE".

A politician can't get elected without stating the reasons why he should get the votes. How can a business expect to be elected to success, unless it tells the people the reasons why it should be patronized?

### Trees of Colorado

The tree species that make up the forest stands of Colorado are almost entirely coniferous and evergreen.

### Suckers in Animal Life, Too

Of all male animals, only 2 species of birds and one kind of insect present gifts to the female during courtship. The Adelie penguin brings stones, the bower-bird presents flowers and berries, and the Empis fly calls with food inclosed in a glistening bubble secreted by himself.—Collier's Weekly.

### Gallery Carved From Rock

Excavations near the Pyramids at Giza resulted in the discovery of a huge Nile gallery carved from solid rock and modeled on the lines of the sacred ship of Ra, the Egyptian sun god.

### 300,000 Footpaths in England

England has nearly 300,000 footpaths, and disputes concerning them have averaged about 2,000 a year.

### Gleaned From Here and There

(The sixth of a series of quotations from the collection of M. F. Devaney)

"Sometimes we pay the most for the things we get for nothing."

"There are many things which cannot be bought with money, one of which is happiness."

"It's all right to take things as they come but don't knock them as they go."

"Give up and you can give nothing else."

"If we cannot have what we want let's be content with what we have."

"Overlook a man's weakness, forget his mistakes and speak to him of his good points. Instead of finding fault with his badness, praise his goodness, then notice how that man will strive to live up to the good opinion you have of him."

"The world gives its commendation not to the man who does what no one else attempts to do but who does best what multitudes do well."

"When you lose faith in yourself, your mainspring has run down, then the rest of the works are useless."

"It's not hard times coming, it's soft times going."

"If all the troubles in the world were placed in one huge pile and divided up equally, each one of us would rather take what we now have than our pro-rata share of the whole."

(To be continued)

### Envy

Two Negroes who hadn't seen each other for a number of years discovered that each had been married in the other's absence.

"What kinda woman youall get, Sambo?" asked the one.

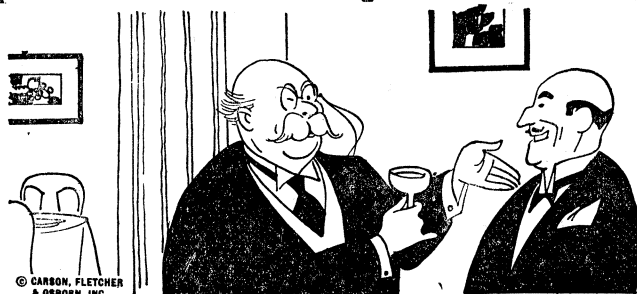

"She's a angel, Rastus, dats what she is," replied Sambo.

"Boy, youah sho is lucky," said the jealous Rastus, "Mine's still livin'."

### Music-Makers

Among the peoples of the world, ten different parts of the body are used in playing musical instruments. They are the mouth, hips, feet, knees, elbows, chest, wrists, head and nose.

### Opium Poppies

Opium is obtained from the milky juice of the young capsules of the poppy grown in China, India and Persia. The climate must be tropical or subtropical, there must not be an excessive rainfall, and the industry can be carried on successfully only where labor and land are sufficiently cheap and abundant. The cultivation of opium poppies for the production of opium is not possible in this country, even if it were permitted by law. It is said that every species of poppy is capable of yielding opium to a greater or lesser extent.

### Homespun Wool Industry Dying

While in a few remote regions of the United States homespun is worn, factories have almost entirely erased the home industry from this country. One of several hundred modern American manufacturing companies normally operates sixty woolen mills that employ 40,000 workers. A display of one company recently included 3,500 different styles of wool fabrics.—National Geographic Magazine.

## Baked Corn

2 tablespoons shortening  
1½ tablespoons flour  
1 cup milk  
2 cups corn  
1 tablespoon sugar  
1 teaspoon salt  
1 teaspoon pepper  
2 eggs

Melt shortening, add flour and mix well. Add milk gradually and bring to boil, stirring constantly. Add sugar, corn, salt and pepper and heat thoroughly. Remove from fire, add well-beaten eggs and bake in well-greased pan for twenty-five minutes. Moderate oven.

¼ cup flour  
1 teaspoon vanilla

If cream is used, use smaller amount of butter. Boil 20 minutes without stirring, then scrape slowly from bottom of pan to prevent sticking. In about 40 minutes or when it hardens when dropped in cold water, pour out on buttered plates and mark in squares.

J. D., Main St.

## Pimento Cheese Balls

⅓ cup evaporated milk  
½ lb. yellow cheese  
¼ teaspoon salt  
1½ pimientos, chopped

Put milk in double boiler, add cheese and salt. Cook until cheese is thoroughly melted. Beat with wire whip, add pimientos and beat again. When cool, roll into inch balls and serve with any green salad.

P. M., Lewis St.

## Advertising and Prosperity

When a retailer says: "Nothing doing" in the way of advertising, I'm inclined to think that he is not very proud of his product.

Because, when a man is proud of anything, whether it be a new baby, a 99 golf score, or a snappy new roadster, he's most likely to talk about it—and talk loud, too.

Advertising is the greatest influence known to create demand—and still more demand. There's nothing to compare with it.

The administration at Washington wants and intends to create more employment. A practical and needful ambition.

—and more goods consumed means more employment.

There is still a vast deal of purchasing power in this country. Much of it is still stagnant because of uncertainty and fear.

Possibly some of this fear has been accentuated or even caused by the lull in advertising activity during the past two years.

For advertising admits of courage and engenders courage.

I believe that a return to normal advertising activity will still further promote the cause of better times for all of us.—Everit B. Terhune, president, Boot and Shoe Recorder.

## Trace Gutenberg's Name

Mainz, Germany.—An old parchment just found here shows that Johannes Gutenberg, inventor of the printing press, derived his name from "Hof zum Gutenberg" in this city, where he was born in 1398, and not, as previously recorded, from his mother's birthplace, Gutenberg. It was here in Mainz that he printed his famous Bibles.

### Pink Donkey Turns White

When the riding animals kept at the London zoo in Regent's Park were augmented to the extent of a curious but well-trained donkey, the sign over its stall read: "Rare Pink Circassian Donkey, Habitat, Cambodia." The donkey was then pink even to its eyes, but when, in early November, it had been clipped for the winter, its coat became white, although its eyes retained their original hue. The sign was changed, although by spring the donkey's coat again turned pink. The altered sign denoted the fact that the donkey was an "albino."—Cincinnati Enquirer.

### Pearls Sensitive

In the settling of an estate which had a Brockton inception there was a division of personal jewels between two of the heirs. One took a string of pearls that had originally been valued at around \$10,000. A Boston firm dealing in gems pronounced the once flawless pearls as salable at not more than \$600. The wearer of the gems had been a sufferer from a malady for which she had taken a comparative modern remedy, and that remedy, the jewel experts said, had acted upon the pearls through the skin they touched and had robbed them of their luster. A pearl is singularly sensitive to conditions in the body of the wearer.—Brockton Enterprise.

### Friends Church in Ohio

There are more representative branches of the Friends church (Quakers) in Ohio than in any other state in the Union.

### Navajos' Weaving Art

The Navajos are believed to have learned their weaving art from captive Pueblo women about the middle of the Eighteenth century.

Strikes are like fevers. They must run a certain length of time before the employers and employees arrive at a stage when they show symptoms of common sense.

### "Alewife" Is a Fish

The word "alewife" has no reference to women, but to a fish of the herring family found along the Atlantic coast.

### Michigan's Third River

The St. Joseph river is the only Michigan river that has any considerable drainage area outside the state. It is Michigan's third largest river.

### Carp Favored 8000 B. C.

Carp is one of the favorite fishes in Germany, and it was also the chief diet of the people who lived in Baden some 10,000 years ago. This is shown by finds connected with the cromagnon race which have been made at Tiergarten in the Danube valley, near the ruins of Falkenstein castle. At a depth of about fourteen feet excavators have found a stratum nearly a yard thick which throws new light on the life of man in the Mesolithic age (about 8000 B. C.). Great quantities of carp bones were found, and some 100,000 remains of snails give evidence of the influence of the Mediterranean climate in that age. Among the many flint articles is a polished stone ax of the transitional period from the Mesolithic to the Neolithic age.

**"Treasure Island" Grandest Romantic****Adventure Film of the Year**

On Friday and Saturday, August 17 and 18, Slim Summerville and Zasu Pitts in "THEIR BIG MOMENT"—this superb comedy team will give many laughs and thrills in their latest production.

"TREASURE ISLAND" grandest romantic adventure film of the year: Wallace Berry and Jackie Cooper united again as a screen team, in Robert Louis Stevenson's pirate classic, comes to Schine's Geneva, Sunday, Monday, Tuesday, August 19-20-21. The powerful heart appeal of this combination of man and boy that stirred millions with "The Champ" and recently "The Bowery" has never been presented with more dramatic intensity than in the Pirate Story.

As Long John Silver, ferocious raider, Beery is chosen as a friend by Young Cooper portraying Jim Hawkins, boy adventurer. Their experiences together during the search for treasure are packed with thrills.

Lionel Barrymore is ideal as the blustering and bullying Billy Bones, who finally dies of heart failure when given the "black spot" by the pirates.

Captain Smollett, who commands the ship "Hispaniola" on the treasure cruise, is played with conviction by Lewis Stone, who is himself a captain of a fine sailing yacht in Pacific waters. Otto Kruger's forceful personality adds strength to the character of Dr. Livesey, who provides medical attention for the expedition.

The whimsical and half mad Ben Gunn, who finds the treasure while marooned on the island, is played with hilarious comedy touches by Charles "Chic" Sale.

**When the Lungs Freeze**

Old sourdoughs of Alaska and other parts of the Northwest say that over-exertion is liable to cause the lungs to freeze if the temperature is colder than 40 degrees below zero.

The orchestras of Abe Lyman and Guy Lombardo will supply the music for the Canadian National Exposition at Toronto, August 27 to 31.

Featured on the "Hall of Fame" program, Sunday, August 19 at 9 p. m. over WEA-F-NBC will be Duke Ellington and his orchestra.

Graham McNamee has been assigned to broadcast the world's greatest event for the youngsters "The American Soap Box Derby." It will be on the air Sunday, August 19 over NBC from Dayton, Ohio.

For the first time in radio history two rival networks will operate from the same studios. When KYW, the NBC station now of Chicago, moves to Philadelphia this Fall it will occupy the same building and be under the same director as WCAU of the Columbia System. Of course separate station staffs will be used.

"Lucky Strike" will return to the air in the Fall sponsoring the broadcasts of important football games.

The recording artists have of late years been losing considerable through the unauthorized use of their phonograph records by certain radio stations. These artists are organizing to attempt to seek royalties from these stations. They estimate that there are 450 stations using no live talent. The stations buy a record, play it over and over and hundreds of listeners don't buy it. According to Department of Commerce figures sales of records for 1933 were only 8½ per cent of that of 1929.

Ground was broken July 23 for WOR's new 50,000 watt transmitter at Carteret, N. J. Due to flying fields in the immediate vicinity special signs and beacons will be necessary on the tower.

We hear about some of the big programs a month or more in advance. For instance on September 26 the voice of Queen Mary of England will be heard for the first time over the Columbia system from Glasgow, Scotland. She will christen the new Cunarder "Number 534".

### Pessimism

A reader asked us, "You have much optimism. Your paper glows with it. But doesn't good judgment dictate that you be more pessimistic?"

Listen sister, the world is coated with pessimism. It is like tuberculosis germs—everywhere. An individual must have a superb amount of optimism to be even near normal. There are so many gloom carriers, pessimism peddlers, and the like that if an individual didn't glow a bit with the elements of hope and faith he would find himself in the middle of a perpetually dark night. A whale of a lot of optimism is required merely to think normally.

Don't worry. If there is any one thing the world needs today, it is optimism. The nation is suffering from scarcity of enthusiasm.—McComb (Miss.) Enterprise.

### Capital of Tibet

Extremely remote, so far as Europeans are concerned, is Lhasa, capital of Tibet. In the year 1904 an armed force from India reached Lhasa for the purpose of arranging a commercial treaty.

When you outgrow your enthusiasm, you stop growing altogether. The people who find nothing very interesting, who do not know what it is to be swept by a wave of generous emotion, have built a barrier between themselves and life's best things. When we cease to hope and desire and expect, we cease to receive. Cultivate your enthusiasm. When you lose that you lose all that makes life worth living.

There is just one man who is actually in position to improve your business. You look him right in the eye every time you shave.—Nebraska Press.

**Gleaned from Here and There**

(The eighth of a series of quotations from the collection of M. F. Devaney).

"A gem is not polished without rubbing or a man perfected without trials."

"Your problems are no different from the other fellows."

"Grass on the other side of the fence always looks the greenest."

"If you are in trouble and want to find the cause look into the mirror."

"The other fellow is just a reflection of ourselves."

"A person can always find time to do the things he likes to do."

"Sometimes those we have had trouble with turn out to be our best friends."

"People complaining that a thing cannot be done are often interrupted by somebody doing it."

"Hang on, that's all a monkey can do."

"There's nothing either good or bad but thinking makes it so."

(To be continued)

**Correction:**

For the benefit of the many who are clipping the Devaney series of quotations, we are reprinting the following two which had the last words of each transposed in our last week's issue:

"A laugh is a smile with sound effects."

"Success is not doing what you can't do but doing what you can do."

**Asiatics to Lead Growth**

In the next ten years the number of Asiatics will increase by 150,000,000 while American "half-breeds," described as the mixed population of South and Central America, will gain only 40,000,000. On the other hand pure-bred Europeans will increase by only 20,000,000. This is the prophecy made by Prof. M. Richet, of the French academy in Paris, which is arousing much discussion in Europe.

### Logs "Embalmed" for Pole Use

Logs are preserved for use as telegraph and telephone poles by a method which consists of forcing a fluid into the grain of the wood by air pressure. The sap is forced out of the log by the pressure of 15 pounds and a rubber cap is clamped on the butt. Then the preserving fluid replaces the sap. —Popular Mechanics Magazine.

**Jumps Banned at Dances**  
Fearing damage to the floor of the \$300,000 Spa Royal Hall, councilmen of Bridlington, England, have banned the last part of a new dance called the Palais Glide, in which 800 dancers jump together.

## THE FUNNYBONE

### Being Careful

"Here, hold the end of two of these wires."

"All right."

"Feel anything?"

"Nope."

"Well, don't grab the other two. They've got 20,000 volts."

### Not Guilty

Cop: "Who was driving when you hit that car?"

Drunk (triumphantly): "None of us; we was all in the back seat."

### The Tactful Waiter

A crowd of the elite were dining in a smart restaurant when a customer entered, sat down, coughed loudly, and tied his napkin around his neck. In great embarrassment, the manager called a waiter to him and whispered, "Try to make him understand as tactfully as possible that that's not being done."

The waiter approached the offending diner, leaned suavely over his shoulder and said, "Shave or haircut, sir?"

### Example

Motto card hanging in a London building: "Remember the steam kettle—though up to its neck in hot water, it still continues to sing."

### Next Step

"And has your baby learned to talk yet?"

"Oh my, yes. We're teaching him to keep quiet now."

### Fifty-fifty

"You ought to lend your scooter to your little brother sometimes," said auntie severely.

"I do, auntie," declared Johnny. "He has it up the hill and I have it down!"—*Parents' Magazine*.

### Shrewd

"How much d'ye charge to press a pair of trousers?" Sandy asked the proprietor of the dry-cleaner's shop.

"A shilling is our charge," was the reply.

"All right," he said, after a while, "just press one leg for sixpence, and I'll have my photy taken side view instead of front."—*Answers*.

### Pun

Tourist: "What's in here?"

Guide (leading the way into a morgue): "Remains to be seen, sir."

### A Broad Question?

It was a social event. The young man had just been introduced to the young lady, and after a brief and awkward silence, he ventured: "You are from the West, I understand."

"Yes, from Indiana," she replied; "Hoosier girl."

The young man started and flushed deeply. "Why—er—really," he stammered, "I—I don't know—that is, haven't quite decided yet."—*Front Rank*.

### Wild and Woolly

"What are those fuzzy white things on the hill?"

"Those are sheep."

"Oh, I don't want to know how much they are—just what they are."

There was a chorus of "I did."

"Then advertize it in the Enquirer," he replied. "I am an advertising solicitor, and will give you a special rate."—*The American Salesman*.

### Between the Lines

"Sir—My typist, being a lady, cannot take down what I think of you. I, being a gentleman, cannot write it. You, being neither, can guess it all."

### Echoes From Sunday School

"Now, Johnny, have you ever heard of David and Goliath?"

**REGARDING GAS CONVERSION**

The advent of natural gas into the Empire Gas & Electric territory at Geneva and its planned introduction all over the Empire territory before fall has brought forth many questions in the minds of Empire customers.

To enable Empire employees to have the answers to the most frequent of these questions at their fingertips, a number of question and answer examination papers have been prepared and distributed among the Empire personnel.

Although these questions and answers were prepared with only Empire employees in mind so general has been the interest in the new fuel that they were made public. It is believed by Empire officials that they will answer many questions now uppermost in the minds of gas consumers.

The questions and answers follow.

**QUESTION:** What is a British Thermal Unit?

**ANSWER:** A British Thermal Unit (BTU) is the amount of heat required to raise 1 pound of water 1 degree Fahrenheit.

**QUESTION:** What is a Therm?

**ANSWER:** A Therm is a multiple of British Thermal Units, namely 100,000 BTU which has been arbitrarily set by heating engineers in order to simplify the conversion of heating values of one fuel to another.

**QUESTION:** Will gas be billed on Therm or cubic foot basis?

**ANSWER:** Natural gas will be billed on the Therm basis as it is the best means of measuring heat. The bill also will show the number of cu. ft. The gas furnished will have 1000 BTU in a cu. ft. Manufactured gas had 537 BTU per cu. ft. Natural gas at 1000 BTU a cu. ft. lends itself readily to the Therm billing as each 100 cu. ft. at 1000 BTU equals 100,000 BTU or 1 Therm.

**QUESTION:** Why is the Therm unit used in comparing the gases?

**ANSWER:** The Therm unit is used so that the heat value may be compared. A gallon is a unit of measure and may be gasoline, vinegar or water. The cu. ft. is also a unit of measure and may have any number of heat units as applied to a heating substance. A Therm is a definite amount of heat units 100,000 BTU equals 1 Therm.

**QUESTION:** Will gas be undiluted or mixed?

**ANSWER:** It will be straight natural gas.

**QUESTION:** Do the burners have to be changed on all range and water heater equipment in the home?

**ANSWER:** No. The burners do not have to be changed but the spud thru which the gas passes has to

be fixed so that the opening is considerably smaller and the adjustment for air is opened up.

**QUESTION:** Do the meters have to be changed?

**ANSWER:** No. The meters measure a cu. ft. as before 1 cu. ft. of natural gas has 1000 BTU—100 cu. ft. has 100,000 BTU or 1 Therm.

**QUESTION:** Will the service pressure have to be increased?

**ANSWER:** No. The pressure will be just the same as in the past.

**QUESTION:** Is natural gas more dangerous to use?

**ANSWER:** No.

**QUESTION:** Will water boil as fast with natural gas as with manufactured gas under same conditions?

**ANSWER:** Not enough difference to be noticeable.

### Earth's Interior Yet to be Explored

With all unknown lands mapped the explorer of tomorrow must turn his attention to the earth's interior. Explanation of the surface is nearing completion, yet the earth a few miles beneath is still as secret as was the Western Hemisphere before Columbus.

Man has penetrated two miles down by means of oil well drills and has descended one mile into a gold mine, but these depths are mere pin pricks compared to the 4,000 miles that lie between the earth's surface and its center. It will not be necessary to drive a tunnel through the earth to learn about its interior, according to Prof. W. T. Thom, Jr.,

of Princeton university. One possible aid to exploration of the interior is the airplane, with which photographs may be taken to disclose inter-relations between widely separated geological structures, according to Popular Mechanics.

Delicate gravity balances are available for disclosing rock formations buried under less dense deposits. Devices have been produced for "listening in" on explosion waves started through the earth by setting off TNT charges.

### Changing Man's Habits

New methods of controlling indoor climate are likely to revolutionize the habits of mankind.

White people will be able to live in the tropics without losing their health and energy, says Nature Magazine. It will no longer be necessary for the government of India to migrate bodily to the "hills" with the advent of the hot season, and Baguio will lose its utility as the summer capital of the Philippines.

### In 1934

Mother: "Now, if you will be quiet and stay in bed like a good girl, I will tell you a fairy story about the prince who killed a dragon and rescued a beautiful princess."

Child: "Oh, that's too old-fashioned, Mother. Tell me a story about the N.R.A. official who killed a profiteer and rescued a consumer."

—The Oil Can.

### Imperishable Records

Indestructible records of picturesque and historic places in England are being preserved for future generations by printing etchings on clay, says Popular Mechanics Magazine. After the clay is fired and glazed, the etchings are printed on the tiles, each of which is  $6\frac{1}{2}$  inches by  $5\frac{1}{2}$  inches. A new method makes possible the production of strong line and delicate color.

### Moon Farming

Moon farming, says the United States Department of Agriculture, has no support from any scientific point of view. Most of the beliefs associated with moon farming are not based on the assumption that direct moonlight is especially potent, but rather that the moon exercises some mysterious and occult power over mundane affairs. Even the light and heat from the moon are not sufficient to affect plant growth materially. The moon does not govern agriculture because it has no appreciable influence on any of the major conditions affecting the growth of plants.

It is better to be incensed at one's self than to indulge in self pity.

### R. K. O. VAUDEVILLE UNIT-SHOW AT SCHINE'S GENEVA

Complete Change of Program on the stage and screen Friday and Saturday, August 24 and 25. On the screen Richard Barthelmess in "MIDNIGHT ALIBI." On the stage 6 Acts of R. K. O. Vaudeville.

The "CAT'S PAW" which opens at Schine's Geneva, Sunday, is the original title of the Clarence Budington Kelland novel, which supplied the plot for the first comedy Harold Lloyd has brought to the screen in two years. Like the main points of the Kelland story, Lloyd decided to retain the original title, for it conveys definitely the part he portrays in the picture.

Lloyd appears in "THE CAT'S PAW" as the son of an American missionary, who has spent virtually all his life with his father in the interior of China.

In his effort to clean up the town, he has the caustic support of a cigar counter girl, played by Una Merkel, and a loveable political rogue, portrayed by George Barbier. Neither has ever given a finer performance nor been cast in a more acceptable part.

On Wednesday and Thursday, August 29 and 30, Ann Harding in the title role and John Boles playing the male lead, "THE LIFE OF VERGIE WINTERS" comes to the screen as a vivid dramatization of the widely acclaimed story by Louis Bromfield.

"VERGIE WINTERS" realistically pictures the poignant romance of a gallant woman who dares to follow her own heart and her own ideals in defiance of small town gossip and persecution. Her great love,

with its stolen moments of happiness and its hours of heartaches is traced through a period of twenty-two years.

### REGARDING GAS CONVERSION

(Continued from page 9)

**QUESTION:** Does the gas have a natural odor or does it have to be treated for odor?

**ANSWER:** Natural gas is colorless and odorless in the original state. Odorizing stations are used to give the gas an odor. The oil used (caliodorant) is injected into the gas at the rate of 3 to 5 gallons per 1,000,000 cu. ft.

**QUESTION:** Will there be a variation in pressure during the colder months as has been experienced in some natural gas localities?

**ANSWER:** No. Our source of supply guarantees a certain pressure at all times. They accomplish this with the use of compressors and boosters that raise the pressure to a definite point. In addition we have our own storage capacity just the same as in the past.

**QUESTION:** Will the flame from natural gas on the average range burner blacken the bottom of pots and pans?

**ANSWER:** No. With proper adjustment of the burner, kettles will not blacken.

**QUESTION:** Does the company anticipate any shortage of gas during certain periods of the year and if there should be a shortage, how will this be handled?

**ANSWER:** No. The company has a supply line at the northern and southern end of the territory.

AL JOLSON—erstwhile mammy singer—now featured artist of Paul Whiteman's Kraft program. One of the finest actors ever to face a microphone, his characterizations are the result of intensive study and preparation. He speaks not from the script but from memory.

A dance program from the four corners of the earth will be relayed by short and long wave to the Columbia network listeners Saturday, Sept. 8 at 7:00 P. M. Orchestras will be heard playing in London, Buenos Aires, Honolulu, New York, Atlantic City, and San Francisco. Special music by the "Knights of the Grey Underwear" in Little America.

Floyd Gibbons, famed war correspondent, will be heard for five weeks on the Armour Hour starting Friday, August 31 at 8:30 P. M. He will be supported by Irene Beasley, long, tall, Southern blues singer, and an orchestra directed by Roy Shields.

Elaborate plans are being made by the Columbia System to bring a description of the National Men's Singles Tennis Tourney at Forest Hills, L. I. to the listeners starting Sept. 4. A summary of the day's play will be broadcast Tuesday and Thursday at 4:45 P. M. and Wednesday at 5:45 p. m. The semi-finals and finals will be broadcast play by play next Friday and Saturday at 2:00 P. M.

## REGARDING GAS CONVERSION

(Continued from last week)

QUESTION: What is the main advantage to the customer, and the company in the introduction of natural gas, especially if the small domestic user does not make a substantial saving?

ANSWER: The customer has the advantage of being able to use more gas at a lower cost. Heating is made available at a cost that is comparable with other fuels. Natural gas gives full automatic heat. Industrial plants will have a low cost fuel which betters working conditions. Plants that use controlled heat locate in territory served by natural gas. The company does not benefit for the first few years due to the loss of revenue by the reduction of rates plus the cost of conversion. In a few years a volume of business will be built up that will take care of the loss and show a profit.

QUESTION: Where does the gas come from?

ANSWER: Pennsylvania furnishes the main supply. A small amount will be taken from the Wayne and Geneva fields as long as these fields last. With the miles of pipe line in use today it would be a very easy job to connect with the West Virginia fields and also with Texas fields.

QUESTION: If the supply diminishes, will there be a change back to manufactured gas and at what rate?

ANSWER: The supply is guaranteed by a large responsible company for 10 years. If a change back to manufactured gas ever does take place no doubt the rate will be based on a BTU basis—537 BTU for manufactured gas as against 1000 BTU for natural gas.

QUESTION: Is it necessary to have flue connection on natural gas equipment?

ANSWER: Yes. The company requires vents and in some cities they have ordinances that demand that all major appliances burning gas be vented.

QUESTION: How does natural gas for house heating compare with other heating fuel costs?

ANSWER: Natural gas compares on an average with \$13.00 hard coal; is equal to oil and is the only full automatic heat available.

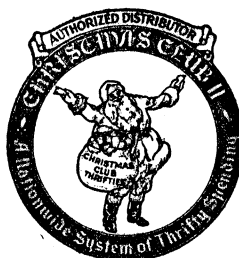

QUESTION: What pressure do you have to use with natural gas for distribution purposes?

ANSWER: The same pressure that we have used with manufactured gas. We try to keep at least 5" of water pressure and 7" is the ideal pressure for domestic appliances.

QUESTION: What color and how does a flame on a burner look with natural gas when properly adjusted?

ANSWER: Natural gas has a long faded grayish blue flame that to one familiar with manufactured gas acts lazy. The top of the flame is rounded. Manufactured gas has a sharp deep blue, short, clearly defined flame.

Conducted by **BETTY BROWN**

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Crispettes

2 eggs  
 ½ cup each of brown and white sugar  
 4 tablespoons flour (sifted)  
 Pinch of salt  
 Vanilla  
 1 cup walnut meats (chopped)

Beat eggs, stir in sugar, add flour, salt, vanilla and lastly, walnut meats. Drop dough, by teaspoon on buttered pans, allowing three inches for spreading. Bake in moderate oven. Delicious for afternoon tea or with fruit for desert.

M. E. B., Colt St.

## Banana Cake

1½ cups sugar  
 2 eggs (separated)  
 4 tablespoons sour milk  
 1 teaspoon soda  
 2¼ cups flour  
 ½ cup butter  
 1 cup nutmeats  
 1 teaspoon vanilla  
 3 bananas (sliced)

Mix sugar, egg yolks, sour milk, soda, flour and butter, then beat in bananas, until they are dissolved. Add nutmeats, vanilla and fold in beaten egg whites. Bake in three layers.

Mrs. H. M., Jefferson Ave.

## Christmas Pickle

50 finger size cucumbers  
 2 qts. silver skinned onions  
 5 red peppers  
 3 green peppers

Cut peppers in strips, peel onions and soak ingredients in salt brine over night. Drain and bring to boil in following syrup:

4 cups vinegar  
 2 cups water  
 1 cup brown sugar  
 1 cup white sugar  
 1 teaspoon each, celery seed and white mustard seed. Small piece horse radish. Put up in sterilized jars.

E. S., Swift St., Waterloo, N. Y.

## Corn Puffs

2 eggs  
 1 cup evaporated milk  
 2 cups corn  
 Salt, paprika  
 6 tablespoons grated cheese

Beat eggs until light, add milk, corn and seasonings. Grease 6 custard cups and fill with mixture. Add tablespoon of grated cheese to each, place cups in pan of hot water and bake until firm. Nice served with tomato cream sauce.

## Head Hunters

The head hunters, of which there are five tribes, are wholly subjugated, but some of them still practice their weird ceremonies, of which an enemy's skull forms the basis.

## Finless Tail

The sea horse is the only fish which has a prehensile and finless tail equipped for grasping upright growths. This it uses in clinging to the seaweed which furnishes its protection from its enemies.

## When Mercury Solidifies

Mercury solidifies at about 38 degrees F. below zero, becoming a soft, tin-white, malleable and ductile metal capable of being worked to some extent at that temperature.

## The Busy Aphides

Aphides or plant lice, the majority of which are females hatched from unfertilized eggs, have been known to give birth to 94 successive generations without the intervention or birth of a single male.

### Rising Wolf Mountain

Rising Wolf mountain, which lifts its multicolored and cloud capped summit high above the shores of Two Medicine lake, gets its name from the sleeping peculiarities of a white man who "went native." He is also said to have been the first white man to have set foot in what is now Glacier National park. The man was Hugh Monroe, a Scotchman, who long ago set traps along the streams of the northwest plains and in the rugged mountain region which the Blackfeet called the "Land of the Shining Mountains."

### Eskimo Needs the Caribou

The caribou provides the Eskimo not only with food but with clothing as well. From the deer skins all the clothing of Eskimo men, women and children is made; also their sleeping bags and rugs. The Eskimo tries to get the hides of the younger animals for making clothes, because the fur is darker and finer than that of the older animals and does not fall out so readily.

### This One Blooms Early

The western skunk cabbage is an arum and so a cousin of the well known Jack-in-the-Pulpit or Indian turnip of the east, says *Nature Magazine.* It is a product of the black muck soil of the swamp, and the warmer the location the earlier it blooms.

### Islands in Bay of Panama

The islands of Perico, Naos, Culebra and Flamenco, in the bay of Panama, belong to the American section of the Panama Canal Zone

### Huge Douglas Fir Trees

In the lower altitude of Mt. Rainier National park are dense forests of Douglas fir trees, some of them 500 to 700 years old, with diameters ranging up to 8 feet, and height around 200 feet, many of them rising about 100 feet to the first limb

## THE FUNNYBONE

### A Long Wait

A negro called at the hospital and said: "I called to see how mah fren' Joe Brown was getting along."

The nurse said: "Why, he's getting along fine: he's convalescing now."

"Well," said the darkey, "I'll just sit down and wait till he's through."

### Add Typographic Erroriana

Bringing with him an electric atmosphere, a young man strode into the newspaper office and banged his cane on the editor's desk.

"Where's the editor?" he shouted angrily.

"He's—he's out!" replied the clerk nervously. "What's he done this time?"

"In that advertisement for my valveless motor," stormed the visitor, "he's turned the second 'v' into a 'u.'"—Royal Arcanum Bulletin.

### Makes a Difference

Customer, entering hat shop: "I've just lost a bet and want a soft hat."

Salesman, selecting a hat from the shelf behind him: "This is the softest hat we've got."

Customer, reluctantly: "What I want is something a little more tender. I've got to eat it."—The American Salesman.

### Another Scotch Joke

Exclaimed a Scotchman to his American friend, "Aye, Scotland's the grandest place on earth."

"Then why did you leave it?" asked the bored friend.

"Aweel, it was like this," chuckled the Scot. "Over there everybody was as good as myself, and I couldn't mak' muckle progress, whilst here I'm gettin' on verra weel."—Satinettes.

### Hearts and Glowers

"I'm sorry that I ever became your wife," she said bitterly.

"Well," he retorted, "you were no young bird when I married you."

"No," she flung back, "but considering what I got I was an early bird."

Say you read it in "The Geneva Community News".

### REGARDING GAS CONVERSION

(Continued from page 3)

QUESTION: Does it cost the customer anything for the conversion?

ANSWER: No. The company supplies the labor and material on all appliances that are possible to convert. A very few real old appliances will be impossible to change over. The company could not be expected to furnish repairs.

QUESTION: Does natural gas demand closer attention than manufactured gas?

ANSWER: No. Proper adjustment makes the appliances just the same for burning natural gas as manufactured.

QUESTION: Does any waste that may occur cost the user more?

ANSWER: No. The gas that passes thru the burner is cut down and mixed with more air so that any waste costs practically the same as with manufactured gas.

QUESTION: Does natural gas require more air for proper combustion in the burner?

ANSWER: Yes. The natural gas passing thru the burner is richer and requires more air for proper combustion.

### They Win Again

Congratulations to our "home-town" Legion Drum and Bugle Corps on the showing made at the State Legion Convention in Buffalo. "Perseverance" is a real word. The Legion boys have worked hard for the laurels which they have earned for themselves and Geneva. When the Drum Corps was organized most of them didn't know a "note" from a doughnut, but they "stuck to it."

And speaking of "notes" brings to mind the wonderful showing and fine music of our Park Band in the recent Firemen's Convention parade. Too bad the summer has gone by without a series of Band Concerts. Not too early now to think of devising some plan whereby our Band can have some encouragement and the city some music during next summer.

And what has happened to plans for an airport? We noticed the Fordon field at Bean's Hill was used during the Firemen's Convention. This is the logical place for a local landing field and surely a city the size of Geneva, and as well located geographically, should have a permanent field. It would put us back "on the map"—the aviation map, we mean.

### Grass In The Streets

"Grass will grow in the Streets". Remember that? Well, it has happened and right here in Geneva, too. Look along the car tracks up on Castle street—above Oak. It's green, anyway, and looks like grass.

Speaking of "car tracks"—what an improvement the covering of the old tracks on Castle Street, between Main and Exchange. Much smoother and safer driving. Several of our streets would be much safer if all the tracks could be covered before winter sets in.

### Was It Your Aunt Emily?

We have had many calls from people living on R.F.D. routes, or friends and relatives of such people, asking if they might have copies of "The News" each week. No record of these calls has been kept, but we are now going to make arrangements for a certain number of rural mailings.

Therefore, if it was your Aunt Emily, or your mother, or sister, someone out on Castle Road, Waterloo Route 3, Phelps Route 2, or elsewhere, have them send us a card with name and address, requesting we mail them copies, and we shall do so. Address Geneva Community News, P. O. Box 146, Geneva, N. Y.

### Schools Open

With the opening of schools we have had to split up some of our delivery routes. If you do not receive your copy of "The News" regularly, will you kindly let us know?

Also, if delivery is not made in accordance with our instructions—that is, behind screen or storm doors, or fastened in door knob, please tell us. We see so many circulars and other papers blowing around yards and in the streets that we are making a special effort to have our delivery clean and 100 per cent efficient. Will you help us?

### Michigan's Mountains

Michigan has two well defined and rugged mountain ranges. Both the Hurons of Marquette county and the Porcupine of Ontonagon and Gogebic counties hug the shores of Lake Superior. Government peak in Ontonagon county rises to a height of 2200 feet above sea level and is the highest point in the Lake Superior country.

**RADIO FLASHES**

By RALPH LE BRUN

A vivid dramatization of the great Chicago Fire of October 8 and 9, 1871 will be broadcast over the Columbia network at 10 P. M. Monday, September 10. Starting with a small lumber yard fire on the morning of October 8, five square miles of buildings were consumed, 250 people perished, and 98,500 were made homeless.

Buddy Rogers, co-starred with Jeannie Lang on the "Ward Family Theatre" broadcast over CBS Sundays at 8 P. M., will next Sunday display his musical versatility. He will play every instrument in the orchestra except the violin in a novel presentation of "Twelfth Street Rag."

George Burns and Gracie Allen return to the air Wednesday, Sept. 19 over CBS after a seven-week tour of Europe. "Well it's certainly nice to be back" said Gracie after she went through the pockets of the custom officials. George revealed that on their arrival at Southampton a British warship fired a 21 gun salute for Gracie; "but", he added disappointedly, "every shot missed her."

Ronnie and Van, song and dance comedy team of the new "House by the Side of the Road" program, have developed a novel vocal effect. They have been singing together for so many years that their voices match exactly. Van's baritone range blends perfectly in its higher register with Ronnie's tenor. Thus, starting at the bottom of the scale, Van sings the notes up to where Ronnie can take over and carry the melody. The effect is that of a single voice of remarkable range. They broadcast Sunday afternoons over the WEAFF network at 4:30 P. M.

**PATTI PICKENS**—baby of the NBC sister harmony team. She wanted to take part just once in a movie. At seventeen she has appeared in one feature picture and several short subjects.

## Drop Sugar Cookies

2 eggs  
1½ cups sugar  
2/3 cups shortening  
½ cup sweet milk  
1 heaping teaspoon baking powder  
1 teaspoon nutmeg  
3½ cups flour  
1 teaspoon soda in a little hot water  
Cream shortening, add sugar and eggs and beat thoroughly. Dissolve soda in hot water and add. Sift flour, baking powder and flour together and stir in alternately with milk. Raisins or cocoanut make nice addition.  
E. C., North St.

## Peach Marmalade

4 lbs. sugar  
4 lbs. peaches  
2 10-ct. bottles maraschino cherries  
6 peach pits  
Put sugar, cherry juice and peaches together and boil to proper consistency. Shortly before it is done add cherries cut into bits and peach pits. Seal in hot sterilized jars.  
J. S., Swift St., Waterloo, N. Y.

## Prune Whip

1 package lemon jello

1¼ cups hot water  
1 cup stewed prune pulp  
2 egg whites  
½ cup cream

Dissolve gelatine and when cool, whip until light and frothy. Fold in prune pulp which has been put thru sieve. Fold in stiffly beaten egg whites and whipped cream and mold. May be garnished with whole prunes with prune juice poured over top. Serves 10.

G. M., Border City, N. Y.

2 cups flour  
2 teaspoons baking powder  
½ teaspoon salt  
4 tablespoons shortening  
¾ cup milk

Mix and sift dry ingredients, work in shortening, add milk gradually, mixing with knife to soft dough. Toss lightly on floured board and roll ¼ inch thick. Spread with peanut butter and cocoanut. Roll like jelly-roll and then cut in ½ inch slices. Place on greased pan and bake 20 minutes.

## THE FUNNYBONE

### By Order

In the congregation during Sunday morning service was a young bride whose husband was an usher. Becoming terribly worried about having left the joint in the oven, she wrote a note to her husband, sending it to him by another usher.

The latter, thinking it was a note for the pastor, hurried down the aisle and laid it on the pulpit. Stopping abruptly in the middle of his sermon to read the note, the astonished pastor was met with this written injunction:

"Please go home and turn off the gas."—Chicago Daily News.

### Ma's Lost

Some tourists were being shown an art gallery. When they approached a famous painting, the guide said, "Pause here."

A small child looked about her in bewilderment. "That's right," she said, "but we must have left ma in the other room."

### Ah, Discernment:

A lady was viewing an exhibition of the Siamese Twins.

"Sisters, I presume?" she murmured.—Tit-Bits.

Here, folks, is the very latest thing in showmanship and entertainment—"McCall's on Parade"—a sumptuously appointed, elaborately equipped, electrically lighted sound-picture theatre on wheels.

The spacious auditorium is transported from place to place by a 2-ton truck acting as a tractor. An interior view of the smart motorized theatre with its seating accommodations and strikingly modern decorative and lighting effects is shown above. It is also air-conditioned from electrical power generated by the motor.

Freeman F. Gosden (left) and Charles J. Correll, better known to millions of radio listeners as Amos 'n Andy.

The Camel Caravan returns to the air-lanes with two half-hour programs weekly over Columbia. Featuring Walter O'Keefe, Annette Hanshaw, and Glen Gray's Casa Loma Orchestra, it will be heard starting October 2, on Tuesday at 10:00 P. M. and on Thursday at 9:00 P. M.

"Twenty Thousand Years in Sing Sing" has returned on Wednesdays at 8:00 over NBC-WHAM again featuring Warden Lewis E. Lawes who is world famous for his achievements in prison reform. Lawes began his career in prison service at Dannemora more than 29 years ago. Three years later he was transferred to Auburn then to the reformatory at Elmira, his home town. Following his service as superintendent of the New York City Reformatory, he took charge of Sing Sing on Jan. 1, 1920. His many highly interesting prison experiences will continue to be the basis of his stories.

**Those Bathroom Chords**

Singing in the bathroom is popular, explains one physicist, because the singer listens not merely to his own voice but to the musical notes characteristic of the room, and in small rooms lined with tile or hard plaster this resonance is particularly evident.

**Fuel Handling Plant Completed**

The Rapalee Coke & Coal Corp. after several months of preparation announce that their new plant is completed and ready for operation. The new plant is one of the most modern in this section of the state. It has storage capacity for about 1500 tons of coal and coke.

The plant comprises a series of wooden overhead bins which stand some 51 ft. high and 78 ft. long. The coal and coke is raised to the top of this building by means of an inclined cleated rubber belt conveyor whose lower end fits into a hopper under the railroad track. Once having reached the top, the fuel is deposited in its proper bin by a flat rubber belt which traverses the top of the building. The coal is then lowered to the bottom of the bins by specially constructed lowering devices which reduce breakage and dust to the minimum and insures delivery of a uniformly sized product to the customers. The fuel is withdrawn from the bins into trucks by driving underneath and simply pulling a rod which allows the fuel to flow automatically into the trucks. This plant was designed by the Klug Construction Co. of Utica and erected by local union labor.

The remaining stock of Empire Coke has been purchased by the Rapalee Coke & Coal Corp. and will be handled through this plant.

Mr. C. E. Rapalee former Coke Sales Manager for the Empire Gas & Electric Co. who will be in direct charge will have his office at the yard. Assisting him will be former employees of the Coke Dept. of the Gas Co.: Chas. Hamill, John Murray, Charlotte Schroeder, Etha M. Hargrove and Anthony Quartaro, all of whom have had several years of experience in the fuel business.

### This Bird Has Speed

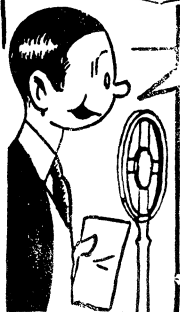

At widely-separated points on the prairies, says Nature Magazine, you find outcrops of sandstone, forming cliffs or buttes, and here you are sure to find in the portholes or on ledges the brick-red eggs of that most splendid of all our birds of prey—the prairie falcon. A bird of marvelous speed and indomitable courage, this little falcon typifies the wild freedom of the Great Plains. Less frequently you come upon the eyries of the majestic golden eagle. The nests, which are often used for generations, are added to, year after year, until the material composing them would fill the body of a wagon.

### Use for Cacao Bean

According to the National Geographic society, not only does the cacao bean supply the producers of candles and sweetmeats with a unique solid ingredient and flavoring, but it furnishes "the makings" for a hot beverage, surpassed in world importance only by coffee and tea.

MERCHANDISE OR SERVICE  
FROM THIS WEEK'S  
ADVERTISERS

## Dorothy Goes Shopping

They are delicious—I mean the light, fluffy layer cakes from **RINGER'S BAKERY**. Cakes made of butter and fresh eggs. You will also enjoy the cookies.

For **STYLE** and **PERSONALITY**, have your dry cleaning, altering, pressing, repairing and relining—either Ladies' or Gentlemen's Garments—done by **A. P. PETERSEN**, 476 Exchange St., Geneva, N. Y. Garments guaranteed Hand Pressed.

Women seem to be growing taller, but perhaps it's only the long slim frocks and the tall, tall Russian hats that make them look that way. And no wardrobe is quite complete this Fall that doesn't include a high hat and one of the new stem silhouette frocks.

For work that pleases, stop at **CARL'S SHOE REPAIR SHOP**. He will make your shoes like new. Experienced labor by a competent person enables you to have the highest grade of shoe repairs.

A living room—or any room, for that matter—should be restful, livable and beautiful. Simplicity has style. Select carefully a few accessories to accent the room. Place these accessories so that they are subordinate to the large massing of the furnishings. Fewer things in right arrangement against the right background make for comfort and beauty.

Be individual! For **LESS MONEY** than you would pay for a ready-made fall or winter coat, you can have one designed and tailored to your individual measure. You can have a coat as low as \$25. Fine selection of samples. Any Fabric—any Color. **A. S. BAUER**, 43 Seneca St. Call 2483.

Watches, clocks, and jewelry which need repairing should be

taken to **PRINCE'S JEWELRY STORE**, 20 Linden St. There you will see the loveliest variety of vanity cases. And the picture framing is superior.

At **LE BRUN'S FUR SHOPPE**, 38 Linden St. you can have your fur garments repaired, remodeled, cleaned and glazed. **MISS LE BRUN** has been in the fur business in **GENEVA** for over 15 years.

**MCCARTHY'S PHARMACY** has a limited supply of hot water bottles (full two quart) in different colors. They are made by the U. S. Rubber Co. Priced at 98c.

Did you know **E. M. BODKIN**, 114 Seneca St., (she worked with Mr. Kaufman for 12 years) does fur work—repairing, relining and remodeling, cleaning and glazing. Have your old fur coat made into a new style jacket. Phone 6397.

If you feel that the Russian influence in headgear is not for you, try a bit of height in one of the Tyrolean felts. Many of them reach dizzy heights and then not satisfied add a sweeping quill to achieve higher peaks.

Mothers should be particularly interested in the splendid assortment of Kiddies Wash Suits that **BAKER & STARK, INC.** are now showing. These range in sizes from 2 to 10 years and are priced at \$1.45, \$1.65, and \$1.95. They are now on display in their windows.

Salads add color and beauty to our meals, and also, supply us with minerals and vitamins. Introduce them in an effective and appetizing way. There is no better way to serve a daily raw fruit or vegetable. Remember salad plates should be cold and the salad, itself, attractively arranged.

Blankets . . . you will love those beautiful, fluffy, all wool blankets at **LYNCH'S** and the prices are just as attractive. Large size \$3.75 and up.

Your garments do not have that (just back from the cleaners) odor, when cleaned at **McGUIRE'S**. They use the most modern method of dry cleaning. It is absolutely odorless, and your garments are individually cleaned under the most sanitary conditions. 553 Exchange St., Phone 4126.

Winter coiffures will be cut long and sweep upward and back. The new bob is from an inch and a half to two inches below the natural hairline. But it has a backward and upward sweeping line. Side ends will be curled away from the face. The ends will be finished in round finger curls. Waves will be set in the hair at a decided angle.

**PRINTZESS KNOCKABOUT**—not a pugilist; but the Season's outstanding sport coat. Several styles in beautiful men's wear fabrics. Sold only at **The SENECA SHOP**.

Broken articles of any kind can be repaired—optical goods, jewelry, chinaware, umbrellas, lamps, dolls, furniture . . . have your scissors sharpened, razors honed and rehandled, beads restrung, etc. **THE FIX-IT-SHOP and DOLL HOSPITAL** (next to Empire Gas Office)—**ED. McWILLIAMS**.

Have you seen the General Blow-out-Proof Tire with the silent safety tread? If you haven't stop in **FRED C. GARVER'S**, 280 Main St. (next to Armory) and let him show you how to obtain them for your car. Phone 6203.

Bracelets which are also very high fashion demand hands that are well manicured and soft. Another matter for attention at the beauty spots. When rendering home care to your hands, don't forget that you also have elbows, which are apt to be rough and wrinkly if they aren't given constant care. A little balm now and then is relished by the best of elbows, you will find.

## THE FUNNYBONE

### Perish the Thought

Usher (to cold, dignified lady): "Are you a friend of the groom?"

The Lady: "Indeed, no, I'm the bride's mother."

### Modesty

In front of a store in the city not long ago a man noticed a sign which said: "Before you buy pants come in and look at ours."

He entered but was unable to find a single male clerk in the store, so, being of the timid sort, he purchased a couple of neckties and walked out.

## BE SURE! INSURE!

**ACCIDENTS** are no respecter of persons. One out of every ten people suffer from accidental injuries each year.

While you cannot always guard against accidents you can have good Accident Insurance to pay the doctor's, hospital and nursing bills.

Give us the opportunity of explaining The Travelers 70th Anniversary Accident Policy. Cost very reasonable.

William: "We can't have archaic and eat it too."

A well known "character reader" says that a long nose is characteristic of a man who minds his own business. At that rate a broken nose must belong to a man who doesn't.

### The Eternal Conflict

"Woman is nothing but a rag, a bone and a hank of hair."

"Man is nothing but a brag, a groan and a tank of air."

It takes 1500 nuts to put an automobile together, but only one to scatter it all over the landscape.

### For Music Lovers

"Say, was that piece you just played by Beethoven?"

"No," said the organ grinder, "That was by Handel."

### Cat Has Seven Lives Left

Motspur Park, England, boasts a cat which has only seven lives. It lost one by touching the live rail while trying to cross an electric railway track. The shock hurled her, half paralyzed and one life gone, to an embankment several feet away. Two Alastian dogs seized her and began a tug of war, leaving only seven lives. A man rescued her, and she was taken, apparently dying, to a cat hospital. A few days later she surprised attendants by recovering and becoming the mother of three healthy kittens.

The American Legion Drum Corps would never have won any prizes if they had taken the attitude—"There's no use of practicing, it won't do any good, there aren't any prizes anyway."

That would be about the same as some merchants who say—"There's no use of advertising, it won't do any good, there's no business anyway."

There is business, for those who go after it, and it's getting better all the time—for those who go after it.

Remember the words of Thomas Edison—"Everything comes to him who hustles while he waits."

A party of Genevans recently visiting the Canadian National Exhibition were driving down one of Toronto's busiest streets. The driver pulled to the curb and hailing some passersby, said: "We're looking for some of that famous Black Horse Ale. Can you direct us?" One of the Canadians replied: "Sure, right on down this street about a mile and a half you'll see a red brick building on a corner. It looks like a private club, but it isn't. Just drive right in and they'll take care of you." Continuing down the thoroughfare as directed the Genevans finally located the building and in their enthusiasm over finding such a nice place to rest and refresh themselves were well into the yard when one of the party discovered this sign at the entrance—"Insane Asylum".

### "Putting Up With It" Days Gone With New Housing Act Advantages

The outworn habit of "putting up with what we have" should disappear under the housing plan. Women are ever so weary of looking at the old front porch, wishing for a new one, sighing and saying, "We'll just have to put up with it." Those dreary "putting up with it days" may be discarded to the everlasting joy of the whole family.

Such a variety of things can be done to the interior and exterior of the house under the flexible provisions of the repairing and reconditioning section of the National Housing Act which is now operating, that every home may add something new now.

Borrowing money for home repairs is a comparatively new idea to American home owners. Loans for all movable things are common, but not so for those things that become a permanent part of the home. Under the new government plan it is practical to do this and economical to borrow enough money to make all the needed repairs and improvements.

First things come first with the practical American housewife and those things which are absolutely essential will be given immediate attention—those leaky roofs, torn or dangerous stairway treads, fire hazards, etc. The same budget which provides for these essentials may be enlarged to include some other needed repairs that have been so long neglected—that floor for the attic or partition for the basement. Making all these improvements, purchasing all the needed new equipment with one loan, effects an appreciable saving over the old method of doing each little job or making each little purchase separately.

Elsie Hitz and Nick Dawson, Romantic Stars of the Radio serial "Dangerous Paradise" which is again heard every Monday, Wednesday and Friday at 7:45 P. M. over NBC-WHAM.

Joe Penner, the world's best known duck salesman, will be back on a coast to coast network including WHAM, Sunday at 7:30 P. M. Joe has just returned from Hollywood where he was featured in a new picture "College Rhythm". He will be heard from the Radio City studios accompanied once more by Ozzie Nelson's orchestra and Harriet Hilliard's songs.

Friday brings several fall premieres to the air waves. At 11 A. M. over WHAM the NBC "Music Appreciation Hour" returns under the baton of Dr. Walter Damrosch. Also over WHAM at 9:30 P. M., Phil Baker, Harry McNaughton ("Bottle") and Leon Belasco's orchestra comes back for Armour.

Over the Columbia system stations at 9 P. M. the "March of Time" dramatization of current events will be broadcast by "Time" Magazine. At 9:30 P. M. will be heard the first of a new series of programs "Hollywood Hotel" featuring Dick Powell, El Brendel, Ted Fiorito's orchestra and guest stars. This last program is a presentation of the Campbell Soup Co.

Football—WABC lists the Notre Dame vs. Texas University game at 3 P. M. However, broadcasting of the football games will probably not start until after the World Series game.

**Cider Natural Beverage****for Pioneer Americans**

Cider has been called the American national beverage. It is not peculiar to the United States. England, France and many another temperate zone nation makes cider, but it is true that the juice of the apple has special connotations with American life. In no other country do apples grow in richer abundance or over so broad an expanse. There was a time when not a farm lacked its apple orchard. It was but little more than a century ago that Applesseed

John, that curious hermetic prophet of the northwest territory, spent a lifetime in wandering over parts of three or four states, punctuating his pilgrimages with plantings of apple seeds. So, in addition to the thousands of tilled and pruned apple orchards, the country knew literally thousands of apple trees planted by the side of the road, in open pastures, on the edge of woodlands, beside streams, the myriad-branched monument of Applesseed John. A few gnarled and haggard trees of his planting still stand.

Cider was a natural beverage for the pioneer American. Its making was easy. No elaborate machinery was required. Its raw material was a fruit, of which there was so great a surplus that the product could not be humanly consumed. It was a beverage which, in one stage, was suited to the delicate palates and light heads of women and children, while in another it became a sort of Viking's beserk nectar.

So characteristic of America was this drink that it became the symbol of a Presidential campaign, William Henry Harrison, who, incidentally, came from the very heart of Applesseed John's domain, was swept to victory on a hard-cider platform.—Washington Star.

**Corn in China**

Corn, native to American continents in the western hemisphere, was grown in China long before it was grown by the English settlers at Jamestown. A photostat copy of a Chinese book published in 1573 reports that maize or Indian corn, there called "imperial grain," had been grown in China for years, and that it had been introduced from the west by way of Thibet or Turkestan. The indications are that the Spaniards discovering maize in the New world took home the grain from South and Central America, that the Arabs carried it from Spain to Mecca, and that it then spread eastward through Central Asia to China.

**Cultivated; Cultured**

A cultured person is the correct phrase, for the adjective indicates that the person possesses education and refinement. Cultivated may be used to describe the mind of a person, but is not used of the person.

"A cultured person possesses a cultivated mind."—Literary Digest.

## \* DOROTHY GOES SHOPPING \*

Without question **Baker & Stark, Inc.**, carry the largest assortment of Men's Dress Shirts offered in Geneva. Over 125 dozen to select from in all sizes and sleeve lengths. This assures a splendid selection to choose from and as low as \$1.35.

Drapery and upholstery fabrics play an important rôle in furnishings. By their colors they add warmth, livableness, individuality and charm. By their texture and design they establish formality or informality, quaintness or sophistication. Therefore, let your rooms belong to your fabrics and your fabrics belong to your rooms.

We cannot stress too strongly the great values that are being offered in **Wool Blankets** at **Lynch's** right now . . . Single Blankets—all fine wool—Satin bound in all the wanted colors at \$3.75 and \$4.90. Pure wool double plaids \$6.90.

The clever use of accessories is the chic woman's secret today. Gloves, hat, bag and shoes with a definitely sports feeling should go together. Likewise the dressier, smoother accessories. Think of your accessories as a family. You will save money and always have an air of well-groomed charm.

Cut your **Battery** bills in half . . . use a Free testing and filling service. When you need a new battery, get a super-power **General Jumbo**. End worry and expense! Drive in **Fred C. Garver's**, 280 Main St. (next to Armory). Call 6203.

**William H. Miller . . . General Auto Repairing . . .** who was formerly located at Seneca Alley has moved to new and larger quarters—196 Main St. (opposite Colt St.)

For information regarding the "Dorothy Goes Shopping" pages, address **Miss Dorothy Frautz**, c/o Geneva Community News, or Telephone 2108.

Men of affairs wear International Custom-made clothes. There is nothing "Just as Good." Call at **A. P. Petersen's**, 476 Exchange St., Geneva, N. Y. (over Fox Cigar Store).

New books are arriving daily at **The Hill Book Shop**. Call 6996 for reservations. A small deposit will reserve any article in the gift shop until needed. Christmas cards may be ordered now.

**Women drivers** appreciate the care taken in the handling of their cars at **Wilson's Esso Station, Lake St.** Take your car there for a grease job or oil change and you'll find no smudgy spots on fenders, upholstery or steering wheel when the job is finished.

If your watch needs repairing, take it to **Prince's Jewelry Store**, 20 Linden St. There you will also find a complete line of watch bracelets.

You will find a large assortment of **Greeting Cards**, beautifully displayed at **McCarthy's Pharmacy**. There are cards for all occasions . . . birthday, anniversary, convalescent and shower cards.

Did you know **E. M. Bodkin**, 114 Seneca St. does fur work? Repairing, relining and remodeling, cleaning and glazing. Have your old fur coat made into a new style jacket. She worked with Mr. Kaufman for 12 years. **Phone 6397.**

**Casey & Son** have just received one of the most outstanding assortments of Suits in Geneva. . . . Tweeds, chevots and worsteds at \$29.50 and \$35.00. How about a hat? **Casey & Son** (opp. Schine's Geneva).

Why don't you have the white shoes you wore during the summer dyed a dark color? They'll look as good as new. All work done at **Carl's Shoe Repair Shop** is guaranteed satisfactory.

At **Le Brun's Fur Shoppe**, 38 Linden St., you can have your fur garments repaired, remodeled, cleaned and glazed.

Satin comes to the top of many of the Autumn dresses. Satin with wool, satin with crepe, satin with velvet.

Broken articles of any kind can be repaired—optical goods, jewelry, chinaware, umbrellas, lamps, dolls, furniture—have your scissors sharpened, razors honed and rehandled, beads restrung, etc.—**The Fix-It-Shop and Doll Hospital** (next to Empire Gas Office) **Ed. McWilliams**.

**Sweaters** in slipon styles and twin sets are now being shown by **The Seneca Shop** in a profusion of Fall color combinations. \$2 and \$5.

Would you like to sell any old glassware, china, vases, dolls, mirrors, mirror frames and other old pieces? Also small articles of furniture. Drop a card or call at **Charles Campbell's**, 26 Elm St.

Men! Did you ever have your Hat cleaned, by ordinary methods, and find after wearing it that your fore-head was burned by the sweat-band? **McGuire's Dry Cleaners** eliminate this condition. Your hat is entirely deodorized inside and out.

Be sure of the best. Bake goods from **Ringer's Bakery** tastes as good as it looks. All kinds of delicious cakes and cookies, muffins, breads and pies. Only one quality—the finest.

**Dresses** most popular because they're most useful . . . wearable right now and straight through the winter! In all the shades so fashionably and beautifully contrasting this Fall. **The Budget Shop**, (over Neisner's). Prices range from \$3.90.

### Rifle and Pistol Shoot

The annual rifle and pistol shoot under the auspices of the Geneva Rifle and Pistol Club will be held at Kashong Glen on Sunday, October 7. The public is invited.

### Lots Will Soon Be Gone

Inspect the finest lots in the Finger Lakes Region at Wyckoff Glen without delay, as the opportunity to purchase will soon be gone.

### Wonderful Retriever

No breed of dog has yet been developed that can excel the Chesapeake Bay retriever's work in retrieving. Pointers, setters, spaniels were tried with some success, but were found to lose their steadiness in the field when returned to it. The poodle was sufficiently hardy but mauled his bird. The old English sheep dog and others, including various crosses of all of them, were attempted in an endeavor to produce the desired qualities of a good nose, soft mouth, an understanding brain and the waterproof coat, but in no instance did any approach the Chesapeake standard.

Many of the young smart set are going in for fur jackets in a big way this fall. Certainly it is a logical season for it, a season when skirts and blouses are getting the biggest play that they have enjoyed in years. The nicest thing about jackets, beside the fact that they're mostly very good-looking, is that you can begin to wear them almost immediately, follow through until the very cold days arrive and then don them again for Spring wearing. Some girls even wear them all through the Winter with heavy woolen skirts. Prices are within reason on them, too, and the new designs that have been worked out for you are enough to gladden any feminine heart.

Cloth coats are important this Autumn, too, especially those that are generously fur-trimmed, with ripply or Russian type collars. Top a cosack number with one of the high Russian hats and you will find yourself in the front ranks of fashion.

## THE FUNNYBONE

### The Absentee Donor

He leaned over the garden fence and beckoned to his neighbor.

"I say, old man," he said, "I understand that you have Brown's rake."

The neighbor nodded.

"Good," said the first, "if you'll let me borrow it occasionally, I'll let you use his roller."

### To Prevent Dropsy

"Even the best of friends fall out," said the aviator as he strapped his passengers in.

### Cupid Is Ambushed

An actor was telling the story of his blasted romance.

"And so," he said to a sympathetic friend, "I never married."

"Do you mean that her father came between you and the girl?" asked the friend, interestedly.

"Well," answered the actor, "not so much between as behind."

### Cooler Tomorrow

Judge (in traffic court)—"I'll let you off with a fine this time, but another day I'll send you to jail."

Driver—"Sort of a weather forecast, eh, judge?"

Judge—"What do you mean?"

Driver—"Fine today—cooler tomorrow."—Ex.

We can all remember when baking powder had a bigger sale than face powder.

An explorer reports finding a tribe called the Kukukukus in New Guinea. We have a suspicion a good many members of that clan are living in this country, too.—Memphis Commercial Appeal.

### Demand for Information

"What is your opinion of press censorship?"

"There can't be any such thing," said Senator Sorghum. "The surest way to make anything interesting to the public is to indicate that you are trying to conceal it."—Washington Star.

Things are improving—people are taking their bills out of the envelopes.

### No Tycoon

"You see that old boy over there? He thinks in terms of millions."

"He doesn't look like a financier."

"He isn't. He's a bacteriologist."

### System

"Sakes alive! How in the world does the colonel ever sleep in that screenless room?" asked a guest at a Kentucky manor whose body had been punctured by mosquito bites the night before.

"Very simple, sah," explained the colored servant, "Yuh see, de massa's so full de fust half of de night he nevah notices de skeetoos, and de skeetoos so full de las' half of de night dey nevah notices de massa."

"Can I sell you some of our new  
patent bait?" asked the salesman.

"Is it effective?" the fisherman  
wanted to know.

"Effective!" echoed the salesman,  
"Why, I sold a man some of it last  
week, and he got turned out of  
church for telling the truth about a  
fish he caught."

Shepherds for many miles around gathered recently in Dylife, Wales, and held their shepherd's court to settle the ownership of all stray sheep. What number was under the heading "Here's is Your Number" in the Sept. 27 (last week's) copy of the Geneva Community News you received?

Was it one of the following:

943; 1098; 2335;  
3421; 4665?

If so, mail the copy to us, complete, AT ONCE, and tell us from which one of the advertisers IN TODAY'S ISSUE you would like to receive \$1.00 worth of goods of service.

We will then mail you an order to present to the advertiser you select and it will be honored to the amount of \$1.00.

Remember—the above winning numbers are taken from our issue of September 27 and the advertiser you select must have an ad in today's issue.

**Gleaned from Here and There**

(The 14th of a series of quotations from the collection of M. F. Devaney.)

"Enjoy the present, you do not appreciate today until tomorrow."

"Never invest under pressure."

"You may have the right of way but don't insist upon it. It is better to stop than to crash."

"It's doggest that does it."

"Idealists and dreamers are always in hot water."

Four words which should be eliminated from every vocabulary are: "If, But, Can't and Impossible."

"Two expressions that cause the most trouble in this world are: They say and I heard."

"Every cloud has a silver lining."

"Four things a man must learn to do if he would keep his record true: to think without confusion clear-

ly, to love his fellow-man sincerely, to act from honest motives purely and trust in God and Heaven securely."

"It's all right to make mistakes but not to make the same one twice."

(To be continued)

If you can't get along with people, it is their selfishness or vanity that is the cause—or yours.

Selfishness between nations is as artless and common as it is among little boys and girls.

### THIS AND THAT

Crooning makes money; that's  
about all that explains it.

A new radio series of interest to  
both grown-ups and youngsters is  
on the air. (See Fink's ad, page 1).

It's strange, but true, that hot  
words often cause a chilly feeling.

No matter what your feelings  
about it—cold weather is “just  
around the corner.” Arrange for  
your winter's fuel supply without  
further delay. Also have your auto  
given an immediate pre-winter  
“going over.”

Public opinion molds a man as  
much as experience—perhaps more.

Of course, most if not all of our  
readers save the complete copies of  
“The News” for weeks and even  
months, but, regardless of that,  
you'll want to save the information  
in Hilton's ad on page 5 of today's  
issue.

No doubt college cannot make a  
small man great, but it can make  
him like the things that are great.

If you have ever broadcast, or  
been in a broadcasting studio,  
you'll get a kick out of the series

That's My Barber Shop

**HOTEL SENECA**

JOE and TONY

“It Pays to Look Well”

of broadcasting comics now run-  
ning in “The News”. In fact, you'll  
get a kick out of these cartoons,  
anyway. (See Foote's ad on an-  
other page).

If one gets the habit of smiling,  
it can be done without being arti-  
ficial.

Have you tried the new “Krispy  
Krust” Bread? We think you'll  
like it.

Nice people are people who are  
polite and pleasant to you; and it  
is next to impossible to make you  
believe otherwise.

Need shoes? Double credits on  
premiums at Lattimer's this month  
—if you present their ad. There's  
one of them on page 4.

Few people are familiar enough  
with money to call \$1,000 a  
“grand” in that offhand way.

### WINNING NUMBERS

By Ralph Le Brun

Dr. Walter Damosch who has begun his seventh consecutive season as Conductor of the NBC Music Appreciation Hour. It is broadcast over a coast-to-coast network every Friday morning at 11:00 A. M.

The Carborundum Band, a Columbia network feature for several seasons will begin a new series of concerts on Saturday, October 20 at 10:00 P. M. This band is unique, being composed almost entirely of amateur musicians (only four are professionals) who have played together for almost thirty years. The "Voice of Niagara", a broadcast of the actual roar of the great falls, will be featured again in several of the season's programs.

The message of Pope Pius XI, broadcast from Rome to the thousands of Catholics gathered at the thirty-

second International Eucharistic Congress in Buenos Aires, will be carried over the Columbia network Sunday at 10:30 A. M. The Holy Father's address will be relayed from Rome to Buenos Aires and broadcast through loud speakers to thousands in and around the Cathedral at Palermo. His talk will come direct to the American audiences by short waves from Rome. An English commentator will translate the Pope's remarks.

Miriam Hopkins, star of Broadway and Hollywood, will be starred with John Boles in a microphone version of "Seventh Heaven" to be broadcast over the NBC-WJZ network on Sunday, October 14 at 2:30 P.M. This will inaugurate a new Sunday afternoon series of full hour radio versions of celebrated plays. It is sponsored by the makers of Lux.

Results of the important football games will be broadcast to radio listeners every Saturday at 6:30 over the Columbia network and at 6:45 over the NBC-WEAF network.

# THE COMMUNITY KITCHEN

Conducted by **BETTY BROWN**

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Egg Corn Bread

- 2 cups corn meal
- 4 teaspoons baking powder
- 2 teaspoons salt
- 1 egg
- 1 cup evaporated milk
- 1 cup water
- 3 tablespoons fat

Mix corn meal, baking powder and salt. Beat egg, add milk and stir quickly into corn meal. Heat fat in bread-pan or skillet. Pour batter into hot fat and bake immediately in hot oven. Do not make thicker than  $\frac{1}{2}$  inch.

F. F., Middle St.

## Snappy Cheese Teasers

(Makes about 24)

- 1 pkg. of snappy cheese (about  $\frac{1}{4}$  pound)
- $\frac{1}{4}$  pound of butter
- 1 loaf of white bread, unsliced

Cream the cheese and butter together to make a paste. Cut bread into 2-inch cubes and spread the paste on all sides of the bread cubes. Place in a shallow pan and bake in a moderate oven (425°) for 15 minutes (until brown). Serve hot. These are delicious with fruit salads.

H. T., E. William St., Waterloo

## Orange Bread

- 2 large oranges
- 1 cup water

- 1 cup granulated sugar
- 1 cup brown sugar
- 1 egg
- 1 cup milk
- 1 tablespoon melted butter
- 3 cups flour
- 6 teaspoons baking powder
- 1 teaspoon salt

Remove rind from oranges and run through food chopper. Cover with the water and cook slowly until peel is tender, adding more water if necessary. Add the sugar and cool. Sift dry ingredients with orange rind and sugar. Pour into buttered pan and let stand for 35 minutes. Bake in a slow oven for about an hour and a quarter. Cool before cutting.

L. F., Border City, N. Y.

## Candied Pop-Corn

- $1\frac{1}{2}$  cups sugar or maple syrup
- 1 tablespoon butter
- 3 tablespoons water
- 3 quarts pop corn

Boil sugar or syrup with butter and water until it spins a thread. Pour onto corn, mix and shape into balls if desired.

**FRED BAUMGARTNER, JR.****Terraplane Ruggedness Run**

A ruggedness run by a Hudson Terraplane embracing a tough 1850 mile circuit through New York, New Jersey, and Pennsylvania is under way. This car was selected at random from among owners of 1934 models and will be driven continuously over the route night and day for a period of two weeks. A year's hard driving will be concentrated in the two-week period.

This three state run taking place in this vicinity is part of a national program of ruggedness runs which will blanket every section of the country over all kinds of roads in what is considered to be the most extensive ruggedness demonstration ever undertaken by any automobile manufacturer. A map showing the route of the run is being displayed by the Geneva Automobile Company, local distributors of Hudson and Terraplane.

## Dorothy Goes Shopping

Today as I was passing **Savage's Shoe Store** (next to **Regent Theatre** on Exchange St.) I saw a wonderful demonstration on their **79c Hosiery**. A pair of these stockings stretched out was shedding a stream of water just like a duck's back. These **Neva-Wet** stockings, guaranteed **ringless**, will stay dry, clean, and comfortable even if you're caught in a shower. And equally as important, the sensational **Neva-Wet** process increases the wearing qualities of the stocking 10%. See the **Neva-Wet demonstration** in the window this week and try a pair. I have and like them very much. You will too.

My **Harper Method Permanent** keeps my hair always looking neat and well-groomed—a soft, natural, lasting wave. You too will say, "There's nothing like a **Harper Method Permanent**!"

This week **McCarthy's Pharmacy** is featuring **Sheaffer Fountain Pens** at half price. There is a large assortment. It's an excellent opportunity to select Christmas gifts.

The **Fix-it-Shop** speaks for itself. Repair work is a specialty. All work guaranteed. No matter what it is that's broken, it can be

repaired at the **Doll Hospital**. If he can't fix it, throw it away. **Ed. McWilliams** (next to **Empire Gas** office).

Men of affairs wear **International Custom-made** clothes. There is nothing "Just as Good." Call at **A. P. Petersen's**, 476 Exchange St., **Geneva, N. Y.** (over **Fox Cigar Store**).

At **Le Brun's Fur Shoppe**, 38 **Linden St.**, you can have your fur garments repaired, remodeled, cleaned and glazed.

If your watch needs repairing, take it to **Prince's Jewelry Store**, 20 **Linden St.** There you will also find a complete line of watch bracelets.

One advantage of a dress with a versatile neckline is that you can tie it high to suit the collar of your coat and lower it in softer lines when your coat is removed. Or it can be looped like an **Ascot Scarf** to make a street dress. There are many different ways to tie or drape a scarf into becoming effects.

Watch for the announcement of special and interesting news about **Rugs and Carpets** in the next few days at **Lynch's**. In this odd lot mill shipment, the thrifty shopper will find what is called "sweet picking." These can be seen now.

### THIS AND THAT

Above all, stop grumbling. If you cannot see any good in the world, keep the bad to yourself. Constant grumbling just gets to be amusing, so have a good laugh on yourself and start over again.

Is there such a thing as luck? You should ask the reader on Elm Street who received a winning number two weeks in succession. Lynch Bros. and the Castle Street Market were the advertisers from whom this reader wished to receive \$1.00 in merchandise.

Samson certainly knew how to advertise. He took two columns and brought down the house.

We get as much fun each week watching for the return of the winning numbers as our readers do in watching to see if they have a winner.

With the new stream-lined automobiles looking so much alike at both ends, it's getting mighty hard for pedestrians to tell whether to jump or not.

Take advantage of the "Special for October" portrait offer at The Stewart Studio before it is too late.

Obtuse Oscar wants to know why, if a boy is a lad and he has a stepfather, the boy isn't a step-ladder?

Don't "pass up" Lattimer's offer of "double credit during October."

"Remember that there is nothing stable in human affairs; therefore avoid undue elation in prosperity or undue depression in adversity."  
—Socrates.

Hosiery Sale at Howard's (see ad).

"Dar is a heap of debunkin' goin' on," said Uncle Eben, "but 'tain' no use foh any smart aleck gangster to come along tryin' to debunk de Ten Commandments."

Remember how you used to sit up until all hours of the night (or morning) to "get California" on your radio. Well, that thrill can't be compared with the thrill of getting England, France, Italy, Germany, etc., etc., on the modern "all-wave" sets.

Patience is mostly hoping for the best; and it doesn't take much strength of mind to do that.

Did you know that "You can't buy a stale Spaulding Cake?" Spaulding's Mayonnaise, too, is "Fresh Every Day".

Malice may be something cherished by the just toward those who practice evil and deserve malice.

We've had some pretty "snappy" weather, but it's going to be much colder before very long. Have you given your car proper "pre-winter" attention. Better do so without further delay.

**RADIO FLASHES**

By RALPH LE BRUN

Eddie Cantor, celebrated comedian of stage, screen and air, star of the Chase and Sanborn Coffee Hour, heard weekly over NBC-WEAF network at 8:00 P. M., Sundays.

The colorful and unique ceremonies celebrating the hundredth birthday of John Peel, traditional hero of English hunting in his tiny native village of Caldbeck, Cumberland, England, will be rebroadcast over the Columbia network on Saturday at noon. John Peel's name is known throughout the English speaking world by reason of the popular folk song, "D'ye Ken John Peel?"

The 300th performance of the Sinclair Greater Minstrels will be celebrated during the next broadcast on Monday at 9:00 P. M. Gene Arnold, writer and interlocuter of the program, has been with the show since its first performance in March, 1928. He says he will use only old jokes during this broadcast but he hastens to add that the listeners will like them. Arnold "the man of a million gag writers" had a real job of selecting thirty or forty jokes from the fifteen hundred to two thousand jokes sent him every week by the listeners.

Surely the Ford Motor Co. and its dealers deserve to be complimented on the fine handling of its broadcast of the World Series Games. For once the listeners did not have to sit by while the sponsor poured forth yards and yards of advertising on unwilling ears. The adver-

tising on Ford's regular programs is of the same type—never too much.

Lucrezia Bori, prima donna soprano of the Metropolitan Opera Co., will come to the microphone Sunday at 10:00 P. M. over NBC-WEAF as guest star on the "Hall of Fame" program.

**The Wandering Jew**

The Wandering Jew was a legendary character who was supposed to have been doomed to wander until the second coming of Christ because he taunted Jesus as he bore the cross. This legend first appeared in a pamphlet supposed to have been printed in Leyden about 1602, and it relates how one Paulus von Eizers had met a Jew, Ahasuerus, who had declared himself "eternal" and the original Jew punished by Christ. The pamphlet gained wide circulation and led to reports of the Wandering Jew being seen in many places.—Pathfinder Magazine.

## Mock Chicken with Raisin Dressing

1 lb. pork tenderloin  
Lemon juice  
Cream, salt and pepper

Wipe pieces of pork tenderloin and pound until 1/4 inch thick. Cut pieces 2 1/2 inches long and 1 1/2 inches wide. Season with salt, pepper and lemon juice. Spread each piece with raisin dressing, roll, fasten, season well, dredge in flour and fry in hot fat until brown. Place in sauce pan, add cream to cover and cook 20 minutes.

## Raisin Dressing

1 1/2 cups raisins  
1/4 cup melted butter  
4 tablespoons cream  
1/2 cup cracker crumbs

E. S., Swift St., Waterloo

## Sweet Potatoes and Marshmallows

Boil 8 medium sized sweet potatoes  
Peel and mash

When potatoes are free from lumps, beat in 2 tablespoons butter, 1/2 cup hot milk, 1/2 teaspoon salt, 1 teaspoon cinnamon and 1/4 teaspoon paprika. Fold in 1 cup chopped walnut meats. Turn mixture into buttered baking dish, cover with 1/2 lb. marshmallows and bake in moderate oven until marshmallows are puffy and golden brown.

### Geneva's Newest Store

Woodruff's, a store new to Geneva, opens Saturday, Oct. 20, in the Geneva Theatre Building, 82 Seneca St.

The store is modern in every detail, having been installed by the Grand Rapids Store Equipment Co.

Woodruff's will carry a complete line of greeting cards, gift wrappings, bridge supplies, novelties, linens, imported antiques, stationery and novelty gift items.

Mr. H. F. Woodruff, the owner, is a native of Ithaca, N. Y., has been in the retail business for 14 years and recently resigned his position as assistant superintendent at Rothschild Bros., Ithaca, to open this store.

Mrs. Woodruff, who will assist Mr. Woodruff, has also had wide business experience. She is a native of Georgia, a graduate of Ward-Belmont, Nashville, Tenn., and Cumberland University, and has been associated with several of the country's largest department stores.

### Fifty Centuries Old Tomb

What is described as a "beautifully painted tomb nearly fifty centuries old" has been discovered. The tomb belonged to Tissen, presumably a member of the Council of Ten comprising the executive of the then Egyptian government. The paintings, depicting high personages, birds and flowers, are in colors so fresh that they look nearly new.

### Mystery Bird Studied

Hundreds of naturalists in England have started a two-year investigation into the secrets of the woodcock. They will count the nests and try to watch one of the

deepest of the bird's secrets—how it carries its chicks from the wood where they are born to the open field where they feed.

For work that pleases, stop at **Carl's Shoe Repair Shop**. He will make your shoes like new. Experienced labor by a competent person enables you to have the highest grade of shoe repairs.

—D—

The **Kirkwood Candy Store**, **21 Castle St.**, is a pleasant place to pause for a soda or hot fudge. Have you tried their delicious hot chocolate? I also noticed that their candy counter was filled with a large assortment of delicious candy.

—D—

At **Le Brun's Fur Shoppe**, **38 Linden St.**, you can have your fur garments repaired, remodeled, cleaned and glazed.

—D—

When making purchases from any of the advertisers on this page I would appreciate it very much if you would kindly mention the "Dorothy Goes Shopping" page of the **Geneva Community News**.—**"DOROTHY"**.

—D—

One trial will convince you that the home-made bread from **Ring-er's Bakery** is the finest bread you have ever tasted. Make your own choice from a large variety of all kinds.

—D—

In the Japanese art of flower arrangement there are more tricks than we can shake a twig at. For example, I am told that Japanese women always do their flower fixing on the floor. They kneel on pillows, have their flowers spread out separately on a tray, put the vase in front of them, on a low stand. They look up at the flowers as they work—not down, as we generally do.

The upward vision, I am informed, leads to superior artistry.

To find the service you desire, I advise you to take all watches, clocks and jewelry needing repair work to **Prince's Jewelry Store**, **20 Linden St.** Also any pictures to be framed. Look at the clever vanity cases too!

**A Tip**—Did you know that it is possible to get a wonderful lunch for thirty cents at **Pettit's Restaurant**, **17 Seneca St.?**

After your lunch purchase some of **Mr. Symond's** cookies. We promise you won't be disappointed.

—D—

**The Budget Shop**, over **Neisner's**, is now featuring two-piece knit dresses at **\$2.90** in all the new Fall colors. Stop in the next time you go shopping!

—D—

Your garments do not have that (just back from the cleaners) odor, when cleaned at **McGuire's**. They use the most modern method of dry cleaning. It is absolutely odorless, and your garments are individually cleaned under the most sanitary conditions. **553 Exchange St., Phone 4126.**

The **Geneva Free Library** hours: Monday and Saturday, 9 a. m. to 9 p. m.; Tuesday, Thursday, Friday, 9 a. m. to 6 p. m. Closed Wednesday, Sunday, and holidays.

For those patrons who have not realized the change in library hours, we have stated them above. Many readers are pleased to find the library open during the noon hour, also between 6 and 7 on Monday and Saturday. The new schedule keeps the Library open 51 hours instead of 39 as formerly.

The **Geneva Free Library** anticipates having a brief column in the **Community News** each week. Watch for it! The latest books will be listed and occasionally reviewed.

The foundation of Barcelona, Spain, is attributed to Hercules, 400 years "to a day before Rome was born." Its known history dates back several centuries before Christ. It was here that the first steamship was launched in 1543. It was propelled by two steam-driven wheels and attained a speed of three miles an hour.

### Operated by Mouse Power

In the Nineteenth century, a man in Scotland perfected a machine that was operated by mouse power. Running in revolving cages the mice manufactured sewing thread, twisting and reeling 20 feet

a day, writes W. T. Hogue, Denton, Texas, in Collier's Weekly. The inventor was building a mill to use 10,000 mice when he died. Apparently he never realized the work involved in putting them in and taking them out of 10,000 cages each day.

## THE KEY TO FREEDOM

A distinguished banker was addressing a group of young men. "Listen carefully," he said, "for I am about to give you the golden key to freedom and happiness.

"Have the courage, once each year, to strike a true balance sheet of your life. In opposite columns, set down what you had hoped to be and to achieve against your actual accomplishments. Write down fairly the sum of your possessions, your income and the income which your family would continue to enjoy were your support withdrawn. Total your debts and obligations and then subtract what you actually have from the amount of estate which you had hoped to accumulate. Look deficits fairly in the face. Not by dodging responsibilities, but by facing them, is freedom of mind gained."

Wise and sane advice, which, if followed, leads to a more serious consideration of life insurance than ordinarily it receives. With facts plainly assessed, insurance becomes a matter for definite planning, rather than to be left to haphazard decision, based on importunity.

This is the attitude toward life insurance which the Phoenix Mutual Life Insurance Company of Hartford, Conn. seeks to advance. On its part, the com-

pany has recognized the need for intelligent co-operation, by training its limited force of representatives in the principles of life insurance service. The true function of a life insurance representative is not that of a salesman, but of a trusted counsellor. Specialized knowledge of insurance is required and the ability to study problems from the view-point of the insured.

The responsibility is the greater because the business of living is never wholly an individual matter. On each life some other lives must lean; and the assurance of their continued welfare is charged as a duty not only to the one they trust, but to the life insurance representative who advises him, and the company in which he places his confidence.

Today, the provision for financial freedom in later years is more important than ever before. And that is the reason for the popularity of the Phoenix Mutual Retirement Income Plan. For through this Plan, you can guarantee yourself an income that cannot be outlived—security, happiness, peace of mind. The Plan is simple and flexible. It can be adapted to fit your individual needs. Just how it works is told in an interesting illustrated 24-page book which is yours for the asking. There is no cost, no obligation. ### THIS AND THAT

Drivers—be careful. Remember  
—it's Fall and the pavements, cov-  
ered with leaves, are very slippery.

One can be angry at humanity,  
but humanity doesn't seem to care.

Woodruff's—the new shop at 82  
Seneca St.—for Gifts and Gift  
Wrappings.

Every circumstance you meet  
contains something for you.

We hear about more and more  
people who are saying: "I saw your  
ad in the Geneva Community  
News" when making purchases.  
That's fine—we appreciate it and  
so do our advertisers.

Whatever you do let it represent  
your best.

If you live on an R.F.D. route  
and would like to receive our paper  
each week just drop us a card mak-  
ing such request and giving us  
your name and address.

Change your opinions once in a  
while if you would improve them.

The accident on upper Castle St.  
a few nights ago, in which three  
cars were damaged and occupants  
injured, was due, it is said, to those  
slippery car tracks. Just one more  
strong argument in favor of cover-  
ing those useless and extremely  
dangerous tracks.

Lots of things he doesn't want  
come to the man who is impatient.

### "S O S" Bans Tune From Air

Because it contains the S O S sig-  
nal a phonograph record of "Rocked  
in the Cradle of the Deep," has been  
banned from all Australian broad-  
casting stations. When it was broad-  
cast recently the signal was picked  
up by a ship and mistaken for a dis-  
tress call, resulting in a general  
alarm among nautical men on the  
Tasmanian sea.

# THE COMMUNITY KITCHEN

Conducted by BETTY BROWN

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Date Jumbles

- ½ cup shortening
- 1½ cups sugar
- 3 eggs
- 1 cup chopped dates
- 1 cup chopped nuts
- 1 teaspoon vanilla
- 7 tablespoons water
- 3½ cups sifted flour
- 1 level teaspoon baking powder
- ¾ teaspoon soda

Sift soda, baking powder and flour together 3 times. Cream together shortening, sugar, beaten eggs, dates, nuts and vanilla. Add dry ingredients alternately with water and mix thoroughly. Drop by spoonfuls on greased pan and bake in moderate oven.

D. M., Beacon St.

## Apple Sauce Cake

- 2 cups pastry flour
- 1 teaspoon baking powder
- 1/3 cup butter
- 1 cup brown sugar
- 1 egg, a little salt
- 1 cup raisins
- 1 cup thick applesauce
- ¼ teaspoon cloves
- ½ teaspoon nutmeg
- 1 teaspoon cinnamon

Sift dry ingredients together 3 times. Cream sugar, butter and egg together, add applesauce and raisins and combine with dry ingredients. Bake in moderate oven for about 1 hour and 15 minutes.

Mrs. W. J. H., Sherrill St.

## Green Pepper Soup

- 2 slices stale bread, minus crust
- 1 quart milk
- 1 large green pepper, chopped fine
- 1 small onion, chopped fine
- 1 tablespoon butter
- Salt and pepper to taste
- 1/3 cup small pieces crisp bacon

Put milk, onion and bread in double boiler to heat for 15 minutes. Stir well, add green pepper and tiny pinch of soda and cook for half hour or until vegetables are done. Add butter. Just before serving, add the bacon and a dash of paprika on each serving.

H. T., E. William St.,  
Waterloo, N. Y.

## Pineapple Cake

- ½ cup butter
  - 1½ cups sugar
  - 1 teaspoon vanilla
  - 1 cup crushed pineapple
  - 2½ cups flour
  - 2 teaspoons baking powder
  - Salt and ¼ cup water
  - 3 egg whites, beaten stiff
- Cream butter and sugar, add vanilla and cup of pineapple as it comes from can. Add flour, baking powder and salt sifted together, alternately with water and fold in egg whites last. Bake in loaf or layers.

**Ancient Medal Portrays Christ**

A medal struck from what is believed to be the oldest representation of Christ has been discovered in Trieste, according to a message from that town. Up to the present only five of these medals, which were struck during the reign of the Emperor Tiberius (42 B. C. to A. D. 37) were known and bear on the one side the head of the Messiah and on the other the words "The Messiah has come in peace; the Light has shone upon men."

Does no one but the telephone company realize that the "voice with a smile wins?" You'd think to watch feminine efforts to be beautiful that men were all eyes. But

maybe it would be wiser yet to recall that man has other senses too. Why not appeal to the sense of hearing? A lovely speaking voice is a tremendous asset to a woman.

One of the most important things to do to improve your speaking voice is to learn to breathe deeply. Not so much to learn to inhale but to exhale.

Think and practice speaking against the frontal bones, the mask of your face. Talk there to give your voice resonance and musical quality. A voice that inflects is happy and cheerful. A happy voice is as important to your charm as sparkling eyes and a glowing skin.

### GENEVA FREE LIBRARY

When we read lists of the most popular books it is interesting to know what is most popular in our own library. Without a doubt "Anthony Adverse" by Allen and "100,000,000 Guinea Pigs" have been called for more than any others during the last 6 months. Others in constant demand are:

"Lamb in his Bosom", Miller  
 "Magnificent Obsession", Douglas  
 "As the Earth Turns", Carroll  
 "So Red the Rose", Young  
 "Captain Nicholas", Walpole  
 "Crowded Hours", Longworth  
 "While Rome Burns", Woolcott  
 "Forty-two Years in the White House", I. Hoover  
 "You Must Relax", Jacobson  
 "Go-Giver", Vash Young

**This Season's Coats** are slim from hips to hem, with enough wrap-over to allow an easy, free swing.

**Armholes** are wider, just enough to make them fit freely and easily over your dresses.

**Sleeves** are smoother on the shoulder and quite often almost straight to the wrists with just a hint of fullness in the elbows.

**Cuffs** have made way for muffs; it is smart to have one to match the material and fur of your coat.

**Fabrics** are fascinating. Smooth-soft-surfaced fabrics, with either a broadcloth or a suède-cloth finish, sometimes plain, but much newer when they have a pattern interest.

—D—

**Greeting Cards** are always welcome. They may be cards of congratulation, thanks, an anniversary, birthday, or convalescent card. Whatever the occasion, there is a **Greeting Card** at **McCarthy's Pharmacy**.

### Juvenile and Adult Leaf

It is well known that sometimes the leaves first put out by a seed-

ling differ more or less from those which appear later. The first are known as juvenile, and the latter as adult, leaves, says the American Nature association. Perhaps the case most often noted is that of the arbor vitae in which the first leaves are awl-shaped and the latter scalelike.

## RADIO FLASHES

By RALPH LE BRUN

The authentic "K-7" spy dramas that have thrilled NBC-WEAF listeners on Sundays (now at 11 P. M.) for the past two years will be perpetuated in print. "K-7" is in reality George F. Zimmer, a former operative in an intelligence branch of the U. S. government. Burke Boyce, NBC continuity editor, has converted sixteen of the dramas into narratives. Daring activities of secret agents on land, sea, and in the air in almost every country in Europe are described in this volume entitled, "K-7—Spies at War".

Friday at 9:00 P. M. over NBC-WHAM Phil Harris and his musicians with Leah Ray will salute Princeton and Cornell in fancy from the Princeton campus. On subsequent broadcasts they will continue their mythical tour of America's best known campuses.

To promote the understanding of classical music and to intensify its enjoyment by the radio audience and concert-goers the Columbia Broadcasting System will begin presentation on October 23 of a weekly Tuesday evening program called "Understanding Music". With Howard Barlow conducting the Columbia Symphony Orchestra and giving a brief commentary on each selection played, the program will be heard each week at 6:30 P. M.

Tony Wons, the genial host of "The House by the Side of the Road" program and scrapbook philosopher of NBC network.

Captain Bob Bartlett used some choice sea-faring language in the Columbia studio the other night during the Byrd broadcast (heard Wednesdays at 10 P. M.) when he dropped his script while talking across 10,000 miles to the Admiral. Fortunately, Captain Bartlett was out of range of the "mike" when he stooped to recover the script.

Edmund Lowe and Victor McLaglen, hard-boiled stars of "What Price Glory", "The Cockeyed World" and other well-remembered films, will be heard over WEAF-NBC, Sunday at 10:00 P. M. on "The Hall of Fame" program.

Has  
your home  
enough light  
to protect  
EYES?

*This is the Sight Meter, the clever new instrument that measures light, and tells you how much you need for any task. Let us protect your family's eyes by checking the lights in your home.*

*Surveys show not one home in ten is adequately lighted*

## *Let Us Measure Your Lights with a Sight Meter*

Science now tells us that constant reading or working in inadequate light is one of the surest ways to damage eyes. The reason many children become near-sighted is that they study in poor light. And not one modern home in ten provides enough light for effortless seeing without eye-strain!

Wouldn't you like to know how your lights "measure up"? Just call us, and we'll send out a lighting expert to make a free check-up. With a new instrument known as a Sight Meter, she can measure your light as accurately as a thermometer measures heat. The Sight Meter also tells how much light you should have for comfortable reading, sewing, or other close work.

Give your family's eyes the benefit of this protection by phoning for a free Sight Meter check-up today.

See the new Study Lamp and Floor Lamp today—the contribution of Science, Optometry and the Lighting Industry to the cause of Better Light—Better Sight.

### THIS AND THAT

Do you realize that Christmas is  
fast approaching?

Difficulties are nature's punching  
bags for the exercise of one's ef-  
ficiency muscles.

One of the most constructive  
improvements made recently in  
Geneva is the new street signs and  
the ones who instigated the idea  
and carried it out are to be con-  
gratulated.

If a man thinks he is going to  
be sick, he frequently is, and if a  
town thinks it is falling behind, it  
frequently is.

Listen to the Spaulding Baker  
Boys — every Sunday — WESG,  
Elmira, 5:30 p. m.

On his descent into the sea, Wil-  
liam Beebe saw fish with head-  
lights. And at least every third  
one, no doubt, was driving too fast.

Groundless fears of 20 years ago  
are all dead, but there is a fresh  
crop.

Special Fall Sale—

ad on another page of this paper.

It is related that on the occasion  
of the visit of Governor Lehman  
to Geneva last Thursday a little  
girl spoke to him as he was enter-  
ing the Theater and he replied to

her. She remarked, "Oh, heck, I  
wanted to shake hands with him,"  
and the Governor overhearing her  
remark turned and did that very  
thing.

involve more responsibility than  
one desires.

We have been asked if the copies  
bearing winning numbers entitle  
holders to \$1.00 worth of merchan-

on the "Dorothy Goes Shopping"  
page. The answer is "Yes."

If you live in the residential sec-

should be delivered behind storm  
or screen doors, or fastened in door  
knob or handle. In the business  
section deliveries are always to be

**Armistice Ball**

Winnek Post No 396, American Legion, has been particularly fortunate this year in being able to secure thru the Columbia Artists Bureau, Inc., of New York City, the services of Earl Carpenter and His Orchestra of 12 pieces to furnish music for the Annual Armistice Ball to be held in the State Armory, Geneva, on the night of Friday, November 9.

The Carpenter Orchestra comes exceptionally well recommended and with a background of many successful engagements, just a few of which are: Hotel New Yorker (alternating with George Olsen); George White's "Scandals"; Lido Club Hotel, Long Beach, L. I. (three seasons); Miami Biltmore Hotel, Coral Gables, Fla.; Gran Casino Nacional, Havana, Cuba (three seasons) and Fox, Keith and Loew's Vaudeville Theatres, as well as having been featured over many of the country's largest broadcasting stations.

The orchestra also features Ann Gaynor, Radio Star, recently with "Music in the Air".

(See ad, page 16)

**Punishment**

It was little George's first time at the opera. The conductor took his place in the orchestra pit and began to wave his baton, and the famous soprano started to sing.

"What's the man shaking the stick at the woman for?" the boy asked his mother.

"Keep quiet," whispered his mother. "He isn't shaking the stick at the woman."

Little George was not convinced. "Well, then, what's she hollering for?"

# THE COMMUNITY KITCHEN

Conducted by BETTY BROWN

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Date Bread

- 1 cup sugar
- 1 tablespoon butter
- 1 egg
- ½ cup walnuts
- 1¼ cups flour
- ½ teaspoon salt
- 1 level teaspoon soda
- 1 cup dates (chopped)

Dissolve level teaspoon soda in cup of boiling water and pour over dates. Add creamed butter and sugar, beaten egg, flour, salt and walnuts. Bake in moderate oven (350°) for 45 minutes.

A. B., North St.

## Soft Molasses Cookies

- 1 cup sugar
- 1 cup molasses
- 1 cup hot water
- ½ cup shortening
- 1 egg, well beaten
- 5 cups flour, sifted with one large teaspoon soda and one level teaspoon each of salt, allspice, ginger, cloves, cinnamon and grated nutmeg. Lastly add one teaspoon of lemon extract. Drop by spoonfuls on greased tin.

B. B., Exchange St.

## Ham Creole

- 1½ lbs. ham (½ to ¾ inches thick)
- 1 can tomatoes
- 1 green sweet pepper

- 1 small onion
- ½ teaspoon prepared mustard
- 1 teaspoon sugar
- Few drops Worcestershire Sauce
- Brown ham quickly in deep frying pan. Add chopped pepper and onion to tomatoes and seasonings and pour over ham. Cover and simmer until ham is tender. Serve on platter with border of steamed rice. 6 servings.

F. T., E. William St.,  
Waterloo, N. Y.

## Lettuce Soup

- 1 head lettuce, chopped fine
- 1 small onion, chopped fine
- 2 quarts milk
- 1 large slice stale bread (put thru' food chopper)

Place ingredients in double boiler with part of milk and cook until done. Add remainder of milk shortly before serving. Season with butter, salt and pepper.

Mrs. L. S., Oak St.

## Bread Is Best

Statistics are said to prove that bread is the most nourishing food in proportion to its price, followed by peas, potatoes, butter, cheese, milk, apples, eggs, cod and beefsteak, in that order.—Answers Magazine.

## Derelicts

Derelicts are as dangerous to navigation as submerged icebergs. As many as a thousand have been reported in the North Atlantic in a single year. Many drift great distances before they are found and sunk, the record being held, it is believed, by the Fannie E. Wols-ton, which—when last seen in 1893 off Savannah—had floated 7,000 miles for two and a half years.—Collier's Weekly.

## Lake Erie Shallowest

Lake Erie is the shallowest of the Great Lakes, and in but few places exceeds 150 feet in depth.

### Geneva Free Library

Have you seen the 1934 edition of Fannie Farmer's "Boston Cooking-school Cook Book"? This book first appeared in 1896. Since then, 1,586,000 copies have been sold. It is without a doubt the best known and most widely used book of its kind in the world.

If you do not happen to have a copy perhaps you would like to make use of the new volume just purchased by the library. A few new ideas might add zest to the planning and cooking of the meals during holiday seasons. Wine recipes have been reinstated in the new edition.

As a follow up after the Marionette show, several marionettes were loaned to the library by Mrs. Cecil McKay and Miss Marie De Dreu. Both children and grown-ups have been very enthusiastic. If you are interested come and see our collection of books on this subject.

### RADIO FLASHES

By RALPH LE BRUN

The Reverend Frank R. Fisher, former Genevan, now rector of St Marks and St Lukes Church, Rochester, will speak over WHAM on the "Kindly Thoughts Hour", Monday at 8:00 a. m.

Prime Minister Ramsey MacDonald's address at the Lord Mayor's Banquet in London will be short waved to the United States and broadcast over the WABC-Columbia network Friday at 4:10 p. m. The Prime Minister's speech is considered one of the most important political pronouncements each year, as it generally gives an insight into the government's future policies.

"The Gumps", cartoonland's most famous family, will come to life in a new radio series to be heard over the Columbia network five times each week, starting Monday at 12:15. Andy and Min, their son Chester, Uncle Bim, and the maid Tilda, are as well known as any fictional family, and their trials and tribulations, mistakes and adventures supply a wealth of material for a radio series.

Eddie Cantor and his family leave for London early in December.—Willard Robison at 11, was playing piano in a Salina, Kan., movie theatre.—Originally, Jack Benny was a violinist in vaudeville.—Burgess (Red Davis) Meredith drives one of the comparatively few remaining touring cars in New York, a six year old vehicle which he purchased for fifty dollars.

Vic and Sade and young Rush, the small town folks, whose daily doings have amused millions of radio listeners for more than two years will bring their program to the air daily except Saturdays and Sundays beginning Monday over WHAM at 1:30. It will be sponsored by the makers of Crisco.

What to do when the radio stops: Do the tubes light? If none light see if the set is plugged in. If one is out, replace it, if two or more are out, something else is probably wrong as more than one tube seldom burns out at the same time. If all tubes light, see if the aerial and ground are properly connected.

#### FOR RURAL READERS ONLY

Although the Geneva Community News has now been delivered in Geneva, Waterloo, Phelps, Ovid and Willard, for over two years, with this week's issue we make the first complete delivery on all of the R. F. D. routes out of Geneva.

Therefore, many of you are receiving a copy in your homes for the first time.

With our issue of December 6 we will again make a rural distribution. Watch for that issue.

On another page of today's issue you will notice a number, under heading "Here Is Your Number." Each copy of our paper bears a different number.

Keep this copy which you are now reading. When the issue of December 6 reaches you, see if the number you hold (that is, the one in today's paper), is published as a winning number for rural readers.

Five winning numbers will be published and the holders of those numbers will be presented by us with orders on any merchant whose

**FACTS ABOUT VISION—SEEING—LIGHTING**

The pupil of the eye becomes smaller with age—consequently, the need for more light as birthdays pile up. If your child has to hold books closer than 14 inches, the chances are his eyes are being strained. The remedy is eye-glasses or better lighting, or both. One-fourth of our young people suffer from defective vision. Three-fourths of all people over 50 suffer defective vision, inadequate light being a prominent cause.

Light as a potent aid to better seeing is not expensive. You can light a bridge party for an entire evening for about half the cost of a package of cigarettes. Poor lighting is one of the causes of near-sightedness. It takes 3 times as much light to read a newspaper with the same ease as it does a well-printed book. Good lighting aids defective eyes even more than it does normal eyes.

**Dry Ice Actor's Accessory**

Motion pictures of winter scenes may be made realistic by a device that makes the actors' breath visible, just as it would be at low temperatures. The device resembles false teeth. It enables the actors to keep dry ice in their mouths without harmful results. The warm breath causes the dry ice to give off vapor not unlike that produced by persons breathing in cold weather. The device does not interfere with speech.—Popular Mechanics Magazine.

**Fur Farming—Its Past and Future**

From the dawn of history in this country the fur trade has been an important branch of commerce and has had much to do with the rapid advancement of discovery and exploration. The trapper and trader looking for new fields, steadily pushed our frontiers into the unknown wilderness and were always the first contact with the then civilized part of America when returning from such exploration.

Furs were the medium of exchange and thus the extensive trapping of the wild stock has sadly depleted the ranks of all species of fur bearing animals. The valuable are rapidly nearing extinction, this being especially true of the central and eastern portions of the United States and Canada. The time is not far distant when ever increasing demands for furs must be supplied from other sources than trapping wild animals, and fur farming seems to be the only solution to meet ever increasing demands.

Fur farming is no new industry, altho still in its infancy. More than fifty years ago, in our own State, mink were raised in pens, but failed to produce good offspring or fine pelts. In spite of many trials and failures, however, those who were far sighted studied and worked to build a sound industry.

Those pioneers laid the corner stone of the industry. Those carrying it on today have been greatly assisted by the scientists of many of the leading universities. These men, trained in zoology, chemistry and nutrition have contributed their share to build up

the fur farming industry. Food has a very important part in the raising of fur bearing animals in pens and the chemist and nutritionist have given us a food that will produce fine fur and healthy animals, when fed by those who study their animals and their habits.

Disease has also been brought under control so that the farmer who understands feeding and sanitation suffers no loss thru disease.

There is no guess work to raising fur bearing animals. Knowledge, judgment and the willingness to learn are the requirements.

This article has, so far, covered the points of learning how to raise fur bearing animals in pens. Now, what of the future?

**Concha**

A concha, meaning shell, was originally a shell-shaped ornament, usually silver, though sometimes of leather. It is a common adornment for saddles, bridles and chaps in the Southwest, and is also the name given to the button-like ornament that conceals the clasps on the lower leg of tight-fitting Mexican trousers.—Literary Digest.

## Cheese Delights

- 1 cup grated cheese
- 2 egg whites, paprika

Whip egg whites until stiff and dry and blend in the grated cheese in sufficient quantities to make a paste stiff enough to be formed into rough balls. Roll balls in brown bread crumbs and drop into boiling fat. They are at their best as they come from the pan, piping hot.

R. K., Elm St.

## Bananas au Gratin

- ¼ cup grated American cheese
- 1 tablespoon bread or cracker crumbs
- 2 tablespoons lemon juice
- 6 bananas cut in halves
- ¼ teaspoon salt

Roll bananas in lemon juice, then in the mixture of grated cheese, crumbs and salt. Place in well greased baking dish and bake for 15 or 20 minutes in hot oven, or until brown.

Mrs. A. M., Beacon St.

## Orange Nut Bread

- Two cups sifted flour
- Four teaspoons baking powder
- 1 teaspoon salt
- ¼ cup sugar
- 1-3 cup shortening
- 1-2 cup finely chopped nuts
- 1 egg
- Orange juice
- 1 tablespoon orange marmalade

Sift dry ingredients together. Cut in shortening. Add nuts. Beat egg. Pour in measuring cup; add enough orange juice to make two-thirds cup. Combine with dry ingredients and add marmalade. Knead a few

seconds on slightly floured board. Let stand in refrigerator or cool place one-half hour. Bake in loaf pan in moderate oven (350 degrees F.) until done—about 45 minutes. A little more orange juice will be needed with some flour to make the dough soft.

Mrs. G. M. T., Hamilton St.

## Tuna and Apple Salad

- 1 seven ounce can white tuna fish
- 4 small apples
- Juice of one lemon
- 1½ cups diced celery
- 1 cup mayonnaise
- 2 green peppers
- 1 head lettuce
- Paprika

Pare, core and dice apples and sprinkle with lemon juice to prevent discoloration. Add shredded tuna and diced celery. Combine well and chill. When ready to serve add three fourths of mayonnaise. Arrange on individual beds of crisp lettuce, garnish with remaining mayonnaise and rings of green pepper. Serves 6.

A touch of gold is practically obligatory, if you are out for high fashion grades. But keep it small. ### Geneva Free Library Notes

The sixteenth annual Book Week will be observed throughout the United States during the week of

November 11 to 17. This year the general theme is hobbies. Everyone needs a hobby and it was with this in mind that the slogan—"Ride the Book Trail to Knowledge and Adventure" was suggested for 1934.

The Geneva Library anticipates having on display a collection of hobbies belonging to the boys and girls of Geneva. If you have some special interest, do let us know about it. Besides having a collection on display, we hope to compile a list of hobbies enjoyed by Genevans.

A list of new children's books will be listed next week. These with many others will be on display at the library during the week.

## FUR FARMING—ITS PAST AND FUTURE

(Continued from last week)

During recent years the wild fur producers have been greatly reduced, if not practically exterminated. With the settlement of the land, draining of swamps, and clearing of forests, the fur bearer has been deprived of his natural home. This combined with the professional trappers and thousands of amateurs is hastening the day when only a few wild furs will reach the market.

As the population increases, so does the demand for furs. Where will they come from? The answer is, the fur farm.

Suppose thousands engage in the business, what effect will it have on the market? Thousands have engaged in the raising of cattle and there is still a market for good cattle. The case will be the same with furs. Unless thousands do engage in the industry the demand is going to exceed the supply.

The question is often asked, is it a paying business? Yes, it will pay the right man, namely one who has a natural aptitude for the work and likes to study the requirements and needs of the animals.

Fur farming is still an infant industry. The future looks bright for those who engage in it in a business-like manner. To those who expect to make a fortune in a year or two there is no place in the industry. For those who are willing to work intelligently and build on sound business principles there is a golden opportunity.

The fur industry, it is said, can use \$50,000,000.00 worth of furs each year. What part of it will be yours?

## Size of Yellowstone Park

Yellowstone national park is chiefly in the northwest part of Wyoming with narrow adjacent strips in Montana and Idaho. It covers a surface as the park proper about 62 miles in length, from north to south and about 54 miles in width, with an actual area of 3,350 square miles. To this region, as originally circumscribed, a forest preserve of some 2,000 square miles has been added on the east and south, giving a full area to the park of somewhat over 5,500 square miles.

### It Pays To Advertise

I was taking tea with a great editor last Sunday afternoon when his little daughter came back from Sunday school with an illustrated text card in her hand.

"Stubborn as a mule is right. He was on a jury once that had been out all morning on a case. Eleven of them wanted to set the man free, but Smith kept holding out for a verdict of guilty.

"Finally the sheriff came in at noon and asked them what they wanted to eat. 'Bring us eleven dinners,' said the foreman, 'and a bale of hay'."

## DID YOU KNOW

That Geneva had the first official installation of automatic telephones in New York State?

That on old maps of New York State, Canandaigua and Geneva appear while Rochester isn't even a grease spot?

That the short road to the left at Glenwood Cemetery was formerly called "lover's lane"?

That Thomas Chatterton, who has distinguished himself in theatricals on the west coast is a Geneva native whose real name is Thomas Chatterton Schell, and that his first theatrical venture was a melodrama, put on in a barn on North Main Street, entitled "South Before the War"?

That at the rear of the "Building with the Green Window Bars" formerly stood the building with the "iron bars", in other words the village "jug"?

## Facts About Vision—Seeing—Lighting

Sewing is generally much harder on the eyes than reading—therefore, much more light is needed. Reading with the page brightly illuminated and the rest of the room comparatively dark often causes unnecessary eyestrain and fatigue; let some light go to the ceiling.

The level of illumination under the shade of a tree on a summer day is a thousand foot-candles. Levels of illumination far less than 10 foot-candles are prevalent in homes and offices.

### Rotting Shingles Dangerous

No matter how attractive the home may be the final point of judgment is the roof. Shingles that are rotting and curling not only are unsightly but constitute a grave danger in case of fire.

### Brighten Up Halls

Dark, old halls and vestibules with woodwork finished in dark colors will be remarkably lighter if the woodwork and walls are finished in light colors.

### Old Age Pension Meeting

A meeting of the Townsend Plan Old Age Revolving Pension will be held in Odd Fellows Hall, Castle St., Geneva, on Sunday afternoon, at 2:30.

Mr. Thurston of Rochester, N. Y. will be the principal speaker.  
The public is invited.

### Modernizing Rents Apartments

Finding that ten out of twelve apartments in his building would not rent, a Philadelphia landlord recently spent \$273 on each of the kitchens in modernizing them and installing bright new sinks. Now all twelve apartments are full at higher rentals.

### Constructive Measure

"Our industry is very enthusiastic over this program, believing it to be one of the most constructive measures undertaken by the Administration."—Edwin W. Smith, Chairman, The Institute of Boiler and Radiator Manufacturers.

### Gateway to Profits

"Industries engaged in the production of building materials should find the Better Housing program a gateway to a vast trade field that never has been cultivated intensively."—R. J. Carroll, President, Appalachian Hardwood Manufacturers, Inc., Cincinnati, O.

Shopping days before Christmas are getting fewer and fewer. Shop early and be assured of best selections.

Bruce Brummitt and His Rhythm Kings of "Roy's Gang", WSYR, featuring Lucia Ramano, soloist, of WFBL—Thanksgiving Dance to be held by Geneva Lodge F. & A. M., Masonic Temple, Geneva, Wednesday, November 28. Plan now to attend.

What is this Better Housing Program all about? Read page 12 carefully. The chances are you will find the answer there.

Most people shop where they are invited to shop. An ad is an invitation.

The Geneva-Hornell Bus Line is now under the management of J. E. Lawrence, an experienced bus man, and an improved service is being maintained. See time table on page 11.

Poor light taxes eyes and strains nerves.

One of the winning numbers to be published in next week's "News" will entitle the holder of that number—taken from today's issue—to a ticket for the Thanksgiving Dance in Masonic Temple on Wednesday, Nov. 28. The number is to be picked by us from today's delivery in the DOWNTOWN section. In other words, if YOU receive a copy of our paper this week in the downtown section look in next Thursday's issue and see if you have won a ticket for the dance.

Owners of Homes and Business Property can secure the benefit of the National Housing Act. The Better Housing Program—sponsored by the U. S. Government enables property owners to finance repairs and improvements at LOW COST.

Ad space in "The News" must be reserved by Saturday noon preceding each issue and all copy must be in by Monday noon.

## Delicate Plum Pudding

1 package chocolate pudding  
1 cup evaporated milk  
2 teaspoons gelatine  
¼ cup each of chopped dates, raisins, citron, nuts, rum, brandy or vanilla flavoring, also ¼ cup of cream and 2 tablespoons confectioners sugar.

Dilute evaporated milk with one cup water and add to chocolate pudding, stirring until smooth. Heat slowly and cook until thick, stirring constantly. Soften gelatine in 2 tablespoons cold water and add to hot pudding. Cool pudding, add nuts and the fruits which have been soaking in the flavoring. When mixture begins to stiffen add whipped cream, sweetened with the confectioners sugar. Mold, chill, and serve with whipped cream.

## Carrot Muffins

2¼ cups flour  
4 teaspoons baking powder  
¼ teaspoon salt  
2 tablespoons sugar  
1 cup ground or grated carrot  
1 cup milk  
1 egg  
2 tablespoons melted butter  
Mix and sift dry ingredients and add carrot. Beat egg, add to milk, and stir gradually into dry ingredients, adding melted butter last. Bake in greased muffin tins.

## Almond Cream Pie

3 egg yolks  
1 cup sugar  
1/3 cup flour  
2 cups milk  
2 tablespoons butter  
½ cup browned almonds  
1 teaspoon vanilla extract and ½ teaspoon almond

Beat egg yolks, add sugar, flour and salt. Add milk and cook in double boiler until creamy, stirring frequently. Add butter, chopped almonds and extracts, and fold in beaten egg whites last. Pour into baked pie shell and chill. Serve plain or topped with whipped cream.

### Better Housing Program

The Better Housing Program for Geneva is now getting nicely under way, with Former Mayor William C. Demming as General Chairman.

Mr. Demming named the following as his advisory committee: Harry M. Seagers, Miss M. R. Vermilyea, Mrs. D. C. Carpenter, Chas. R. Bradley, Walter Niven, Charles McCarthy, Walter Hoskins, Wm. Sipple, Dr. F. H. Snyder, John Welch, Vernon Alexander, J. R. Houston, Clifton Morris, L. E. Springstead, L. M. Kayes, Mrs. Mary Hall, G. B. Williams, Arthur

Page, John Gleason, Mary Sweeney, John Pryor, Jesse Barker, M. Chacchia, C. O. Warner.

The above represent the various organizations of the city, while the following committee has been appointed from the different lines of business directly interested in the local housing campaign:

A. B. Hilkert, Geo. Coombs, F. E. Fairfax, E. S. Nagel, Arthur Page, Frank Cook, John DeVries, Robert Brockway, H. M. Roenke, D. W. Lynch, F. J. Kelly, William O'Malley, W. F. Warder, Thomas J. Watts.

While the Geneva program was a little late in getting under way, compared with programs in some other cities, there is no question but what with the appointment of the above committees under the able leadership of Mr. Demming activities in Geneva will now go forward in real earnest.

### Trade Boom Expected

"The plumbing and heating industry is looking forward to a decided increase in business as soon as the Better Housing Program is under way. We are all hoping that there will be no great delay in getting this program started."—L. B. Peeples, Vice President, Crane Co., Los Angeles, Cal.

### Did You Know

THAT old time Genevans could appreciate the realism of saw mill scenes in melodramas for the building at the foot of Washington St., across the track, now used for storage purposes, once contained a then modern saw mill, the logs for which were floated down the lake?

THAT later the same building was called the Couch Factory, folding beds being manufactured therein?

THAT Geneva Mineral Water was the only water dispensed at the Pan-American Exposition in Buffalo?

THAT formerly there was a frame building on Exchange Street where mineral water baths could be taken and that even now people from as far as Buffalo come regularly for this water as the only help for their ailments?

THAT a prominent Genevan who went to Florida for treatment for his particular ailment was visiting with a native of Texas who had similar trouble and, without the Texan knowing where the Genevan was from, the Texan remarked that the only relief he was able to get was from mineral water received from Geneva, N. Y.? Needless to say the Genevan was surprised that relief was so near and

he had gone hundreds of miles to get the information.

### White Means Good Luck

Red and black are the official colors at the University of Georgia. But the football team often plays in white jerseys because of an ancient superstition that they bring good luck.

### Using Chopsticks

When the Chinese use chopsticks they grasp both sticks in one hand. One is held perfectly still and the other moves back and forth. The Chinese will tell you that he uses his chopsticks just as he uses his jaws—one still and one moving!

### Use for Apricot Stones

Apricot stones, imported to Britain, are manufactured into face powder; in Germany they are converted into high explosives.

# RADIO FLASHES

by Ralph Le Brun

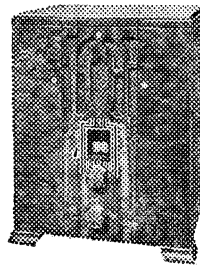

John Charles Thomas, heard over NBC-WHAM Wednesday at 9:30 p. m. Mr. Thomas, an American both by birth and education, sang his way to the Metropolitan Opera House from the Broadway musical comedy stage. The son of a Methodist minister in a little Pennsylvania town, he started out to study medicine but changed to music when he won a scholarship at the Peabody Conservatory of Music in Baltimore. For the past nine years he has divided his time between opera, concert and radio.

A description of the wedding of Prince George of England and Princess Marina of Greece at Westminster Abbey, London, will be shortwaved to the United States and broadcast over WABC at 5:45 a. m. eastern standard time, Thursday, November 29. Howard Marshall, commentator of the British Broadcasting Corporation will stand outside Westminster Abbey and describe the royal wedding procession as it approaches the church. The microphone will "pick up" the ringing of bells and the cheering of the crowd. Marshall will resume his commentary after the couple leave the church and a "mike" stationed inside will carry the actual ceremony.

Three hours of uninterrupted dance music every Saturday night will be inaugurated over the nationwide WEA-F-NBC network under the sponsorship of the National Biscuit Co. on December 1. Actually five hours of dance music will be used; the Eastern time stations will broadcast the program from 10:30 p. m. to 1:30 a. m., Rocky Mountain stations from 11:30 to 2:30 EST, and the Pacific coast network from 12:30 to 3:30 EST. Three orchestras noted for distinctive

types of dance music will be utilized in order to lend variety to the programs. Many dancing parties in homes are already being arranged as the radio audience accepts the sponsor's invitation—"Let's Dance".

More than 100 pairs of twins in the United States, ranging from a few months to six years in age, are eating from silver spoons engraved "Amos" and "Andy", sent to them by the real Amos 'n Andy because the names of the twins are, too, Amos and Andy. Freeman F. Gosden (Amos), and Charles J. Correll (Andy), have no idea how many twins actually have been named for them, but they do know that more than 100 pairs have, for Gosden and Correll have received letters from the parents of that many announcing the fact. The invariable custom of Amos 'n Andy upon receipt of such a letter is to send, with their compliments, a pair of silver spoons engraved "Amos" and "Andy".

# 14 Answers to Your Questions About Modernization Credits

## 1. WHO MAY APPLY?

Any property owner, individual, partnership, or corporation, with a regular income from salary, commissions, business, or other assured source. It is not necessary to be a depositor in the financial institution consulted.

## 2. TO WHOM DO I APPLY?

To any financial institution approved by the Federal Housing Administration; or to a contractor, building supply dealer, equipment manufacturer or retailer.

## 3. HOW MUCH MAY I APPLY FOR?

From \$100 to \$2,000, depending on your income, for improvements on any one property.

## 4. HOW LONG MAY NOTES RUN?

For any number of months from one to five years. However, the term of the notes depends entirely on the discretion of the financial institution which may at its option require loans to be repaid over such lesser periods as justified by the amount you can reasonably afford to pay each month.

## 5. WHAT SECURITY IS REQUIRED?

That you have an adequate regular income and a good credit record in your community. Other security may be accepted if deemed necessary by the financial institution to facilitate extension of credit; or if required by the law governing certain institutions.

## 6. WHAT ASSURANCE NEED I GIVE?

(a) That you own the property.

(b) That the annual gross income of the signers of the note is at least five times the annual payments to be made on the note.

(c) That your mortgage, if any, is in such standing that the financial institution is justified in approving the loan.

(d) That you will use proceeds solely for property improvement.

## 7. WHAT SIGNATURES ARE REQUIRED ON THE NOTE?

Signature of the property owner; and (except in special cases) if the owner is an individual and is married, also signature of wife or husband. No other co-signers or endorsers are required, unless necessary to facilitate a loan which could not be made otherwise.

## 8. WHAT IS THE COST OF THIS CREDIT?

The financial institution may not collect as interest and/or discount and/or fee of any kind, a total charge in excess of an amount equivalent to \$5 discount per \$100 original face amount of a one-year note, payable in monthly installments. Charge for longer periods than one year is on the same basis.

## 9. HOW DO I PAY THE NOTE?

By making regular, equal, monthly payments (seasonal payments for farmers) until the note is paid in full.

## 10. MAY THE OWNER OF ANY KIND OF PROPERTY APPLY?

Applications will be considered for credit to improve one-family, two-

family, or other residences; apartment buildings, stores, office buildings, factories, warehouses, farm buildings.

## 11. WHERE DO I MAKE PAYMENTS?

The regular installment payments will be made in person at the place of business of the financial institution; or by mail; or as otherwise arranged. No payment shall be made to any governmental office or organization.

## 12. MAY I PAY THE NOTE IN FULL BEFORE MATURITY DATE?

Yes, at any time. A reasonable rebate will be allowed for pre-payment, if charges have been collected in advance.

## 13. MAY I MAKE MORE THAN ONE PAYMENT AT A TIME?

Yes, as many as you wish, but such payments should be in exact multiples of the agreed payments—that is, if monthly payment is \$10, larger payments should total \$20, \$30, etc.—not, for example, odd sums such as \$18 or \$25.

## 14. WHAT IF I AM LATE IN MAKING MY PAYMENT?

The maker must not permit his payments to fall in arrears. Should a payment be more than 15 days late the financial institution's expense, caused thereby, should be reimbursed in part at the rate of not more than five cents per dollar for each payment in arrears. Persistent delinquency will make it necessary for the financial institution to take proper steps to effect collection in full.

### THIS AND THAT

Only 15 more shopping days be-  
fore Christmas.

On Tuesday evening, December  
11, at the State Armory, Nick Bai-  
ley's Akron Indians will meet the  
local Lacrosse team. The visiting  
team was here twice last year and  
each time defeated, but only by a  
close score. A good close game is  
expected. There will be a prelimi-  
nary basketball game at 7:15.

Is your kitchen modern? Its ev-  
eryday usefulness might be greatly  
increased by a new sink, enough

The Christmas Clubs for 1935 are  
now forming at the local Banks. It  
is expected that there will be a con-  
siderable increase in the savings in  
these clubs the coming year due to  
greatly improved business condi-  
tions.

Indicative of the widespread need  
for plumbing and heating improve-  
ments, says Mr. J. J. Calnan, presi-

per cent of the money loaned under  
the FHA plan in some cities is being  
invested in plumbing or heating  
modernization or extension work.

## GIUSEPPE'S CHRISTMAS WAS A GRAND REVELATION

Christmas was approaching and Giuseppe was lonesome. There were others in the school from foreign lands but no spoke Giuseppe's language.

Christmas had been so much fun in Italy. In the province where Giuseppe lived, a tree decked with oranges was the center of their Christmas festivities. All the relatives came to a big feast on Christmas day, and afterwards old and young danced around the orange tree, and, of course, some folks had a miniature manger with St. Joseph and other figures.

"I don't see how I am ever going to stand it," Giuseppe told his mother.

But she had smiled and said, "it will be all right, son. You'll see."

Then Christmas preparations began at school. There were carols to be sung—carols in five languages, and Giuseppe was to sing the carols of his country, all by himself. Giuseppe was very proud. There was a play with the manger and the wise men, shepherds, angels and Mary the Virgin, and Joseph. Giuseppe could hardly believe his ears when he found he was to be Joseph. And after the program there was the tree.

"It was grand, wasn't it?" Giuseppe said to his mother and father as they walked home together, and mother and father agreed.—Florence Harris Wells.

# THE COMMUNITY KITCHEN

Conducted by BETTY BROWN

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Meat Balls

- 2 lbs. ground beef
- 2 eggs
- 1 cup cracker crumbs
- 1 sweet pepper (chopped)
- 4 large onions (chopped)

Season mixture with salt and pepper, form into balls and roll in uncooked rice. Boil for 45 minutes in either one large can of tomatoes and 2 cups of water or 1 quart of tomato soup and 2 cups of water. E. C., E. Main St., Waterloo, N. Y.

## Orange Raisin Cake

- ½ cup butter
- 1 cup sugar
- ½ cup sour milk
- 2 eggs
- 2 cups cake flour
- 1 teaspoon soda, a little salt
- 1 cup raisins and one whole orange

Cream butter, sugar and eggs. Add milk, soda and flour. Lastly mix in raisins and orange, first removing seeds and white sections from orange and putting both raisins and orange, including rind through grinder. Mix well and bake in 2 layers. Frost as desired.

Mrs. L. O., Phelps, N. Y.

## Apple Brown Betty

- 3 cups chopped apples
- 1 cup dry bread crumbs
- ¼ cup melted butter
- 1 cup brown sugar
- 1 teaspoon cinnamon

Stir together butter, sugar, cinnamon and bread crumbs. Into a buttered baking dish, place first a layer of the crumb mixture and a layer of apples until ingredients are all used. Bake for 40 minutes in moderate oven (375°). May be served with cream or hard sauce.

M. K., North St.

## Baked Noodles, Cheese and Ham

- 2 tablespoons flour, a little salt and pepper
- 2 cups milk
- 2½ cups cooked noodles
- ¾ cup grated cheese
- 1 cup cold cooked ham, ground coarsely

Mix flour, salt and pepper to a paste in a little milk and add to remainder of milk, bringing slowly to boiling point. Put layer of noodles, ham and cheese into greased baking dish and cover with layer of sauce until all ingredients are used. Bake about one-half hour in hot oven.

O. B., Washington St.

## Candy Date Roll

- 1½ cups sugar
- 1 cup dates (pitted)
- ½ cup evaporated milk
- ½ cup nuts (chopped)
- 2 teaspoons butter

Cook dates, sugar and milk until a soft ball forms when dropped in cold water. Cool to luke-warm, add nuts and butter. Beat until thick and entirely cold. Turn onto board thickly dusted with powdered sugar and knead until it will mold well. Roll into long cylinder about 1 inch in diameter and let stand 24 hours. Cut in slices to serve.

C. B., Main St.

### "The Count of Monte Cristo"

The presentation of "The Count of Monte Cristo" at Schine's Geneva, Thursday, Friday and Saturday, brings to mind that, if memory serves us right, it was James O'Neill in "Monte Cristo" which opened the old Smith Opera House, of which Schine's is the successor. It is related that a party at that play was so engrossed in the story that when the statement was made "My Kingdom for a Knife" he shouted, "Here, I have one".

### Living Languages

There are said to be some 5,000 living languages. English is the most extensively spoken, with some 160,000,000 speakers. Neither India nor China has any one language which is spoken by so many people.

### The Way Out

A sixty-year-old married a girl of twenty. The next day he received a visit from his friend, who asked: "Did you seriously consider what you did? Now, you are sixty and she twenty. Such a match might be all right now, but in ten years you'll be seventy and she'll be thirty. What then?"

"Well, I can get a divorce and marry one younger."

Praise makes a wise man modest and a fool arrogant.

Keeping time with clothes, accessories become more and more interesting. And so, the new hats make new earrings important too. The new ones are legion. Gold, silver, or bright colored enamel stars are charming and are matched with a much larger star worn as a clip brooch. Jewelry which takes the form of thick rings of gold or frosted silver, can be worn as earrings or as cuff clips. A pretty novelty is a gold arrow, which looks exactly as if it has pierced the ear.

New evening ideas for milady are expressed in stiff fabrics. You would be clever to choose velveteen or Lyons velvet, faille, moiré, taffeta, lamé for an important evening dress. Net and tulle and lace, strangely enough, are much used, but they are often used stiffly and always quite tailored.

And you would do well to choose some deep, rich shade: Any of the purple shades running between wine red and sapphire blue; brown, deep green. White is not so important as it was. If you must have a pastel, let it be pink or blue.

Ladies' suits and coats are made to order at **A. P. Petersen's**, 476 Exchange Street, Geneva, N. Y. There, you also receive the highest grade of dry cleaning and pressing at reasonable prices. Altering and relining.

The neckline and the hemline are the dress this Winter. The hemline, because it is split, the neckline because it is so varied and usually flattering. The last word on necklines is collars, all sorts, but especially high collars. Standing ones about an inch high and higher ones that run up on the neck. And there are new cowls. Also lots of bibs and square necks. The bibs are detachable which makes the dress twice as useful, for with different bibs, the dress is different.

The Polo Coat has definitely arrived at that state of popularity to which it has been climbing for some years. Workaday girls find it invaluable because it fits so comfortably into any kind of weather, any kind of bus or any tea room. For cold days the new camel's hair ones have woolly plaid linings. These are detachable so that when rain or fog supplant the snow of legitimate Winter the light weight carries just the right amount of comfort. They look right smart too, with the velveteen dresses and bright chin chuckers which are so justifiably the rage.

## THE FUNNYBONE

### Real Cause for Grief

A Jew attended the funeral of a millionaire, and during the services wept as though his heart would break.

"What are you weeping for, Abie?" asked a friend. "He wasn't a relative of yours!"

"No, that's just vy I'm weeping," sobbed Abie, in a fresh outburst of grief.

### Cause for Delay

Sam, a colored fellow with a record previously clean, was arraigned before the justice of peace for assault and battery. "Why did you beat that man up?" asked the judge.

"He called me sumpin', Jedge."

"What did he call you?"

"He called me a chimpanzee, sah, a chimpanzee."

"Chimpanzee! when did this occur?"

"Bout three years ago, Jedge."

"Three years ago! Then how did it happen you attacked him yesterday?"

"Lawd, Jedge, I ain't never seen no chimpanzee till yesterday maw-nin'."

### Most Important in the Wardrobe

"Dear, this suit is pretty shabby. Shall I give it away?"

"Heavens no! That's the suit I go to protest against my income tax in."

### A Word of Caution

She had been hired for a job in the circus, and she said to the boss: "Is there any particular advice you would like to give me about the work?"

"Well," he said thoughtfully, "don't ever undress in front of the bearded lady."

### Great Men of History Dept.

Teacher (in history class): "Johnny, for what was Louis XIV chiefly responsible?"

Johnny: "Louis XV, ma'am."

**\$10.00 IN MERCHANDISE****FOR RURAL READERS**

In our issue of November 1, on page 13, under the heading "For Rural Readers Only", we advised that in our issue of December 6—the one you are now reading—we would publish FIVE NUMBERS, each one of which would be good for \$2.00 in merchandise.

Here they are:—

406; 1706; 1885; 1655; 2286

We told you to save the issue of November 1, complete.

Now look on page 14 of that issue and see if the number appearing under the heading "Here is Your Number" corresponds with one of the numbers listed above. If it does, mail the copy to us, complete, at once, and tell us from which advertiser IN TODAY'S ISSUE you would like to have \$2.00 worth of merchandise or service.

Remember, the numbers listed above appeared in our issue of NOVEMBER 1 and were delivered on RURAL ROUTES out of Geneva. If you have one of those winning numbers mail it to us at once, as above instructed, and a purchase order on the merchant you select will then be mailed to you.

The merchant from whom you would like the merchandise or service must have an ad IN TODAY'S ISSUE.

Geraldine Farrar, who will bring her own memories of the Metropolitan to the NBC audiences during the Opera Broadcast.

Metropolitan Opera, annual music treat for the vast radio audience, will be back on the air starting Saturday, December 29. Milton J. Cross will relate the stories of the operas and Geraldine Farrar will discuss the opera and the singers. She will entertain the listeners between acts with intimate, back-stage stories of her own and the present day at the Metropolitan Opera House.

The new American Broadcasting System is featuring many of the sporting events being held at the Madison Square Garden. At present they are broadcasting every evening at 10:30 from the Six Day International Bicycle Race. I have been listening to this network's programs over the experimental hi-fidelity station WIXBS of Waterbury, Conn., which operates on a wave of slightly over 1500 Kcs.

Edgar A. Guest and his radio associates will salute St. Louis on Tuesday, December 11, by presenting the Household Musical Memories from the Municipal Auditorium there to an NBC-WJZ network audience at 7:30 P. M. The city plans to make a festive affair of Guest's appearance. The auditorium with a seating capacity of 3,500 has been reserved exclusively for the broadcast. The entire Household staff will participate, including Charles Sears, tenor soloist, and Tom, Dick, and Harry, popular vocal trio.

Two elaborate three-hour radio shows, star-studded with operatic, movie, theatrical and literary figures will be presented over the nation-wide Columbia network as the Nash Motor Company's Christmas and New Year's gifts to the radio listeners. Lionel Barrymore, distinguished actor of stage and screen, will make his microphone debut as "Scrooge" in a condensed version of "A Christmas Carol" in the Christmas Day show. This three-hour show on New Year's Day will greet 1935 with entertainment galore from New York, Chicago and Hollywood.

Replacing Eddie Cantor on Sunday at 8:00 P. M. over the NBC-WEAF network will be heard condensed versions of well-known foreign operas. Deems Taylor will modernize the dialogues and write new English lyrics. Wilfred Pelletier, Metropolitan Opera Conductor will direct a large symphonic orchestra; a chorus of forty voices will be a regular part of the program.

### Did You Know

THAT Huyler's was started in a very small way on a side Avenue in New York City?

THAT after featuring molasses candy the business went ahead by leaps and bounds until today the name is known all over the world?

THAT the recipe for this molasses candy was obtained here in Geneva, N. Y., where it was known as Page's Molasses Candy, Mr. Page's store being in the neighborhood of where the Conniff Shoe Co. is now located?

THAT not only can older residents verify this, but Mr. Fowle, the baker, when he retired from business, mentioned Page's Candy Store in his reminiscences as one of the places in business when he started?

THAT in St. Catherines, Ontario, there was, some years ago, a meat dealer who made quite a reputation and no small amount of money featuring sausage, the recipe for which also came from Geneva, N. Y.

## CHRISTMAS IN CHRIST'S LAND IS WITHOUT SNOW

Little Christian children who live in Jerusalem or who are traveling there with their parents will not have a snowy Christmas. Snow almost never falls in Palestine, for the temperature is seldom below 38 degrees. When it does snow, the flakes melt as soon as they touch the ground.

Most of the people in the country where the infant Jesus was born do not celebrate Christmas, however! For only a few of them are Christians; most are Moslems or Jews. There are some Christmas trees in Christian homes, and gifts are exchanged among those who observe Christ's birthday. But there are no street decorations and no late shopping problems. The post offices have no big signs urging "Mail your packages early!"

Yet there is probably no place in the world more appropriate to visit at Christmas. The Holy Sepulchre is in the old part of the city, and at Bethlehem, six miles south, is a great church that has replaced the humble inn where Christ was born. Inside is a large flat stone on which the infant Jesus is supposed to have been laid, reminding us how Christianity grew from one humble life.—Frances Grinstead.

### This And That

Only three more shopping days  
before Christmas.

No matter what your Christmas  
shopping requirements may be you  
will find the GENEVA COMMUNITY  
NEWS a helpful shopping guide.

We surely appreciate the many  
fine comments received from our  
readers advising that our paper is  
read from cover to cover each  
week and is both useful and inter-  
esting.

The tone and performance of these  
new Philcos is a revelation.

Christmas shopping in Geneva  
last Saturday exceeded the mer-  
chants' fondest hopes. Reports  
from other cities give similar re-  
ports.

The publishers desire to make  
the NEWS interesting to you and  
will appreciate suggestions, or  
comments as to which departments  
interest you most.

### Christmas Presents to Suit Individual Tastes

Bertha Nevins and her best friend, Mary Parks, were discussing Christmas. "It's absurd, Mary," Bertha was saying, "for two grown women to spend quite a lot of money, as we do each year, for foolish presents."

"But, Bertha, we have no families, and it wouldn't seem like Christmas at all—"

"Oh, we'll exchange gifts, of course, darling. Only I think since we have been good friends for so long, we should be perfectly frank about what we want."

"You have something in mind," Mary smiled, and as Bertha agreed—"Well," she continued—"so have I. Something I've wanted for ever so long."

"What?" asked Bertha.

"Guess. It is put in my living room, near the window. The main part is small, and the outside need not be large—"

"What is it made of?"

"Wood, usually, and metal. Metal wires, anyway. And it will be company for me—"

"To have sweet melody floating on the air. Am I right? And the color doesn't matter so long as it has a clear tone?"

"Why, yes, but how did you guess so quickly?"

"Because I wanted exactly the same thing for just ages. I'll give you one and you give me one!"

But what Christmas brought to Bertha was a radio, while Mary got a cage and canary.

### Christmas Program At Oakmount

The Tapley Singers, under the direction of Grace Wynne Tapley, will give a Christmas program at Oakmount Saturday, December 22, at 3:00 o'clock. The Tapley Singers will also devote Christmas Eve singing Carols at the Hospital and Church Home.

### Poinsettias

Poinsettias require a temperature that does not fall below 65 degrees Fahrenheit. While the plants are blooming, the soil should be kept quite moist.

### When Christ Was a Child

It is good to be children sometimes, and never better than at Christmas, when its mighty founder was a child himself.

### Could Use It Now

It is believed by many scientists that man once had a third eye on the top of his head.

### Santa Claus Is Popular

"Dat gen'l'man Mistah Santa Claus," said Uncle Eben, "is sho' popular. Nobody else could carry around so much valuable wif'out sooner or later bein' hijacked."

### Needs No Ceremony

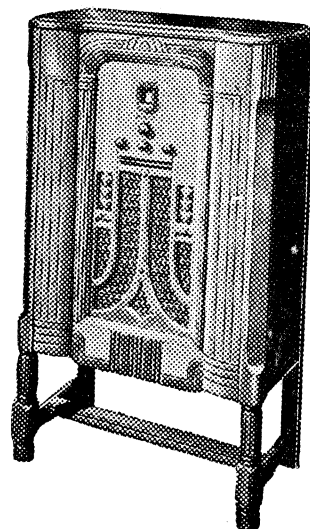

A real man is one who doesn't make a ceremony out of his charity.

**John Bunyan's Flute**

While John Bunyan, who wrote Pilgrim's Progress, was in prison his jailers heard music coming from his cell. They decided to take away his instrument, but the music ceased as they drew near the cell, and they could find nothing to show how the music was made. From time to time the music sounded, but only Bunyan and his book were found. What had happened was that Bunyan made a flute from a loose rail in his stool, and on hearing the gaoler's step he would slip it back into its place and pore over his book.

## Cranberries with Orange

1 pkg. Knox gelatine  
 $\frac{1}{2}$  cup cold water  
 $1\frac{1}{2}$  cups hot water  
 Mix and cool. Add following:  
 Rind of 2 oranges  
 Juice of 3 oranges  
 3 cups sugar  
 1 lb. cranberries  
 2 apples  
 (Oranges, cranberries and apples should be ground)

Mrs. M. T., E. William St.,  
 Waterloo, N. Y.

## Orange Aspic with Chicken

2 tablespoons granulated gelatine  
 $2\frac{1}{2}$  cups strained orange juice  
 Soak gelatine in  $\frac{1}{2}$  cup of cold orange juice and dissolve in remaining juice that has been heated to the boiling point. Decorate large mold with sections of orange and pour in enough cool aspic to cover. When starting to stiffen fill with chicken salad. Chill until set and serve on lettuce with cooked salad dressing.

C. B., Washington, St.

## Cranberry Spice Cake

$1\frac{1}{2}$  cups stewed cranberries  
 $1\frac{1}{2}$  cups brown sugar  
 $\frac{1}{2}$  cup butter  
 3 eggs (separated)  
 1 teaspoon baking soda  
 2 cups flour  
 1 teaspoon each of cinnamon, nutmeg and cloves

Cream butter and sugar, add egg yolks, well beaten. Add flour, soda and spices mixed together. Add cranberries and fold in egg whites beaten to a stiff froth. Bake in moderate oven in loaf.

E. S., Swift St., Waterloo, N. Y.

## Pineapple Rice Whip

$\frac{3}{4}$  cup rice  
 $\frac{1}{2}$  cup sugar  
 1 can shredded pineapple  
 $\frac{1}{2}$  pt. whipped cream

Boil rice until tender, add sugar and cool. Add the pineapple and whipped cream and beat all together until light and fluffy.

Mrs. D. M. S., Colt St.

## Onion Au Gratin Soup

3 onions, chopped  
 3 tablespoons butter  
 3 cups beef broth  
 $2\frac{1}{4}$  cups rich milk  
 Salt, pepper and cayenne to flavor  
 3 stale rolls, cut in halves  
 1 cup grated cheese

Saute onions in butter for 5 minutes, do not brown. Add broth and simmer until onions are tender. Add milk and seasonings. Sprinkle rolls with cheese and set under broiler to melt cheese. Place rolls in soup plates, cover with soup and serve hot. Serves 6.

### Living Christmas Trees

Longer life for Christmas trees is advocated by the United States forest service, in a note suggesting that a living tree with roots properly balled and packed in a box may be used indoors and later set out to beautify the grounds.

### Making Sugar Toys

Sugar toys may be made according to the follow directions: 4 pounds of sugar, 2 ounces of corn sirup, 1 pint of water. Boil to 240-242 degrees, then stir until cloudy and pour in plaster of paris moulds that have been drained after soaking in cold water for two or three hours.

### Good King Wenceslas

Good King Wenceslas, immortalized in the well-known carol, was really a Bohemian prince who died in A.D. 935. His name should properly be spelt "Wenceslaus." He was famous for his great kindness to the poor and needy. When, in September, A.D. 935, he was killed by his brother, Boleslav, the people of the country were heartbroken. He is still regarded as their patron saint. —Tit-Bits Magazine.

### The Green Christmas Tree

In order to keep the tree green all the time it is on display, cut a small piece from the base of the tree so that a new surface is exposed. Then set the tree in its support with a small pan containing water in the center so that the base of the tree is resting in the water all the time. Add an aspirin tablet to the water and prepare to have a flourishing tree this year.

### Drinking Water on Vessels

Many of the large ocean steamers have equipment for producing drinking water from sea water. The fundamental elements in the apparatus are described as a steam generator or evaporator in which the sea water is vaporized by means of superheated steam obtained from a special boiler or the engine boiler; a condenser combined with an aerator and a refrigerator with which in many cases a filter is combined.

The old-fashioned girl blushed when she was ashamed. The modern girl is ashamed if she blushes.

### Gems Believed to Have Sex

For many centuries various gems were believed to have sex and the ability to produce offspring. Between 400 B. C. and 1600, there were numerous accounts of germinating diamonds. As late as 1913, the pearl-fishers of Borneo saved every ninth pearl in the native conviction that it had some power to breed others of its kind.—Collier's Weekly.

### The Double Cross

The double cross is known as the cross of Lorraine or the patriarchal cross, which dates back to the Ninth century, when it became the emblem of the eastern branch of the Christian church. It symbolizes hope and humanity and was adopted as the badge of the war against tuberculosis in 1902 at the International Conference on Tuberculosis in Berlin. In 1906 it was formally adopted as the emblem of the National Tuberculosis association.

Have you seen **Mrs. Wynne's** beautiful exhibition of fine needlework? Lovely crocheted collars of wool and boucle, white wool dogs, breakfast sets, silhouette pillows, children's aprons, pastel shade bathroom rugs, hooked mats, jabots and quilts. Call at **81 Maxwell Avenue** or phone **6229**.

Mature women must guard against too lavish a type of coiffure. Every mature woman should realize the importance of a becoming hairdress. It doesn't necessarily have to be straight—if waves are flattering, by all means wear them.

—D—

**McCarthy's Pharmacy** has set aside one counter which contains a large variety of lovely gifts—all less than \$1.00. There are toilet sets, manicure sets, bath salts, powder, etc.

—D—

The most common-place gift is glamorous if it comes in a gay Christmasy-looking package. But to look well, the wrapped articles must have a neat, professional touch. Don't overload a box. In gift wrapping also, simplicity is a virtue. Seams should come on the ends or bottom of the package—never across the top. Allow about one inch overlap. Heavy, sleek, black paper, decorated with a sprig of real holly gives a sophisticated and cheery effect. Wrappings of luscious shades of blue, gold, orange and purple are very popular.

—D—

Call **2011**, **Ringer's Bakery** and order a delicious fruit cake either for yourself or as a Christmas gift for a friend. Or select one of their angel food cakes, chocolate layer cake, spice, or white cocoanut.

—D—

Don't ever become slack about removing your make-up before retiring. Leaving it on just one night can have disastrous results. So don't take the chance.

Have you seen the Goatskin rugs from China at **Lynch's**? They are only one of the many beautiful articles being shown at this store which will make ideal gifts. Silk Comforts — Wool Blankets, etc. Shop at **Lynch's** before you buy.

—D—

Don't forget about your looks just because you are wrapped up in Christmas. Parties are ahead for you. Take care of your complexion and your hair. Cramming for good looks is never successful. Be sure your party clothes are in shape for holiday festivities.

—D—

Don't forget that **McCarthy's Pharmacy** is also selling cigars and cigarettes at the **lowest prices** in the city. A large assortment of candy, in Christmas wrappings, from 25c to \$4.00, includes Foss' and Whitman's candy.

—D—

Why not add a new dress to your wardrobe? Pick out the material you really want and select your own pattern. Then call on **Mrs. Barbour, 60 Colt St.** Be able to tell your friends you have the dress and at a lower price. She also repairs, relines, and alters coats and dresses.

—D—

The masked ball is coming back on both continents. Another novel feature of this ball is that the guests dine tete-a-tete at tables for two located in various quiet and sequestered nooks about the legation, excluding the buffet supper and banquet.

—D—

You will find lovely gifts at **Prince's Jewelry Store, 20 Linden St.** New jewelry, bracelets, earrings, silver and gold rings, vanities and cigarette cases are only a few articles of new Christmas stock.

—D—

Smart indeed, are the new scarfs, with pressed-on initials in such popular colors as white, coral, green, blue, rust, brown and black.

"George's" is announcing a new feature, "**Emerson Radios**", the largest selling little radio. Prices from \$19.95 up. Drop in anytime and see them. Try one out!

Don't forget the Christmas Candy Line, **George's Candy Kitchen, 364 Exchange St.**

Do you like the new evening bags? Some are made of sequins, rhinestones and pearls. Others are of rich brocades and jewel toned velvets. They are dainty to carry, yet large enough for make-up.

**RADIO FLASHES****By Ralph Le Brun**

The most famous babies in the world—the Dionne quintuplets of Ontario—will make their radio debut over the networks of the Columbia System and the Canadian Radio Commission on Thursday, December 20, at 8:15 p. m. The care and feeding of the five tiny girls, even their crooning and crying, will be revealed to listeners from the small modern hospital which has been built on the Dionne farm.

Sunday at 12:45 p. m. over the Columbia system a special international broadcast from Montserrat, Spain, will bring to the American radio audience for the first time the chants and pre-Christmas prayers of the Benedictine monks.

Grisha Goluboff, 11 year old violin prodigy, will be the guest artist on Little Miss Bab-O's Surprise Party over WEA-F-NBC Sunday at 1:30 p. m. Recently Henry Ford placed at his disposal for all his concerts a \$100,000 Stradivarius which he will play in his radio appearance.

"Hansel and Gretel", Humperdinck's fairy tale opera, will be presented in English in a condensed hour version on Sunday at 8:00 p. m. over NBC-WEAF network. Playing the leading roles in Deems Taylor's version of the famous German folk tale will be Queena Mario and Editha Fleischer, distinguished sopranos of the Metropolitan Opera Co.

Will Rogers, ace American humorist, will return to the "Gulf Headliners" for another series of appearances on Sunday at 9:30 p. m. over the Columbia System.

Early Christmas morning listeners (8:55 a. m.) will hear one of the most elaborate international broadcasts in radio history. Yuletide festivity including the ringing of bells in such far off places as Bombay, India, and Wellington, New Zealand; the Big Ben chimes in London and a personal Christmas greeting from King George of England.

Also on Christmas Day over the Columbia System the Nash Motor Company has assembled a distinguished roster of stage, screen and radio stars to embellish their Christmas Party, which lasts until 5:15 p.m. These include Lionel Barrymore, Alexander Woolcott, George Olsen and his Orchestra, Ethel Shutta, Madame Schumann-Heink and others.

**Christmas Luck; Omens****Used in Days Long Ago**

Do you know that a full moon at Christmas day is supposed to be unlucky, the saying going:

"Light Christmas, light wheat-sheaf; dark Christmas, heavy wheat-sheaf," and that a windy Christmas and a calm Candlemas were held as omens of a good year. Rain during the twelve days after Christmas was said to foretell a wet year to follow. When decorating the house with Christmas holly, be careful not to burn any leaves or berries that fall, but put them carefully away until Twelfth Night, when they should be burnt with the rest of the decorations. Then luck and happiness will follow; but if so much as a holly leaf is burned beforehand, you are courting disaster, say the old-fashioned country folk who set store on Christmas omens. Look to your fire on Christmas day, for if it burns brightly it is a sign of prosperity; if, however, when the fire is first lighted it smoulders and refuses to "draw," set-backs may be looked for during the year to come.

Wear something new on Christmas day if possible, "for luck," and be very careful to put on no garment with a hole or tear in it, otherwise you will lose money. Also, remember that the first words spoken in the day should be cheerful; to speak a word of grumbling is to court bad luck.

## THE FUNNYBONE

### No Sympathizer

Blonde waitress: I have stewed kidneys, boiled tongue, fried liver and pig's feet.

Hardboiled salesman: Don't tell me your troubles, sister. Give me a cheese sandwich.

### Uncertain Futures

"How about a tip on the market?" said the confidential friend.

"Information is so uncertain," answered Mr. Dustin Stax "that you'll have to pay your own fortune teller, same as I do."

### Named

The artist was of the impressionist school. He had just given the finishing touches to a purple and blue canvas, when his wife entered the studio.

"My dear," said he, "I have just completed my landscape, and I should like you to suggest a title for it."

The good lady took a long look at it and then murmured: "Why not call it 'Home'?"

"But why 'Home'?" said her husband.

"Because there's no place like it," she meekly replied.

### Mark Twain as a Reporter

Mark Twain, when he was working on a newspaper once, was sent to report a wedding. He told all about the ceremony, in his quaint way, and closed with this:

"Conspicuous among the wedding gifts was a ton of coal that had been in the bride's family for five generations. This was much admired, by reason of its old-time massiveness—it being much heavier than the tons of coal of today."

### To Be Sure

Policeman (to schoolboy): "Who owns this cow and calf?"

Schoolboy: "I don't know who owns the cow, but I have an idea who owns the calf."

Policeman: "Well, who owns the calf?"

Schoolboy: "The cow."

The many instances one reads of disastrous fires caused by cigarettes is one which appeared in the Rochester Times Union of Friday, Dec. 14, of a hotel fire in Lansing, Mich. where 32 lives were lost.

IN-N-OUT Smoking Tube and Extinguisher eliminates such possibilities and in addition the cotton packing prevents the small particles of tobacco from getting into the throat which cause the cigarette cough.

### Hotel Has New Manager

Hotel Seneca at Geneva announces the appointment of Mr. G. Allen Smith as manager, effective December 5th, 1934.

Mr. Smith is not unknown to Hotel Seneca as he has for past 15 years been engaged as hotel auditor while in employ of Wilson Shults Co., certified public accountants of Rochester, N. Y.

Manager Smith has completed arrangements to entertain a large crowd New Year's Eve. Special music and entertainment has been engaged. The New Year's Eve supper including dancing, souvenirs, and entertainment will cost \$4.50 per couple. Many reservations have been received to date for this gala event.

### Riches in the Sand

Bahai, once the capital of Brazil, is the great cocoa port of that country. The state of the same name produces as much tobacco as Cuba. It produced the largest diamond ever found—3,150 carats. Also, the sand is so full of minerals that it is worth \$100 a ton.

### Forever a Babel

"Foreigners" are nothing new to New York. In 1638, as a mere village with less than 1,000 inhabitants, no less than eighteen different languages were heard spoken in it.

### Food for Turtles

The brown trout is said to be an easy prey to snapping turtles because of its habit of talking refuge under stones and in crevices when disturbed.

### Salaaming the Crocodile

Worshippers at the sacred crocodile pool in Karachi dye their foreheads red, and "salaam" the oldest reptile whenever it appears on the surface.

**Did You Know**

THAT the first weather signals given out in Geneva were "Fine and Cooler" and came from the second floor of the building formerly located where the Loan building now stands—that being the office of the Police Justice at that time.

THAT on the other side of the hall, or where the building of Thos. H. Sweeney & Sons now stands, were the meeting rooms of the executive department of the village.

THAT on the ground floor were kept the steam fire engines, some of those who were active in their operation at that time still being associated with the City Fire Department.

THAT across the street, about where the Cass Florist Shop now stands, was located the headquarters of the Folger Hook and Ladder Co., these two companies having the only horse drawn apparatus at that time.

THAT the horses used were kept busy in the day time drawing the wagons of the Street Department and not infrequently an alarm would be sounded when the horses were at the extreme ends of the city and after rushing to Seneca Street were well near exhaustion before they started their run to the fire. In winter a bob sled was equipped for the "Hooks" to use.

EDITOR'S NOTE—In reference to the article appearing in the December 6 issue of the News (under heading of "Did You Know") about the Page Candy Store, one of our readers called up to say that he knew Mr. Page and also added that if his memory served him correctly the founder of the B. Altman Co. store in New York once operated a store on Seneca Street, about where the Neisner store is now located. He also added that the location of the Page store was about where Pettit's Restaurant now stands.

Items of interest in the "Did You Know" department are invited.

## THIS AND THAT

Among the New Year's Eve ac-  
tivities in Geneva are parties at both  
the Seneca and Kirkwood Hotels  
and the Charity Ball at the State  
Armory, this latter being the fifth  
annual affair of its kind under the  
auspices of Geneva Lodge, No. 965,  
F. & A. M.

On Friday and Saturday of this  
week, John Van Arnam and His  
Honey Boy Minstrels will appear  
at Schine's Geneva Theatre. This is  
the first minstrel show to play in  
Geneva in a long time. There will  
be no advance in prices for this spe-  
cial attraction. Watch for street pa-  
rade.

We wish to thank the many read-  
ers and advertisers who have com-  
mented so favorably on our issue of  
last week.

We also wish to again thank the  
many advertisers who have contrib-  
uted to the success of our paper dur-  
ing 1934.

Another year—another mile!

This way the human pathway lies;

So press we onward with a smile;

Ah, who would have it otherwise?

## It Pays to Be Fat!

After studying 2,000 candidates  
for the R. A. F., a medical officer  
states that overweight is better than  
underweight; heavier men can stand  
prolonged mental and physical stress  
and are less liable to disease than  
their slimmer colleagues.—Answers

## Sabbatical Year

A sabbatical year was originally  
the one year in seven when all land  
was allowed to lie fallow by the an-  
cient Jews. The term is now applied

Conducted by BETTY BROWN

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Orange Puffs

1 cup bread crumbs  
 ½ cup rich milk  
 2 egg yolks  
 Grated rind and juice of 1 small or ½ large orange

4 egg whites  
 ½ cup sugar

Cover bread crumbs with milk. Beat egg yolks until light, add rind and juice of orange and combine with bread crumbs and milk. Beat whites stiff and add sugar. Add to other ingredients and bake in a pan of hot water for 30 to 40 minutes in moderate oven. Serve with a custard sauce. M. E., Main St.

## Butter Scotch Cake

½ cup shortening  
 1½ cups brown sugar  
 2 eggs  
 1¾ cups pastry flour  
 ¼ teaspoon soda  
 2½ teaspoons baking powder  
 ½ cup strong coffee  
 1 teaspoon vanilla

Cream sugar and shortening, add unbeaten eggs, one at a time and stirring well after each addition. Add flour which has been sifted four times with soda and baking powder. Lastly add coffee and vanilla and bake in loaf pan about 50 minutes. Frost with sea foam or brown sugar frosting.

Mrs. A. D., Colt St.

## Vegetable Pie with Potato Crust

2 tablespoons butter or bacon fat  
 1 medium-sized onion, chopped  
 1 cup meat cut in cubes  
 1 cup milk  
 1 cup cold cooked carrots, chopped  
 1 cup cold peas  
 1 cup cold cooked potatoes, chopped  
 Salt and pepper

Slice onion and brown it in fat. Add meat and sear it well; add milk and vegetables; and salt and pepper to taste. Turn into a baking dish and cover with potato crust and bake in a moderate oven (350 degrees F.) for 30 minutes, or until well browned.

Crust: One cup hot mashed potatoes, one-half teaspoon salt, two tablespoons melted fat, one egg, beaten, one teaspoon baking powder, flour enough to make soft dough. Combine ingredients in order given; roll mixture to about one-eighth inch in thickness on a well-floured board. L. S., Border City.

### Called Dowsters

In England water diviners are a well-organized profession. They call themselves "dowsters," although after the manner of their American brethren, they practice their trade with the aid of the proper mumbo-jumbo and a hazelwood rod.

### Compiles Living Costs Data

The bureau of labor statistics, Department of Labor, compiles data on living costs from certain selected cities throughout the United States. These are published in the Monthly Labor Review.

### Shark Oil Barometer

A barometer of Bermuda is made by placing shark oil in a bottle. In good weather it is clear, but with the approach of a storm it turns milky.

### Limestone Yields "Whiting"

The painting pigment known as "whiting" is made from limestone, a large portion of which comes from England's famous "chalk cliffs of Dover." Whiting is used chiefly as a base for calcimine and for making putty.

### Animals Were Mummified

Animals and birds venerated by the Egyptians, such as dogs, crocodiles, ibises and falcons, were mummified in large numbers.

A velvet wrap is just right to wear over your evening frock. The new ones are made with long, smooth lines and deep cuffs of fur that form a muff to keep your fingers warm.

—D—

Are you having a new dress? **Mrs. Barbour, 60 Colt St.,** has a reputation for her fine dressmaking. Select your own pattern and material. Why don't you have one of your old dresses made over? She repairs and relines both coats and dresses.

—D—

Table linens have left the class of delicate pastel tints and are newest if they are damask in natural linen color, with white pattern, in tan and white; in dark colors and white. But tan is the best selling color just now in leading shops.

Ladies will be glad to take advantage of this special offer at **A. S. Bauer's, 43 Seneca St.** For a limited time, a made-to-measure skirt will be given, absolutely free, to every customer buying a coat or suit. The customer can select any style and any cloth of the same grade quality as her order.

—D—

New vases, flowers bowls and similar accessories, when not in one of the new metals, are this winter in reproductions of nineteenth-century pottery, also in tole, which was originally painted tin but now may be brass similarly painted. Many Chinese bowls, vases, and urns are in evidence in such collections, especially in white, ivory and beige colorings.

—D—

A new fare policy is now in effect on the **City Bus Line** under which it is possible to purchase a six-day ticket good for an unlimited number of rides—for **\$1.00**. These tickets may be purchased at any time and are good for six consecutive business days. They are also transferable. The regular single fare of 10c remains in force, as does also the regular "13 tickets for \$1.00" arrangement.

The management of **Pettit's Restaurant, Seneca Street,** wish to express their appreciation of the patronage accorded them during the past year and to extend to all friends and patrons their best wishes for a most happy and prosperous New Year.

A Parisian hairdresser has announced that bangs will be popular again. Only you don't call them bangs. The short wisps that stray carelessly from the hairline down over the forehead are a fringe. And while small curls still cluster around over the head, they fit in closely so that the eyes may appear larger.

**Gleaned from Here and There**

(The 22nd of a series of quotations from the collection of M. F. Devaney)

"There's nothing so bad but it might be worse."

"You can fool some of the people all the time, and all the people some of the time, but you can't fool all the people all the time."

"Tell a man often enough that he doesn't look well and you'll send him to the hospital."

"Determination leaves nothing to be done but to act and when you act the thing will be done."

"Flattery is the tribute which a bee pays to a flower from which it expects to extract honey."

"You can meet trouble better when it comes than before it comes."

"Paradise is something that is earned, not inherited."

"Nothing can floor you if you are right inside. That goes for everything, even for the things folks call disaster. Keep right with yourself, remember your soul has to live alone."

Zeigfeld's motto was: "One third glamor, one third merit and one third advertising".

"Before you criticise a person see what you would do under the same circumstances."

(To be continued)

**Constancy**

"I wonder if you'll love me when my hair has turned to grey?"

"Why not? I loved you the other times you changed colors."

**Perfect for the Part**

Actor: "So you're going to use me in your next play? Apparently you've discovered at last what I am."

Director: "Yeah, hurry and get into the hind legs of that stage horse over there."

## THE FUNNYBONE

### No Change

The old man wrote to the college professor: "Haven't heard from my son for some time. Hope he's not sick. If he has been I hope to hear he's improving."

The professor replied: "Son not sick, and not improving."

### One by One

Alice—I'm going to get a hair cut tonight.

Annie—Why not get them all cut?

### Good Deed for Devils

Rodney (after being at Sunday school)—Say, dad, our lesson told about the evil spirits entering the swine.

Father—Yes, my son. What do you wish to know?

Rodney—Was that the way they got the first deviled ham?—Pathfinder Magazine.

### Silence Is Golden

Talkative Lady—A big man like you might be better occupied than in cruelly catching little fish.

Angler—Perhaps you're right. But if this fish had kept his mouth shut he wouldn't be here.

### Experienced

She—Now what are you stopping for?

He (as car comes to halt)—I've lost my bearings.

She—Well, at least you are original. Most fellows run out of gas.

### Unkind

"Yes, Willie," a man said to his little son, "you kept your promise to run all the errands without growling last month, and so I'm going to keep my promise and reward you."

The man took out a \$5 gold piece and a silver dollar.

"Now, Willie boy," he said, for he was a great bluffer, "which of these nice coins will you have?"

"I won't be selfish, pap," said Willie, who was a chip off the old block, "I'll take the little one."

But his father slipped the gold piece back into his pocket.

"For not being selfish," he said. "I'm going to give you the big one."

### Relative Importance

The doctor was examining school children. One youngster was under weight.

"You don't drink milk?"

"Nope."

"Live on a farm and don't drink milk at all?"

"Nope, we ain't hardly got enough for the hogs."—Ex.

### Two Definitions

Son — What does the word "chauffeur" mean?

Father—That is the name given to the driver of a motor-car.

Son (after a moment's thought) — That was not the name you gave to the driver of the car that nearly ran over you yesterday.

### Knew all the Answers

Jackie—Mums, I bet Dad was always in mischief when he was a boy like me!

Mother—Jackie! Whatever does make you say that?

Jackie—He always knows the right questions to ask me when he wants to find out where I've been and what I've been doing.

The many instances one reads of disastrous fires caused by cigarettes is one which appeared in the Rochester Times Union of Friday, Dec. 14, of a hotel fire in Lansing, Mich. where 32 lives were lost.

#### War Notes in Pipe

The most ingenious device for concealing notes was used by a spy during the World War. It was a pipe which, although constantly smoked, carried numerous tissue paper memorandums in a secret space between the interior and exterior walls of the bowl. In an emergency, an innocent twist of the overlapping rim would have caused the burning tobacco to consume the papers.

—*Collier's Weekly*.

#### Cause of Crimes

In the light of the teachings of psychology, most crimes are greatly influenced by physical or psychological abnormality or by social factors over which the individual may have comparatively little control.

#### Seventeenth Century Clock

A Seventeenth century clock which belonged to Catherine II and which had been silent since 1915 was repaired in Leningrad. At noon a peacock spreads a golden tail, a rooster crows and an owl, sitting on a tree branch, strikes a chime.

#### No Time to Sleep

"He who dozes on his doorstep", said Hi Ho, the sage of Chinatown, "may awaken to find that creditors have taken possession of the house behind him."

#### Cradle of Mass Production

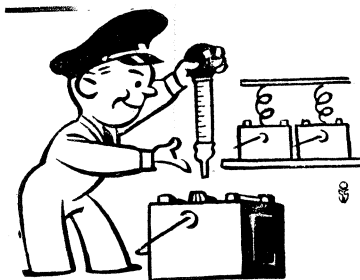

The cradle of mass production is Jonkoping, Sweden, where in 1872 the standardized Lagerman match making machine innocently started the controversial subject of technological unemployment.

### THIS AND THAT

It is said that a "real" salesman  
says something good about his  
competitors or makes no mention  
of them whatever.

Beard's new electric sign is at-  
tracting considerable attention at  
93 Castle St.

Are you advised on one of the  
foremost subjects before the Amer-  
ican public today—the Townsend  
Old Age Pension plan? It vitally

affects all citizens. Are you for it  
or against it? A good opportunity  
to learn about the plan will be of-  
fered this coming Sunday. (See ad,  
page 3).

Well, the hustle and bustle of  
Christmas buying is over. About  
the only ones who are not well  
pleased with their business this  
year are the merchants who made  
no effort to induce buyers to come  
in.

Mr. J. Freedman, Furrier, of 114  
Seneca Street, has just returned  
from New York City, where he  
purchased a quantity of sample fur  
coats which he is offering at at-

The Christmas and New Years  
Holidays may be over, but the day  
(and nights) when a modern radio  
can be a source of education and  
amusement are never over. The  
performance of the 1935 Philco,  
with its short wave reception of  
foreign stations is a revelation.  
Stop in at the Maytag Sales &  
Service, 324 Exchange Street, for  
a demonstration.

### Banana Leaves

The long, narrow leaves of the  
banana have a cool, refreshing green  
all their own, which lends a tropical  
atmosphere. They are put to a novel  
and amusing use by negro children  
in Bermuda, who are seen walking  
down a road during a rain, balanc-  
ing on their heads a banana leaf for  
an umbrella. The leaf is frequently  
larger than the child and it affords  
ample protection.

The science of manners is prob-  
ably more important than we gener-  
ally believe to the happiness and the  
virtue of men. If virtue leads to con-  
duct, conduct leads to virtue: now  
manners are an essential part of con-  
duct. Therefore let us train our-  
selves on all occasions, in fine, sim-  
ple, fitting manners, if we would  
reach the heights of goodness.—  
Joubert.

# THE COMMUNITY KITCHEN

Conducted by BETTY BROWN

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Angel Food Pie

4 whites of eggs  
1 cup sugar  
¼ teaspoon cream of tartar

Beat whites of eggs very stiff. Add the cream of tartar to the beaten whites and beat well. Add sugar, one teaspoon at a time, beating well after each addition, until all of sugar is used. Bake mixture in greased pudding pan in slow oven for 45 to 60 minutes. When done, take from oven and cool. Serve topped with whipped cream into which has been folded any favorite fruit.

A. M. H., Genesee St.

## Peppermint Mousse

½ lb. peppermint candy (shiny brittle sticks or wheels)  
1 cup plain cream  
2 cups whipping cream

Method: Crush peppermint candy in cloth bag. Partially dissolve candy in plain cream over hot water. While there are still some larger chunks apparent remove from the hot water and chill. Whip cream until stiff and fold in syrup. Place in tray of mechanical refrigerator or freeze in equal parts of salt and ice. Amount—6 servings.

E. C., Exchange St.

## Date and Nut Torte

1 cup sugar  
½ cup milk  
2 eggs  
1 heaping tablespoon flour  
1 teaspoon baking powder  
1 cup dates (chopped)  
1 cup nut meats (chopped)

Mix in order given and bake in slow oven for one-half hour.

Mrs. J. E. H., Lyceum St.

## Fruit Pudding

¼ cup shortening  
1 cup molasses  
1 cup milk  
2 eggs  
3 cups whole wheat flour  
1 teaspoon soda  
1 teaspoon salt  
2 cups raisins

Melt shortening, add molasses, milk and beaten eggs. Add dry ingredients which have been sifted together, then raisins. Mix well, pour into mold or individual molds and steam for 1½ hours. Serves 12. Serve with pudding sauce.

## Chicken Loaf

1 egg, well beaten  
½ teaspoon salt  
¼ cup milk, scalded  
1½ cups mashed potato  
1½ cups cooked chicken (chopped)  
1 teaspoon minced parsley  
¼ teaspoon paprika

Add beaten egg, salt and scalded milk to mashed potato. Add chicken, parsley and paprika. Turn into greased baking dish and bake in moderate oven until brown. Serves 6.

## Whale Is a Mammal

One of the commonest popular errors of zoology is a notion that the whale is some sort of fish. It is not; it is a mammal which went to sea, asserts a writer in the *Cleveland Plain Dealer*. The whale is warm-blooded, has a well-developed brain and in all other respects shows a far higher organization than any of the fishes. Its young are born alive, and are suckled and cared for by the mother as with land mammals.

**"Stone Kindling" Starts Fires**

Stone "kindling" is used to start fires. It is in the form of a synthetic stone which, when soaked in kerosene, burns for ten minutes. It can be used repeatedly, as it does not break down in the heat and absorbs the fuel, thus permitting it to burn gradually when soaked in lard for the same purpose and when coal oil was first employed as fuel, deposit of a peculiar granite was found which was used in the same manner.

## HOUSING HINTS

### Tips on How and What to Improve

#### Light for Laundry

A reflector and a 100-wat bulb, installed over the washing machine and laundry tubs, makes it easier to inspect soiled pieces.

#### Illuminate Porches

Illuminated porches makes them safer, more convenient, and usable. The house number, placed within the range of the electric light or individually illuminated, makes it easier to locate the house at night.

#### Light in Closet

An electric light, installed in each closet, makes it more convenient, as well as safer, and is an aid to cleaning.

#### Save Trees' Lives

Have you a cherished tree that is dying? Intelligent surgery may yet save it. Look over all of the trees on your property for broken limbs, dry rot, and boring parasites. Remember that fine, healthy trees add to the value of your property.

#### Fix Up Approaches

Business buildings, apartments, and rooming houses with unattractive approaches labor under a heavy handicap in their bid for patronage. In most cases comparatively simple alterations would remedy matters. The increase in custom would speedily repay the loan needed for this renovation.

#### Improve Lighting

Stair lighting can be materially bettered by the placing of windows at the bottom, side and top of stair cases whenever the construction of the building permits. Modernization work of this character is eligible for financing under the credit plan of the Federal Housing Administration. Such windows also make possible improved ventilation.

#### Paint Kills Germs

One advantage in painting that is seldom appreciated is its healthfulness. Painting kills germs, it has been pointed out by the National Tuberculosis Association.

### Effective Discipline

He was talking vigorously against corporal punishment for boys, which he declared never did any good.

"Take my own case," he said. "I was never caned but once in my life and that was for speaking the truth."

"Well," came a voice from the rear, "it certainly cured you."

### Honesty in Business

"There's only one honest way to make a living."

"And what's that?"

"I thought you wouldn't know."

### The High Cost of Language

### Tardy Service

Bellhop (after guest has rung for ten minutes): "Did you ring, sir?"

Guest: "No, I was only tolling. I thought you were dead."—Tiger.

### Not Much Change

Read—Well, Biff, how are you feeling today?

Holye—Well, I feel about the same every day except pay-day, when I feel a little change.

### Come Over on Our Side

"Mr. Chairman," said the speaker, "there are so many ribald interruptions I can scarcely hear myself speaking."

"Cheer up, guv'nor," said a voice. "You ain't missin' much!"

### Hardly

"What makes you think there is a woman in the moon?"

"No man would stay up there that long alone, and be out every night."—Ex.

### Confusing

## RADIO FLASHES

By Ralph Le Brun

Richard Bonelli, who sings a leading role in the Opera Guild's "Tales of Hoffman" to be broadcast over NBC-WEAF Sunday at 8:00 P. M. Bonelli is a native of New York State. He worked his way thru Syracuse University by singing in a church choir and clerking in a bank.

Under the title of "Club Romance", is a new musical and dramatic serial, with a night-club as the center of its activity, will be launched over the Columbia network Sunday from 8:00 to 8:30 P. M., until February 3, when the new CBS series featuring Eddie Cantor will occupy that time and "Club Romance" will move to the next half-hour, from 8:30 to 9:00 P. M. Lois Bennett, soprano, and Conrad Thibault, baritone—both prominent stars of the air—will be featured as the singing leads of this program.

Completing the first 10,000 miles in search for material for Death Valley Days, Ruth Cornwall, author of the sketches broadcast over NBC networks, returned to New York recently from her fourth trip to Death Valley and the desert country of California and Nevada. An actual gold rush in which Miss Cornwall joined was one of the high spots of this last trip. The strike, characterized by old mining men as the biggest of the twentieth century, drew thousands to the old terminus of the 20-mule teams haul. But it was a twentieth century gold rush, Miss Cornwall says, with prospectors arriving in automobiles and busses.

Fred Waring and his Pennsylvanians, whose half-hour broadcasts of popular music have been sponsored over the Columbia network for almost a year by the

"Tinker Tim" with his pliers and screw-driver may be able to get a dead radio started. BUT when you want that radio to perform as its maker intended it should—accurate testing instruments and the knowledge of correct servicing procedure is necessary.

Ford Dealers of America, now are presented by the same sponsors in a new and enlarged full-hour show. The program will be heard from 9:30 to 10:30 every Thursday. Most important of the talent additions to be made to the Waring cast is that of a Girl's Glee Club under Fred Waring's personal direction.

Columbia Broadcasting System announces two important changes in broadcasting time—Will Rogers will now be heard at 7:30 Sundays; and the Ford Symphony Hour will be heard at 9:00 P. M. Sundays.

### Tennants Cook as They Move

Cooking and performing other household tasks as usual, 370 tennants in a four-story stone building in Moscow, Russia, enjoyed life while the building was being moved 117 feet recently. They occupied the apartments during the change, and the water and electricity were not cut off. The building is estimated to weigh 6,000 tons.

### Map Collection

The largest collection of maps in this country is the property of the military intelligence division of the army, and consists of a million maps. The Library of Congress owns 688,000; the engineer's office of the War department, 260,000; and the Interstate Commerce commission, 175,000. The University of Chicago around a nucleus of 50,000 sheet maps expect to build up a collection of 400,000.—*Los Angeles Times*.

## REGARDING ADVERTISING

## Too Successful

Crossroads Merchant—No, sir, I ain't a-goin' to advertise.

Stranger—Why not?

Merchant—I tried it once, an' it nearly ruined me. People come from miles around an' they bought nearly all the stuff I had.—*Royal Arcanum.*

## Unusual Ad Sold Them

A furniture store in Lynden, Wash., recently carried a nice size ad, about one-half of the space of which was devoted to pictures of a new model automobile. The ad ran: "No—this is not an automobile advertisement. You consider it good business to trade in your old car each year for a newer model. Why isn't it good business, too, to trade in your old furniture on the same plan?" The ad brought results.—*Minnesota Press.*

## Elephants Are Delicate

Elephants are delicate creatures despite their great strength and tough hides, writes Frances Ernst, Bellevue, Iowa, in Collier's Weekly. Those working in the teak lumber camps of Siam not only have to rest two days out of three and be given a long summer vacation, but they constantly suffer from wounds inflicted by wild turkeys.

## Doctors Were Common

A hundred years ago, few states in the Union placed any restrictions on any person who might wish to pose as a "doctor," and there is no record showing how many physicians there were in this country then.

## THIS AND THAT

A perusal of the ads in today's NEWS will result in the discovery of a number of "money-saving" sales.

Another electric sign blazes forth to glorify Castle Street. This time it is at number 78 and reads: "Phone 2910. H. D. Tarbell—FOOTE'S DRY-CLEANERS—Quality Cleaning — Satisfactory Service."

Mr. Frank Phillips, of the Phillips Motor Co., visited the New York Auto Show over the past week end.

Should you leave when the man on the platform says what you don't believe or should you stay and shout, "Boo!"?

One of our Willard readers discovered a week or so ago that she held a winning number and was in the city Saturday to take advantage of her good fortune. She told the sales girl that she didn't follow the numbers for some time and had wondered if the proposition was "on the level." The sales girl advised her that it surely was "on the level" and that their store (one of our regular advertisers) had received several orders for merchandise brought in by lucky News readers.

Experience becomes the great test of truth and is perpetually contradicting the theories of men. —Samuel Johnson.

Some additional models have now been added to the new 1935 Philco Radio line. Philco is offering a Radio Atlas of the World, FREE. (See ad on another page.)

It takes good sense to make any system of government work.

One of our regular advertisers has been named by nearly a dozen holders of winning numbers as the place where the \$1.00 worth of merchandise was desired.

"One in a thousand". You are, when you hold a winning number. So-o-o, if you haven't been lucky yet, don't lose hope. There are 5000 copies of our paper distributed each week and five winning

numbers named. One man (on Elm Street) received a winning copy two weeks in succession. The Castle Street Market and Lynch Bros. got the orders.

## RADIO FLASHES

By RALPH LE BRUN

For the first time in history, the American radio audience will receive a direct description of a momentous European election when the Columbia network will relay an eye-witness account of the balloting which will decide the historic Saar Basin question—whether France, Germany or the League of Nations shall rule the rich industrial valley. A portion of the broadcast, scheduled Sunday, January 13 at 12:45 P. M. will originate in the Saarbrücken headquarters of Sarah Wambaugh, expert adviser and member of the Saar Plebiscite Commission.

Jimmie Fidler's Hollywood News, bringing the radio audience all the latest gossip from the movie lots, will be available to listeners over NBC-WHAM direct from Hollywood in a new series to be inaugurated by Fidler on Wednesday, Jan. 16, at 10:00 P. M. Fidler, editor of screen magazines and veteran radio commentator, is well known to radio listeners who have heard him in the past as the Hollywood Tattler.

The new American Broadcasting System will broadcast the Boxing Bouts from Madison Square Garden Friday at 10:00 P. M. This can be heard from Station W1XBS at Waterbury, Conn., just a little over 1500 Kcs.

Cliff Soubier, versatile broadcaster heard on many programs originating in the Chicago NBC studios, made his professional debut in his youth in his father's medicine show when he donned a blond wig and played Little Eva in "Uncle Tom's Cabin". He has appeared in every type of amuse-

ment from carnival to concert and everywhere from Bonner Springs, Kansas, to Broadway. He was the original Papa Boule in the stage production of "Seventh Heaven."

# THE COMMUNITY KITCHEN

Conducted by **BETTY BROWN**

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Luncheon Cheese Dish

- 4 slices bread
- 1 teaspoon prepared mustard
- 2 tablespoons butter
- 2 eggs
- 1 teaspoon salt
- ¼ teaspoon paprika
- 1½ cups milk
- ½ lb. cheese
- 2 slices bacon

Mix mustard with butter and spread on bread. Cut bread into pieces to fit baking dish. Put cheese through food chopper and sprinkle over bread. Beat eggs and add salt, paprika and milk. Pour this mixture over bread and cheese. Cut bacon in one inch pieces and lay on top and bake for 30 minutes in 350° oven

H. B., Hillcrest Ave.

## Black Walnut Taffy

- 1 cup light molasses
- 2 cups sugar
- ¼ teaspoon salt
- 1 cup evaporated milk
- 1 tablespoon butter
- 1 teaspoon vanilla
- ½ cup walnuts, chopped

Boil molasses, sugar, salt, milk and butter together until a firm ball is formed in cold water. Add vanilla. Spread nuts over bottom of greased pan and pour taffy over them. When cool enough to handle, pull until stiff and creamy. Cut in pieces and wrap in waxed paper.

## Suet Pudding

- 4 cups flour
- 2 cups suet (chopped)
- $\frac{2}{3}$  cup molasses
- 1 cup raisins
- 1 cup sweet milk
- 1 teaspoon soda and cinnamon
- ½ teaspoon cloves and salt

Blend all ingredients and steam for three hours.

Mrs. J. K., Lyceum St.

## Milk Baked Veal

- Veal chops
- Egg, salt and pepper
- Milk and bread crumbs

Season chops well, dip in crumbs, then in egg and milk beaten together. Dip again in crumbs and fry until golden brown. Drain, lay in baking pan, partially cover with milk and bake until tender.

Mrs. D. L. W., Genesee St.

## Nadir Opposite Zenith

Nadir is an Arabic word used to designate the opposite of zenith. In other words, a plum bob the string of which points directly upward to the zenith, points directly at the nadir beneath.

## Ireland and Christianity

The devotion of Ireland to the cause of Christianity has been greater than that of almost any other country, writes W. R. Blance, Chicago, Ill., in Collier's Weekly. In the Sixth century, when Latinized lands seemed to be sinking back into pagan barbarism, Ireland sent missionaries to England, Scotland, Wales and France, the Netherlands, Germany, Austria, Switzerland and even Italy.

### THIS AND THAT

From all the activity on the east side of Exchange Street, the coming Saturday, the occasion might be called "The 1935 Opening of the East Side of Exchange St." Saturday, in addition to being the official opening day of the Better Housing Home, is also the second day of the "Grand Opening" of the new W. C. Demming Corp. store at 505 Exchange St. Other events are the continuation of the January Sale at

Baker & Stark, and the dress sale at the Mutual Clothing Co. All within one block.

You husbands who didn't give your wives that coat for Christmas can hardly kick if she refuses to darn your socks. You didn't give a wrap—why should she give a darn?

At a meeting of the G. A. T. A. (Geneva Auto Trades Association) held on January 8, the following officers were named: Harry E. Vail, president, and Chas. E. Cool, vice-president, re-elected for the ensuing

year; W. H. Hart, secretary; and Herbert Fink, treasurer. The following previously elected one-year directors were re-elected for three-year terms: W. H. Hart, Wm. Lerkins and Geo. Bruzee.

Other directors previously elected are: Herbert Fink, L. DelPapa, Chas. Scoon, Roger Goodwin, Harry E. Vail, Chas. E. Cool.

The G. A. T. A. now includes in its membership practically 100 per cent of the auto dealers, mechanics and parts dealers of the Geneva territory.

The Association was formed a little over a year ago for the purpose of eliminating unfair trade practices and for the protection of the public on prices, repairs, parts, service, etc. and is now functioning to the satisfaction of both members and the public.

—D—

The little girl arrives at the party with her mother. She wears a coat of the English type, fitted. It is double-breasted, has notched lapels, and neat pockets.

—D—

Her mother wears a dress with soft, flattering jabot. The panel front with the band that buttons up over the jabot contrives to make her look much slimmer.

—D—

Another little girl looks nicest in tailored clothes, so she is wearing a shirtwaist type dress with patch pockets, short sleeves and a boyish collar.

A certain young man is soon going to have all the girls around him. He looks so cute in his suit with the bolero-effect yoke, and shorts that button on to his blouse.

—D—

His sister wears a dress with collar and yoke like his suit, but her dress has feminine, puffed sleeves and pleats from the yoke. With panties to match.

—D—

The belle of the party is in a ruffled dress with a collar that covers her shoulders in the new way.

—D—

Again smart women in Paris have succumbed to the lure of the black ensemble. It seems that black invariably wins, in spite of the newer and more luscious looking shades of brown, green and red.

—D—

The black outfit has to be infinitely subtle, however, to be really chic. The note of relief is indispensable and here is where the woman with individuality scores.

### Introduced Ballet Skirt

Many years ago, Nasr-ed-din, the shah of Persia, attended the opera in Paris and was so delighted with the ballet that he ordered his attendants to purchase the entire front row for his extensive harem. Disappointed, he took home a supply of the costumes. The new "fashion" from Paris spread rapidly and for fifty years the indoor dress of all Persian ladies was the short, fluffy ballet skirt.—*Collier's Weekly*.

**MRS. DELIGHT SWENEY TRIMBLE**

**Special Representative**

**Federal Housing Administration**

who will address a large gathering of women Thursday, January 17 at 2:30 p. m. at the Empire Gas & Electric Company.

Mrs. Trimble, a specialist in the design of residences, is an authority on home planning and interior decoration, has invented many household gadgets, designed theater sets and is a contributor to many leading magazines.

She will be accompanied by Miss Martha E. Gordon, Director of Women's Activities of the Buffalo District, Federal Housing Administration.

Illustrating her talk with sketches of her own design, Mrs. Trimble will show how homes can be improved and beautified by clever remodeling of unused doorways, niches and corners in rooms.

She will discuss the importance of proper lighting, ventilation and heating in the home, and explain the Federal Housing plan which enables property owners to repair and modernize their property, install heating and lighting systems and improve their property through government-insured loans.

She will also set forth the aims of the Housing Act and its ultimate goal of reducing unemployment, increasing payrolls, and creating tangible wealth through a revival of the building trades.

1880. The term was applied to those  
who wished Britain to take an ag-  
gressive foreign policy. It originated  
in a music hall song.

## RADIO FLASHES

By Ralph Le Brun

**Little Jackie Heller**—started out to be a prize fighter, dallied with the idea of becoming a jockey and eventually gave up all such notions to become a tenor. He is now heard each Monday at 10 p. m. over NBC-WHAM, accompanied by an orchestra under the direction of Harry Kogen.

Boake Carter, CBS news commentator, broadcasting nightly at 7:45 talks from Flemington, N. J., since the beginning of the Hauptmann trial, and was sworn in as deputy county clerk of Hunterdon county in order that he might occupy a seat in the official section of the courtroom.

Columbia Broadcasting System officials have just completed arrangements to bring to American radio listeners Vienna's famous carnival known as "The Fashing", Europe's gayest pre-war festivity. The colorful event, which still retains much of the romantic flavor and sparkle of the past will be broadcast to a nationwide WABC-CBS audience on Sunday at 12:45 p. m. Listeners first will hear a crack Viennese military band, followed by a so-called Schrammel band, composed of zithers and strange native instruments, playing music of a crude rural flavor. Bold in contrast, the Schrammel band will give way to the lilting and graceful strains of "The Blue Danube", interpreted in the original Strauss style by a Viennese string orchestra.

The whispered melodies of one of the most famous stars of radio's early days returned Tuesday when Whispering Jack Smith began a new three-a-week series over an NBC-WEAF network. The veteran entertainer will be accompanied by his own 12-piece orchestra in the new song programs to be broadcast from the NBC Radio City studios. A star of the crystal set and ear-phone days of radio, Whispering Jack Smith will be heard from 7:15 to 7:30 P. M.

Grace Hayes, star songstress of radio, stage and screen, will make a return appearance as guest star of the Chevrolet programs featuring Isham Jones and his orchestra on Tuesday at 9:30 p. m. over the Columbia network. Miss Hayes was presented as a guest last October during the premiere broadcast of the series.

The height of something or other was reached the other day when a lady in a small New York town informed Clara, Lu 'n Em, NBC's chatter stars, that she had named her three little pigs after them. She calls the reddish-gold one Lu, and the two white ones spotted with black, Clara and Em.

### An Advertising Parable

Here's an advertising parable of the man and his furnace on a cold day: The man had a furnace and his house grew cold. So he said to the furnace, "Not another lump of coal do you get till you give more heat." The poor nut froze. And so did the merchant who cut down on his advertising to "save expense."—*Arkansas Publisher.*

## THIS AND THAT

Nearly 1300 people visited the  
Better Housing Home on East Cas-  
tle Street last Saturday, the opening  
day. Visitors were not confined to  
local residents, the register showing  
a surprising number of out-of-town  
callers. All were greatly interested  
and there is no question but that the

better housing idea is catching on  
and that the efforts of the local Bet-  
ter Housing Committee will not  
prove in vain.

The GENEVA COMMUNITY NEWS  
was favored during the past week  
with an advance copy of a map of  
"Weber City". These maps are be-  
ing featured in an Amos 'n' Andy  
contest which started January 18.  
Shortly after publishing a "Weber  
City" advertisement in our radio  
column on November 8 we received  
a letter of appreciation from Cor-  
rell and Gosden (Amos 'n' Andy).

Poorly fitted windows and doors  
increase heating costs, cleaning work  
and costs. Good weather-stripping,  
according to the Federal Housing  
Administration, will bring comfort  
into the home, insure a more uni-  
form temperature, make the home  
healthier, and reduce costs. Insured  
modernization loans for this purpose  
are available.

### National Recognition

The following item was clipped from a sheet of publicity sent out from the Federal Housing Administration at Washington to all weekly papers thruout the United States:

### Designed Like Emblem

The Geneva (N. Y.) Better Housing Committee, instead of remodeling a dilapidated house as a publicity stunt, is building a new house in the public square that is designed along the lines of the dwelling illustrated in the Better Housing emblem of the Federal Housing Administration.

### 100,000 Butterflies

The most enthusiastic butterfly hunter who ever lived, a Swiss named Hans Fruhstorfer, made a wonderful collection of 100,000 butterflies, and this has been lent to the Natural History museum in Paris. He began his collection in Brazil when he was twenty-two; then took his net to Java, where he spent three years; then he followed his pursuit for two years in the Malay archipelago. He traveled through South America, Japan, China and Siam, darting about with that abstracted look of the butterfly-hunter here, and everywhere until he had brought his net over some of the rarest creations in the world. His 100,000 specimens have nearly 7,000 varieties.

### Forces Oil From Ground

Natural gas dissolved in crude oil is believed to supply the motive power for forcing oil from the ground.

## Deep Sea Salad

1 package lime jello dissolved in one half cup hot pear juice  
 ½ cup hot water  
 1 teaspoon vinegar  
 ¼ teaspoon ginger

Pour one half of mixture in mold. Whip the remaining portion until creamy with 2 packages of cream cheese. Fold in one cup of diced pears and add to plain jello. Serves 8.

Mrs. W. R., Lyceum St.

## Potato Pan Cakes

6 medium sized potatoes  
 2 eggs, separated  
 2 tablespoons fine bread crumbs  
 1 teaspoon salt

Grate the pared potatoes, add well beaten egg yolks, crumbs and salt. Fold in stiffly beaten egg whites and drop by spoonfuls in hot fat in frying pan. Brown well on both sides.

Mrs. C. L., Geneva St.

## Ham Piquant

1 pound thinly sliced cooked ham  
 4 tablespoons dry mustard  
 Dash of cayenne  
 2 tablespoons milk

2/3 cup Parmesan cheese  
 ¼ teaspoon pepper

Mix mustard to a paste with milk and seasonings. Spread on slices of ham and sprinkle with cheese. Arrange slices one on top of the other in brick form. Fasten together and place in baking dish. Bake for twenty-five minutes in a 400° oven. Chill and cut in slices down through the layers. Serves 6.

L. A., Lafayette Ave.

## English Tea Sweets

½ cup condensed milk  
 ½ cup nut meats (chopped)  
 14 crisp, salted crackers

Cook condensed milk in top of double boiler until thick. Remove from fire, stir in nut meats and spread on crackers. Place on baking sheet and bake in hot oven for 5 minutes or until slightly browned. May be served hot or cold.

You pay no more at **Prince's Jewelry Store, 20 Linden St.**, for watch, clock and jewelry repairs or picture framing; yet you receive the very best services. All work is guaranteed. Now why go elsewhere?

—D—

One of the best things to cure an unhappy frame of mind is a hobby. Many fascinating things may be done. Refinishing furniture, for instance, often leads to the study of the history of furniture. Collections of all kinds also offer delightful diversion. Plan on a period of leisure and let this time be spent in developing some hobby. It will

do much to make things seem brighter and more cheerful.

### President's Birthday Party

Lively interest is being displayed in the arrangements for the President's Birthday Party to be held in the State Armory, Geneva, on the night of Wednesday, January 30, under the auspices of Geneva Post No. 2670, Veteran's of Foreign Wars.

Carrollton A. Roberts is general chairman, acting with a committee of 125 prominent citizens.

Jimmie Lynch, well known orchestra leader, has been engaged to furnish music and he will direct an orchestra of twelve pieces.

The proceeds of the affair are to be divided as follows: 30% to a National Committee for use in research work for the prevention of Infantile Paralysis; 70% to remain locally for the aid of persons afflicted with the disease.

This latter amount is to be handled by a board of directors elected by the general committee of local citizens and it is the desire of the sponsors that the committee elect officers and carry on the work indefinitely, adding to the fund from year to year with affairs similar to the one to be held January 30. (See page 6 and 7.)

### 5,000 Cars Daily Is January Mark Set by Ford

With production for January set at 5,000 cars daily, the Dearborn branch of the Ford Motor Company reports that all production difficulties on the new model have been eliminated and that plants are in full swing.

The company reported that from 1,200 to 7,000 persons visited showrooms in many cities throughout Michigan and Ohio the day the cars were announced.

By Ralph Le Brun

Ruth Etting, glamorous blonde star who sang her way to fame on stage, air, and screen, will come to the NBC microphone as the star of the new Kellogg College Prom. With Red Nichols and his College Prom orchestra, Miss Etting will be on the air every Thursday over an NBC-WJZ network at 7:45 P. M. for a half-hour of songs and dance rhythms. Each week a noted college coach or athlete will be presented as a guest speaker in the broadcast. The United States Naval Academy at Annapolis will be the first stop and Coach Tom Hamilton of the Navy football team will be the initial guest speaker.

Charles Winninger, veteran of the stage renowned as the original "Captain Andy" of the outstanding Ziegfeld stage hit, "Show Boat," will headline an all-star cast in a brilliant cycle of "Gulf Headliners" variety programs to be broadcast over the WABC-Columbia network at 7:30 P. M. on Sundays, starting February 10. Winninger will pilot the variety programs as master-of-ceremonies, and also will be featured in a specialty of his own on each broadcast. The performers whose specialties he will introduce include Frank Parker, tenor soloist; the Revelers; the Pickens Sisters, and Frank Tours and his orchestra.

The experiences of Major Herbert O. Yardley, organizer of the American Black Chamber, which de-

ciphered thousands of code messages and paved the way for the capture of many spies during the World War, will be dramatized for radio listeners for the first time in a new series to be presented over an NBC-WEAF network on Monday at 7:15 P. M. Major Yardley's exploits have won him international fame. The American Cryptographic Bureau, as the Black Chamber was officially known, deciphered some 40,000 code messages of enemy and friendly powers and developed hundreds of secret ink spy letters.

## THE FUNNYBONE

### Misleading

The class had been instructed to write an essay on winter. One child's attempt read as follows:

"In winter it is very cold. Many old people die in winter, and many birds also go to a warmer climate."

### Another Theory Blasted

Ronald: "When you throw a match into the air, does it light?"

Ramona: "Why, no."

Ronald: "Newton must be wrong then."

### Out of Range

Professor: "Why don't you answer me?"

Stude: "I did, sir. I shook my head."

Professor: "Well, you don't expect me to hear it rattle up here, do you?"

### The Good Host, Canine Style

"Yes, sir, said the proud dog owner, "Rover is the most hospitable bull in the country."

"What do you mean 'hospitable'?"

"Why, he'd give you a bite any time."

### Hard To Say

Mistress—Come, come, Mary, how much longer is it going to take you to fill that pepper box?

Mary—Sure, ma'am, and it's me-self can't say how long it will take to get all this sneezy stuff through the little holes in the top of this thing.

### Immune to 'Em Now

"Your daughter is very modern, isn't she?" remarked the visitor.

"Yes," sighed the mother: "I have reached the point now where I doubt if I could even be shocked by a live wire, no matter what the voltage was."

### The Nose Knows

"Have a cigar?" asked the man with the smiling face.

"Don't mind if I do," said his friend. "What's the occasion?"

"Oh, I've had an addition to the family."

"You don't say so. Congratulations!" said the friend enthusiastically as he put a match to the smoke. After a few puffs he observed, "About the fifth child I should say."

### Assumed as Much

She was interviewing an applicant for the position of cook.

"Well, Jane, you seem suitable in every respect, and I have decided to engage you. The work will be light, and you will find the master is very easily pleased."

"Yes, mum," replied Jane, "I thought that the moment I saw you."

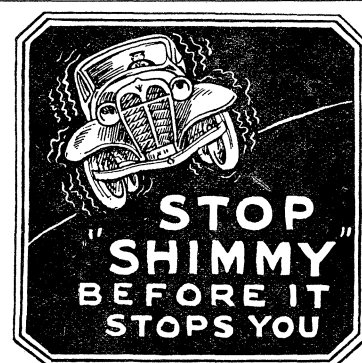

### Spoke Too Soon

She—Remember you? Of course I do. Didn't we meet at that ghastly party at the Jenkinsops?

He—Quite likely. My name is Jenkinsop.

### NOT INFREQUENTLY

A lover of cigarettes is in a position where one can be lighted occasionally but an interruption is likely to occur and it is either laid down lighted with the possibility of burning something or is extinguished altogether. With the use of the IN-N-OUT SAFETY CIGARETTE HOLDER Not only can the fire be extinguished instantly but the cigarette can be relighted.

Tips on How and What  
to Improve

Julian M. Gerard, New York  
State Director of the Federal Hous-  
ing Administration says:

"There is everywhere a sharply  
growing interest in kitchen improve-  
ments. In fact, the kitchen is rapidly  
returning to its former importance  
as the hub about which the ordinary  
family activities revolve. If it is  
made bright, cheerful and an attrac-  
tive place to work in, its influence on  
the family life will be important.

Since all the work necessary can  
be done indoors, the remodeling of  
kitchens fits perfectly into the plan  
to keep the modernization move-  
ment in full operation throughout  
the winter. Later doubtless will fol-  
low laundry, bath, dining room, liv-  
ing room and bedrooms.

All of these improvements can be  
financed under the modernization  
credit plan of the Federal Housing  
Administration.

### Rustless Hardware Comes Into Demand

Better housing means houses built of better materials.

According to a report of the Lock and Building Hardware Manufacturers' Association, there has been a sharp demand for housing hardware of bronze and brass and the higher grades of iron appliances since the Better Housing Program began. Window hardware, formerly almost entirely of iron, is now generously sprinkled with the new metal, especially fasteners, sash lifts, etc. Even in low-priced houses there is developing a sharp demand for the more durable metals.

### Door With Mirror

A door with a full-length mirror is a convenience in a home or apartment where there is insufficient space for a dressing table with a large mirror. It also is popular as guest-room equipment when milady entertains at tea or bridge. Such building equipment, if included in a property improvement project, is eligible for an insured modernization loan under the National Housing Act.

### Condition Floors

The finish of every floor should be kept in the best of condition. It isn't always the floor itself which must stand the wear, but the finish on its surface.

### Liars the Worst of All

Murder is treated as a minor offense by the Nagas of Assam, but the perjurer, apart from being allowed to commit suicide, is sentenced to have his head struck off.

### THIS AND THAT

Fairfax Bros. Co. believe in prac-  
ticing what they preach. The interior  
of their store has just been com-  
pletely redecorated. (See their ad on  
page one.) Painting, papering and  
decorating are some of the things  
that can be done with Federal Hous-  
ing Loans.

The National Housing Act pro-  
vides the ways and means for own-  
ers of property to save the values of  
their investments, and while benefit-  
ing themselves they also provide  
work and income for a great body  
of their fellow men.

## RADIO FLASHES

By Ralph Le Brun

Jack Pearl, casting aside the baronial panoply and the fabulous fancies of his previous role on the air, will emerge in the entirely different character of "Peter Pfeiffer" when he returns to the microphone over the nationwide WABC-Columbia network on February 13, to be heard every Wednesday from 10 to 10:30 P. M. under the sponsorship of Frigidaire. Cliff Hall, known in the past as "Sharlie" will again be at Pearl's side, also in a new role. He will be heard as Cliff (Peter pronounces it "Gliff"), tenant of the Family Hotel and friend and constant companion of its proprietor.

John Charles Thomas' tailor, has turned composer and the famous baritone is going to offer a song made by the man who makes his clothes, when he returns to the air as the star of the Vince Program over an NBC-WJZ network on Wednesday, February 6, at 9:30 P. M. Earl Benham, well known tailor to actors and musicians, also is an amateur musician of merit. Thomas always has been keenly interested in Benham's compositions, and as soon as he heard "Curly Locks" asked Benham's permission to use the selection in one of his broadcasts.

# THE COMMUNITY KITCHEN

Conducted by BETTY BROWN

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Jelly Surprise Muffins

1 cup flour  
1 tablespoon baking powder  
1/4 teaspoon salt  
2 tablespoons sugar  
1 cup graham flour  
1 egg  
1 1/4 cup milk  
3 tablespoons shortening (melted)  
Currant, apple or other jelly

Sift together flour, baking powder, salt and sugar. Add graham flour. Add beaten egg, milk and melted shortening to dry ingredients and stir only enough to blend. Place spoonful of batter, a scant spoonful of jelly and another spoonful of batter in each greased muffin pan. Bake 25 minutes in moderate oven. Makes 12 medium muffins.

E. C., Exchange St.

## Frosted Apples

Pare and core large red apples. Roll each in melted butter, sugar and cocoanut. Fill center with chopped dates and nuts. Place in pan and pour over all a syrup made of 1/2 cup sugar and 1 cup water. Cover pan and bake 45 minutes. Decorate each apple with a cherry and whipped cream just before serving.

M. K., William St.

## Almond Cream Pie with Graham Cracker Crust

18 graham crackers (rolled)  
1/2 cup butter  
1/2 cup sugar  
1/4 teaspoon salt

Mix ingredients and pat firmly into pie tin. Cover with a second pie tin to hold shape and bake in moderate oven about 15 minutes. Allow to cool in tin.

## Almond Filling

2 cups milk (boiling)  
1/2 cup sugar  
3 level teaspoons cornstarch  
Pinch of salt  
3 egg yolks  
3/4 teaspoon almond flavoring  
1/2 teaspoon vanilla flavoring

Cook sugar, cornstarch and milk in double boiler until thick and smooth, stirring until boiling point is reached. Boil for 3 minutes, stir into beaten egg yolks, return to fire and boil 1 minute. Cool, add extract and when cold, pour into graham cracker crust. Cover with sweetened whipped cream and then cover completely with shredded salted almonds.

### The Cure

"No," replied the mother, "I don't think I'll buy a whistle for my little boy. He nearly swallowed one the other day."

"Well," said the insistent salesman, "we have some nice bass fiddles I could show you."

### Cause and Effect

"I wonder how many men will be miserable when I marry?"

"That all depends on how often you marry."

### History Repeats Itself

"Can you give me an example of a commercial appliance used in ancient times?"

"Yes, sir, the loose leaf system used in the garden of Eden."

### He Knew

A general and a colonel were walking down the street. They met many privates, and each time the colonel would salute he would mutter, "The same to you."

The general's curiosity soon got the better of him, and he asked:

"Why do you always say that?"

The colonel answered:

"I was once a private and I know what they are thinking."

The life and adventures of Mr. and Mrs. Goodman Ace and their serial comedy of American home life and the great American bridge table resumed when "Easy Aces", radio's famous domestic comedy, returned to the air over WEAf, Monday, at 7:30 P. M. The Aces have been entertaining listeners with their household misunderstandings for the past six years. Written by Goodman Ace and featuring himself and his wife, Jane, the new series will be on the air from the Radio City studios each Monday, Tuesday and Wednesday.

Twenty thousand persons in Madison Square Garden the other night saw Ed Wynn become an honorary fire chief—for almost the hundredth time. The occasion was the eighteenth annual ball of the Uniformed Fireman's Association of Greater New York and the feature of the evening was the induction of Wynn as an honorary member in the International Association of Fire Fighters, composed of 28,000 men in the United States and Canada. Wynn, who assumes his Fire Chief role each Tuesday night over NBC-WEAf, is now a chief of more than ninety fire companies.

A new coiffure designed especially for very fine, soft hair, is arranged to make the hair seem thick.

The hair is divided into square sections. Each square is rolled into a flat ringlet curl which is then pinned close to the head. When dry, the hair is combed and brushed thoroughly and then casual looking waves are pushed into place with the comb. Naturally curly or permanently waved hair is necessary, of course. You can't push waves into straight hair.

The back can be sleek or sections of it can be combed around the forefingers to make rows of ringlets.

Let me remind you that you receive finer workmanship, for less money, in repair services on watches, clocks and jewelry at **Prince's Jewelry Store**, 20 Linden St. I also recommend **Prince's** for excellent picture framing.

## Pulled Molasses Candy

- 1 cup molasses
- 2 cups brown sugar
- 1 cup water
- 3 tablespoons vinegar
- 3 tablespoons butter

Put molasses, sugar, water and vinegar in sauce pan, stir thoroughly and cook until brittle when dropped in cold water. Add butter and pour on buttered platter. When cool enough to handle, butter hands and pull until light colored. Cut in pieces with shears.

Mrs. C. A. M., Lewis St.

## Delicious Toasted Sandwich

- 2 eggs, scrambled until quite dry
- 3 or 4 celery stalks
- 1 small onion
- ½ small green pepper
- 1 teaspoon mint sauce, a little salt and pepper

Chop eggs and vegetables fine and add seasonings. Cream ½ lb. soft sharp cheese and blend with other ingredients. Spread on slices of bread (unbuttered) and toast on both sides and serve immediately. May be garnished with dill pickles and opened sardine. Serves 6.

G. M., N. Main St.

## Italian Spaghetti

- Fry in olive oil (or lard)
- 1 good sized onion
- ½ green pepper and 2 cloves of garlic which have been chopped fine

Add 1 can tomato paste

- 1 qt. tomatoes, a little salt and pepper

Cook very slowly, adding a little water if it cooks down too much.

Cook until tender in salted boiling water, one pound of spaghetti. When ready to serve, sprinkle grated Italian cheese on each serving.

Mrs. L. M., William St.

## Southern Chili-Con-Carne

- 1 large can kidney beans
- 1 large can tomatoes
- 1 pound round steak (ground)
- 1 medium onion (chopped fine)
- 2½ heaping tablespoons chili powder

Mix onion with meat and fry until brown. Mix powder, beans and tomatoes, add meat, salt and pepper to taste and cook slowly for 45 minutes. This amount serves 4 people.

### The Tomato

There is no known authentic his-  
tory of the first discovery of the to-  
mato, but writings, dated as the  
time of the American discovery, re-  
veal that the tomato made its ap-  
pearance in Europe about that time  
and was given by the French the  
highly imaginative name of "pom-  
mes d'Amour," or "love apple" in-  
dicative of their belief the tomato  
was most effective in love affairs.

### Art Critic

Go slow on criticism of art—unless you know!

An art critic was speaking of the virtues of this painting and the faults of that one.

"Now you see in this picture the artist has not learned his trade—he lacks technique and understanding. He has resorted to a trick to catch the public eye and has attempted to paint a fly. I would not object to that had he been able to draw better and make it look like a fly. This looks like a lump of clay." At this point the fly took wing and flew away.—*E.x.*

### Another Candidate

Two lawyers were engaged in a heated quarrel. Epithets flew back and forth, and finally one of the barristers cried at the other, "You're the biggest ass in this room!"

"Order. Order!" called the Judge. "You forget that I'm here."

### Found

"Lady's purse left in my car while parked. Owner can have same by paying for this ad. If she will explain to my wife how the purse got there I will pay for the ad myself.

### Well Defined

"Can any of you," the teacher asked, "tell me what 'amphibious' means, and give a sentence to illustrate?"

A bright little negro held up his hand. "I know, sah! It's fibbing. Most fish stories am fibious!"

### Satisfied

Traffic Judge: "What, you here again? Aren't you ashamed?"

Motorist: "Not at all, sir. What's good enough for you is good enough for me."

### Passed the Test

"Have you the firmness of character that enables a person to go on and do his duty in the face of ingratitude, criticism, and heartless ridicule?"

"I ought to have. I cooked for a camping party last summer."

### The Deterrent

"Nurse, I'm in love with you. I don't want to get well."

"Cheer up, you won't, the doctor's in love with me too, and he saw you kiss me this morning."

### Gold Mines Hot and Humid

Gold mines in South Africa have  
temperatures of 100 to 120 degrees,  
and the humidity is almost at the  
saturation point. Men can work in  
them only for a short period, and  
their efficiency is less than 30 per

### By "Benefit of Clergy"

The expression by "benefit of  
clergy" refers to the privilege en-  
joyed by clergymen during the Mid-  
dle ages when accused of a crime,  
writes G. R. Turner in the *Kansas  
City Times*. So strong was the  
church in those times that it insisted  
the state had no right to sit in judg-  
ment of a representative of the  
church. In England, in 1330, benefit  
of clergy was extended to all who  
could read, but gradually in that  
country it was nullified and finally,  
in 1827, abolished altogether. In  
Spain it existed until the fall of the  
monarchy in 1931. Of the major  
countries only Italy recognizes it.

### Etching Glass

Many things are discovered by  
accident. In 1670 some aquafortis  
fell by accident on the spectacles  
owned by an artist named Schwan-  
hard. The glass was corroded, and  
this taught him how to make a  
liquid to etch figures upon glass.

### Bullet Chewed to Ease Pain

In Colonial days it was the cus-  
tom to give a man who was being  
flogged or upon whom a major op-

let to chew. The theory was that it  
lessened the pain.

## THIS AND THAT

Geneva's "Dollar Days" are this week Thursday, Friday and Saturday, February 14, 15 and 16. Read today's issue of THE NEWS carefully from cover to cover. You will find many "Special Offers" for the three days named. A majority of Geneva's leading merchants are represented in this issue.

Have you visited the "Better Housing Home" on East Castle Street? If not, don't fail to do so. It is open every afternoon and evening.

Utopias seek to make room for all at the top—even if there isn't room.

Skates sharpened at Hub Shoe Repair, 10 Castle Street—20c.

Most of the high-hatting is done without saying a word.

"Fro-joy", the product of General Ice Cream Corp., is approved by the Good Housekeeping Institute. (See ad, page 4).

Pessimism is the salt that flavors optimism.

We have recently received a number of requests from people asking to be placed on our mailing list and offering to pay a year's subscription. While THE NEWS is, first, "An Advertising Medium", we are glad to know that we have also made it sufficiently interesting that people wish to pay for it. Thanks, very much. However, our paper is distributed "FREE". The merchants advertising are glad to take this "distinctive" way of bringing their messages to you and all that we, or the merchants, ask is that you kindly read the ads and take advantage of the offers you find therein.

## Peanut Butter and Date Muffins

4 tablespoons peanut butter  
1 tablespoon shortening  
 $\frac{1}{4}$  cup sugar  
1 egg  
1 cup milk  
 $1\frac{3}{4}$  cups flour  
3 teaspoons baking powder, a little salt  
 $\frac{3}{4}$  cups date (chopped)

Cream peanut butter and shortening and add sugar. Add beaten egg and milk and then flour which has been sifted with baking powder and salt. Add dates and turn into greased muffin pans and bake in moderate oven.

E. V., Gates Ave.

## Topsy Cream

2 milk chocolate bars  
1 cup milk  
 $\frac{1}{2}$  pt. whipping cream  
 $\frac{1}{2}$  cup nut meats

Melt chocolate bars in hot milk in double boiler. Beat well with rotary egg beater. When cool fold in whipped cream and add nut meats. Pour into refrigerator trays and freeze. Serves 10.

E. C., Exchange St.

## Corn Meal Griddle Cakes

$1\frac{1}{2}$  cups corn meal  
 $\frac{1}{2}$  cup flour  
4 teaspoons baking powder, a little salt  
 $1\frac{1}{2}$  cups milk  
1 tablespoon molasses  
1 egg  
1 tablespoon melted shortening

Mix and sift dry ingredients, add milk and molasses gradually, then well beaten egg. Beat thoroughly and add melted shortening. Pour on hot greased griddle and when puffed and full of bubbles, turn and cook other side. Makes 12 cakes about 3 inches in diameter.

## Carrot Ring Mould

Thoroughly drain 2 cups of cooked and shredded carrots. Add  $1\frac{1}{2}$  cups grated American cheese, 2 beaten eggs and salt and pepper to taste. Combine with 1 cup of milk and 1 cup of fine bread crumbs. Pour into buttered mold. Place in pan of hot water and bake in moderate oven for 1 hour. Serve hot.

"THE NEWS"**SHOWS WAY TO****IMPROVE FARMS**New Federal Housing Booklet Helps in  
Making Complete Check-up

How every responsible farm owner can improve his properties and increase their value by participation in the Better Housing Program of the Federal Housing Administration is shown in a new illustrated booklet which has just been published. It will be available through County Better Housing Campaign Committees, through many local agencies and through the offices of State and District Directors of the Federal Housing Administration.

**Answers Many Questions**

This booklet contains answers to many questions on important phases of the Better Housing Program, especially as it relates to farmers. It deals with the benefits of repairs and renovation of existing buildings and the construction of necessary new buildings. It tells how these can be financed under the provisions of Title I of the National Housing Act, up to a maximum of \$2,000 for each individual property. It was prepared to help the farmer plan wisely and profitably in making farm improvements.

The Better Housing Program and its possible benefits to the farmer are outlined in the booklet. Detailed instructions as to how to obtain a modernization loan for financing the improvements are given, together with question-and-answer information concerning the terms of such loans and their cost.

**Advice on Planning**

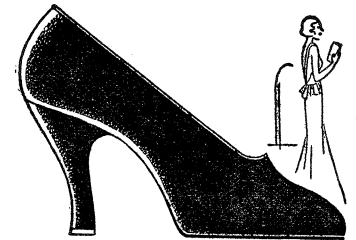

Among other features of the booklet are specific advice on how to plan

3-Piece Kingsleigh Contrasting Group in this Beautiful New Fabric

== \$149<sup>50</sup> ==

Too much attention cannot be given in the selection of your living room suite. Expect to see the best when you come to Lauer's, you won't be disappointed. We have specified that only the nicest designs, only the best materials, only the finest construction goes into our Kingsleigh groupings. In this three piece group pictured above, we include a graceful barrel back chair. We show the two matching pieces in your choice of rust, tan, brown, green, blue, tangerine, gold, heather and variances of these colors. These two pieces are in Zimmerman's Frieze. The barrel back chair we show in shades to contrast or to blend with the other two pieces. The effect is new and smart and you will like it. We think this is one of the greatest values we have ever had in any February sale.

## THE FUNNYBONE

### How's That One?

Teacher—What excuse have you for being so late?

Johnny (breathlessly)—I ran so fast, teacher, that I—I didn't have time to think of one.

### Go Right Ahead

"Is this the weather bureau?"

"Yes, sir."

"How about a shower tonight?"

"It's all right with me. Take it if you need it."

A gum-chewing maid and a cud-chewing cow

Are nearly alike, but different somehow.

Now how can that be? Well, yes, I see now,

It's the intelligent look on the face of the cow.

### Scotch Wife's Tale

"Angus, can I have a new spring outfit?"

"Sure, me lassie. Any kind o' rubber heels ye want."

Some men are so hard to convince that they won't believe anything unless they see it on the first page of a ten-dollar bill.

### A Quick Thinker

A woman had been shown over a battleship. At the end of her tour of the ship she said to a sailor who had been detailed to explain one or two things to her:

"Tips are forbidden on board this ship, are they not?"

"Yes, mum," answered the sailor, "an' so was apples in the garden of Edun."

### Add Worries of a Motorist

"Say, Gus, aren't you sometimes afraid you'll lose control of the car?"

"Constantly, I'm two installments behind already."

### Angry Without Cause

"What made your sister so mad?" questioned Jimmie.

"Ah, she don't know what she wants," returned Bobbie in disgust. "She sent me to the drug store to get some cold cream. I got ice cream because that's the coldest kind they had an' now she's sore about it."

### Poem

Girls who like the feel of mink  
Leave the dishes in the sink.

The Judge wanted to know what possible excuse the jury had for acquitting the murderer. "Insanity," replied the Foreman. "What!" exclaimed the Judge incredulously, "All twelve of you?"

### Purple in Snail Shells

In the days of the Roman empire the purple in the shell of certain snails was used in the making of Tyrian purple, a dye reserved for the nobility. The snail used this ink to create a smoke screen about itself in time of danger. Other species of snails are known to bear poison glands which enable the snail to eject a stream of poison several inches. The highly ornamental shells of several species are used as umbrella handles.

### Stair Lighting Reduces Falls

Electric lights placed at the top and at the bottom of stairs, and at stair landings, are valuable in eliminating injuries resulting from falls. Improved lighting is being made possible through modernization loans insured by the Federal Housing Administration.

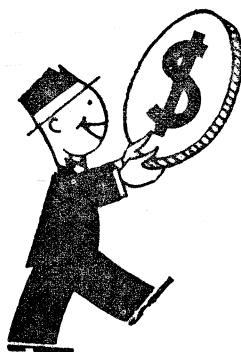

### Kingbird Marked by Tail

Many bird books give the red crown-mark of the kingbird undue prominence, for it is usually concealed and seldom noticed. If you will observe the white band at the tip of the kingbird's fan-like tail you will make no mistake as to its identity.

## THE TREE

Of business is laden with the ripening golden fruit. The casual advertiser gives it a vigorous shake, gathers the small and one-time yield, and is discontented that it is not "bumper" crop.

The wise advertiser knows that only so much of the golden fruit will ripen at a time. He shakes the tree a little today and a little more tomorrow.

The yield is as great as you deserve it. Keep shaking the tree with judicious advertising.

**RADIO FLASHES**

By Ralph Le Brun

RAY NOBLE, famous English conductor, composer, arranger and pianist who inaugurates his first American radio series over NBC-WEAF on Wednesday, February 20 at 10:30 P. M.

As a conductor and pianist, Ray Noble has directed orchestras in London and enjoys an international reputation through the sale of his recordings. As a composer he has written both the words and the music of such hits as "Goodnight Sweetheart", "Love is the Sweetest Thing", "The Very Thought of You", and dozens of others.

The most ambitious educational radio program ever conceived is being arranged for presentation over the WABC-Columbia network on Monday, March 4, the second anniversary of the inauguration of President Roosevelt, under the title: "Of the People, By the People, For the People". The two-hour program—from 2:30 to 4:30 P. M.—will afford radio listeners a dramatic review of the first two years of the administra-

tion's activities and a first-hand account by administration officials of the current problems facing every branch of the three-part government—executive, legislative, and judicial. Columbia will seek to have school principals and superintendents cooperate by dismissing their classes in civics and government during the broadcast, so that the students may learn how the administration, the Congress and the Supreme Court function, directly from those making contemporary history.

The gym instructor with the largest class in the world is rounding out his tenth year now and still going strong. Arthur Bagley, cheerful dictator of the Metro-

politan Tower Health Exercises, is breaking his own record every day as the oldest continuous daily broadcaster on the air. Each weekday morning at 6:45, Bagley and his piano-playing assistant, Bill Mahoney, sound the call to activity for NBC-WEAF listeners, and every morning they hold the air for an hour and a quarter as they "set-up" four shifts of workers for the day's job. Bill Mahoney, the accompanist, has been playing the piano accompaniments for six years and likes his job. Something over 2,000 piano solos is his record.

## Little Church Around Corner

The "Little Church Around the Corner" is an Episcopalian church, located at No. 5 East Twenty-ninth street, in New York city. Its proper name is the Church of the Transfiguration. This more popular name is said to have originated from a remark of a curate in a nearby church who, refusing Joseph Jefferson's request to conduct the funeral service of George Holland, the actor, suggested that "perhaps the rector of the little church around the corner might be willing to serve." He did serve, and the Church of the Transfiguration became thereafter the favorite of the players.

## Indian "Love Flower"

A traditional "charm flower" reputed to have been used by Pawnee Indian braves to make Pawnee maidens reciprocate in love is the red lobelia, otherwise known as the cardinal flower and the Red Betty. Pawnee traditions state that the lobelia, ginseng, two other plants and red earth paint brewed together with several hairs from the head of a desired maiden made the stubborn one respond to the lover who owned the magic mixture.

## Habits of the Weasel

The home of the weasel is generally in an underground burrow, the animal either digging a burrow for itself or making use of an abandoned one formerly occupied by some other burrowing creature. But one litter of young a year, usually numbering from four to six, is the rule with these animals, though sometimes larger families are raised.

## NO CHARITY FOR ME

*When I'm 60*

I'm going to retire with  
a Guaranteed Income of \$200 a month

"NO SIR, I'm never going to be a burden to my kids. When I retire, I'll have a guaranteed income for life. No work, no worry. Plenty of money to enjoy life. Lucky for me I found the Phoenix Mutual Retirement Income Plan!"

### HOW YOU CAN BUY A STEADY INCOME FOR LIFE

You, too, can arrange through the Phoenix Mutual Plan to retire at 55, 60, or 65 on a monthly life income of \$200, \$300, or more.

Suppose you decide to retire at 60 on an income of \$200 a month. Here is what you get:

1. A check for \$200 when you reach 60 and a check for \$200 every month thereafter as long as you live.

This important benefit is available alone. But if you are insurable, your Plan can also include:

2. A life income for your wife if you die before age 60.
3. A monthly disability income for yourself if, before age 55, total disability stops your earning power for six months or more.

### HOW MUCH DOES IT COST?

We'll be glad to tell you exactly when we know your age and when you want to retire. Just fill out and return the coupon below and you will receive by mail, without cost or obligation, an illustrated 24 page booklet describing the Phoenix Mutual Retirement Income Plan.

## THIS AND THAT

The Geneva merchants got a  
"bad break" in the weather last  
Thursday, but in spite of it all, most  
all of them were well pleased with  
the total business of "Dollar  
Days", as Friday and Saturday  
made up for the bad start Thurs-  
day.

No one can deny it: The bitter-  
ness of winter and the bitterness  
of summer are neither of them de-  
sirable.

With an adjustment in gasoline  
prices in surrounding territory the  
Geneva dealers are now coming  
into their own again. The "gas  
war" in nearby places surely  
worked havoc here for a while.

In the long run, judging by re-  
sults, are those who vote any bet-  
ter satisfied than those who don't?

The Geneva Community News—  
"An Advertising Medium of Dis-

## Persistance

Persistence is the mother of mir-  
acles. It is half of achievement. In  
advertising persistence is the first  
law of success. Spasmodic adver-  
tising, no matter how good, is  
seldom resultful.

Persistence appeal builds good  
will, creates confidence, develops  
interest and tends to make your  
advertising efforts produce re-  
sults.

It is the cumulative effort of your  
advertising that makes it pay.

**RADIO FLASHES**

By Ralph Le Brun

A few weeks ago this column passed the six months mark. I would like at this time to express my appreciation to all those who have helped make it a success; to those who have offered suggestions and criticisms; and to those who have given encouragement. I especially wish to thank the press department of the National Broadcasting Co., the Columbia Broadcasting System, and the individual stations who have kept me informed so that I might give our readers up-to-the-minute information of what's on the air.

The Columbia Broadcasting System lists among next week's highlights the following programs:

On Sunday at 12:45 P. M. an international broadcast from London commemorating the 114th anniversary of the death of John Keats, English poet. Monday at 8:30 P. M. Kate Smith will feature the audition winners from Buffalo, N. Y. Tuesday at 9:30 P. M. Grace Hayes as guest artist with Isham Jones and his orchestra. Friday at 3:15 P. M. a special concert of the Minneapolis Symphony Orchestra.

Relays of the Byrd Expedition are continuing over the Columbia System Saturdays between 10:30 and 11:00 on the California Melodies program.

From the National Broadcasting Co. we learn that on Sunday at 2:30 P. M. over NBC—WHAM Frank Morgan, star of stage and screen, will play the leading role in James Montgomery's play, "Nothing but the Truth". Also on Sunday over NBC—WEAF at 8:00 P. M. Deems Taylor will present Josephine Antoine and Richard Crooks in the English version of Flotaw's "Martha".

WOR is testing its new 50,000 watt Transmitter at Carteret, N. J. and will probably use it regularly after March 1.

I would appreciate it very much if you would kindly mention the "Dorothy Goes Shopping" page of the GENEVA COMMUNITY NEWS when making purchases from any of the advertisers on this page.

**"Dorothy".**

**Baker & Stark, Inc.,** are continuing to offer the balance of their Overcoats, Heavy Underwear, Lined Gloves and Mitts. Outing Pajamas as well as other winter garments at very attractive SALE PRICES. These savings are worth considering, even for another year.

For smart young moderns there are new, bright things to buy and wear now.

Number One: A tailored suit of imported worsted tweed in a colorful mixture and not too heavy to wear under a coat, just like a dress. A two-color silk scarf finishes off the neck in a snappy way.

Number Two: A bright, gayly printed frock of pure-dye silk. The print should be bright with a dark background. The frock should be high at the neckline. Other new points about it: gathered yoke, elbow sleeves, and wide, two color belt.

Number Three: A pastel frock with dressmaker details. For instance, a pure-dye silk crepe, with self fringe and two velvet flowers. The skirt is slit at the sides; the peplum is new.

Number Four: An evening frock of starched net lace, with full wide skirt and the rustle of taffeta in its slip.

**McCarthy's Pharmacy** has just received a new lot of Greeting Cards. These cards are very modern, just off the press. There are cards for all occasions, Birthday, Convalescent and Anniversary, et cetera.

**A. P. Petersen, 476 Exchange St., Geneva, N. Y.,** rates 100% in his ability to match your old coat and vest with new trousers. If it's new trousers you need, bring in your old coat or vest to get a sample from.

Let me remind you that you receive finer workmanship, for less money, in repair services on watches clocks and jewelry at **Prince's Jewelry Store, 20 Linden St.** I also recommend **Prince's** for excellent picture framing.

Dressmaking, coats, suits and all kinds of plain and fancy sewing is done by **Edna Jerrett at 8 Pulteney St.,** just around the corner from Castle. **Phone 5857.**

Look charming when staying at home. Resolve from now on to change every evening after the rush and bustle of the day. Instead of being tired and worn out you will feel refreshed. A bath and an entire change of dress will do wonders to give you a new lease on life for the evening.

Even if you are having a quiet evening at home, look charming and attractive. Form the habit of changing. Everybody is doing it.

When other breads and cakes become tasteless, it is time for you to make a change. This change should be to **Ringer's** home-made bread—all kinds. The solid chocolate layer cakes are especially fine. Do you like almond macaroons, lady fingers and potato chips? **Call 2011.**

## Inexpensive Lobster Newburg

1½ cups boiled lobster  
1 tablespoon butter  
¾ cup Sherry (or any flavoring wine)  
1 cup cream (or thick milk)  
Yolks of 2 eggs, salt, dash of cayenne pepper.

Melt butter, add lobster, seasonings and simmer for 5 minutes. Add wine and cook 3 minutes longer. Beat together egg yolks and cream, add to lobster and shake saucepan over fire until mixture is thick. Serve immediately on toasted bread. Will curdle if left standing, so must not be prepared until ready to serve.

M. M. M., Washington St.

## John Mazettee

1 package of noodles  
2 pounds ground pork  
2 medium sized onions  
1 large can tomatoes  
Salt and pepper  
2 tablespoons fat

Cook noodles until tender in salt water, fry onion (chopped) in fat. Add meat, season and brown; add tomatoes and tomato juice and cook slowly a half hour. Add nood-

les and cook slowly an hour or so. A can of mushrooms may be added and it is an improvement to cook the noodles in chicken broth.  
E. C., Exchange St.

## Walnut Wafers

½ lb. sifted brown sugar  
4 rounded tablespoons flour  
½ lb. broken walnut meats, a little salt  
¼ teaspoon baking powder  
2 eggs

Sift together three times the flour and baking powder. Beat eggs, add sugar, salt and nut meats. Add flour mixture, mix well and drop by small spoonfuls on buttered baking sheets. Bake in quick oven.

(The 29th of a series of quotations  
from the collection of M. F.  
Devaney)

"A committee is a perfect device  
for postponing action and dividing  
responsibility." "A committee of  
three functions best when one is  
sick and the other is absent."

"The owl which is considered  
the wisest of birds has the plainest  
of feathers."

"When fortune means for men  
most good she looks upon them  
with threatening eye."

"Depression is the time when we  
have to do without the things our  
parents never had."

"This thing called tomorrow has  
deceived more men, postponed  
more achievements and stalled more  
successes than any other thing in  
life."

"Real achievement consists in  
succeeding oftener than you have  
failed."

"Good will piles up when your

## THE FUNNYBONE

### Purchasing Agent

"What's this big item on your expense account?"

"Oh, that's my hotel bill."

"Well, don't buy any more hotels."

### Progress

Willie: "Did Edison make the first talking machine, Pa?"

Pa: "No, son, God made the first one, but Edison made the first one that could be shut off."

### Poor Prognosis

"I don't think that Doctor Smith knows his job. Two years ago he told me that I only had six months to live."

"Still, he's a nice chap. Too bad he isn't more reliable."

### Well Earned Rest

"Fellow citizens," said the candidate, "I've fought against the Indians, I have often had no bed but the battlefield and no canopy but the sky. I have marched over frozen ground till every step has been marked with blood."

His story took well till one of the audience came to the front and leaning over the footlights said, "I'd say you've done enough for your country. Go home and rest, I'll vote for the other fellow."

Butcher—O. K., goilie, I'll see if I can find a cook book.

### Dishonesty

A man dropped into a grocery and asked for a dozen "black hens' eggs." The puzzled clerk stared at him. "I can't tell the eggs of a black hen from those of a white one," he said.

"I can," said the man.

"All right," responded the clerk; "pick them out yourself."

The man began to handle over the lot and pick out the big ones.

"Here, you can't do that," said the clerk. "You're taking the biggest eggs."

"Sure I am," answered the man. "That's the way to tell black hens' eggs."

### 1935 LEGION REVUE

On Monday evening, March 4, at  
the High School Auditorium, will  
be staged the American Legion Re-  
vue of 1935.

One of the features of the per-  
formance will be the appearance on  
the stage of the Winnek Post Drum  
and Bugle Corps, New York State  
Champions, together with Misses  
Helen and Jane Finnerty in dance  
numbers and Justin Martin, well  
known lyric tenor.

Other acts will include a stage  
appearance of Jimmie Lynch and  
His Band; a fifteen minute song and  
dance revue; Charles Gibson, Xylo-  
phonist, and one or two additional  
acts to be announced later.

In conclusion there will be a gala  
Minstrel performance under the di-  
rection of Al Leonard and Jim Dit-  
mars, presenting the cream of Ge-  
neva's singing and dancing talent,  
assisted by Jimmie Lynch's Orches-  
tra.

An evening of exceptionally en-  
joyable entertainment is assured.  
(See ad, page 8).

### Germans in Texas

The revolutions of 1848 and 1849  
in Europe drove thousands of peo-  
ple to foreign lands and many came  
to America. Between 1847 and 1850,  
15,000 Germans landed at Galves-  
ton, Texas. In 1834 a ship bearing  
German immigrants was wrecked on  
Galveston island and in 1838 a Ger-  
mania society was organized in New  
York to establish a colony in Texas.  
A boat load of 130 people reached  
Galveston on Christmas day, 1839.

## Honest Advertising

Nothing will take the place of  
honest advertising in this country  
for many years to come. Adver-  
tising carefully prepared and AT-  
TRACTIVELY PRESENTED  
will help business now just as it  
has done in the past. Those who  
practice the doubtful method of  
economy by refusing to use any  
advertising media are woefully  
ignorant of facts.

# THE COMMUNITY KITCHEN

Conducted by BETTY BROWN

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Mince Meat Cookies

1 1/2 cups sugar  
1 cup shortening  
1 cup nut meats (chopped)  
3 eggs, a little salt  
1 teaspoon soda  
2 1/2 cups flour  
1 package of mince meat, or  
1 cup of home-made mince meat  
1 1/2 tablespoons of hot water (omit if using the home-made mince meat)

Cream shortening, add slightly beaten eggs and part of dry ingredients. Add mince meat, nuts and remainder of dry ingredients. Drop on cookie sheets and bake 15 to 20 minutes in 350° oven.

Mrs. J. H., Nursery Ave.

## Tasty Salad

1 quart tomato juice, seasoned well with onion juice, salt and pepper  
2 tablespoons lemon jello  
2 tablespoons sugar

Let this mixture stand until it begins to set. Form cottage cheese into small balls, place in molds and pour jello mixture over them. When

solid serve on lettuce with any favorite salad dressing.

M. H. S., Pulteney St.

## Fruit Salad with Banana Dressing

Pare 6 oranges and remove white membrane. Pull apart in sections. Prepare 1 grapefruit in same manner. Drain 1 pint of peaches and slice. Place fruit in a salad bowl lined with crisp lettuce or on individual plates.

For dressing, press 6 ripe bananas through sieve, add 1/4 cup lemon juice and a little salt and paprika. Mix well and pour over salad.

R. T., Stanley, N. Y.

## Macaronied Salmon

1 cup macaroni  
2 cups flaked salmon  
3/4 cup rich or evaporated milk  
1 tablespoon butter, salt and pepper  
2 hard-cooked eggs

Boil macaroni in salted water until tender. Drain and place in greased baking dish. Add salmon and mix lightly together. Add milk

**A. P. Petersen, 476 Exchange St., Geneva, N. Y.,** rates 100% in his ability to match your old coat and vest with new trousers. If it's new trousers you need, bring in your old coat or vest to get a sample from.

—D—

### Fashion Harbingers of Spring

There is more feminine feeling in the newer fashions—expressed by a return to softer fabrics—vaporous chiffon, becoming lace, and lovely net—and accentuated by frilly capes, softly flattering berthas, and luxurious flower-laden accessories—the soft little touches that women love. The swish of taffeta is in the air. Daytime clothes are quiet—ladylike, or British bold and tweedy. Straight and slim is the silhouette.

Evening dresses become picturesque in the "period" manner, but they suggest the romantic types of many modes rather than any one in particular. New peasant necklines, shirred on a string, give greater fullness to bodice and sleeves.

The tendency in lace curtains, this year, is toward large mesh. Draperies feature solid colors. Stop in **Lynch's** and browse around. New and beautiful patterns in curtains and draperies are now on display.

You will be pleased with the shoe repair work that is done by **Carl.** First class work at reasonable prices... rebuilding and repairing. **Carl's Shoe Repair Shop** (next to Empire Gas Co.) **Castle St.**

## Rich Pie Crust

1 cup raw potatoes  
1 cup raw carrots  
½ cup raw onions  
1 cup celery  
¾ lb. Sirloin or other steak (suet)  
Pepper, salt and parsley

Roll pie crust as for pie, cut square and cover half with above ingredients. Sprinkle with water and fold over other half of crust to cover. Pinch edges well, prick upper crust to let steam escape and bake slowly for 1 hour.

Mrs. W. O., Pulteney St.

## Chinese Dressing for Combination Fruit Salads

2 cups mayonnaise  
½ cup chopped almonds  
½ cup currant jelly  
½ cup whipped cream

Mix ingredients lightly together shortly before using.

## Crab Meat Salad in Tomato Cups

2 cups crab meat  
1 cup chopped celery  
1 green pepper (minced)  
3 tablespoons French dressing

2/3 cup mayonnaise, a little salt and paprika  
6 stuffed olives  
Lettuce and tomatoes

Pick over crab meat carefully to remove all particles of shell, add to it celery, minced pepper and seasonings and pour French dressing over ingredients. Let stand for ½ hour.

Remove tops of tomatoes, scoop out seeds and pulp, fill with crab meat mixture and garnish with stuffed olives and mayonnaise. Serve on lettuce leaves with crisp potato chips.

# RADIO FLASHES

By Ralph Le Brun

A special broadcast by the Ohio Wesleyan University Glee Club in commemoration of the 93rd anniversary of the founding of the University at Delaware, O., will be presented over the Columbia network on Saturday, March 9, at 6 P. M.

The vaudeville team of Bernie and Baker, absent from the public eye and ear these many years, will be re-assembled for a one-time booking in the NBC studios Tuesday when Phil Baker appears as guest artist on Bernie's program over an NBC-WEAF network at 9 P. M. Long before Bernie ever conceived the idea of becoming an orchestra leader and Baker discovered that money was to be made in the comedy business, these two teamed up as a vaudeville act, Bernie sawing his fiddle and Phil pumping the accordian.

DeWolf Hopper, narrator of the Kansas City Philharmonic Orchestra concerts on NBC Sundays, will observe his 77th birthday March 30. In his distinguished career of 56 years in the theatre, Hopper has missed but two performances. He has never been sick a day in his life since he was 12 years old when he had typhoid fever.

What they used to do—Paul Whiteman drove a taxi—Clara, of Clara, Lu, 'n Em, clerked in a millinery store—Phil Baker was secretary to Carl Laemmle, motion picture producer—Tony Wons worked in a type-writer factory—Irene Beasley was a school teacher—Jane Froman was a sob sister—Jackie Heller used to be a boxer.

## DO YOU NEED

## A Larger Income From Your Present Capital?

A man of Seventy... has \$10,000 savings... his earning power has ceased... he requires \$1,000 a year on which to live. No conservative bond investment will produce the income which he needs with real dependability beyond the normal 5% rate of \$500.00 a year.

He can, of course, eat into his principal, but each bite must be larger than the last to offset the diminishing income. If he dies soon enough he escapes disaster, but the dread of this result can scarcely be conducive to a happy old age.

We will gladly tell you how our Annuity plan will solve your problem.

Well, Noah, is the ark full?

Conductor—Nope, we need one more jackass. Come on in.

### Just for a While

Mandy: "So yo' done mortgaged our li'l home?"

Mose: "Jes' temp'rarily, honey, til' de mortgage am foreclosed."

### An Unfailing Spur

The new general manager was inspecting the branch office. "How long have you been working here?" he asked the office boy.

"Ever since the day the boss threatened to fire me," replied the young man.

### Fair Warning

"Those cakes are as hard as stone."

"I know. Didn't you hear her say, 'Take your pick' when she handed them around?"

### He Wanted to Know

"Well, whose been waiting the longest?" asked the dentist cheerfully as he opened the door of his office.

"I think I have," said the tailor, presenting his bill. "I delivered that suit you're wearing three years ago."

### Retaliation

Josie—Isn't Rover a naughty dog, mummy? He ate my doll's slipper.

Mother—Yes, darling, he ought to be punished!

Josie—I did punis' him. I went straight to the kennel an' dwank his milk.

**RADIO FLASHES**

By Ralph Le Brun

On Sunday at 12:45 P. M. over the Columbia network an address by Eamon DeValera, president of the Irish Free State will be broadcast from Ireland.

"Let March Winds Blow" said Amos 'n Andy, "It's California for us". So Weber City, for the balance of March will take to the air from Palm Springs, California about fifty miles from San Bernardino.

The Chase and Sanborn Tabloid operas on Sunday evenings at 8 P. M. over NBC-WEAF will be replaced beginning March 24 by Major Edward Bowes' Amateur Show.

Rudy Vallee's Variety Hour contract has been renewed for a year and a half with options for the next seven years. He has been broadcasting for the same sponsors for five and a half years.

There are 6,780,570 paid broadcast receiving licenses in Great Britain. The revenue from them is about \$16,544,590 yearly. Germany has 6,142,921 receiving licenses at 2 marks a month; about four times as much as in Great Britain. (Good old U.S.A.)

In a recent survey made by the Columbia Broadcasting System it is estimated that there are 21,455,799 homes in the United States with a Radio. There are over two and a quarter million homes with two or more radios. There are almost two million radio equipped autos. New York State, second only to the District of

Columbia boasts that 89.7 per cent of its homes are radio equipped. Arkansas hits the low with 27.5 per cent with radios.

## —\* DOROTHY GOES SHOPPING \*—

The designers of clothes for this Spring and Summer have been going back to Regency days for inspiration. It's a very important fashion revival, helped along by several new films and plays with Regency settings, such as George Arliss' recent picture "The Iron Duke".

Women who appreciate the charm of good looking, long wearing silk stockings are turning in ever increasing numbers to **Lattimer's Brownbilt Shoe Store** at 492 Exchange St. Both chiffon and service weights priced at 59c and 69c are unusual values.

Porcelain prints are the very latest according to Paris reports. They are made by a new process using a dead white background known as porcelain clay.

A. P. Petersen, 476 Exchange St., Geneva, N. Y., is pleased to announce that the 1935 Spring samples have just arrived. Stop in and look them over. Be prepared for Easter.

Entertaining on **St. Patrick's Day** is delightful and for this occasion **Ringer's Bakery** will have special cakes decorated with colored green cocoanut. Don't forget—delicious hot cross buns on **Wednesday** and **Friday**. Call 2011.

Play suits for summer will be made of porospun silks, which are meshy and light in weight.

The chiffon sash is returning to favor for formal afternoon and evening events.

Keep your feet comfortable. Step toward good health. Worn shoes need not be discarded. At **Carl's Shoe Repair Shop**, they can be rebuilt as good as new; and, consequently, are ready for longer wear and more comfort.

You should be interested in the new curtains and cottage sets for Spring, now on display at **Lynch's**. This Spring, cottage sets have a tendency toward more color. You'll surely find "the" curtain you wish at **Lynch's**. Material also sold by yard.

For prompt service on watches, clocks and jewelry, stop in **Prince's Jewelry Store**, 20 Linden St. Rates are reasonable and you receive first class work. Prince's also have a reputation for excellent picture framing.

One of the important spring styles is the checked tweed jacket with a flannel skirt. You will see them in a brown and natural check jacket with a brown skirt, or black and white check jacket with a black skirt.

Remember, when you buy wallpapers and decorative fabrics, that it is not just a matter of getting something new, but of finding what will add to the charm of your rooms and your pleasure in them. Remember too, that choosing the right colors is half the battle. The task is an absorbing one, this year, for fabrics and wallpapers have never been more alluring in color, more varied or more practical.

### Meeting of Personal Finance

A meeting of the New York Association of Personal Finance Companies was held March 7 in New York City. Frederic W. Howe, a director of the Walker-Gordon Co., an affiliate of the Borden Company, was the speaker at the luncheon held at the Hotel Governor Clinton.

Members of this Association are engaged in a business which has brought the advantages of modern finance within reach of the average householder.

Development in New York State of this business of granting credit in sums under \$300 on monthly repayment plans adjusted to fit the individual budget—with charges payable only on the unpaid balance—was made possible through the adoption of the New York Small Loan Law in 1932. This law established a sound legal basis on which a business adequate to meet the popular need for small loans could be built. Companies operating under it are licensed by the State Banking Department. It was accepted that financing should not be the exclusive prerogative of big business and the man of property, but that it should also meet the needs of the man of moderate income who lacks acceptable security for bank credit, but whose earning ability and integrity entitle him to credit in order to bridge family crises without sacrificing his self-respect and independence.

Major events in nearly every branch of professional and amateur sport will be heard over the Columbia Broadcasting System during the coming spring and summer season. Starting with the transatlantic relays of the Grand National Steeplechase at Aintree, England, on Friday, March 29, and the Oxford-Cambridge boat race on Saturday, April 6. On April 16, Columbia will broadcast one of the major opening baseball contests of the season and on April 23, the engagement between the New York Giants and the Boston Braves at the Polo Grounds, New York. The latter event will mark the first appearance of Babe Ruth in New York as a member of the Boston Braves.

In celebration of their 16th anniversary, Fred Waring and His Pennsylvanians will present a group of popular post-war songs in their weekly broadcast over the Columbia network on Thursday at 9:30 p. m. The list of old favorites will be taken from a dance program the Pennsylvanians presented at a Junior Prom of the University of Michigan, in February, 1921, their first big professional engagement.

### Gleaned from Here and There

(The 33rd of a series of quotations from the collection of M. F. Devaney)

"Money is only good for what it will buy; one could be locked up in a bank vault surrounded by it and starve to death."

"If wrinkles must be written on the brow let them not be written on the heart; the spirit should be kept young."

"Being broke is often one of the stepping stones to success."

"Ain't it funny that some folks we can't miss and others we miss a pile and the ones we can't miss we see often and the others only once in a while."

"The only difference between stepping stones and stumbling blocks is in the way we use them."

### In Spite of Heavy Losses—

many people today still have a considerable amount of capital. However, declining interest rates and decreased dividends make the problem of meeting their present expenses with a reduced income very difficult.

It is small wonder that the interest of the public in ANNUITIES has increased. People are beginning to realize that the Annuity investment can give one thing which the public wants today—a livable income which is guaranteed.

We'll gladly send you particulars without the slightest obligation.

## THE FUNNYBONE

### We'll Be Doggone!

"Your Honor," said the attorney, "your bull pup has chewed up the Bible."

"Make the witness kiss the dog," grumbled the judge. "We can't adjourn to get a new Bible."—*Annapolis Log.*

### One-Sided Bond

There is almost always a tie between father and son—and the son usually wears it.

### The Plane Truth

"Hello, Smith, haven't seen you for some time."

"Been in bed seven weeks."

"Oh, that's too bad. Flu, I suppose?"

"Yes, and crashed!"

### An Easy Remedy

"I object to smoking," said a nervous little lady in the back seat of a street car. "It makes me ill."

"Is that so?" said the man with the pipe, sympathetically. "Well, don't you think you ought to give it up, ma'am?"

### Useless Worry

A man on trial for his life was being examined by a group of alienists. Suddenly one doctor jumped up and shouted at him: "Quick, how many feet has a centipede?" The man came back in a dry, dry voice: "Gad, is that all you have to worry about?"—*Annapolis Log.*

### The Difference

A small boy had taken his mother's powder puff and was in the act of powdering his face when his small sister, aged five, snatched it from him.

"You mustn't do that," she exclaimed. "Only ladies use powder—gentlemen wash themselves!"

### S O S

A policeman, making his rounds in the early morning, found an inebriated individual standing in a horse trough and waving his handkerchief over his head.

"Hey, what are you doing there?" asked the cop.

"Save the women and children first—I can swim."—*Punch Bowl.*

### Distinction

"What model is your car?"

"It's not a model; it's a horrible example."

## THIS AND THAT

Noticed an airplane soaring round  
and round a few days ago, as  
though looking for a place to land.  
Probably looking for that air port  
that "used to be" up on Bean's Hill.  
Geneva—a nice up-to-date city—air-  
planes passing over every day and  
no airport. Too bad.

One of the funniest excuses an  
advertising man has to listen to is

the one "We'll advertise when busi-  
ness picks up" or "When we get  
some business we are going to do  
some advertising". That's putting  
the cart before the horse. Business  
comes "after" advertising—not "be-  
fore" it.

One of the needed city improve-  
ments that this paper has advocated  
from time to time since September,  
1933, is the covering of the unused  
car tracks, and we were pleased to  
note at the beginning of the year  
that Mayor Maxwell recommended  
in his message to the Common  
Council that arrangements be made  
to cover the tracks. We are now  
wondering if another winter will  
find the tracks in the same slippery  
and dangerous condition—or even  
more so.

Is there anything more important  
in the Spring than house-cleaning,  
painting, varnishing, etc.? Is there  
anything more important anytime  
than food—especially bread? (Now  
turn to page 12.)

We often wonder if Genevans ap-  
preciate our theatre and the class  
of attractions that play here. Schine's  
Geneva Theatre outclasses in beauty  
many of the play houses in much  
larger cities and many of the out-  
standing pictures play here as soon  
as, or even sooner than, in Syracuse,  
Rochester, Buffalo and New York.  
Just consider the pictures of the  
past week—"Ruggles of Red Gap",  
"Vanessa", and "Sweet Music".  
And not forgetting "Roberta" com-  
ing (see ad, page 6)—given four  
stars by Liberty magazine.

Speaking of "Vanessa"—what  
fine acting by that "Grand Old  
Lady" of the stage and screen—  
May Robson. At one time your writ-  
ter was a member of a theatre or-  
chestra—back in the days when the  
actors appeared "in person". We  
witnessed the performances of many  
of "the best of them", but one piece  
of acting that has always stood out  
in our memory was that of the  
inimitable May Robson in "The Re-  
juvenation of Aunt Mary".

## Persistence

Persistence is the mother of mir-  
acles. It is half of achievement. In  
advertising persistence is the first  
law of success. Spasmodic adver-  
tising, no matter how good, is  
seldom resultful.

Persistence appeal builds good  
will, creates confidence, develops  
interest and tends to make your  
advertising efforts produce re-  
sults.

It is the cumulative effort of your  
advertising that makes it pay.

## Geneva "Coming Back" Musically

Some twenty years or so ago Geneva was "on the map" musically. It supported visits of the country's leading symphony orchestras, conductors and soloists. It also had a very fine choral organization, but since that time something happened—we don't know just what—and Geneva became known as a very unmusical city.

There seems to be favorable indications, however, that we are now awakening from our Rip Van Winkle musical lethargy and last Sunday a very appreciative audience, if not a capacity one, listened to the second concert given by the Geneva Symphony Orchestra, an organization of some fifty musicians, in the High School Auditorium. And a very credible performance it was, too.

The orchestra, the members of which are nearly all recruited from Geneva and nearby places, is a real credit to our city and to its organizers and patrons.

On Wednesday evening, May 1, at Schine's Geneva Theatre, Geneva music lovers will have an opportunity of hearing another opera presentation sponsored by Stuart Gracey. This time the ever popular and tuneful "Il Trovatore". It will be sung in English, with a chorus of seventy and large orchestra. Previous presentations by Mr. Gracey during the past couple years have been well received and seem to be another indication that Geneva is "coming back" musically.

The Smartest Accessories. Navy blue ones, navy hats, navy bags, navy shoes, and navy blouses, if the suit is grey or natural. But don't put all navy accessories with a navy suit; add a raspberry blouse, or a yellow hat or white piqué revers, or something. All one color is tiresome. For gloves, white piqué is first.

## Geneva "Coming Back" Musically

(Continued from Page 5)

At one time Geneva could boast of two or three fairly good dance bands, but that was quite some time ago—several years, in fact. Recently, however, through a chain of circumstances, Jimmie Lynch has been able to organize what seems to have the ear-marks of a real outfit. Two or three of the boys were with Jimmie when he was with Paul White-man's Leviathan Band (where Morton Downey got his start) and others have been with leading organizations elsewhere. We hope Jimmie can keep the bunch together and he probably can if he can get the support the band deserves. Why not make it popular to give the local boys a break when needing dance music?

## Aquatic Snails

Aquatic snails are of two forms, according as they live in quiet, weedy marshes or in the depths of our lakes and rivers. The first mentioned need only thin, hornlike shells, while the river-snails require thick and strong coats of limy texture in order to withstand the rough treatment swift currents may give them, and protection against their peculiar enemies.

## Weapons of Wasps, Bees

Wasps and bees are equipped with the most formidable weapons of defense of all insects. Many insects can bite and puncture with their mouth parts, but they can't do it as handily, neatly and effectively as the wasps can puncture with their sting. The sting of the common social wasp or bee is simply a weapon of defense which is not used so long as the insects are not disturbed or threatened with injury.

## "Fiddler's Green"

"Fiddlers' Green" is the humorously imagined Elysian fields of sailors and vagabond craftsmen, where credit is perpetually good and there is always a lass, a glass and a song.

## Heredity

Except for a few cases of sex-linked heredity, such as color blindness, hemophilia, night blindness and Gower's disease, in which sons inherit directly from the mother, there are no evidences that heredity differs between the sexes.

## 9 Elements in Christ's Time

Only nine of the ninety-two chemical elements were known before Christ—copper, gold, iron, lead, mercury, silver, tin, carbon and sulphur. No new ones were added until 1250, when arsenic and in 1450 antimony were discovered.

## Rattlesnake's Diet

The rattlesnake lives by a very odd diet. He gorges himself on birds' eggs, birds, mice and the like, only after he has shed his skin. In between times, he "diets."

## THE FUNNYBONE

This is the story of Johnny McGuire Who ran through the town with his trousers on fire; He went to the doctor's and fainted with fright When the doctor told him his end was in sight.

### The Persistent Wooer

Abe's boy Ikey was in the outer office when a telegram arrived, and the stenographer called out, "A wire from the salesman, Mr. Bernstein."

"Read it aloud to me," the boss called from the inner room. So she began:

"Was in Dallas Monday stop be in Houston Wednesday stop be in New Orleans Thursday stop—"

Here Abe interrupted, calling to his son, "Ikey, leave that girl alone and let her read that telegram."

### Add Benefits of Culture

"My friend laughed when I spoke to the waiter in French."

"Well."

"The laugh was on him—I told the waiter to give him the check."

### Ready and Willing

Old Maid (to drugstore clerk): "Have you any Life Buoy?"

Clerk: "Just set the pace, lady."

### The Difficulties of Language

Mme. French had considerable difficulty with the English language, but she finally managed to hire a workman to mow the lawn. But when, on the second payday, he demanded an increase, she grew reproachful.

"You are more dear to me now than when we were first engaged," she pouted.

Five men recently started their annual chore of washing the glass roof of Waterloo Station, London. When they finish, three months will have passed and 22,400 squares of glass, or about 13 acres, will have been cleaned.

Here's a job which, on the face of it, is considerably more than a pane.

### Temporary Improvement

Down in Alabama a Negro went into a meat market, gazed long and tenderly at a chicken, and then purchased a ham. The next day he came shuffling back into the market with the ham under his arm.

"Look here, Boss," he exclaimed. "This here ham am spoilt."

"Why, it couldn't be," replied the surprised butcher. "It was cured in the best way."

"Well, Boss, if this here ham has been cured, it sure done had a powerful relapse."—*Ex.*

### RADIO FLASHES

By Ralph Le Brun

Ghost stories and piano classics will be featured together in a novel series to be inaugurated over NBC-WHAM, Sunday at 10:15 P. M. The broadcasts sponsored by the makers of Van Heusen collars will consist of several piano duets by the popular two piano team of Triggs and Brodsky and one of Louis K. Anspacher's famous "True Ghost Stories."

A transatlantic debate between the crack teams of Oxford University of England and Columbia University will be broadcast over the Columbia network on Saturday at 5:00 P. M. The question will be, Resolved: That the United States and Great Britain should set up government monopolies for the manufacture of armaments. The debate will be conducted under the chairmanship of Dr. Nicholas Murray Butler, president of Columbia University, with the American team speaking from WABC and the Oxford aggregation from the studios of the British Broadcasting Corporation in London.

Other interesting coming broadcasts over the Columbia network are: On Sunday at 12:45 a description of a Luau at Waikiki Beach and playing of native music will feature a broadcast from Hawaii. On Tuesday at 3:00 P. M. the Vatican Choirs, the famous Sistine and Lateran chapel organizations will be heard from Rome.

General Hugh S. Johnson is scheduled for a WJZ broadcast on Saturday at 10:30 P. M., and Huey Long will speak over the Columbia System, Sunday at 11:00 P. M.

### Origin of Tapioca

Tapioca is prepared from the starch made from the tuberous roots of the cassava or manioc plant. This plant is a native of South America, notes a writer in the Indiana Farmer's Guide. The cassava starch separated from the fibrous and nitrogenous constituents of the roots, is spread, while in a moist condition, upon iron plates and with constant stirring exposed to such heat as causes a partial rupture of the starch granules in which they agglomerate into irregular pellets, becoming hard and translucent when cooled. In this condition, the starch forms the tapioca of commerce, a light, pleasant, digestible food.

Nature's pranks—drought last year—sand storms this year—are making a monkey out of the administration's agricultural program, which has been a big mistake from the beginning.

Speaking of nature's pranks—along came a heavy wind the other night and blew down what was left of the War Memorial on the Armory lawn. It was in a disgraceful condition, anyway, so it doesn't matter. Will this be the end of a War Memorial for Geneva, or the beginning of one worth while?

Looked over the suggested plans for improvement of Geneva's lake front. It will be mighty fine if these can be carried out. Thousands and thousands of dollars are spent each year advertising the Finger Lakes and when people come to Geneva have we anything to show that we really appreciate our lake ourselves?—have we anything here to induce them to stay a day or two with us and enjoy the lake? We hope the plans referred to can be carried out.

### Snake Spits Poison

The snake which spits poison is the Egyptian spitting cobra. The mechanism of this spitting appears to be that by compression of the poison glands the venom is forced out through the fangs, and at the same time a blast of air is exhaled. This carries the liquid forward as a spray for a considerable distance, and if it strikes a person in the eyes, intense irritation is set up which results in temporary and sometimes permanent blindness.

#### Here Is Our Plan

From your present age to 60 you  
provide protection for your de-  
pendents. Beginning with your  
sixtieth birthday every morning  
when the alarm rings you can  
reach over and take a five-dollar  
bill from underneath it, and you  
can spend that five-dollar bill  
that day, because tomorrow morn-  
ing there will be another five-  
dollar bill under the clock. And  
so on—morning after morning as  
many mornings as you live—if  
you have our Annuity Policy.

## Deviled Cheese Salad

2 tablespoons granulated gelatine  
 ½ cup water  
 1 cup grated cheese  
 2 pimentoes (chopped)  
 ¼ cup nut meats (chopped)  
 ½ cup ripe olives  
 1 teaspoon Worcestershire sauce  
 ¼ teaspoon mustard, a little salt and cayenne  
 1 cup whipping cream

Soak gelatine in water for 5 minutes and dissolve over hot water. Blend together cheese, pimentoes, nuts, olives and seasonings and add dissolved gelatine. Fold in whipped cream, mold and chill. Serve on lettuce with mayonnaise or on slice of pineapple. 8 servings

P. M., Washington St.

## Broiled Icing

3 tablespoons melted butter  
 5 tablespoons brown sugar  
 2 tablespoons cream  
 ½ cup shredded cocoanut

Mix ingredients and place on warm cake. Place very low under broiler with heat at 275°. Broil until icing bubbles and becomes brown, taking care not to burn.

E. C., Exchange St.

## Peanut Butter Cookies

1½ cups flour  
 ½ cup white sugar  
 ½ cup brown sugar  
 ½ cup or 8 tablespoons shortening  
 ½ cup or 8 tablespoons peanut butter  
 1 egg  
 ½ teaspoon soda dissolved in 3 teaspoons hot water  
 ½ teaspoon vanilla

Mix in order given and roll into small balls the size of a walnut. Flatten with fork and bake in 350° oven for 10 minutes. 24 cookies.

M. H., Lyceum St.

## Prune Puff Pie

Cook 1 lb. prunes slowly in water enough to cover. When soft, remove stones and press thru puree strainer. Add beaten yolks of 3 eggs and stir over fire until yolks are set. Cool slightly and add well beaten egg whites. Sweeten to taste, place in pie plate of pie crust and bake 30 minutes in moderate oven.

Some of the warm, sunshiny days we have had convince us that Spring is here and Summer "just around the corner". Time now to set out Nursery Stock; also time to have a Spring house-cleaning job done on the old "bus"—motor and tires checked over and gotten in good shape for the touring season. Soon be time for picnics, going to ball-games and many other warm weather activities.

Merchants are finding out, more and more, that it pays to advertise in the Geneva Community News—"An Advertising Medium of Distinction."

### Community Chest Drive

In the Community Chest Drive (starting April 8) this year the commercial division is to be organized in the same manner as the industrial division has been in previous years—that is, employees in commercial activities will be asked to contribute on the basis of five or ten cents per week, this amount to be deducted weekly or monthly by employees and turned over to the Chest fund. This plan has worked very satisfactorily in the industrial groups.

Laverne F. Darling is general chairman of the commercial division and has announced quotas for the different groups that, while in excess of amounts raised last year, are surprisingly low for the different lines of businesses in these groups. In previous years the commercial groups have been woefully behind the industrial groups in total amounts raised. "A dime a week" is considered a negligible amount for any commercial worker to spare and if each group will do its share on this basis the drive this year will go over in fine shape.

### Interesting Insurance Policy

A \$5,000 claim paid recently by the Phoenix Mutual Life Insurance Company of Hartford, Connecticut, on the life of an eighty-nine-year-old man is an interesting reminder of the many important changes which have come about since the insurance was purchased over sixty-eight years ago.

The policy, according to Laverne F. Darling, local representative of the company, is a unique document printed in script type and painstakingly filled in by hand. It was issued in April, 1866, just a year after General Lee's surrender at Appomatox had ended the Civil War, and contained many curious provisions made necessary by the hazards of early travel. As a safeguard against liability from undue risks, the contract stipulated that: "in case the Assured shall, without the consent of this Company, visit those parts of the United States which lie west of the 100th degree of west longitude, or between the first of July and the first of November, those parts which lie south of the southern boundaries of North Carolina and Tennessee; or shall enter upon a voyage upon the high seas, or shall engage in any capacity in service on any Sea, Sound, Inlet, River, Lake, or Railroad; or in case he shall become addicted to the use of intoxicating liquors as a beverage; or in case he shall die in consequence of a duel, then this policy shall be null, void, and of no effect." "Naturally," comments Mr. Darling, "changing conditions later enabled the company to modify its restrictions, and adherence to many of these early provisions was no longer required. The

## "Hudson-Built TERRAPLANES"

to be given away in 27 days

### GREATEST AUTOMOBILE CONTEST EVER HELD!

Here's how you can win one!

Ride in, and drive, a 1935 Hudson or Terraplane. Read a brief description of these cars entitled: "What Do I Get In a Hudson or Terraplane That I Can't Get Anywhere Else?" This description furnished by our dealers.

Then tell us in your own words, on the official entry blank, WHICH ONE of these Hudson-built advantages appeals to you most, and WHY it is most important to you as a car buyer.

For each of the 25 best answers (in the opinion of the contest judges), the Hudson Motor Car Company will give a new 1935 Terraplane Spe-

cial Coach, complete with bumpers and spare tire, and equipped with the Electric Hand.

### Absolutely FREE

Contest begins April 1, 1935, and ends at midnight, April 27, 1935. For contest news, tune in on the Hudson "New Star Revue," Monday evenings at 8:30 E. S. T.,—over the Columbia Broadcasting System. Winners will be announced during the week of May 13, 1935, and a list of the winners will be available at every Hudson and Terraplane showroom.

The talk of the town! **The Downyflake Coffee Shop, 39 Linden St.**,—every night, a plate dinner for 25c. All kinds of delicious sandwiches. Desserts and beverages too: Maxwell House Coffee, tea and milk. Drop in! It's convenient and economical.

—D—

**McCarthy's Pharmacy** features a Sale this week only. Drop in and browse around! You'll find many worthwhile bargains throughout the store.

**Free!** With every purchase of **\$1.00** or more a pair of colored salt and pepper shakers.

—D—

Fresh and modern! Yes, but not too modern. You can have walls of a new color, some chairs and tables, and yet keep the comfortable sofa, and easy chairs and the mahogany pieces you have always had. It's just new combinations of well-loved things that bring freshness into a room.

—D—

If you are thinking about having your Living Room Suite re-covered or slip covers made, it will be much to your advantage to call at the **Seneca Furniture Co.'s** factory, **Middle St.** See the latest 1935 covering materials! Prices to re-cover suites range from **\$48.50** upwards, for high grade factory work.

—D—

With the present vogue for wooden accessories, wood carving, an ancient craft, has become new and smart. Many a humble kitchen bowl, enriched by a little simple carving, has been brought into the dining-room. Wooden plates to match make a delightful salad service.

—D—

The coolest, smoothest idea in hosiery history . . . **"Roll Top" Knee Hose** are fashioned to fit and will remain snugly in place without the aid of elastic. Smart new shades. \$49 per pair. **Lattimer's Shoe Store, 492 Exchange St.**

**Foreheads are in fashion!** The brim on your Spring hat will probably turn back to show all, or at least part, of your forehead. **The Bon Ton Millinery, 498 Exchange St.** (opposite Regent Theatre) has a grand selection of these delightful new hats as low as **\$1.25**.

—D—

There'll be no tucking away locks under your new Easter bonnet! Here's your chance to display lovely, natural waves and curls. Dorothy recommends a Harper Method Permanent at the **Harper Method Beauty Salon, 10 Seneca St.** Reasonable prices. Call 6783.

—D—

All furniture polishes should be applied with a circular movement to only a small amount of surface at a time; then immediately rubbed briskly with a woolen rag or piece of cheese cloth, with the grain, until a high polish is imparted. Always rub the surface until thoroughly dry.

—D—

Have you any watches or clocks that need repairing? If so, remember it pays to take the work to someone reliable. I recommend **Prince's Jewelry Store, 20 Linden St.** All work is guaranteed.

—D—

There's something different about **Ringer's** bake goods—a special fine quality. Ringer's bread is delicious. You'll like the doughnuts, fried cakes and cookies. Last but not least, fresh cherry pie. **Call 2011.**

—D—

Make your spring suit gayer with a fringed ascot scarf of beige with colored stripes.

—D—

**The Old Gold Shop** (next to Home Dairy) **Seneca Street** buys old silver as well as old gold. Your old gold and silver may be worth more than you realize. Get it together—take to the Old Gold Shop and find out. It might help you considerably toward securing that new Easter outfit.

**George's Candy Kitchen, 364 Exchange St.**, established in Geneva for over 20 years, has a reputation for choice candies. I urge you to try George's Endorsed Chocolates, **50c** a lb. Half-pound boxes at **25c**.

—D—

**Baker & Stark, Inc.** are offering this season the largest assortment of **Spring Hats** that you will find anywhere in the city. You surely can be fitted from a stock as large as this one, and at the price you wish to pay.

—D—

Ladies suits and coats made to order . . . **A. P. Petersen, 476 Exchange St., Geneva, N. Y.** invites you to stop in and look over the samples. Also, coats and suits relined and altered.

—D—

Protect your wife and family by putting **General Blowout-proof Tires** on your car. Be safe on the tire that is built for Human Mileage. See **Fred Garver** on **Main St.** (next to the Armory) or **phone 6203**.

—D—

Spring and always Spring Cleaning! Your greatest help—**Vacuum Cleaner**. Without a cleaner and attachments, you can do no spring cleaning. Call at **Z. N. David's, 23 Castle St.** Ask for a home demonstration! Very reasonable prices. Also parts and service.

—D—

The **Bargain Basement** at **Lynch's** is becoming more popular weekly. For here, you can find the article you wish and at a very low price. Possibly a remnant of yard goods . . . curtains . . . or almost anything.

Those tender little seeds that en-  
tirely cover the new Vienna-shaped  
loaf of bread put out by the Geneva  
Baking Company are genuine Ses-  
ame (ses-a-me) seeds from Southern  
Asia. They are what give the bread  
that deliciously "different" flavor—  
and it's doubly delicious toasted. Try  
it.

Sorry to have had to disappoint

### Gleaned From Here and There

(The 35th of a series of quotations  
from the collection of M. F. De-  
vaney).

"Happiness is the only good; the  
place to be happy is here, the time to  
be happy is now and the way to be  
happy is to make others so."

"Make light of your troubles and  
you can keep them dark."

"The finest of battles a man can  
win, where the winning is better  
than gold,

Is the battle that ends in a cheery  
smile when the tongue's inclined to  
scoold.

"In fighting the battles of life, my  
friend, has it ever occurred to you,

That the man who wins where  
others lose is the man with the  
pleasant word.

"The folks we like to meet the  
most and the ones we count worth  
while,

Are the ones who always come to  
the front with a great big cheery  
smile."

"Happiness is like jam—you can-  
not spread it without getting a little  
on yourself."

"Life is like base ball, we must  
step up to the plate and swing."

"Sometimes it shows a great com-  
mand of language to say nothing."

No Hungarian vintner, straining his wine through straw, ever produced a finer, more truly royal Tokay than Widmer makes on the shores of New York State's Finger Lakes. This honey colored, sweet wine is the perfect wine to serve with desserts or at afternoon parties. Ask for Widmer's by name—be sure you get a true-to-type wine.

Carol Deis—Dayton, Ohio, stenographer—winner of Atwater Kent national radio audition in 1930—often heard over NBC networks.

Harry Einstein, called "Parkyarkarkas" in Eddie Cantor's program has given up his business in Boston in order to continue to appear before the microphone. His salary as radio's most amusing stooge will amount to more than \$20,000 this year.

These NBC artists made their first public appearances as follows: Louise Bernhardt at the age of 4 as a dancer in an amateur show in her home town of Melrose, Mass.—Harry Reser, at 8, played a violin solo at a teacher's recital in Piqua, Ohio, his birthplace—Conductor Al Goodman, the son of a Jewish cantor, at 5, sang in his father's synagogue in Baltimore, Md.

**RADIO FLASHES**

By Ralph Le Brun

Dr. William J. Carrington, President of Kiwanis International, will discuss his organization's progress during the last year in a nation-wide broadcast over the Columbia network on Monday at 1:30 P. M. Arranged in connection with "Kiwanis Progress Week," Dr. Carrington, speaking from Atlantic City, will be heard by thousands of Kiwanians many of whom will assemble in local club rooms especially for the broadcast.

One of the final matches of the American Bowling Congress, in progress at the N. Y. State Armory in Syracuse, will be described over the Columbia network on Saturday at 10:45 P. M. The program will originate through WFBL with Leo Bolley the Station's sport announcer at the mike.

A CBS broadcast from England at 9:30 A. M. Saturday will describe the annual contest between the oarsmen of Oxford and Cambridge Universities as they race on the Thames.

More than 160 persons, a newly created telephone exchange and 250 trunk lines are called into service Sunday evenings in order that radio listeners might cast their votes on Major Bowes' Amateur Hour Broadcast over the NBC-WEAF network. Weeks of planning lie behind the special telephone setup. The New York Telephone Co. found it necessary to create a new unlisted exchange number, tying in lines from other exchanges, to handle the thousands of calls placed in the 60 minute period on each Sunday evening.

What's in a name? Plenty in the case of Don Mario, tenor of the Penthouse Serenade program. His full name is Jose Francisco Antonio Ildelberto Israel Alvarez del Rio Loyola. He was born in Cuba, the son of a wealthy sugar man, and educated in the United States. Don speaks English, Spanish, Italian and French fluently and even knows a little German.

Colonel Stoopnagle and Budd were having luncheon in a restaurant near the studios of WABC. Suddenly the Colonel leaned toward Budd and whispered: "Don't look now, but two fellows are just going out the door and one of them has your hat on."

## Ford Sales Doubled

The enthusiastic manner in which the motoring public has accepted the new, larger, and more comfortable Ford V-8 for 1935 is shown by sales records. In January domestic retail deliveries of Ford V-8 cars and trucks registered an increase of 110 per cent over the same month last year.

Domestic production in January totaled 100,793 cars and trucks. In February 130,000 units were produced. For March the schedule has been set at 160,000 units—more than 6,000 a day. With January sales more than doubled, another big increase in February, and a new high production schedule for March—Ford marches on.

Advertising is a process of gain-  
ing friends for a product or an in-  
stitution, or both. Gaining friends  
is a confidence building plan and in  
any walk or life it takes time and  
repetition of contacts to gain friends.  
That is the reason it takes times for  
advertising to do its job properly.

## Charity Ball

The sixteenth annual Charity Ball  
under the auspices of Court Geneva  
No. 416, Catholic Daughters of  
America, will be held in the State  
Armory on Easter Monday night,  
April 22.

Jimmie Lynch and his recently  
re-organized band of 12 pieces will  
furnish the music. This organization  
has been making a big hit wherever  
heard. Certain of the members were  
with Jimmie in Paul Whiteman's  
Leviathan Band and others have  
been with other leading bands in  
various parts of the country. All in  
all the combination is "first-class"  
in every respect and excellent music  
is assured.

As a special feature, will appear  
Fraulein Mirzel, now filling an en-  
gagement at "Old Heidelberg",  
Pittsford Inn, and also being fea-  
tured with the Old Heidelberg Or-  
chestra in their broadcasts over  
WHAM at 6:15 p. m. on Fridays.

Fraulein Mirzel is a very talented  
entertainer and only recently re-  
turned from a four months tour of  
leading European cities. She sings  
in several languages and among  
other numbers will present an Inter-  
national Potpourri in a number of  
languages. She will also present a  
musical novelty act as a surprise  
number. (See ad, pages 6 and 7.)

One evening last week as we sat  
in Schine's Geneva Theatre and  
saw Fred Astaire's wonderful danc-  
ing in "Roberta" it brought back to  
mind an evening spent several years  
ago in the old Smith Opera House  
witnessing the fine musical produc-  
tion "Apple Blossoms", in the cast  
of which appeared Fred and Adele  
Astaire, with Wilda Bennett and

**RADIO FLASHES**

By Ralph Le Brun

"Baseball is back." On Tuesday at 3:00 P. M., Pat Flanagan, ace sports announcer of Columbia's Chicago outlet, WBBM, describes over the Columbia network the opening game between the St. Louis Cardinals and the Chicago Cubs at Wrigley Field.

Fibber McGee, a tank town character for whom truth is indeed stranger than fiction, and Molly, his wife, will bring radio its newest comedy team Tuesday when they make their debut from the Radio City studios over an NBC-WJZ network at 10:00 P. M. Supporting Fibber and Molly in the new program series will be an orchestra, under the direction of Ulderico Marcelli, and Ronnie and Van, comedy vocal duo. The program will be sponsored by the makers of Johnson's Wax, the sponsor which also presents the "House by the Side of the Road" program over an NBC-WEAF network each Sunday at 5:30 P. M.

When "The House of Glass", a new dramatic serial of life in a small country hotel makes its debut over an NBC-WJZ network on Wednesday, it will bring Gertrude Berg, creator of "The Goldbergs", back to the air as an author and an actress. The "House of Glass" will deal with every-day events in the lives of the Glass family and the guests at their Catskill Mountain hotel in mythical Glassburg, N. Y. Mrs. Berg will be featured as Mrs. Glass, the proprietress.

Noted both as an original writer for the microphone and as an actress, Gertrude Berg is regarded as one of the leading creators of radio drama. Her true-to-life story of the rise of a Jewish family from New York's lower East Side to Park Avenue, as portrayed in "The Goldbergs", ran for nearly five years over NBC networks. Married and a mother of two children, she divides her time between her home and the radio.

Saturday at 5:00 P. M. over the Columbia network the National Olympic Ski Championships will be described in a broadcast from Tacoma, Wash.

## Kraft Crab Delight

2 tablespoons green pepper, chopped  
2 tablespoons butter  
2 tablespoons flour  
1 teaspoon mustard, a little salt and cayenne pepper  
1 cup stewed and strained tomatoes  
1 cup Kraft grated cheese  
1 egg slightly beaten  
¾ cup milk  
1 cup crab meat

Cook peppers in butter for 5 minutes, blend in flour and seasonings, add tomatoes, cheese and egg. Cook for a few minutes. Heat milk, add above ingredients and lastly crab meat. Serve in patty shells or on rounds of toast. Cheese may be sprinkled over top when serving, if desired.

## Graham Cracker Cream Cake

1½ cups crushed and sifted graham crackers  
1 teaspoon baking powder  
½ teaspoon salt  
5 eggs (separated)  
2 cups sugar  
1 cup Brazil nuts (chopped)  
1 teaspoon vanilla  
Add baking powder and salt to

crushed crackers. Beat egg yolks until thick, stir in sugar and beat well. Add cracker mixture, nut-meats and flavoring. Fold in stiffly beaten egg-whites. Place mixture in greased layer-cake tins and bake in moderate oven. Put layers together with cream filling and top cake with whipped cream.

**Roseland Park**

A visit to Roseland Park, Canandaigua Lake, a few days ago revealed considerable pre-summer activity. Benches were being gotten ready for placing, additional grading being done, nursery stock set out, etc., etc.

The tap room is now open and regular meals, as well as lunches, are being served.

Inquiry also brought to light the fact that dances are being held each Saturday night with various orchestras furnishing music. On April 13, Stan Harris and His Knights of Rhythm will officiate, followed on April 20 by Joe Nobles and His University Revelers. Then on April 27, Don Lang and His Music and on Sunday evening, April 28, The Georgians, directed by Chuck Lennon.

Roseland is the best equipped park in this section for either small or large picnics and bookings have already been made by several large organizations to hold their annual outings there this summer. (See page 7.)

There is no substitute for fine, custom clothes, tailored to measure, designed and fashioned for the individual.

Also cleaning, pressing, repairing and altering of ladies' and gentlemen's clothing. **A. P. Petersen, 476 Exchange St., Geneva, N. Y.**

Don't be discouraged if the bright, spring sunshine makes your rugs or carpets look worn. Just pay a visit to **Lynch's** rug department and you will be really surprised at the moderate price for which you can replace your old rug or carpet.

Accents for Variety: Color is the high point of spring fashions. A smart use of accessories comes next. By interchanging clips, bracelets, buckles, scarfs, gloves, hats and bags, you can make six ensembles grow where two grew before.

Your garments do not have that "just back from the cleaners" odor, when cleaned at **McGuire's**. They use the most modern method of dry cleaning. It is absolutely odorless, and your garments are individually cleaned under the most sanitary conditions. **553 Exchange St. Phone 4126.**

Surely you'll be sending Easter Greetings to those dearest to you. Dorothy found all kinds of beautiful Easter cards at **McCarthy's Pharmacy**. Cards for Mother, Father, sweetheart and friend. Drop in and look them over!

At Geneva's oldest Confectionery, Lovell and Covell chocolates. One of America's masterpieces handled exclusively at **George's, 364 Exchange St. Phone 2534.**

This week's special . . . George's Chocolate Drops **39c!**

With the first crocus, check your accessories. Here's a bag to raise your style score: quilted leather for chic; hookless fastening for safety.

On Tuesday evening, April 30, 1935, at 8 p. m., the Senior Class of DeSales High School will present the play "**Skidding**" at the Geneva High School Auditorium. Admission 75c and \$1.00—reserved.

We hate to part with our old shoes that are broken in and comfortable. Now we need not, for **Carl** rebuilds and repairs them and yet they retain all their old comfort. **Carl's Shoe Repair Shop.**

Feminine Hollywood is now hanging its wardrobe with pajamas. There are "peejays" for every hour, from morn till eve. Their lines may be masculine or feminine. They may be dainty or sophisticated, but all will be designed for comfort if you care to swagger a bit.

Morning pajamas may be printed silk, gingham, cretonne or costume velvet. This type should be bright and gay as your personality and coloring will permit.

Early afternoon pajamas are of plain silks with hip-length jackets of contrasting colors. For tea they may be printed velvet or candy-stick satin, always with long, full sleeves.

If you like to lounge in the evening, pajamas of polka-dot silk or velvet are the reigning vogue. These will be worn with a calf-length coat of matching hue and a minimum of jewelry.

Sandals of matching colors are very effective with this type of costume. Never wear gold or silver footwear unless your pajamas are of one solid, dark color, preferably black.

For Easter, there will be a wonderful array of cakes at **Ringer's Bakery**. And hot cross buns deliciously different. When other bread becomes tasteless, try Ringer's homemade bread. **Cal 2011** and order.

Service Sheer Stockings for 59c? Certainly—in all the wanted colors—full-fashioned of course, with mercerized cradle feet for greater wear. **Lattimer's Shoe Store, 492 Exchange St.**

**Baker & Stark, Inc.** are showing the well known "**Peter Pan**" Wash Suits for Little Fellows. This should be welcome news to mothers. They're splendid fitting garments and fit the pocketbook as well.

A tricorn is always smart with a suit and young-looking with its pompons. You can have one as an extra hat if you crochet it yourself of wool bouclé.

## THE FUNNYBONE

### Not So Desirable

After suitable preparation to receive the news, the man who had been a father for 15 minutes arrived at the hospital and was ushered by a nurse to the bedside.

"Well, well!" he exclaimed, "look at the boy! He's got my eyes, my nose, my chin—"

"That's all right, dear," observed the mother, "but let's hope he never gets your breath."—Royal Arcanum Bulletin.

### Page the Dictionary

A distinguished professor was once called to the telephone and before he knew it he was treating the operator to an advanced course in English.

"No, no," he whined irritably, "I said 'conflagration'; C as in circumambient, O like O in ossification, N as in nyctalopia—"

### That's Something

### The Lunacy Test

Judge—"On what grounds do you ask for a divorce?"

Wife—"Insanity, your honor. I put crackers in his bed, and he ate them."

Judge—"Is that all?"

Wife—"No, your honor. After he had eaten the crackers, he wanted to know who stole his soup."—*Carolina Buccaneer*.

### In Trouble

An Austrian barrister tells of a black fellow charged in a country town with stealing. His solicitor decided to put him in the box to give evidence on his own behalf. The magistrate, being doubtful if he understood the nature of an oath, undertook to examine him on the point.

"Jacky," he said, "you know what will happen to you if you tell a lie?"

"My oath, boss," replied Jacky, "me go down below—burn long time."

"Quite right," replied the magistrate. "And now you know what will happen if you tell the truth?"

"Yes, boss; we lose 'em case."—*Ex.*

## RADIO FLASHES

(Continued from page 3)

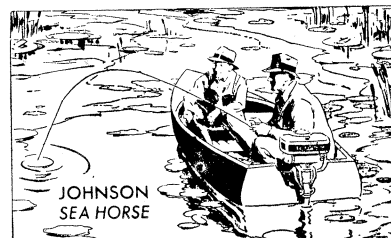

One of history's great tragedies—the destruction of Pompeii by an eruption of Mount Vesuvius in the year '79—will be recalled in graphic fashion for American radio listeners on Sunday in a special trans-Atlantic broadcast over the Columbia Network. The broadcast, the first ever scheduled from the ruined city of Pompeii, 12 miles southeast of Naples, will be heard between 12:45 and 1:00 P. M.

GRAHAM McNAMEE—Dean of American announcers. Born in Washington, D. C., July 10, 1899, Graham started training his voice early in life. Boyhood found him in a choir, youth on the amateur concert stage. Later in New York he realized concert artists were not in demand. He drifted into radio to keep the wolf from the door. Today, McNamee is conceded one of the world's best known announcers.

## No Peace on Earth

World history tells us that during the last 3,421 years, war has been going on continuously on some part of the globe except for 270 years. During this period, 8,000 peace treaties have been written and signed that lasted an average of two years each. During the same period, 25 combinations of nations of one kind or another have been formed and continued for a time, comparable to the present League of Nations.—*Capper's Weekly.*

## THIS AND THAT

Only a comparatively few hours  
left now in which to purchase that  
new Easter outfit.

All indications point to a large  
attendance at the sixteenth annual  
Charity Ball under the auspices of  
Court Geneva No. 416, Catholic  
Daughters of America, to be held in  
the State Armory on Easter Mon-  
day night, April 22. Music will be  
furnished by Jimmie Lynch and Or-  
chestra of 12 pieces, with special en-  
tainment by Fraulein Mirzel, RKO  
Vaudeville and Radio artist.

Several merchants report excep-  
tionally satisfying results from their  
News advertising during the past  
few weeks.

In the Weekly (Dun & Brad-

Friday, the statement is made that  
the immediate future is to bring the  
sharpest rise in business that has  
been witnessed in the past twenty-  
five years.

Have you tried the new "But-  
ereg" Bread? It is recommended for  
food value, for flavor and for toast-  
ing. This new and delicious bread is  
made exclusively by Spaulding Bak-  
eries. Your grocer has it.

The General Motors, Ford, and  
Chrysler plants are now operating  
at near capacity. In April, it is es-  
timated, these three leaders in the  
automobile field will produce ap-  
proximately 90 per cent of the num-  
ber of cars and truck units they  
turned out during April, 1929.

### How Do You Stand Now?

Do you have a reliable guarantee  
that if you save regularly up to  
age 60 you can then begin to draw  
a fixed and irreducible income of  
\$100 a month, or more or less,  
enough to pay your necessary liv-

**RADIO FLASHES**

By Ralph Le Brun

The Columbia System will, over the week-end present many unusual programs of great interest. Among these are:—on Saturday at 12:45 P. M. from European and American points five Catholic Cardinals will be heard pleading for international amity. The Eastertide broadcasts will start at 6:30 A. M. Sunday morning with a message to American listeners from Pope Pius XI speaking from Vatican City. At 7:00 A. M. comes Easter Choral music from Soldiers Field in Chicago. The annual sunrise service under the auspices of the Grand Commander of the Knights Templar of the District of Columbia at Arlington National Cemetery is scheduled for 7:30 A. M. and at 8:00 the Sunrise Service from the Hollywood Bowl in California. An international broadcast from Jerusalem at 11:15 will include the tolling of bells in Christ Church as well as descriptions of Easter Day scenes in this ancient city.

The charity's use of Mrs. Roosevelt's radio earnings is to be revealed on Thursday, April 25, at 3:30 P. M. over Columbia Network in a special broadcast by the "American Friends Service", a Quaker organization which receives the money from the President's wife.

On Tuesday at 1:30 P. M. over the Columbia network Prince Gustavus Adolphus of Sweden will broadcast in English from Stockholm a message to world Scout organizations on St. George's Day, a sacred day to all Boy Scouts.

## Wilted Endive

Wash one head of endive and place in salad bowl.

Fry  $\frac{1}{4}$  lb. bacon, cut into small squares. When brown and crisp, place on endive. Beat together 1 egg, 2 tablespoons brown sugar and pinch of salt.

Add  $\frac{1}{2}$  cup vinegar and  $\frac{1}{2}$  cup water. Add all ingredients to bacon grease and cook until thick. Pour over endive and bacon, and let stand about 10 minutes before serving.

Mrs. P. L., Universal Ave.

## Cream Puffs

$\frac{2}{3}$  cup sifted flour  
 $\frac{1}{2}$  cup butter  
 $\frac{2}{3}$  cup water  
 $\frac{1}{8}$  teaspoon salt  
2 eggs

Heat butter and water to boiling point, add flour and salt and continue cooking. Beat in eggs, one at a time. Remove from fire and drop by tablespoons on buttered baking sheet. Bake for 45 minutes in moderately hot oven. When cool, slit tops and insert cream filling.

## (Cream Filling)

6 tablespoons flour  
 $\frac{1}{2}$  cup sugar

$\frac{1}{4}$  teaspoon salt  
 $1\frac{1}{4}$  cups evaporated milk  
1 cup water

Cook in double boiler for 10 minutes. Add 2 slightly beaten eggs. When thick remove from fire and add 2 teaspoons vanilla and 1 tablespoon butter. When cool, fill shells.

G. H., Prospect Ave.

## Butterscotch Pecan Patties

1 cup white sugar  
 $\frac{1}{2}$  cup brown sugar  
 $\frac{1}{3}$  cup white corn syrup, a little salt

$\frac{1}{2}$  cup evaporated milk  
 $\frac{1}{3}$  cup butter

$\frac{3}{4}$  cup pecans, teaspoon vanilla

Put sugars, corn syrup, salt and milk in saucepan. Stir until sugar is dissolved, bring to boiling point and boil until a little dropped in cold water just keeps its shape. Remove from fire, add butter and vanilla and let stand 10 minutes. Add nuts and beat until creamy. Drop by teaspoons on oiled paper.

### ALONG THE AIRWAYS

There are at present, according to the March 1, 1935 bulletin issued by the Department of Air Commerce, a total of 2,314 airports and landing fields approved by the Department in the United States. Of these 674 have lighting facilities.

Of the larger States the great State of New York appears to be lacking in landing field facilities, with a total of only 98, as compared with 204 for California, 145 in Texas, 116 in Pennsylvania, 113 in Ohio and 103 in Michigan.

The Pennsylvania Airlines and Transport Co. reports a total of 3,160 passengers carried on the line's Washington-Detroit-Milwaukee route during March—nearly seven times the number flown in the same period of any previous year and nearly double the number for October, 1933, the system's former "peak" month.

Nine squadrons of the British Royal Air Force now operate entirely on a fuel produced by the low-temperature carbonization of coal, and the results, it is said, have been "generally satisfactory".

Young folks are always consulting the clock; old folks the thermometer.

The sweetest way of extending Easter Greetings is an exquisite Easter Gift box of delicious Page & Shaw or Whitman's chocolates from **McCarthy's Pharmacy**.

Or just say "Hello" to someone with an Easter card from **McCarthy's**.

—D—

Suits are all set to blossom forth for Easter. For crisp effect and snap, your Spring hat should be of contrasting color. Light blue and yellow crepes, straws and felts are lovely with dark suits. At **The Bon Ton Millinery**, 498 Exchange St., they are as low as \$1.25.

—D—

Buttons are to play a great part in spring trimmings—buttons from neckline to hemline. You'll find big, flat buttons down the front on suits, coats, silk dresses and sport dresses.

—D—

Beauty in Spring coiffures is based upon smart combination of headdress and hat. Greater demands are made upon your permanent, because charming new coiffures consist of swirls, natural waves and curls. Dorothy recommends **The Harper Method Beauty Salon**, 10 Seneca St. Call 6783.

I recommend you to entrust your furs to **Freedman's**, "The only practical furrier in Geneva", for storage. The rate is 2½% and your garments are insured against Moths, Fire and Theft.

You're invited to inspect their vault at any time. It's right on the premises.

Special prices, during the summer months, on Repairs, Remodeling, Cleaning and Glazing.

—D—

**Baker & Stark Inc.** are offering the largest assortment of **Suits and Topcoats** that they have shown in years. Not only will you find what you want, but better still you'll find you can afford it, also.

—D—

There is no substitute for fine, custom clothes, tailored to measure, designed and fashioned for the individual.

Also cleaning, pressing, repairing and altering of ladies' and gentlemen's clothing. **A. P. Petersen**, 476 Exchange St., Geneva, N. Y.

On Tuesday evening, April 30, 1935 at 8:00 P. M., the Senior Class of De Sales High School will present the play "Skidding", at the Geneva High School Auditorium. Admission 75c and \$1.00, reserved.

See the new Spring material for Slip Covers at **Lynch's**. You will be surprised to find for how little you can have your discolored chair or living room suite become practically new again. Slip covers made at **Lynch's** fit.

—D—

**Stop in the Downyflake Coffee Shoppe** for that afternoon snack. The most delicious coffee and doughnuts in town for only 10c. They also serve appetizing sandwiches and Tea, Coffee, or Milk. Lunches served until ten o'clock Saturday evenings.

—D—

Have you noticed all the new tires, with the corkscrew tread, running around town? They are the new **Generals** and you should hear how enthusiastic the owners are. It's time you call at **Fred Garver's**, Main St. (next to Armory). Phone 6203.

—D—

**George's Candy Kitchen** 364 Exchange St. one of Geneva's oldest establishments has a reputation for choice candies. A lovely Easter Gift, a 2 lb. box of George's Endorsed Chocolates for \$1.00. And they are delicious!

—D—

An ounce of experience is worth a pound of words. I advise you to just try some of **Ringer's** bake goods. Home-made bread, hot cross buns, a variety of cookies and all kinds of delicious layer cakes. Call 2011.

—D—

Have you any watches or clocks that need repairing? If so, remember it pays to take the work to someone competent and reliable. I recommend **Prince's Jewelry Store**, 20 Linden St. All work is guaranteed.

**FRED BAUMGARTNER, JR.****At the Kirkwood Grill**

One of the most pleasing spots in Geneva for those seeking a first-class place for dining and dancing is the Kirkwood Grill. It has recently been found necessary to enlarge the Grill to accommodate the increasing patronage. While the cuisine is outstanding in quality, with prices very reasonable, another feature that contributes in no small way to the success of the Grill is the inspiring melodies furnished by Geo. Fischer and His Music. This snappy organization plays each night from nine 'till one and, starting Easter afternoon, will play each Sunday from 3:30 to 6:30 p. m.

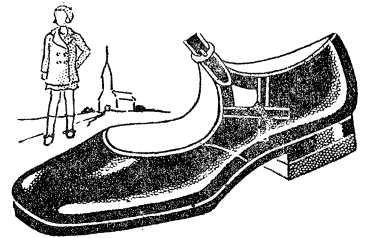

Mr. Fischer is well known not only as an orchestra leader but as a vocal soloist as well, having formerly been soloist with the Slager Band, Rochester, in a series of concerts and also singing with the Emil Coleman Orchestra at Hotel Piazza, New York, as well as many other similar engagements.

"I always said I'd shoot anyone who looked like me."

"Do I look like you?"

"Yes."

"Then shoot."

### No Mistake

Patrick—And whose funeral is that?

Michael—O'Reilly's.

Patrick—What? You don't mean to say that O'Reilly is dead?

Michael—You don't suppose they're just practicing on him, do you?

### Insult To Injury

The parson was peeved last Sunday. "I don't mind people looking at their watches while I am preaching," he said, "but it riles me, terribly, when they put them to their ears to see if they are still going."

### Distribution Costs

Rastus—You say the gospel am free?

Preacher—Sutinly, Brothah Rastus, the Gospel am free.

Rastus—Then Brothah pahson, how come yo's allus yellin' fo' money?

Preacher—Brothah Rastus, you knows nuthin'. The gospel am free, but so am watah; but yo' gotta pay fo' de bucket yo' carries it in.

### A Nose for News

"Among the prettiest girls present was Brigadier-General Pertle," wrote a young reporter in his account of a garden party.

The next day he was called into the editor's room, and the chief stormed at him. "What do you mean by writing stuff like that?"

"Well," explained the reporter, "that's where he was."

### The Irritable Spouse

Voice on the telephone: "I ordered that crab meat three hours ago and it hasn't come yet."

Grocer: "We expected a fresh shipment this morning and I've been waiting for it."

Voice: "But my husband is complaining because his dinner's not ready."

Grocer: "Well, you wouldn't want to serve an old crab, would you?"

### THIS AND THAT

Castle Street is fast becoming  
Geneva's "Great White Way". An-  
other large new electric sign blazed  
forth on that thoroughfare during  
the past week, this time over the  
entrance of the Kirkwood Grill.

The English writer was wrong  
who said that no laws are enforced  
in the United States. He should try  
parking beside a fire plug.

The O. K. News Corp. has  
awarded three prizes in the 1934  
lake trout contest. The three men  
each landed a 13¼ lb. trout to win  
a Shakespeare Triumph reel. The  
winners are Albert Harrison, Earl  
Brown and Joseph Saglimbeni and  
each is figuring on doing his best  
to win the O. K. News prize for the  
1935 season. Register your catches  
with the O. K. News.

Persistency is a winning feature  
in advertising. Merchants are find-  
ing out that our "Dorothy Goes  
Shopping" page is a mighty fine  
place to do persistent advertising at  
a very reasonable cost.

John Pontius is displaying at his  
Sheet Metal Works, 90 Elm Street,  
a permanent asbestos house siding  
which has all the appearance of  
beautifully grained wood. This sid-  
ing is shown in different colors and  
does away with the painting prob-  
lem forever.

It is said that when a Chinese is  
puzzled, he scratches his foot in-  
stead of his head. This seems to be  
a queer thing to do, but, after all,  
the one operation is probably just  
as effective as the other.

## A Reflection:--

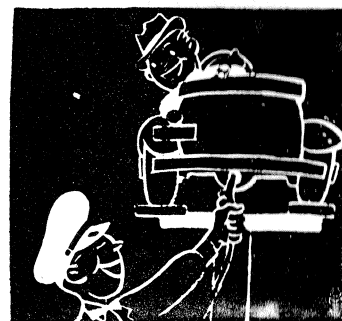

"What I didn't lose in '29," an old  
friend remarked, "I lost in '30—  
with one exception—and nobody  
can take that away from me. Some  
years ago I made what seemed, at  
that time, only a small investment.  
I bought a life annuity of \$100.00  
a month. In '29 I never thought  
much about it. Today, however, it  
makes a big difference—actually,  
the difference between comfort  
and poverty! And these monthly  
checks will last as long as I do."

**RADIO FLASHES**

By Ralph Le Brun

Daylight Saving Time returns to the larger cities Sunday, so don't forget to look for your favorite programs one hour earlier. Where hours are mentioned in the following articles they refer to the time at which these programs will be heard in the Geneva territory.

Mario Chamlee, former Metropolitan Opera star, and George Frame Brown, noted radio actor and originator of "Real Folks", will bring two new and engaging characters, Tony and Gus, to radio listeners in a new five evening a week series to be inaugurated over an NBC-WJZ network on Monday at 6:15 P. M. Tony, an Italian youth with operatic ambitions, and Gus, a young Swedish heavyweight with prize ring aspirations, will enact their adventures before the NBC Radio City microphones each evening except Saturday and Sunday. The first episode of the new series will find Tony and Gus in the steerage of a ship bound for America. Other episodes will carry them through numerous adventures as they travel around the country, struggling to become professional singer and prize fighter.

Babs Ryan and her brothers, until recently members of Fred Waring's orchestra, are now being heard with Hal Kemp on the Penthouse Party Wednesday at 7:00 P. M. over the NBC-WJZ.

Father John F. O'Hara, president of Notre Dame University; football coach Elmer Layden, and Eddie Dowling, noted Broadway actor, will join Richard Him-

ber and his Studebaker Champions in their Alumni Day tribute to Notre Dame at the broadcast over an NBC-WEAF network on Monday, April 29, at 7:00 P. M. The Notre Dame Glee Club and Frank Walker, of the university alumni association, also will participate in the half hour broadcast from New York and Chicago, which will form a special program in the regular weekly series of Studebaker Champion broadcasts by Himber and his noted orchestra.

## Cream Cheese Cookies

1 cup sugar  
1 cup shortening  
One 3 oz. package cream cheese  
3½ cups sifted flour  
1 teaspoon baking powder  
1 egg  
1 teaspoon lemon juice  
Rind of ½ lemon

Cream shortening, add sugar, lemon juice, grated lemon rind and cream cheese. Mix well, then add sifted flour and baking powder. Shape into balls 1 inch in diameter and place on greased cookie sheets. Bake for 15 minutes in 375° oven. When cool dip in melted fondant or cooled boiled frosting and roll in chopped nuts or cocoanut. 3 dozen cookies.

### Copper Pots, Pans for Roofs

A plating of copper made of beaten household pots and pans was used in reroofing the Foreign Office and Supreme Court building of Denmark, a building in which kings and notables of all sorts have been dined. The roof needed repairing, but it was found there was no appropriation. The people came to the rescue with gifts of outworn copper pots and pans.

### Ruined Cities in Yucatan

Ruined cities abound in Yucatan, many of them buried in dense undergrowth for centuries, their history unknown, their hieroglyphics undeciphered. An almost unbroken line of these silent and deserted mementoes of a vanished people stretches between Yucatan and the primeval forest beyond the Guatemala frontier. The predominant character of the important Maya structures is that they are built upon an artificial elevation, a pyramid or truncate cone supporting a building more or less vast. The walls are generally of great thickness, many are faced on the interior with carved stones and many also present a rich profusion of adornments, sculptured in bas-relief upon their faces.

### Largest Lakes, Rivers

The ten largest lakes are Superior, 31,820 square miles; Huron, 23,010 square miles; Michigan, 22,000 square miles; Erie, 9,940 square miles; Ontario, 7,540 square miles; Great Salt lake, 1,800 square miles; Lake of the Woods (Minnesota and Canada), 1,500 square miles; Tulare, (artificial), 800 square miles; Okeechobee, 730 square miles; Pontchartrain, 625 square miles. Rivers: Mississippi-Missouri, 4,221 miles; Colorado, 2,000 miles; Rio Grande, 1,650 miles; Columbia, 1,270 miles; Arkansas, 1,460 miles; Ohio, 1,283 miles; Platte, 1,030 miles; Red, 1,275 miles (last four tributaries to the Mississippi-Missouri system); Brazos, 950 miles; Tennessee, 950 miles.

It has been suggested that as a business stimulator radio service men should raise mice. Frequently evidence is found that mice have gnawed dial cables and wires and carried bits of paper and string inside the set, invariably causing trouble.

### Jade Difficult to Value

Of all valuable stones jade varies the most in price according to color and workmanship. And jade is probably more difficult to value than any other precious stone. Most of the jade comes originally from the mines in Burma. Great blocks may be seen lying on the quays for shipment to China, where it is cut by workmen who know the secret of finding the perfect pieces of purest color. The Chinese are supposed to have maintained the monopoly of jade cutting on account of their patience and their extreme appreciation of the beauty of the stone. The most valuable jade is of a rare emerald color and translucent.

# Stylish?

Of course, but  
that's only half  
the story..

It is true that Simplex Flexies are prescribed by children's specialists because they assure the proper development of growing feet. In Flexies the little feet rest squarely on the ground so the pliant legs can't bow in or out. Flexible soles — no nails or rough seams to hurt.

Energy arises from being so bored  
by one's surroundings that one gets  
busy.

A tie-up has been effected between Schine's Geneva Theatre and the Feenament National Amateur Hour, heard over the National Broadcasting Co., Sunday evenings whereby amateurs of this vicinity will be given an opportunity to compete in the national try-outs. Phone the manager of Schine's Geneva Theatre for particulars.

## Motor Oil Gets "Blood Count"

The "blood count" for engines, the work of a woman scientist, and something new in automobile tests, has been perfected in Pennsylvania. The new treatment examines engine oil as much as a physician studies human blood.

## Sculptor Uses Blow Torch

One California sculptor works with metal instead of marble or clay and uses a blowtorch instead of a chisel. He builds up grotesque figures of wrought iron, modeling the hot metal with the aid of an acetylene torch, a welding rod and a pair of pliers. — *Popular Mechanics Magazine.*

## THE FUNNYBONE

### The Challenge

"Laugh that off," said the fat man's wife as she sewed his vest button on with wire.

It's nice to see people smile and to hear them laugh—but not when we're chasing our hat down the street.

### At Heart Only

Two charwomen were discussing their husbands; neither seemed quite satisfied with her match.

"Anyway," said one, resignedly, "I'll say this much for my man—he's a gentleman at heart. He hates work."—*Buffalo Courier-Express.*

### In This Corner: Father Time

Author: "This is the plot of my story. A midnight scene. Two burglars creep stealthily toward the house. They climb a wall, force open a window, enter the room. The clock strikes one!"

Actress (breathlessly). "Which one?"

### Reverse Surprise

He was at the fountain-pen counter making a purchase. "You see," he said, "I'm buying this for my wife."

"A surprise, eh?"

"I'll say so. She's expecting a Packard."

### So Dumb

A little man bought two tickets at the theatre box office and, followed by his wife and 11 children, started to enter.

"Here," shouted the doorkeeper, "Where are the other tickets?"

The little man was amazed. "Don't you advertise that children under 12 with parents are admitted free?" he asked.

"But these aren't under 12," came from the doorman.

The little man's expression was now one of complete incredulity. "Well," he said, exasperated, "All I can ask you to do is count 'em again. You'll find that there's just 11."

"Man in California Yawns for Four Days"—headline.

Probably ran up against a Floridian who got the jump on him.

The small boy had fallen into the stream, but had been rescued.

"How did you come to fall in?" asked a bystander.

"I didn't come to fall in," the boy explained. "I came to fish."

## ALONG THE AIRWAYS

During 1934 a total of 561,370 passengers were carried on American Air Lines and air express totaled 3,449,675 pounds. The total air miles flown has increased greatly and more passenger planes are being added to the schedules of the airline companies. Faster planes and also Sleeper planes have been added. The total air miles flown in 1934 was 48,786,551. During 1934 air passengers were paying for transportation at an average of 5-9/10c per mile as compared to 6-1/10c in 1933.

With the increase in the number of new airports throughout the country the aviation industry will have a very strong foothold in advancement and, naturally, a sound footing for permanency. Each year is showing a great increase in the number of students taking flying instructions at the various airports as well as at the recognized Aviation Schools. The classes for the present year are the largest ever. Along with the above a great number of colleges throughout the country have now added aeronautical training and many flying clubs have been formed within the colleges.

Department of Commerce bulletins show the aviation industry going ahead by leaps and bounds with a big increase in the production of all types of aircraft. Even exports to foreign countries have increased greatly and this includes engines and all kinds of aircraft accessories.

## THIS AND THAT

The Maytag Sales & Service is  
this week moving from 324 Ex-  
change Street to a new and much  
larger location at 431 Exchange,  
(East Side, near Castle Street).  
Their former line, which consisted  
of Maytag Washers and Ironers has  
been greatly augmented and now in-  
cludes Electric Refrigerators, Gas  
Ranges, Liquid Fuel Appliances,  
Philco Radios and Vacuum Clean-  
ers. A useful gift is to be presented  
to a certain number of women on  
the opening day of the new store,  
Saturday, May 4, and special events  
are to be held at 3:30 in the after-  
noon and at 9:00 o'clock in the eve-  
ning. (See ad on page 1.)

# THE COMMUNITY KITCHEN

Conducted by BETTY BROWN

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Apple Macaroons

- 6 apples
- $\frac{1}{2}$  cup sugar for apples
- 1 egg
- 2 tablespoons butter, melted
- $\frac{1}{2}$  cup sugar
- $\frac{1}{2}$  cup flour
- $\frac{1}{8}$  teaspoon salt

Peel and core apples and roll them in sugar and place them in baking dish. Fill centers with sugar (using  $\frac{1}{2}$  cup). Beat egg and beat in sugar, melted butter, flour and salt. Drop a large spoonful of this batter on top of each apple. Bake. Time, 30 to 40 minutes depending on type of apple. Temperature, 350 degrees F. moderate oven. Amount, 6 apple macaroons.

E. C., Exchange St.

## Cheese Straws

- 1 cup flour
- $\frac{1}{2}$  teaspoon salt
- 1 cup grated cheese
- 4 tablespoons cold shortening
- 3 tablespoons rich milk

Sift flour, measure, add salt and grated cheese. Work shortening into dry ingredients until mixture is like coarse corn meal. Add milk and blend well with fork. Roll and cut into narrow strips and bake in hot oven until light brown. Makes 3 dozen.

## Grapefruit-Grape Salad

- 2 cups canned grapefruit
- 1 cup canned seedless white grapes
- $\frac{1}{4}$  cup chopped nuts
- $\frac{1}{4}$  cup chopped stuffed olives
- 1 tablespoon chopped mint leaves

Drain grapefruit. Arrange lettuce leaves on a salad plate. Place

grapes in the center, arrange the grapefruit sections around the grapes. Garnish with nuts, olives and mint leaves. Serve with orange dressing.

Mrs. W. H., Prospect Hill,  
Geneva, N. Y.

## Orange Cake

- $1\frac{1}{2}$  cups sugar
- 1 cup shortening
- 2 eggs
- $1\frac{1}{2}$  cups sour milk
- 3 cups flour
- 1 teaspoon soda
- 2 teaspoons baking powder
- 1 cup raisins
- 1 cup nut meats
- 1 orange

Mix in order given, sifting together flour, baking powder and soda. Put raisins, nuts and orange, including rind, thru food chopper and add last. Batter will be quite stiff. Bake in loaf tin in slow oven for 45 minutes. Frost if desired.

### GLEANINGS

"There may be an excuse for having an occasional grouch but there's no excuse for carrying one through a lifetime."

"Fellowship is heaven, lack of fellowship is hell."

"Worry can be cured according to an English scientist who claims that constant suggestion and resolution can cure anyone of that evil."

"Our job is half done when we have made up our minds to tackle it with all our strength."

"Never trouble trouble until trouble troubles you."

"One stalk cannot stand alone."

"The goal of everyone is happiness."

"The love of a human being for an animal is only surpassed by the love of an animal for a human."

"Easy going in a smooth place, it's the emergencies that show of what we are made."

"The fact is to lose well is not losing."

(To be continued)

Experts of the National Safety Council have figured it out that Americans have one chance in 3500 of being killed and one chance in 100 of being injured by automobiles during 1935. It looks like fairly long odds, but it means approximately 30,000 people, which isn't so good.

**ALONG THE AIRWAYS**

The Department of Air Commerce has contracted for three new aircraft types in its "Private-Owner" Airplane Program.

For some time the department has received specifications from aircraft manufacturers who have been making a study—at the department's request—for a safe, low-priced airplane for the private owner, this to encourage private-owner flying.

One of the recent three types referred to is a direct drive autogiro—equipped to operate on the highway between the owner's home and the area used for landings. Another type is a small plane using a well known automobile engine for its power plant, and the third type is a plane not having any rudder with a new type of aileron. The first type is said to represent a flying automobile.

## THE FUNNYBONE

### Haw, Haw, Haw!

"He's always giggling, that fellow."

"A real he-he man, eh?"—*Tit-Bits Magazine*.

### Never Fails

Woman (in crowded tram, to her friend)—I wish that good-looking man would give me his seat.

Five men stood up.—*Automobilist*.

### Young Saw-Bones

Patient—But—er—the operation won't be—er—serious, will it?

Young Doctor—Only for me! I've never tried it before!—*Answers Magazine*.

### Leave Plenty

Husband—Be careful or some day I'll leave you.

Wife—Leave me how much, darling?

### An Unknown Quantity

"You boys of today want to make too much money," said Brown to his nephew. "Do you know what I was getting when I married your aunt?"

"No," answered the nephew, "and I'll bet you didn't either."

### Laughs at Danger

He: "If I see anything funny, I'm simply bound to laugh."

She: "I say you must find shaving a rather dangerous job."

### The English Language

"I say, old chap, what's your name?"

"Fred."

"Blimey, that's no name. That's what you sew your pants wiv."

### Anything for a Rug

"I guess I'll have to give up smoking," announced the husband, "The doctor says one lung is nearly gone."

"Oh, Robert," exclaimed his wife, "Couldn't you hold out just a little longer, until we get enough coupons for a new rug?"

Algy (recounting tedious story): "And then the big brute threatened to blow my brains out."

Friend: "And did he?"

*As the Best and Only Sure, Safe Means of Food Preservation*

### 25% OF THE FAMILY BUDGET GOES FOR FOOD

**Isn't It Worth a Few Cents a Day to Keep It  
Fresh and Wholesome**

One out of every four dollars you spend goes for food. And ten cents out of every one of these dollars is later wasted due to food spoilage. When you consider that adequate refrigeration would prevent most of this costly waste, you can readily see that a Gas and Electric Refrigerator is an actual economy, NOT AN EXPENSE.

## *This Little Girl's Guardian Lives in a Safe*

THIS little girl's father is a thoughtful man.

No matter whether anything happens to him or not, his little girl will get a good education. She will have all the advantages in life which such an education can bestow.

For the father was wise enough to make sure that, should he die, there would be a guardian to pay all the expenses of her education—to see her safely through. This guardian is a sheet of paper tucked away in a safe. It is a life insurance policy.

Nor is this all the father's life insurance will do. It is just one part in the life insurance plan he has been following for years.

Other policies will make sure his family will not be in want if he should die. Another will pay off the mortgage on the home. And if he lives, his insurance

will enable him and his wife to enjoy the comfortable, leisurely old age that everyone looks forward to.

This little girl's father is only one of millions of Americans who have ceased to dream about a safe and happy future for themselves and their families—but who, instead, are **BUYING** that future in the soundest, most economical way man has yet devised, **WITH LIFE INSURANCE!**

If you have children in your home, isn't it high time you made certain that **THEY** have the headstart in life that only a good education can give them?

When your Life Insurance representative calls on you in the next few days, he will give you a free copy of the booklet, "How to Win Both Ways." It tells you how to plan a future that means security for yourself and wife if you live. Don't fail to read it carefully.

## THIS AND THAT

May 13-18 is National Insur-  
ance Week.

If one doesn't read, nothing much  
after all, seems to be going on.

Save money by putting in your  
next winter's fuel supply now, be-  
fore prices advance.

Honking doesn't make a red light  
even wink.

Life has a different meaning, a  
different riddle, and a different re-  
ply for each of us.

Next week is "Baby Week" at  
the Howard Dry Goods Co. Noth-  
ing too good for baby. Buy now  
while new stocks are complete. (See  
ad, page 9.)

Beware that continually scolding  
about city irritations be not just an-  
other one of them. Be cheerful at  
least part of the time.

"Averhill", which overlooks one  
of Canandaigua Lake's most beauti-  
ful views, is now open for the sea-  
son, but under a different policy  
from former seasons. This year  
Averhill will cater only to private  
parties, bridge luncheons and din-  
ners (parties of eight or more) and  
regular guests for week-ends, week  
or month. The food is delicious and  
lakeside rooms are available; also  
bathing facilities. Reservations may  
be made by phoning or writing  
Averhill, East Lake Road, Canan-  
daigua, N. Y. (See ad page 3.)

## NATURALLY . . .

Every man hopes for security in  
old age. Yet, as you look about  
you, you are shocked to see so  
many, in the sixties and seventies  
who, though they could have been  
independent, are still struggling  
to make ends meet, or are actual-  
ly dependent on other people —  
principally their sons and daugh-  
ters or their sons-in-law. Some  
postponed saving until they heard  
the approaching footsteps of old  
age. Then, it was too late to ac-  
cumulate a competency. Others  
have saved enough but invested  
unwisely.

As you reflect on these failures  
who might have had a happy old  
age, it naturally occurs to you  
that you don't want anything like  
this to happen to you.

Booklet sent on request.

**RADIO FLASHES**

By Ralph Le Brun

All hours mentioned are E. S. T. (Geneva Time).

The triumphant return of Admiral Richard E. Byrd and his men from 20 long months in the Antarctic will be described over the Columbia network in a short-wave broadcast from aboard the S. S. Bear of Oakland as the vessel steams toward Washington for President Roosevelt's official reception on Friday. Harry von Zell CBS announcer will board the ship at Norfolk. He will be heard conversing with men of the expedition beginning at 2:45 P. M. It is expected that von Zell will be broadcasting up to the moment that the Bear docks at the Washington Navy Yard. Both President Roosevelt and Admiral Byrd will be heard during the actual reception beginning at 4:45 P. M. The third broadcast will be at 9:30 P. M. when the National Geographic Society will give a reception to Byrd in Constitution Hall.

Mrs. Dean's little boys, Dizzy and Daffy, who spend their afternoons quite profitably throwing baseballs past amazed batsmen in behalf of Sam Breadon and his St. Louis Cardinals will waltz up to Al Jolson's Shell Chateau Microphone Saturday at 8:30 P. M. over NBC-WEAF.

The annual running of the Preakness at Pimlico, Md., will be described to the CBS listeners by Thomas Bryan George, on Saturday at 5:00 P. M. The Preakness with \$25,000 added ranks second only to the Kentucky Derby among outstanding American turf events.

### WHAT IS THE "SEALTEST" SYSTEM?

Sealtest System Laboratories, Inc., is an organization devoted to the betterment of all dairy products through a rigid, scientific supervision of materials, plants, production-technique, personnel, inspection, and laboratory-control. More than one hundred laboratories, situated at key-points throughout the United States, are under the immediate directorship of master laboratories in Baltimore, Md., and Chicago, Ill.

Intimately supervised by nationally known experts, the Sealtest System carries on a tireless, scientific striving for better ice cream . . . a relentless testing of dairy-samples and all ice cream ingredients . . . a constant search for improvements in flavor and texture.

Quite naturally, too, the Sealtest System goes deeper than pleasing your palate. Ice Cream must be surrounded with safe-guards. And so, the "Sealtest" scientists devote much of their time to the sanitary side of ice cream.

The products of the General Ice Cream Corp., makers of "Fro-joy" Ice Cream, bear the stamp of approval of the Sealtest Laboratories . . . a symbol of finer Ice Cream . . . look for it, in the store, on ice cream packages and on the carry-out cartons.

## Marshmallow Custard

Line baking dish with marshmallows

1 pint sweet cream  
Yolks of four eggs  
2 tablespoons sugar

Beat yolks of eggs, add cream and then sugar. Pour over marshmallows and bake about  $\frac{1}{2}$  hour in a dish set in pan of hot water. Use moderate oven.

A. C., S. Main St.

## Salmon Bisque

1 tablespoon tapioca  
1 tablespoon chopped onion  
1 tablespoon butter, a little salt and paprika  
 $1\frac{1}{2}$  cups of evaporated milk, diluted with  $\frac{1}{2}$  cup water or salmon stock  
1 cup flaked salmon  
1 tablespoon chopped parsley

Add tapioca, onion, butter and seasonings to diluted milk and cook

in double boiler until tapioca is clear, about 15 minutes, stirring frequently. Add salmon and parsley, heat thoroughly and serve. Serves 6.

## Baked Stuffed Apples

1 apple for each serving  
1 tablespoon brown sugar  
1 tablespoon chopped raisins  
1 tablespoon chopped nuts  
A little cinnamon

Wash and core apples, cutting around each to keep from breaking while cooking. Place in baking dish, fill centers with mixture and add water to about  $\frac{1}{2}$  inch. Cover and bake in moderate oven for 45 minutes, basting several times. Remove from oven, place marshmallow on each apple and return to oven long enough to melt marshmallows.

## THE FUNNYBONE

### Influence of Fertile Soil

"Mandy, how come you-alls feet grow so big?" inquired Rastus the first evening he called on the village queen.

"Well, I used to live down Souf' where the soil am rich, an' goin' round barefoot so much jes' make 'em grow big."

"Suttanly," remarked Rastus, with a broad grin.

"Look-a-here, Nigger, what you-all laffin' 'bout?" asked Mandy.

"I—I was jes' thinkin' you-all must a done a heap o' settin' down too!"

### Who Knows?

A conscientious father stopped spanking his son. "And now, my boy, tell me why I have punished you."

The boy went on crying. "That's it," he said, blubbing with indignation. "First you pound the life out of me, and then you don't know what you've done it for."

### Nothing to Hinder

A town girl, staying in the country, became friendly with a young farmer.

One evening, as they were strolling across a field, they saw a cow and her calf rubbing noses in affectionate fashion.

"Ah," sighed the farmer sheepishly, "that makes me want to do the same."

"Well, why not," said the girl calmly; "it's your cow, isn't it?"

### His Opportunity

"The study of the occult sciences interests me very much," remarked the new boarder. "I llove to explore the dark depths of the mysterious, to delve into the regions of the unknown, to fathom the unfathomable, as it were, and to—"

"Let me give you a little more of this stew, Mr. Smith," interrupted the landlady.

## THIS AND THAT

The dime chain letter craze is, if  
nothing more—a great reviver of  
almost forgotten friendships. We  
are hearing from people we hadn't  
heard from before in months, even  
years.

This is National Insurance Week.

Advertising is as necessary to  
successful business as gasoline to  
the running of an automobile, par-  
ticularly going up hill.—Edward  
A. Filene.

Note to young men: Study the  
mother, not the daughter. A girl  
gets her idea of handling a husband  
by watching her mother do it.—  
*Buffalo Evening News.*

The pre-summer opening of Rose-  
land Park, Canandaigua Lake, takes  
place this coming Saturday and  
Sunday. New and larger conces-  
sions will be in operation and  
among other attractions, the mon-  
key family, which proved so amus-  
ing to both young and old last sea-  
son, is back again. Dancing in the  
pavilion each Friday, Saturday and  
Sunday nights. (See page 1.)

After a woman passes eighty, she  
tells her age and is proud of it.

In answer to inquiries — yes,  
the \$1.00 in merchandise offered to  
five of our readers each week may  
be from the merchants mentioned  
on our "Dorothy Goes Shopping"  
page, if so desired.

Friday evening, May 17, at 8:15,

By Ralph Le Brun

(All time is E. S. T. — Geneva Time)

"BABS" (Blanch) RYAN, who, with her brothers, Charlie and Little, is now featured with Hal Kemp and his orchestra. Five feet three inches tall, blonde and weighing 112 pounds, Babs has had an interesting musical career. Hailing from Davidson, Tenn., she spent her childhood in Kansas City, Kan. At the age of five she was playing piano duets with her mother—a music teacher; at twelve she had her own school orchestra; at fifteen made her radio debut. Running away from home and

the prospects of a college education she joined her "brothers" on a vaudeville stage in Chicago—and stopped the show.

Boston's Aleppo Shrine Band of 100 pieces and the Chanters, a male chorus of 100 voices, will be heard over the Columbia network on Sunday at 2 P. M. The Aleppo Band, composed—except for its leader—of non-

professional musicians, was organized several years ago and is conducted by the nationally known bandmaster and cornet virtuoso, Walter Smith. The Chanters Chorus is a comparatively new organization, having been formed only five months ago, but under the expert direction of Roy Harlow, long identified with choral music activities in Boston, the group is already enjoying widespread recognition.

### St. Peter's Church Said to Hold Record for Age

The oldest church in the western hemisphere is St. Peter's church in the ancient capitol of the Bermudas, St. George's. Founded in 1612 with a structure of native timber and rebuilt in 1619, St. Peter's has seen almost three and a quarter centuries of continuous religious service, almost half a century more than any other church on this continent in use today.

Its closest rivals are the cathedral of Mexico, built in 1667, and the Old South Meeting house in Boston, which was built in 1669. St. Luke's church in the Isle of Wight, Virginia, is abandoned, after doing service since 1632, and the First Church of Salem, Mass., constructed in the same year, was recently restored for religious service.

St. Peter's, in its history and within the church itself and its crowded, shady churchyard, sums up the long and varied life of Bermuda. The very physical structure of the church reflects the changes, social and political, of the islands, for it has been added to and repaired many times in its long career. The first church was built of the native cedar, but to quote an old record, "it was blown down by a tempest so that he (the governor) built another in a more closer place of Palmeta leaves." This in its turn was replaced by a stone structure in 1619, much of the masonry being utilized in the present walls, which were raised in 1713.—Detroit News.

## Italian Polenta with Polenta Sauce

1 cup yellow corn meal  
4 cups water, 1 teaspoon salt  
 $\frac{1}{2}$  cup strong cheese (grated)  
 $\frac{1}{2}$  teaspoon paprika

Mix corn meal and 1 cup of cold water. Boil remaining water and stir in corn meal, add salt and boil for 5 minutes, stirring constantly. Place over hot water and cook slowly for 1 hour. Add cheese and paprika, put in baking dish and brown in moderate oven.

### (Polenta Sauce)

1 onion  
 $\frac{1}{2}$  clove garlic  
 $\frac{1}{2}$  lb. round steak, diced  
2 teaspoons flour  
3 strips bacon  
4 or 5 mushrooms, salt and pepper  
 $2\frac{1}{2}$  cups tomatoes

Chop onion, garlic, bacon and mushrooms. Mix with diced steak and cook in small amount of oil for 15 minutes. Sprinkle with flour and mix well, add tomatoes. Season with salt and pepper and simmer about 20 minutes. Serve sauce on each helping of polenta.

Mrs. L. M., William St.

## Russian Dressing

Add to 1 cup mayonnaise:

$\frac{1}{2}$  cup thick chili sauce  
1 tablespoon chopped pimento  
1 tablespoon chopped green pepper  
3 tablespoons chopped stuffed olives  
1 tablespoon chopped onion or chives

Nice for head lettuce, any salad greens or shredded cabbage.

## Fort-Atkinson Ginger Bread

1 cup New Orleans molasses  
1 cup boiling water  
2 heaping cups flour  
 $\frac{1}{2}$  cup butter  
1 egg (separated)  
1 teaspoon soda  
1 teaspoon ginger  
2 tablespoons sugar  
1 teaspoon salt

Stir together butter and sugar, rub into flour until fine, then add molasses and yolk of egg and beat well. Lastly add boiling water and soda and stiffly beaten egg-white. Bake in shallow pan.

**Song Life Is Shorter**

Because of radio and the decrease in sheet music sales, the life of a popular song has been considerably shortened. When a song becomes a hit it is played six or seven times a night until even the apathetic radio audience gets more than a little fed up, writes Drew Kent, in Redbook Magazine.

There was a time, in good old days, when a song could retain its popularity for as long as twelve or fourteen months; now it is the unusual tune which is still played after eight weeks. As a result, the Tin Pan Alley salesmen have very little leisure time. New songs are turned out with the same monotonous regularity as tin cans in a factory; and it is up to the plugger to regard each one as a potential hit.

**RADIO FLASHES**

By Ralph Le Brun

(Continued from page 3)

One of the most spectacular, by far, of the spring sporting events—the annual frog-jumping tournament of Angels Camp, near Stockton, Cal., with the most notable frog personalities in the world participating—will be described over a nationwide Columbia network on Saturday, May 18. Frog history will be made on that date at 1:30 P. M. The competition at Angels Camp is recognized by leading frog authorities as the championship event of its kind.

Friday at 8 P. M. over the Columbia system, Boris Karloff and Bela Lugosi are featured on the "Hollywood Hotel" program in a radio preview of the motion picture adaptation of Poe's "The Raven". Dick Powell, Anne Jamison, Frances Langford and Raymond Paige's orchestra are heard as usual.

The sound effect of hitting a golf ball, which radio listeners heard on a recent Jack Benny program, during the imaginary match between Frank Parker and Benny, was accomplished by three of the NBC sound-effects staff. One swept a willow switch through the air; one hit a block with a hammer and the other blew a thin whistle. The sound-effect where Jack lost his ball in the bushes was made by actually bringing real bushes into the studio and breaking them by hand in front of the microphone.

The story behind a stamp. Bloody battles . . . little known foreign lands . . . heroes of every time and place — breathtaking history recorded for eternity on a little colored square of paper with a dab of glue on its back. That's the tale Captain Tim Healy, Gentleman of Fortune, has to tell.

Captain Tim came back from battlefields and diplomatic chambers to organize one of the largest clubs the world has ever known—the Ivory Stamp Club of the Air—heard regularly over an NBC-WEAF network each Monday, Wednesday, and Friday.

The Dionne Quintuplets, most famous babies in the world, at last are ready to face a microphone. On Tuesday, May 28 at 5:00 P. M. a coast to coast audience will hear the “quins” in their radio debut, to be made during their first birthday party. Dr. Allan R. Dafoe, the kindly country doctor who brought the famous infants into the world will speak during the broadcast. Through arrangements with the Canadian Radio Commission the broadcast will be heard over the Columbia and National (WJZ-WHAM) networks.

**A Bigger, Better  
Chamber of Commerce**

Under the title "Geneva Business Advancement Program" there was mailed to over 700 Geneva business establishments a few days ago a prospectus setting forth the plans of the Geneva Chamber of Commerce under which a complete reorganization of the Chamber is to be effected.

The plans are in line with those being taken in other progressive communities to strengthen their Chambers of Commerce to better take advantage of the business opportunities sure to arise, in fact already arising, as a result of greatly improved conditions throughout the country.

This week a group of local business men known as the "Business Advancement Group" is carrying on a subscription drive under which it is hoped to raise \$12,000 to carry on the work of the Geneva Chamber during the coming year.

Under the plans suggested in the prospectus separate budgets heretofore raised for the Finger Lakes Association, The Regatta, Holiday Decorations, and the Geneva Merchants Association have all been included in the Chamber of Commerce budget, thus eliminating four independent campaigns and conserving the time of the business men of the community for separate drives and several separate contributions.

The prospectus mentioned contains a "Foreword" by Harry M. Seagers, president of the Chamber; a list of activities suggested by citizens in a series of recent business "clinics", and a resume of some of the many accomplishments of the Geneva Chamber.

At the conclusion of the present subscription drive a new Constitution and By-Laws are to be presented to the members for approval and new directors elected.

## ALONG THE AIRWAYS

Along with the steady increase in Private Flying Clubs it is interesting to note the number of flying clubs connected with many colleges and which are now giving aeronautical training. At the Lee House in Washington the first meeting of the National Intercollegiate Flying Conference was held recently. Over 25 colleges throughout the country were represented by delegates. Officers were elected and a definite standard program along flying activity was mapped out for the year. Its main purpose is to affiliate all existing College Flying Clubs to the organization and its campaign slogan is—"A flying club on every campus in the United States." It has been shown that such clubs are a great asset to any Airport.

On reviewing recent Airmaps of the Department of Commerce, Geneva is shown to be on a "bee line" from Buffalo to Albany. (The reason for so many planes flying over Geneva). Also on a "bee line" from Hornell to Fulton, Malone and Montreal, as well as from Geneva, through Binghamton to Newark, N. J. And, it is also regrettable to note that Geneva is the only city of its size without an airport.

### Sao Paulo, in Brazil

Sao Paulo, in the heart of the coffee country in Brazil, covers about 14 square miles and has a population of 1,006,000.

### U. S. Farms Worth 57 Billions

In 1850 when the first count was made of the number of farms in the United States there were approximately 1,500,000 with farm property valued at \$4,000,000,000. The census of agriculture taken in 1930 shows more than 6,000,000 farms with a property value of more than \$57,000,000,000.—*Department of Commerce.*

### New York's House of the Dead

There are 500 stone slabs in the morgue of Bellevue hospital, New York, and most of these are occupied continuously with human bodies brought in from all parts of the city. They are for the most part victims of murders, accidents, suicides, even starvation. Sometimes additional resting places for corpses must be improvised.

Margaret Lindsay and James Cagney—coming to Schine's Geneva Theatre, Thursday, Friday, Saturday, May 23-24-25, in "G-Men".

# THE COMMUNITY KITCHEN

Conducted by BETTY BROWN

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Sponge Cake

- 4 eggs, separated
- 2 cups sugar
- 2 cups flour
- 2 teaspoons baking powder
- ½ teaspoon almond and lemon extract, a little salt
- 1 scant cup boiling water

Beat yolks of eggs with the sugar. Add 1 cup of flour and stiffly beaten egg whites. Add remaining flour, baking powder, salt and extracts. Lastly add boiling water. Makes 3 layers or good sized loaf.

Mrs. C. B. J., R.D. No. 1

## Eggs Au Gratin

- 3 tablespoons butter
- 3 tablespoons flour
- 1½ cups milk
- 3 hard boiled eggs, sliced
- ¼ teaspoon of salt, paprika, chopped onion, parsley and green pepper
- 1/3 cup grated cheese

Melt butter, blend in flour, add milk and cook until creamy sauce forms. Stir constantly. Add eggs and seasonings, pour into buttered baking dish, sprinkle with cheese and bake for 15 minutes in moderate oven.

R. L., Washington St.

## Sour Cream Pie

- 2 eggs
- 1 tablespoon flour
- ½ cup sugar
- ½ teaspoon cloves
- 2 teaspoons cinnamon

*Mary L. Rogan*

**MILLINERY**

52 Linden St.

(Just Around the Corner)

- 1 cup thick sour cream
- 1 cup raisins

Beat eggs until very light and fluffy. Sift flour, sugar, and spices together and fold into egg mixture. Fold in sour cream and raisins. Pour into unbaked pie shell and bake. Time 35 minutes, temperature 450° F. (oven).

E. C., Exchange St.

## Brazilian Sandwich

- 1 pkg. white cream cheese (3 ozs.)
- 2 tablespoons evaporated milk or cream
- 2 tablespoons chopped nuts
- 3 tablespoons strawberry or pineapple preserve

Mash cheese, add milk and blend. Add nuts and preserves, well drained of syrup. Spread thin slices of white or graham bread with mixture and cover equal number of slices with lettuce leaves. Put together in pairs. Serves 6 people.

## THE FUNNYBONE

### Cause for Happiness

Mrs. Gee: "You're looking very happy this morning. Have you had good news?"

Mrs. Jay: "Wonderful! My husband has broken down and we're going to Palm Beach for the winter."

### The Solution at Hand

"Doctor," said the sick man, "the other doctors seem to differ from you in the diagnosis of my case."

"I know," replied the medical man cheerfully, "but the post-mortem will show which of us is right."

### Rather Antiquated

The small girl was on a visit to her aunt and grandmother.

"Grannie," she said, after her aunt had left the room, "how old is Auntie Agatha?"

"I couldn't tell you, dear," answered the old lady, "without looking it up in the family Bible."

"Gracious!" gasped the child, "is she old enough to be mentioned in the Bible?"

A man in a mental hospital sat dangling a stick with a piece of string attached over a flower-bed. A visitor approached, and wishing to be affable, remarked, "How many have you caught?"

"You're the ninth," was the reply.

### Completely Fooled

He: "Your husband looks like a brilliant man. I suppose he knows everything."

She: "Don't fool yourself, he doesn't even suspect anything."

## THIS AND THAT

Advertisers tell us they have  
more comments on their ads in the  
GENEVA COMMUNITY NEWS than  
they have ever had from any other  
medium. That's fine, readers — we  
surely appreciate it and you can just  
bet the merchants do, too.

Fairfax Bros. invite you to see  
their new way of showing the colors  
with which to paint your house.

Travel may not enable one to re-  
cover from his bad health, but it  
makes him forget about it.

Motorists, are you getting the  
most efficiency out of your car? Are  
the spark plugs OK? Are the points  
right? Is the carburetor properly  
adjusted? These and several other  
things about your car may be cost-  
ing you unnecessary expense. It  
won't cost you anything to find out  
at Firestone's free clinic.

Persons of leisure generally find  
a rather poor assortment of com-  
pany. So many worthwhile men are  
busy.

When your eyes bother do you  
go to a throat specialist? When you  
need a plumber do you go to a  
blacksmith? When your car needs  
attention do you go to a physician  
for help? Then when you need ad-  
vertising — and if you don't think  
your business needs it you're only  
fooling yourself — why not take it  
up with a medium that is special-  
izing in advertising? THE GENEVA  
COMMUNITY NEWS is *An Adver-  
tising Medium of Distinction.*

Don't hide your light under a  
bushel. Get a circus tent and sell  
tickets.

Remember — churches, lodges,  
fraternal organizations, schools —  
the columns of THE GENEVA COM-  
MUNITY NEWS are open for your  
reading notices for plays, bake sales,  
lectures, or any affairs to which the  
public is invited and which are not  
held for personal gains. These will  
be inserted without charge.

**RADIO FLASHES**

By Ralph Le Brun

**Betty Winkler** plays the role of Ester Ferguson in the weekly broadcasts of "Welcome Valley". This program featuring Edgar A. Guest is heard over an NBC-WHAM network each Tuesday at 7:30 p.m.

The part of Julia Porterfield in recent episodes of Amos 'n Andy has been taken by an expert in Negro dialect, Harriette Widmer of LaGrange, Ill. This is the first time in seven years of broadcasting that all the roles in the five times weekly episodes have not been taken by either Correll or Gosden.

Numerous radio broadcasts from the new French liner Normandie, on its maiden voyage will be rebroadcast within the next week. Among those scheduled is the highlight "Gala Night Abroad" to be rebroadcast on Saturday from 7 to 7:30 P. M. over an NBC-WJZ network and from 8:30 to 9 P. M. over the Columbia network. A talking beam of light from the torch of the Statue of Liberty will welcome the Normandie when she arrives in New York harbor on Monday morning, June 3. The broadcast of this reception will start at approximately 11:00 A. M. over WJZ-WABC-WEAF and affiliated stations.

The Lux Theatre of the Air will sign off NBC-WHAM Sunday afternoon, June 30 to return three weeks later over the Columbia network. It will at that time become an evening feature being heard at 8 P. M. on Mondays.

Cliff Soubier appearing on several programs originating each week in the Chicago studios of the NBC, rates as one of radio's most versatile performers. Soubier got that way in his youth playing with medicine shows and carnival companies. In one traveling company in which he played parts and doubled in brass, he had to be an acrobat as well. He used to fall "dead" on the stage with his legs and body in view of the audience and his head in the wings—so he could play his own dirge on a clarinet.

Station WLW, Cincinnati, has been granted permission to return to its high power of 500,000 watts. New aerial equipment designed to minimize interference to

## \* DOROTHY GOES SHOPPING \*

**Baker & Stark** are offering a large assortment of Wash Suits, sizes 3 to 10 as low as 95c. This should be welcome news to all Mothers of Little Fellows who need these garments for summer wear.

Today will never come again — save it with snapshots. Snapshots “turn out” when you use Kodak Verichrome Film in your camera. Get your supply for the holiday or week end trip at **McCarthy's Pharmacy**, 162 Castle St.

To coax away the drawn-down look that spells age, gently vibrate two fingers in a fan-like movement from your lips to cheekbones.

They shall look at you and say: your hair is lovely. But they shall never guess the permanent, for a Harper Method Permanent may be arranged in soft, lasting waves, natural curls, graceful ringlets. Call 6783, **The Harper Method Beauty Salon**, 10 Seneca St.

**The Kenwood Blanket Club** at **Lynch's** gives you an opportunity to save several dollars on those beautiful all-wool blankets. Ask about **Lynch's Club plan**.

Gentlemen — This is one way of keeping cool—buy an International Custom suit made from a Feather-weight Tropical Worsted. It's both stylish and effective. **A. P. Petersen**, 476 Exchange St., Geneva, N. Y.

The secrets of hostesses who entertain easily and well: party rolls and dainty party cakes from **Ring-er's Bakery**. English buns, delicious cookies such as Jelly Gingers, Hermits. Spice layer cake with spiced maple frosting. Call 2011.

To counteract frown lines, forehead wrinkles, work up with finger tips from between brows to hairline, using a gentle vibrating pull.

Keep time with the times—right to the second. Is your watch or clock running irregularly? It probably needs cleaning or repairing. I recommend **Prince's Jewelry Store**, 20 Linden St. Reliable work, reasonable prices. Jewelry repairing also.

Lime green in shantung makes a very pretty and cool looking outfit.

Silk suits are news. You make them of taffeta, printed crepe or tie silk. Some are soft, some are strictly tailored.

Linen dresses will be very good this year. Dark linen is an important fashion, especially black, navy and wine. It should always be enlivened with white.

With surprising suddenness, lace has come very strongly into the fashion picture, and appears everywhere in all moods—tailored or fluffy, but always feminine.

The tendency toward “open” embellishment is noted in dresses that introduce hand-drawn work, and hand-fagotings, approved in washable crepes, in cottons and linens in warm weather groups.

It's probably due to the importance of suits, or it may be because of its universal becomingness, but the light-blouse, dark skirt theme has a thousand and one variations. Be sure to include at least one in your daytime wardrobe.

A reversible panama hat with one side white and the other side navy is one of the newest fashion notes in Paris.

Your new summer hat from **The Bon Ton Millinery**. You always find a complete assortment of “best sellers.” Smart leghorn hats with shading brims . . . felts — some mere whispers of color, others daringly brilliant tones . . . also, stitched crepes. Look first in “**The Bon Ton**”, 498 Exchange St.

Who could have guessed that all forms of needlework would reach the height of popularity they have reached today. Knitting, needle-point, crochet — and what fun it is to crochet, especially during the summer months. So step along with the times and fill in your odd moments of waiting.

### "Oldest Bible" Discovered

The director of the German Archeologic institute in Cairo recently discovered in an obscure Cairo bookshop what is said to be the world's oldest Bible. This Bible, which is thought to have been written in the Second century, contains only the gospel according to St. Matthew, the letters of St. Paul, and portions of the Old Testament. The oldest Bible known previous to this find was written in the Fourth century.

### Study Gaelic in Province

In North America, outside of the island of Cape Breton, in the province of Nova Scotia, very little Gaelic, the native language of the Gauls, is spoken. Some Gaelic is spoken on Prince Edward island and some enthusiasts in the village of Valleyfield, P. E. I., hold classes to cultivate the language.

## Shell Fish a la Newburg

2 cups finely cut shrimp  
2 tablespoons butter  
1 tablespoon flour  
1 cup milk  
2 hard boiled eggs, 1 teaspoon salt  
A little cayenne pepper and paprika  
¼ cup cooking sherry

Melt butter in sauce pan, add flour and stir until smooth. Add cold milk slowly and boil until thick. Rub egg yolks thru strainer and add, stirring until smooth. Add seasoning, finely chopped egg whites and fish. Place all in double boiler over fire for 15 minutes. Add sherry and serve immediately.

## Pineapple Egg Nog

1 egg  
⅔ cup rich milk  
¼ cup pineapple juice  
A little salt and nutmeg

Mix ingredients, aside from nutmeg which is sprinkled on top at serving, and beat until light. Chill well before serving. Makes 1 serving.

## Maple Sweet Potato

Bake unpeeled sweet potatoes for 30 minutes in a hot oven (450° F.) Slit off the top, remove the potato, whip with 2 tablespoons maple syrup, 1 tablespoon butter, 1 tablespoon chopped nuts and seasoning for each potato. Restuff in shell, and brown under the flame.

## Waffles

2 cups flour  
4 teaspoons baking powder, a little salt  
2 tablespoons sugar  
2 eggs (separated)  
1¼ cups sweet milk  
6 tablespoons melted butter

Mix and sift dry ingredients. Beat egg yolks until lemon colored, add milk and mix with dry ingredients. Add melted butter and fold stiffly beaten egg whites into batter. Bake 2½ to 3 minutes.

### Dark Africa Demands Phones

Darkest Africa, in its stride toward the light, is demanding so many telephones there are not enough instruments to go 'round. Small towns in the interior are begging for them.

### Speed of Crocodiles

The average speed of crocodiles is a mere crawl, the body and tail being dragged along, but when excited they can run about 20 miles an hour, with the body well off the ground for short distances.

## Persistence

Persistence is the mother of miracles. It is half of achievement. In advertising persistence is the first law of success. Spasmodic advertising, no matter how good, is seldom resultful.

Persistence appeal builds good will, creates confidence, develops interest and tends to make your advertising efforts produce results.

It is the cumulative effort of your advertising that makes it pay.

### Centennial Club Plays

On Tuesday evening, June 4, at 8 o'clock, at St. Francis De Sales Hall, the Centennial Club Players will present a two act comedy, "Information, Please" and an Italian farce, "Three Mice in a Trap", by Frank Iacones. The former will be presented in English and the latter in Italian.

The plays are being promoted by Louis Di Pillo, Armand Filicetta and Joe Crupi and are under the direction of Frank Zavarella of New York City.

The admission is 30c and tickets may be obtained at 10 North Main Street or by phoning 2210 or from members of the cast.

### Analogy

### Poor Taste

"Doctor, is there any danger of the operation proving fatal?"

"Really, my good man, considering that we are experimenting on you free of charge, your idle curiosity is hardly good form."

### Jigsaw Genesis

Brown: "Say who started this jigsaw puzzle craze, anyway?"

Smith: "Haven't you heard? It was a navy doctor who tried to put a tattooed sailor together after an accident."

An after-dinner speaker unwittingly told the truth the other day. "Ladies and gentlemen," he said, rising from his chair at a banquet, "before I begin my address, I have something to say to you."

## SUMMER BREEZES

Gilbert's Jewelry Store is cele-  
brating its seventh anniversary.  
Congratulations, Mr. Gilbert. (See  
ad, page 14).

A student at Brown university  
devoured 20 doughnuts in 18 min-  
utes; great are the wonders of mod-  
ern education.—*Manchester (N. H.)*  
*Union.*

Every now and then "Betty  
Brown" receives an inquiry regard-  
ing a duplicate of some recipe that  
has been mislaid, asking if it is pos-  
sible to furnish copies of previously  
published recipes. Yes—we keep  
complete files of all issues of THE  
NEWS and can furnish copies of any  
recipe that has ever been published  
by us. Many readers, we are told,  
are making up COMMUNITY NEWS  
RECIPE BOOKS, adding to their col-  
lection each week as our issues reach  
them.

See Clarke's special offer on Ko-  
dak developing, page 11.

More and more merchants tell us  
about the number of buyers who  
say: "I saw your ad in the GENEVA  
COMMUNITY NEWS. One merchant  
also recently told us his business  
increased 25% the first week he ran  
an ad with us and that it has stead-  
ily increased each week since.

Human race may be selfish, but  
hasn't it given up billions for the  
welfare of others?

No parking problem out at W. J.  
Miller's store on the Lyons Road.  
His slogan is "Independent mer-  
chant—chain store prices." (See ad,  
page 16).

A swivel chair is all comfort, but  
there is joy in sitting on a hard rock  
in the woods on a sunshiny spring  
day.

This week, as you will notice  
from our front page, THE NEWS  
is again putting out a special edition  
of 6000 copies. This means reaching  
a market of approximately 25,000  
to 27,000 people.

Some men wear spats while others have them at home.

Politeness sometimes comes hard. That is why one should be well drilled in it.

Did you know that Pittsburgh Plate Glass Products are represented in Geneva? Yes, by Charles S. Grower of 82 No. Brook Street. Mr. Grower also does spray as well as brush painting.

Blotting paper is used by office workers to prevent blotting paper.

From time to time unfavorable remarks are heard concerning the condition of Geneva's business streets on Sundays, with much dirt and many scraps of paper blowing around. In certain other cities we know of, business streets are thoroughly flushed late Saturday nights or early Sunday mornings. If such an arrangement were to be carried out in Geneva and merchants would co-operate to sweep their walks after closing hours Saturday nights, rather than waiting until Monday mornings, our streets would present a much neater Sunday appearance.

Advertising in THE NEWS pays.

### RADIO FLASHES

By Ralph Le Brun

(Continued from page 3)

sometime this month NBC will intercept the radio broadcasts from the balloon and rebroadcast over the regular networks. The exact time of the take-off depends on weather conditions. For the benefit of owners of all-wave radios, who care to listen for the expedition, they are now testing and while in the air on the actual flight will use a wavelength of 23 meters (13,050 kcs.)

### New "Geneva Club" Beverages

The Geneva Coca-Cola Bottling Corporation, well known for the excellency of its Coca-Cola and other beverage products, announces on another page of today's News the introduction of five new beverage products to be known as "Geneva Club" Carbonated Beverages.

The Coca-Cola Corporation has recently installed the newest and most scientific refiltering equipment for treating city water under a process which not only removes all chlorine and other undesirable odors or tastes but also guarantees absolute purity and fine flavor.

This treatment is reflected in the products of the local Coca-Cola Corporation—its Coca-Cola and other beverages previously made as well as in the new "Geneva Club" Carbonated Beverages.

No longer will it be necessary for Genevans to demand nationally known Ginger Ales, Root Beers, etc., as an assurance of quality, for the new "Geneva Club" Beverages are guaranteed to be the equal of any on the market.

Local trade will be supplied either thru dealers or by calling the Coca-Cola Bottling Corp.—phone 6378.

The Coca-Cola plant at 82 State Street is open for inspection and visitors are welcome.

### Soda and Nitrate

Nitrate of soda and common washing soda are not the same. Nitrate of soda is sodium nitrate, while washing soda is sodium carbonate.

### Tung Oil Statistics

The tung oil used annually in the United States paint manufacture—if floated from China in barrels—would require one barrel for every 200 feet of the 9,000 miles of ocean.

### Shed Leaves Early

When water is scarce from drouth or some such cause, deciduous trees shed their leaves early as a protective device, since it is through its leaves that a tree loses most of its moisture.

## Corned Beef and Cabbage Rolls

1 can corned beef hash  
2 teaspoons finely chopped onion  
8 large cabbage leaves, salt and pepper  
2 tablespoons butter  
 $\frac{3}{4}$  cup water  
Chopped parsley

To contents of can of hash, add onion and mix well. Divide into 8 portions, shape into oblong rolls. Parboil cabbage leaves for 2 minutes, drain and season with salt and pepper. Place rolls on cabbage leaves, roll up, fasten and place in baking dish. Dot with butter, pour  $\frac{3}{4}$  cup water in pan and bake in moderate oven for 20 minutes, basting and turning frequently. Garnish with finely chopped parsley.

## Chocolate Base

2 cups sugar  
1 cup cocoa or 6 squares unsweetened chocolate  
2 cups evaporated milk  
 $\frac{1}{8}$  teaspoon salt

Mix sugar and cocoa in double boiler. (If chocolate is used, melt, then add sugar). Add  $1\frac{3}{4}$  cups of the milk and cook until thick, stirring occasionally. Beat until cool, add remaining  $\frac{1}{4}$  cup milk and salt. Serve as a bittersweet sauce or as base for desserts. Makes 3 cups and if put in covered dish in icebox will keep for some time.

## Frozen Pudding

4 eggs (separated)  
 $\frac{1}{2}$  cup sugar  
1 tablespoon corn starch  
1 quart milk  
1 cup strawberry preserves

$\frac{1}{4}$  pound raisins  
 $\frac{1}{4}$  pound walnut meats

Beat egg yolks with sugar, dissolve cornstarch in a little cold milk and add. Heat remaining milk to boiling point, add to mixture and boil in double boiler until thick. When cold stir in raisins, preserves, nuts, beaten egg whites, a little vanilla and freeze. Serve in small portions topped with whipped cream.

### Try the Goose of Golden-Egg Fame

The man who had made a huge fortune was speaking a few words to a number of students at a business class. Of course, the main theme of the address was himself.

"All my success in life, all my tremendous financial prestige," he said proudly, "I owe to one thing alone—pluck, pluck, pluck!"

He made an impressive pause here, but the effect was ruined by one student, who asked impressively:

"Yes, sir; but how are we to find the right people to pluck?" — *Selected.*

### GENEVA'S LOSS

We often wonder if it is realized how much business Geneva is losing thru its lack of amusement facilities around its lake.

Gas station owners and attendants along Lake Street and in fact all around the city often remark about the number of visitors, many of them from other States, who stop and ask about amusements. Many of these people are attracted here by having read or heard about the Finger Lakes and would like to spend a few days here in Geneva, but upon learning there are no special attractions ask where these can be found and then go on to Canandaigua or Auburn.

The whole situation seemed to be aptly expressed by one little girl who said: "Why, daddy, don't they even have a merry-go-round here?"

Beauty in scenery is a wonderful asset, but people on vacations and also people with children go where there is something besides scenery alone.

Another inquiry that is often made is for a good cabin camp along the lake.

The situation mentioned is, of course, fine for Canandaigua and Auburn, but why should Genevans spend money to help tell people about the Finger Lakes and then not have anything to hold these visitors when they come?

### Humans Here 11,000 Years Ago

Evidence has been found that primitive human beings lived in North America as much as 11,000 to 20,000 years ago, perhaps as far back as the Ice age.

**ALONG THE AIRWAYS**

It is announced by the Soaring Society of America that the first four-passenger glider ever seen in this country will participate in the Society's sixth annual soaring contest to be held at Elmira from June 29 to July 14.

The "Two-Dollar-a-Week" flying club plan initiated some time ago by Lieutenant L. V. Rawlings at Newark (N. J.) Airport has gained such momentum that the required minimum of thirty members already has been enrolled and a new two-place Aeronca "air flivver" has been purchased for their instruction. Anticipating formation of similar groups, the club has taken the name of the "Flying Club of America" and is spreading the gospel of low-cost flying instruction on the installment plan.—*N. Y. Herald-Tribune.*

Fill up! Coke and coal prices  
advance June 15. (See ads in this

When men visit one another they  
smoke a lot or go fishing—or both.

Smith's are celebrating their 88th  
Anniversary with a special sales  
event. (See ad, page 9).

They that always speak kind  
words, please hold up their hands.

There's a lot of food for thought  
in the "Geneva Club" ad on page 11.  
Cleanliness and exactness in prepa-  
ration are qualities warranting more  
than passing consideration.

A word out of the dictionary  
makes a lowbrow suspicious; but  
he picks up greedily all the slang  
words going.

A correction: In these columns  
last week we noted Chas. S. Grow-  
er's address as North Brook Street.  
It should have been South Brook,  
as per Mr. Grower's ad. (See page  
11).

Many a father suffers from a  
touch of the son.

Savings throughout the store—in  
connection with Gilbert's seventh  
anniversary sale now in progress.

If what they say is true and one  
person out of four has a car, the  
other three must be waiting at the  
crossing to let the one go by.

**Eddy Duchin** and his orchestra, carrying on while Texaco Fire Chief Ed Wynn takes a summer vacation, will conduct a national open tournament for new radio talent, as they cross the country on a transcontinental tour. Starting at Washington, D. C. with last Tuesday's broadcast, Duchin and the boys will wind up the 16 week tour at the Cocoanut Grove of the Ambassador Hotel in Los Angeles.

On Sunday at 11:45 A.M. over the Columbia System a vivid description of Cracow, Poland, the ancient city of Polish kings, and the 13th Century Church of Our Lady will be rebroadcast. The "Hejnal" or trumpeting of time from the church towers and the singing of native folk-songs will be heard.

Irvin S. Cobb, author, humorist, lecturer, playwright, and radio commentator extraordinary, will be the next celebrity on Ben Bernie's guest list at this rendezvous of prominent personages. The wise ones look forward to "a hot time on the old island" the night of Tuesday, June 18, when these masters of repartee get together on the Old Maestro's regular program from Catalina Island over NBC-WEAF.

Two birds of a feather will come together before the same microphone when Fannie Brice, a veteran comedienne of the American stage, appears as a guest performer on Bea Lillie's broadcast over NBC-WHAM Friday at 8:00 P.M. Like Miss Lillie, Fanny Brice is a leading exponent of satirical buffoonery. She first came into prominence as a protege of the late Florenz Ziegfeld and has been rated as one of America's comedy favorites for a quarter of a century.

Summer hair! Hair that goes swimming, blows about on motor trips, yet must look perfect for evening. It is necessary to have a **Permanent**. I recommend **The Harper Method Beauty Salon**, 10 Seneca St. Call 6783. Permanents \$5.00 and up.

Before buying any refrigerator investigate the **Coolerator** at **C. J. Brady's**. Stop in at 110 Lake St., phone 2740, or speak to the man on the White Ice Truck. No mingling of food odors, no drying out . . . foods stay fresh and natural tasting with a **Coolerator**. So amazingly different it changes all your ideas about refrigeration.

Buffet parties are fun. A lovely buffet table is a fit setting for lovely food. No other sort of entertaining is so gay. Of course you must be very particular about details when arranging your buffet table.

—D—

The feminine heart has been captured by the personal motif vogue—a mode from London—and many a woman today is embroidering her chosen motif on her lingerie, sportswear, handkerchief. On her house linens, too. Your individuality speaks through the motif you select. It may be a thistle, shamrock, maple leaf for nationality; an elephant or horseshoe for luck, a sailboat—whatever you fancy. And so easy to work.

### ALONG THE AIRWAYS

A new regular schedule of the United Air Lines calls for overnight service from New York to all major Pacific coast cities in "three-mile-a-minute" Boeing monoplanes.

The Bureau of Air Commerce reports that 349 airplanes were produced by the American aircraft industry during the first quarter of 1935 as compared to 259 in the same period last year. Of these 193 were for domestic civil use, eighty-four for military purposes and seventy-two for export. Monoplanes outnumbered biplanes nearly eight to one in the commercial field.

### CHAMBER OF COMMERCE MEETING

A meeting of the entire Chamber of Commerce membership will be held at the Chamber offices tonight (Thursday, June 13) at 7:30.

New by-laws will be presented and, following the adoption of these, a roster of membership will be mailed to all voting members, together with a primary ballot. From these primary ballots nominees for new directors will be selected and a committee of judges will then prepare a final ballot from which fifteen new directors will be elected.

### Not High Fliers

It used to be thought that birds rose to high altitudes—such as 8,000 to 10,000 feet—on long flights; but information, gathered in from airplane observation, shows that they do not really go up so far. Their average altitude is between 2,000 and 3,000 feet—though some birds, such as ducks and waders, rise above the 4,000-foot line.

### RADIO FLASHES

(Continued from page 3)

Major Edward Bowes, heard twice Sundays on NBC with his Capitol Family and Amateur Hour programs, began his business career while a boy in knickers. Discontented with the financial rewards as an usher at a school teachers' convention in San Francisco, he set up shop on the premises as a writer of calling cards and did a land-office business, thanks to a fine Spencerian hand.

**Ancient Stained Glass**

It is said that stained glass dates back not later than the Holy Roman empire, possibly to the reign of Charlemagne in France. In France the cathedrals of Chartres, Le Mans, Reims and Chalon-sur-Marne are of special importance because of the beauty, not alone of the architecture, but of the glass.

**Indian Mock Marriages**

In India mock marriages with trees, animals or other things are often gone through with for the purpose of protecting a bride or bridegroom, or both, from some supposedly impending evil.—*Gas Logic*.

**Enormous Baobab Tree**

The enormous baobab trees of Majunga, Madagascar, line many of the town's streets. Some of the trees are so large that it would take 15 men with outstretched arms to encircle one of them.

**Arctic Trips Traced to 330 B. C.**

Arctic explorations may have begun with Pytheas, Greek navigator, who about 330 B. C., sailed from Massilla, now Marseilles, and discovered the British Isles, possibly reaching Norway.

**Pharos of Alexandria Rebuilt**

A reconstruction of the Pharos of Alexandria, one of the wonders of the ancient world, has been made since the discovery of a Twelfth century description of the great lighthouse.

## Macaroni Stuffed Peppers

- 2 cups cooked macaroni
- 1 cup canned tomato soup
- $\frac{3}{4}$  cup grated cheese
- 1 egg
- 6 green peppers

Add macaroni cut in small pieces to tomato soup, add cheese and slightly beaten egg. Prepare peppers by cutting slice from stem end, removing seeds and parboiling peppers in salted water for 5 minutes. Drain, fill with macaroni mixture, cover with buttered crumbs and bake for 12 minutes in 500° oven.

Mrs. F. A., Catherine St.

## Roxbury Cakes

- 2 eggs (separated)
- 1 cup sugar
- $\frac{1}{4}$  cup soft butter
- $\frac{1}{2}$  cup sour milk
- 1 teaspoon soda
- $\frac{1}{2}$  cup molasses
- 1 teaspoon each cinnamon and nutmeg
- $\frac{1}{2}$  teaspoon cloves
- 1 cup raisins
- $\frac{1}{2}$  cup nut meats
- 2 cups flour, a little salt and vanilla

Combine egg yolks, sugar, butter, sour milk, soda and molasses. Add dry ingredients then raisins and nut meats and lastly beaten whites of eggs. Bake in muffin tins.

## Hot Milk Cake

- 1 cup sugar
- 2 eggs
- 1 cup flour
- 1 teaspoon baking powder, a little salt
- 1 teaspoon hot butter
- $\frac{1}{2}$  cup hot milk
- 1 teaspoon flavoring

Beat eggs and sugar together until light. Add dry ingredients which have been sifted twice. Put butter in milk and add last. This makes a thin batter. Bake in slow oven 325° for 30 to 40 minutes.

A. H., William St.

## Vegetable Hamburgs

- 2 medium-sized onions
- 1 cup beets, cooked and chopped
- 1 cup carrots, cooked and chopped
- $1\frac{1}{2}$  cups bread crumbs
- $\frac{1}{2}$  teaspoon salt
- 1 egg
- $\frac{1}{4}$  cup butter

Chop onions and add to other chopped vegetables. Add 1 cup of the bread crumbs, salt and egg, which has been beaten well. Combine thoroughly and shape into flat cakes. Dip in crumbs and brown on both sides in a skillet in butter. This recipe makes about 6 portions.

## Recipe

Take one reckless, natural-born fool, three drinks of bad liquor, a fast, high-powered motor car. Soak the fool in the liquor, place in the car and let him go. After due time, remove the wreckage, place in a black, satin-lined box and garnish with flowers.—*Erie Railroad Magazine*.

## THE FUNNYBONE

### Gentle Hint

Little Betty used to embarrass her mother every time she called on her friend by asking for something to eat. She promised never to do it again.

The next time they called on the friend, just before teatime, Betty piped up: "Mrs. Smith, are you hungry?"

"No, Betty," answered the hostess, "I'm not hungry."

"Well," said Betty with a sigh, "I wish I was you."

## Decorated Frog

A giant frog at the London zoo from Brazil has golden eyelids and carries a pair of horns—one over each eye! What is more, it can bark, bite, and fight. Known as the Escuerzo frog, more than half of its anatomy is occupied by its head and jaws, which are so elastic that they can be stretched over a good-sized rat.

## Dogs Run on Rubber Tracks

Tested at a stadium near London, rubber turf is being used to surface the track on which greyhounds race. It is claimed that the material gives better footing after a rain than grass. The rubber turf also will be tested on football fields.—*Popular Mechanics Magazine.*

## GARDEN PARTY AND FASHION SHOW

On Friday afternoon, June 21,  
starting at 2:15, the Geneva Unit  
of the League of Women Voters  
will sponsor a Garden Party at the  
White Springs Farm.

A feature of the party will be a  
Fashion Show conducted by vari-  
ous Geneva Shops, displaying the  
latest wearing apparel for ladies,  
including dresses and accessories.

For those who may not care for  
cards additional entertainment will  
be provided in the way of a pleas-  
ing musical program and the  
White Springs flower gardens are  
also just now at their best.

Tickets of admission, which are  
50c, are now on sale at the Hill  
Book Shop, Seneca Street, and will  
also be on sale at both gates of the  
White Springs Farm on the day of  
the event.

In case of rain the party will be  
postponed until Saturday after-  
noon.

**Cornelia Otis Skinner**, distinguished American actress and writer who brings her famous character sketches to the air on Sunday evenings at 8:30 P. M. over NBC-WHAM. As the daughter of Otis Skinner she has been associated with the theatre since childhood, but becoming dissatisfied with the career of a "straight" actress several years ago she began to create first the character sketches and later the solo dramas for which she is famous.

Amos 'n Andy will go over to the WEAf network on July 15. The sponsors believe that a change of network will put their program in tune with new listeners and that the regular audience will follow Amos 'n Andy to the new stations. Time will remain the same, 7 P. M. New York time.

On Thursday, at 8:30, the first of the summer concerts by Edwin Franko Goldman's band will be broadcast over NBC-WJZ. The band will broadcast every Thursday at this time and Saturdays at 8 P. M. WHAM is scheduled to carry the Thursday broadcasts.

A special performance of George Bernard Shaw's most famous one act plays, "O'Flaherty, V. C.," will be presented over the Columbia network on Tuesday at 8 P. M. The cast to be heard in this masterpiece of typical Shavian insight and wit will include Stephen Fox, Edwin Jerome, Gladys Hurlburt, and Alma Kruger.

Buck Rogers' prophecies seem to be bearing fruit. A concern named Radio Vision, Inc., of Columbus, Ohio, plans extensive explorations of the outer air beyond the stratosphere, using a liquid fuel rocket. The rockets would be sent to heights of more than 100,000 feet carrying government recording instruments and a special technicolor camera. First flights are planned in six months, possibly on the Tobyhanna Heavy Artillery Range atop the Poconos.

## RENDERS PUBLIC SERVICE

Speaking before a recent quarterly meeting of the New York Association of Personal Finance Companies, held at Syracuse, N. Y., H. A. Lyon, public relations counsel of New York City, said: "The final test of any business is determined by the good which it does human beings and that means, in this case, borrowers, the public and stockholders. Any business which renders a necessary public service and renders it sincerely and honestly need not worry about public support. That has been proven in your own business by the sound growth and steadily increasing number of friends which your companies have made."

## \* DOROTHY GOES SHOPPING \*

Still time to get a dark blue, black, or brown hat to match or contrast with a frock—and at 55c . . . values up to \$2.98. **The Bon Ton Millinery, 498 Exchange St.** . . . Chalk white crepes, felts and pastels at \$1.25 to \$1.98.

Linen goes formal . . . linen . . . the debutante's newest discovery in frocks for summer formals. Crispy cool, frilly affairs, sophisticated as you please with their low décolletages, their slim-fitting, gracefully sweeping skirts. Colored in brightly printed patterns or delicate pastels.

A stunning woman—but, her hair. Why gamble with loveliness? A sure way to acquire hair beauty is a **Permanent**. Restore hair life and lustre with a Permanent at **The Harper Method Beauty Salon, 10 Seneca St.** Permanents \$5.00 and up. Call 6783.

Another new notion is a “cocktail glove” of net with a ruffle at the base of the fingers and two at the wrist. Glace kid is being shown for afternoon costumes. Glove colors run to yellow and navy.

**The Downyflake Doughnut Shoppe, Linden Street,** has hot dog rolls and sandwich rolls for your picnics. Stop in and order them for the week-end picnic. They are only 15c a dozen. Also, Schuler's crispy potato chips.

A slim-fitting many gored frock of orchid linen is contrasted by its tiny jacket in melon color.

Things you need for **Summer Picnics** available at **McCarthy's Pharmacy** . . . Food jugs—one gallon capacity at \$1.49 and up . . . A complete assortment of Eastman Kodaks and Cameras . . . Films to fit your Kodak.

Skirts make a point of pleated fullness, with the pleats in clusters and sections, and posed at back and front or at seams. Sometimes the pleats are released to form unpressed fullness.

At **Carl's** . . . solve your shoe problem. Pick up any pair of your old worn shoes and leave them at **Carl's**. He will rebuild them as good as new for longer wear and major comfort.

Late for an important appointment because your watch wasn't keeping correct time? Avoid this mishap again. Have your watch looked over this week at **Prince's Jewelry Store, 20 Linden St.** . . . Excellent picture framing.

Don't think of buying your new summer suit without seeing the superb quality of International Custom-made Clothes! The prices will greatly interest you. **A. P. Petersen, 476 Exchange St., Geneva, N. Y.**

Find out for yourself the difference in **McGuire's Dry Cleaning**. All garment cleaned individually. No cleaning odor remains. Life and lustre restored to garments. **Call 4126—McGuire's.** Fine work, quick service.

Have you seen the **Coolerator Refrigerator** at **C. J. Brady's**? The Coolerator gives three way refrigeration: Uniform Temperature—whether ice chamber is full or nearly empty; Proper Humidification—keeping foods fresh and natural tasting; and Pure Washed Air—no covered dishes necessary—no mingling of food flavors. Also “taste-free” ice cubes in only five minutes. Investigate the Coolerator before buying any refrigerator. Phone 2740 or speak to the man on the White Ice Truck.

If you are looking for **Graduation Gifts** you should see the splendid assortment that **Baker & Stark** are offering . . . useful gifts are always more acceptable. . .

When you're downtown have luncheon at **Joe Rothenberg's Restaurant, 59 Seneca St.** Delicious salad plates 15c to 30c. Home cooking, quick service, pleasant surroundings.

### DO YOU KNOW?

(This column is sponsored by the  
 Ontario County Medical Society)

Baby's care during the summer  
 calls for special watchfulness of the  
 dangers which summer brings. Flies  
 kill many babies. They spread dis-  
 ease germs far and wide. The home  
 that holds a baby should be screened  
 against the enemy. The baby's bed  
 should have a good mosquito net,  
 well tucked in. Flies are attracted by  
 food. Cleanliness throughout the  
 home helps keep these insects out-  
 side.

"Doctor" as a title was invented  
 in the twelfth century. First there  
 were Doctors of Law and Doctors  
 of Divinity. William Gordenio was

the first person upon whom the title  
 of Doctor of Medicine was be-  
 stowed. He received it from the Col-  
 lege of Asti, in 1329. Today, in  
 America alone, there are nearly  
 150,000 persons who have a right to  
 sign themselves "M.D."—Doctors  
 of Medicine.

Almost 14,000 doctors are mem-  
 bers of the Medical Society of the  
 State of New York. Each one is al-  
 so a member of the local Society in  
 his own county.

The heart is a pump which  
 works 24 hours a day. It forces  
 blood under pressure to every part  
 of the body through channels re-  
 sembling a closed water-works sys-  
 tem, emptying back into the heart  
 again. This pressure varies under  
 different conditions in the same per-  
 son. Blood pressure, continuously  
 high, may indicate serious disease.  
 Many people with high blood pres-  
 sure have prolonged their lives un-  
 der treatment which includes mod-  
 eration in activity and the avoidance  
 of strain, hurry and excitement.

# THE COMMUNITY KITCHEN

Conducted by BETTY BROWN

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Strawberry Bomb

1 baked angel food cake  
1 tablespoon granulated gelatin  
4 tablespoons cold water  
2 cups crushed strawberries  
2/3 cup sugar  
1 tablespoon lemon juice  
1/8 teaspoon salt  
1 cup whipped cream

Remove center from cake leaving a case to hold filling. Soak gelatin in cold water five minutes. Dissolve over boiling water, cool, add rest of ingredients. Chill until a little stiff. Pour into angel food case. Chill two hours or longer. Spread top and sides with whipped cream or pineapple sherbet. Serve, cut in wedge-shaped pieces.

L. A., Lafayette Ave.

## Whole Wheat Nut Bread

2 cups whole wheat flour  
1 cup all-purpose flour  
1/2 cup granulated sugar  
2 teaspoons baking powder  
1/2 teaspoon salt  
1 1/2 teaspoons baking soda  
2 cups sour milk

1/2 cup molasses  
1 cup nuts, chopped  
1/2 cup raisins, chopped

Combine whole wheat flour with remaining dry ingredients, which have been sifted together. Combine sour milk and molasses and mix into dry ingredients. Stir in nuts and raisins. Pour into a greased bread pan and bake about 1 hour in a moderate oven (350 degrees F.). This recipe makes 1 large loaf of nut bread.

## Date and Walnut Pudding

2 eggs  
3/4 cup sugar  
2 tablespoons flour  
1 teaspoon baking powder  
1 cup chopped walnuts  
1 cup chopped dates

Beat eggs and add sugar. Add flour and baking powder, sifted together, and lastly walnuts and dates. Place in buttered baking dish, sprinkle with cinnamon and bake 30 to 40 minutes in slow oven.

## SUMMER BREEZES

Take a ride out South Main St.  
at this time of year and drive slow  
enough to give a thought to the fact  
that it is one of the most beautiful  
avenues to be seen anywhere.

When sitting in a theatre watch-  
ing a beautifully colored travel pic-  
ture of some foreign country, did  
you ever stop to think that a travel  
picture of our own Finger Lakes  
country would not only compare  
favorably with, but far exceed in  
beauty, many of the travel pictures  
you have seen on the screen?

A bumble bee can pull 300 times  
its own weight, we are told. What  
impresses us most, however, is the  
malicious vigor of its push.

A politician can't get elected  
without stating the reasons why he  
should get the votes. How can a  
business expect to be elected to suc-  
cess, unless it tells the people the  
reasons why it should be patron-  
ized?—*South Dakota Rural Press  
and Print Shop.*

The annual Geneva-on-Seneca  
Lake Powerboat Regatta will be  
held on Saturday and Sunday, July  
6 and 7. This event attracts world-  
wide attention and advertises Ge-  
neva far and wide as few other  
sporting events could. As in past  
seasons the leading amateur power-  
boat racers of the country will be  
here. Those who put their efforts  
back of the promotion of the Power-  
boat Regatta deserve the hearty  
commendation of every public spir-  
ited citizen.

## RADIO FLASHES

By Ralph Le Brun

We present an early photograph of Fred Allen, Star of "Town Hall Tonight", taken when he was known far and wide as "The world's worst juggler". After months of practice, with a technique mastered from library books, Allen ventured to take part in an amateur night in Boston. He failed to win the prize. He was getting used to rebuffs. So when an audience walked out on him in Fall River, Mass. he blithely continued his juggling before a few ushers and a janitor. The turning point in his career came when the manager of the theatre where Allen was doing his "act" emerged on the stage with the intention of kidding the perspiring performer. But Allen secured the upper hand in the kidding and the

world lost its worst juggler but gained "Town Hall Tonight".

Stoopnagle and Budd, masters of nonsense, will be co-starred with Fred Waring's Pennsylvanians when the popular radio hour moves to a new time schedule on Tuesday, July 2, instead of Thursdays. Time will remain the same 8:30 to 9:30 P.M.

Amos 'n Andy will be heard throughout the summer this year as Correll and Gosden are not planning vacations which would interrupt continuous broadcasting of the program. In fact, the summer will bring even more work for the boys since they plan to be in New York City early in July for the filming of the sequences in the picture, "Big Broadcast of 1935". They will also devote much time to work on their portion of the films scenario.

Edmund Lowe, Karen Morley, and Una O'Connor, all of the screen, will be guest performers during Dick Powell's "Hollywood Hotel" program over Columbia on Friday at 8:00 P. M. The trio of players will be heard in several scenes from their forthcoming mystery drama "Thunder in the Night".

A broadcast from Scandinavia, "land of the midnight sun," will be heard over the Columbia network on Sunday at 11:45 A. M. The broadcast will come from Sor-tavala in Finland, where the inhabitants are celebrating the centenary of Finland's great national legend, "Kalevala". A Finnish-American announcer will describe the festivities and CBS listeners will hear 4,000 massed singers in an ancient Finnish "runo" written to the text of the legends opening lines.

## DO YOU KNOW?

(This column is sponsored by the  
Ontario County Medical Society)

**Motor Accidents** will increase as the summer wears on. Soon most of the country's 32,000,000 cars will be swarming the roads in the United States. Somebody dies from a motor accident every 15 minutes. The peak is reached in early fall. Major causes of accidents are: Speed, improper signalling, running out of line, turning, sudden stopping, grade crossings, faulty mechanism, intoxication.

**Sunburn** may cause severe burns, and even death. Persons who live most of their lives indoors should acquire their summer's tan gradually. Ten minutes is plenty the first day, especially for parts of the body which are ordinarily shielded from the sun. Increase five minutes per day until half an hour's exposure is reached.

**More Honey** is produced by amateur than by professional beekeepers. Include honey in your summer menu.

**Criminals** are "sissies" according to statements of Drs. Sylvan Keiser and Paul Schilder of Bellevue Hospital, New York City. They found by examining 50 prisoners that "aggressive behavior in many criminals is an attempt to overcome those features considered feminine; they assume what is commonly accepted as the attribute of virile masculinity."

**Hog population** of the United States was reduced 20,000,000 last year.

**Summer campers** usually eat too few vegetables and too much meat and starches. Question: When people are close to the supply of fruits, why do they eat out of tin cans?

In recent years there have been outbreaks of typhoid in summer camps. This disease, once a public menace, now is almost unknown. Be sure of your water and milk supply.

## RADIO FLASHES

(Continued from page 3)

Charles Winninger's favorite recollection of his first appearance in a Broadway show is the report of the event written by the late Alan Dale, the most caustic drama critic of his time. Dale wrote: "And then something with a German accent walked on the stage". In later years the reviewer found Winninger's art more engaging, but NBC's Uncle Charlie still remembers the original "notice" while the praise is forgotten.

Major Edward Bowes of WEAF's Sunday evening amateur hour has signed a contract for a series of film shorts featuring groups of amateurs who have appeared on his radio programs.

## Busy Woman Magistrate

One of the busiest women magistrates in the world today is the iyaloda, or town mother, of Ibadan, the largest negro city in Africa, with an urban and suburban population of 250,000, who—without assistance—settles all the disputes of the dusky ladies of this great metropolis.—*Collier's Weekly*.

## Education Now Cheap

New Zealand believes that its educational system is the cheapest of any civilized country. One and one-half cents a day is stated to be the cost of educating each child in the state schools. The instruction is declared to be of the highest standard.

## SUMMER BREEZES

(Continued from page 2)

Among the figures that have attracted men are Venus de Milo, Helen of Troy, Cleopatra, Ruth St. Denis, Clara Bow and Jean Harlow. Among those that have attracted women are \$1.98.

Berg's Market, for the past three years at 90 Elm Street, is now located at 277 Main Street, opposite Milton.

This is the season that many of the farmer's hens stop laying eggs. The cause: automobiles.

It is to be hoped that a way may be found to go ahead with the development of Geneva's lake shore park, either as a Federal Vacation Area, as a State Park, or under some other plan. The North shore of Seneca Lake presents wonderful development possibilities. The city has already spent thousands of dollars and still doesn't have anything out of the ordinary to show for it. Every week thru the summer, car after car of tourists roll into Geneva, ready and anxious to spend

a few days here, look around for some attraction to hold them, find nothing, and roll merrily on their way to Canandaigua or Auburn. And when Geneva residents wish a little recreation they, too, have to go elsewhere.

## Raspberryade

- ½ cup sugar
- 1 cup water
- 2 cups canned raspberries
- 2 lemons
- 2 oranges

Boil together sugar and water for 1 minute. Add berries and juice extracted from lemons and oranges. Let stand in refrigerator for 2 hours. Dilute with ice water and garnish with thin slice of lemon.

Mrs. C. H., Oak St.

## Lamb Shortcake

- 1 standard (2 cup) baking powder biscuit recipe
- 2 tablespoons butter
- 2 tablespoons all-purpose flour
- 1½ cups milk
- ½ cup lamb gravy
- Salt
- Pepper
- 2 teaspoons Worcestershire sauce
- 2 hard-cooked eggs
- 2 cups cooked lamb, diced

Make biscuits according to standard recipe. Melt butter in top of double boiler, blend in flour and add milk gradually, stirring constantly until it begins to thicken. Stir in lamb gravy and season with salt,

pepper and Worcestershire sauce. Chop eggs into small pieces and add to white sauce; then stir in the diced lamb. Butter freshly baked biscuits and serve the creamed lamb over them. This recipe makes about 6 portions.

## Rhubarb Pie

- 2 cups rhubarb (cut fine)
  - 1 cup sugar
  - 1 egg
  - 2 tablespoons flour
  - 2 tablespoons melted butter
  - 1 tablespoon orange juice
- Mix all ingredients and bake in 2 crusts.

Mrs. C. P., Elmwood Ave.

## Raised Rolls or Biscuits

- 2 cups lukewarm milk
- 2 teaspoons salt
- 2 tablespoons sugar
- 4 tablespoons melted lard
- 1 compressed yeast cake softened in ¼ cup lukewarm water
- 4 cups or more of bread flour, sifted in gradually

Mix in order given, stirring with large spoon until it can be handled

with hands. Add enough flour to make soft dough stiff enough not to leave hands sticky. Knead well, place in dish, brush with melted lard, and let rise in warm place until double in bulk. Knead and let rise again. Comes up very quickly second time. When very light, place on bread board, shape into finger rolls, or biscuits. Place in pans, brush with warm, thin cream, let rise until double in size and bake in quick oven, about 15 minutes. Take out and brush with butter. Makes 2 dozen.

### Slight Error

"Ike—vot makes it dot you get for your birthday so many presents?"

"You see, I giff a party and send out cards which is misprinted, 'Your presents are requested.'"

### Mortgage

An old Negro had just paid the last installment on a small farm when the realtor who sold it to him said: "Well, Uncle Joe, I will make you a deed to the farm now since it has been paid for."

"Boss," the old darky replied, "if it am de same to you I had much rather you would give me a mortgage to de place."

The realtor, somewhat surprised, said: "Uncle Joe, you don't seem to know the difference between a mortgage and a deed."

"Well, maybe not," said Uncle Joe reminiscently, "but I owned a farm once and I had a deed an de Fust National Bank had a mortgage, and de bank got de farm."—*Ex.*

## Eighth Annual Regatta

The eighth annual Geneva-on-Seneca Lake Powerboat Regatta, featuring the New York State Outboard Championship, with the Governor Herbert H. Lehman trophy, will be held on Saturday and Sunday, July 6 and 7. This annual regatta is sanctioned by the American Power Boat Association; sponsored by the Geneva Chamber of Commerce and under the auspices of the Geneva Regatta Association.

The starting schedule for the two days is as follows: Saturday, July 6, classes A and C will be run off, three heats for each class, separate events for amateur and professional drivers, and on Sunday, July 7, classes B and F, the larger motors, will compete, three heats for each class, separate heats for drivers of divisions one and two.

The starting times are as follows: On Saturday the A and C classes, at 1:30; 1:50; 2:10; 2:30; 2:50; 3:10; 3:30; 3:50; 4:10; 4:30; 4:50; 5:10. On Sunday the B and F classes at the same hours. Times given are Eastern Standard.

There will be a five-minute gun before each start.

As usual in past seasons the committee in charge has ruled that there must be no testing or starting of motors before 12 noon on Sunday and that violation of this rule will automatically bar any offending pilot from further competition.

## Source of Tanning Acid

The tannic acid used for tanning hides into leather is obtained from the barks of red, white and black oak, white ash, sumac, hemlock and chestnut. The bark is usually taken off when the sap rises in the spring so that it peels easily. It is dried before using.

## DO YOU KNOW?

(This column is sponsored by the Ontario County Medical Society)

**First aid** by the prone pressure method has saved the lives of thousands of drowning persons. Do you know how?

**Learning to swim** should be part of the education of every child on reaching the age of 6. First, get the child's confidence, and be sure to do nothing to lose it. This will require unlimited patience. The child needs a great deal of encouragement. Gradually allow him to become accustomed to the water and be sure he is perfectly at ease in it and unafraid before trying to teach him any strokes. Never throw a child into the water or duck him. Swimming is excellent exercise for growing children, but many are deprived of it through fear caused by early experiences.

**Fruits** should form part of the daily diet. They help preserve the teeth, they supply valuable mineral salts to the body, they are laxative. No ration is well balanced that does not contain fruit. To attain and maintain good health, a balanced ration is of great importance. This does not mean fancy foods, or highly seasoned foods, but plain simple foods in variety. Most people eat too much meat, especially in the summer time.

**Rabies** is not so frequent as commonly supposed, but any dog bite is serious and demands immediate action. Isolate the dog. Call a doctor. If the dog shows symptoms of rabies, they will be recognized by the doctor, who will take the necessary steps to provide the patient with the Pasteur treatment, the only escape from almost certain death. "Frothing at the mouth" means nothing. Dogs have rabies who do not froth at the mouth, and many—in fact most dogs who froth at the mouth—do not have rabies.

**Ice water** and iced drinks are more popular in the United States than anywhere else in the world. Foreigners are aghast at our consumption of cold beverages. The danger from the use of ice in the summer arises from any careless handling of it in the process of manufacturing or serving. This applies, of course, to all food. Clean ice is essential. Drinking water which is cool, but not ice-cold, is advised. Everybody should drink at least six glasses of water every day.

**Accidents** have taken the lives of almost a million Americans in the last ten years.

and on two expeditions to South America. His chats on dogs are always well received by NBC-WJZ listeners.

Tune your car radio to these on your Fourth of July trip—at 9:00 A.M. over NBC-WSYR-WJZ, an international rebroadcast from Copenhagen, Denmark, featuring the 26th annual Danish-American Day Celebration; at 12:30 P.M. over the Columbia network, the Fourth of July celebration at the Rock Island Arsenal in the Mississippi River will be described.

Guy Lombardo's smooth melodies again will be heard over the Columbia network, when the ever popular Royal Canadians start a new series of programs on Monday at 7:00 P.M. Sponsored by ESSO the new "Lombardo Road" programs will be heard every Monday at 7.

Tune detectives might listen a minute to what Frank Black, general musical director of NBC has to say on the subject. "Tin Pan Alley tunesmiths don't worry about lifting a few bars from an old familiar classic. They often do that so people will recognize the tune and sing it. Why should they try for 100% originality? Beethoven lifted from Mozart and even from himself. And wasn't Handel known as 'the old thief'?"

Since the tragic death of Lawrence of Arabia, booksellers report an increased demand for Lowell Thomas' volume on that glamorous personality "With Lawrence in Arabia." Published several years ago, it is the news commentator's first book and one of his most popular.

### Materials Absorb Noise

To city dwellers, noise constitutes one of the major problems which must be conquered. Efficiency is lowered, health is injured and nerves are shattered by office noise. Many hospitals, restaurants and offices are having their walls and ceilings covered with sound-deadening materials, which will cut noise down to a minimum.

Your name will not be printed, but names and addresses must accompany recipes.

## Creamed Crab in Croustades (Bread Cases)

Trim crusts evenly from a loaf of bread, and cut loaf into eighths. Hollow out a section of each piece from one of the longer sides. Brown the cases in deep fat, drain on soft paper, and fill with creamed crab, lobster, or chicken. Garnish with sliced ripe olives or parsley. (The bread cases may be made by brushing with melted butter and browning in a moderate oven, 375° F.)

## Inexpensive Strawberry Dessert

Prepare 1 qt. strawberries and rub through sieve. Beat 2 egg yolks slightly, add 1 cup milk, cook over a slow fire until custard is formed. Let cool.

Mix 1½ cups sugar, 2 teaspoons cider vinegar and ½ cup water and cook until syrup forms thread. Pour this syrup over stiffly beaten egg whites and beat until stiff. Combine with custard and stir thoroughly. Pour in freezing tray and freeze 5 to 6 hours.

## Kidney Bean and Apple Salad

2½ cups canned kidney beans  
½ cup sweet pickles, chopped  
¾ cup tart apple, chopped  
½ cup cabbage, chopped  
½ teaspoon salt  
Mayonnaise  
Lettuce

Drain kidney beans and combine with pickles, apple and cabbage. Add salt and enough mayonnaise to blend ingredients together well. Serve on crisp lettuce leaves. This recipe makes about 6 portions.

## Grapefruit Salad

1 cup grapefruit cut in cubes  
¼ cup marshmallows cut in small pieces  
¼ cup diced celery  
2 tablespoons cottage cheese  
3 tablespoons salad dressing  
A little salt and paprika

Arrange ingredients carefully on lettuce leaves, sprinkle with salt and paprika and dress with salad dressing. Serves two.

At a meeting of the Retail Merchants Division of the Geneva Chamber of Commerce, held last Friday, a uniform week-day closing hour of 5:30 p. m. was adopted for retail stores, with the exception of grocery and meat establishments. This became effective July 1.

No definite decision was arrived at in connection with Saturday night closing hours, but a uniform Saturday schedule is expected to be decided upon soon. In the meantime the different stores will continue their present Saturday closing hours.

## THE FUNNYBONE

### Didn't Get Her Money's Worth

Little Mary had been quietly sitting beside her mother in church, but following the passing of the collection plate she became restless and stood up in the seat.

Her mother tried to hold her and Mary squirmed and sobbed.

"Why, Mary, what is the matter?" her mother queried in an undertone.

"I want to see it," sobbed the child.

"What, darling?"

"I can hear the organ grinding and the man came for the pennies but I can't see the monkey."

### Soon Answered

"Now your uncle has left you five thousand dollars, what are you going to do?"

"Nothing—as long as it lasts."—*Answers.*

One of the biggest auto accidents of the year happened the other day when a motorist stopped his car to see if he really had killed the skunk that he ran over. He hadn't!

### Wasted Effort

Old Lady (witnessing tug-of-war for the first time)—Dear me! Wouldn't it be simpler for those men to get a knife and cut that rope instead of straining themselves trying to break it!

### How to Be Popular

Second Trapeze Widow: "Good to the last drop."

### An Honest Dollar

The pompous judge glared sternly over his spectacles at the tattered prisoner, who had been dragged before the bar of justice on a charge of vagrancy.

"Have you ever earned a dollar in your life?" he asked in scorn.

"Yes, your honor," was the response. "I voted for you at the last election."

### Fully Qualified

**Kamp Kiwanis Director**

Miss Elizabeth Rhodes, for the past four years a teacher in the Geneva High Street School, has been appointed Waterfront Director at Kamp Kiwanis, the Girls' camp to be sponsored this summer by the Geneva Kiwanis Club.

Miss Rhodes was formerly a counselor in charge of the Junior Girls at Camp Mystic, an exclusive girls' camp established by Mrs. Carl Akeley, the famous African explorer, in Connecticut. Miss Rhodes is an experienced swimmer and diver, as well as experienced in all types of athletic programs and folk dances for girls. The committee in charge of arrangements for Kamp Kiwanis consider themselves fortunate in being able to secure her services during the time the girls will be in camp this summer.

## LAKEFRONT ACTION REQUESTED

The newly elected Board of Di-  
rectors of the Chamber of Com-  
merce are to be commended for  
their first official act—that of  
drafting resolutions calling on the  
proper city officials to take action  
on some sort of plan for the de-  
velopment of Seneca Park. Some  
definite plan is sorely needed. No  
worth while project was ever suc-  
cessfully carried out without some  
goal to work for along definitely  
laid out plans.

Geneva's lake front presents the  
greatest possibilities in the entire  
Finger Lakes area for develop-  
ment, but so far little really worth  
while has been accomplished. Other  
sections have gone ahead, either  
thru individual enterprise or by  
securing State aid and are cashing  
in on the Finger Lakes publicity.  
Geneva, however, sits idly by, doing  
nothing itself, or being willing to al-  
low private enterprise to do any-  
thing, and watches carload after car-  
load of tourists, day after day, go to

for their summer recreation and  
amusement.

It's time something was done.

## The Indian River

The Indian river along the coast  
of Florida is really an arm of the  
sea enclosed by a string of long,  
narrow islands and a long, narrow  
peninsula. It stretches along the  
Atlantic seaboard from the northern  
extremity of Brevard county to  
north Martin county, a distance of  
110 or 115 miles.

## RADIO FLASHES

By Ralph Le Brun

Phil Duey, the well-known and liked baritone star of NBC, started life on a farm. After finishing normal school he worked his way through the University of Indiana. In three and a half years he won his diploma and a Phi Beta Kappa key. Ready to start teaching music he auditioned for the Juilliard Fellowships in New York and won. Filling in for a sick friend over WEA-F started him in radio.

A real life romance is being repeated over NBC-WHAM with Mrs. Mario Chamlee joining her husband in the "Tony and Gus" sketches in which he plays the part of Tony. Fifteen years ago Chamlee was attracted by the voice of Ruth Miller, singing a minor role in grand opera. Shortly after he persuaded Miss Miller to become Mrs. Chamlee. Now Mrs. Chamlee enters the sketch under circumstances similar to their real life romance.

Flowers have it—but real flowers, if you made any pretense to chic. Paris is now the hunting ground of the florist, not the department store. Among the novelties, we hear of two huge orange poppies across the back of the hair, a whole set of red sweet pea jewelry—earrings, necklace, bracelet and ring—to set off a black lace frock, an entire cap of blue bachelor buttons.

Keep time with the times—right to the second. You pay no more at **Prince's Jewelry Store, 20 Linden St.**, for watch and clock repairs. Prompt service, guaranteed work. Jewelry repairs. Picture framing.

In Paris handbags have gone goofy in a big way. Women are putting their make-up and incidentals in just about everything that does not look like a pocketbook. Two outstanding examples are a

large-sized satin doughnut and a handkerchief-shaped piece of material matching the dress and tied up like a hobo's pack.

A living room—or any room, for that matter—should be restful, livable and beautiful. Simplicity has style. Select carefully a few accessories to accent the room. (This column is sponsored by the Ontario County Medical Society)

**Children** hot and thirsty in the summer demand cool and refreshing drinks. Nothing is better for them than milk which is kept on ice. Lemonade is probably next in value. Ice cream is good, too—moderately.

**Mental** cases occupy more beds in hospitals in the United States than all other ailments combined.

**Quick action** is necessary in appendicitis cases. Statistics recently compiled on Philadelphia hospitals show that among those admitted within twenty-four hours after onset of symptoms, one in forty-six died; among those admitted forty-eight to seventy-two hours, one in fourteen died; and among those whose admission was further delayed, one in ten died.

**Snakes** are slow in movement, despite appearances of speed, according to Dr. Walter Mosauer of the University of California. He tested snakes common in California. The highest speed attained was only 3.6 miles per hour by the red racer, who only kept up this rate for short intervals, and under duress. A man can walk at a speed greater than this, and keep it up for long distances.

**Cancer** seems to be on the increase when total deaths from this cause are compared with earlier years, but it is thought that much of the increase is due to improved diagnosis. In New York City, "visible" cancers show little increase; the bulk of the additional cases being found are those not apparent to the eye, located in inaccessible places, which may now be discovered by improved diagnostic methods. Another factor, of course, is that with the increase in the average span of human life, more people get to be old enough to join the age group within which cancer usually finds its victims.

**Widow Never Remarries**

Widows in Korea do not remarry, no matter how young they may be. Even though they have been married only a month, they may not take a second husband.

**Council Meets in Tree**

Natives in Senegambia, French West Africa, use the inside of a large baobab tree as a council house, and statues have been carved in the trunk to the entrance.

**Good Word for Iron**

Iron has its place as a heat conducting metal. While it may be less attractive than some other materials, it is still an old standby, practical for many uses. It holds heat, gives a good brown color to foods, and is readily cleaned.

**Skin Gives Off Chemicals**

Because of the chemicals given off by living skin the fingerprints of a living person can be distinguished from those of a dead person.

On Monday, at 12:30, Columbia will have an interesting broadcast describing the annual Kansas wheat harvest from the time of cutting and threshing to the time of its going into the grain exchange in Kansas City.

Starting Monday look for Amos 'n Andy over the NBC-WEAF network, same time as previously. The 6:00 broadcast should be well received over WBEN on 900 kcs.

### Gas-Proof Cave

Mystery surrounds the origin of the famous Chislehurst caves, Kent, which were recently fitted up as a gas-proof shelter for civilians. The caves comprise a great labyrinth which honeycombs the chalk hill upon which Chislehurst stands. It is said that you can walk for 20 miles in this strange underground world. During the war the government commandeered the caves and stored great quantities of high explosives there.—*Pearson's Weekly*.

### Horse Hangs Its Driver

An interesting hybrid animal, one so rare that heretofore scientists have believed it couldn't be produced, is the subject of attention on the part of authorities at the national zoo in Washington. It is a bear cub, the offspring of a female Alaskan brown bear and a polar bear. Such a hybrid is unusual because the parents not only represent different species but belong to different genera.

### “Reference Factory”

A new racket in London is the “reference factory” where crooks desiring positions in wealthy families for the purpose of robbery can purchase glowing references on engraved stationery. **Palace to Be Restored**

Peterhoff palace, pet of Peter the Great and protected by the Bolsheviks during the revolution, is to be restored to its former splendor. The building, which is near Leningrad, Russia, has been a museum since the revolution. When it was constructed Peter the Great ordered it to be "the finest that money can build." In the days of royalty in Russia czars often spent their summers there.

**A Moving Mountain**

A moving mountain of sand at Cronulla, Australia, has buried a small forest as it slowly advances. Trees 30 to 40 feet high have disappeared beneath the millions of tons of sand. Meanwhile, the sea is eating into land on the ocean side of the "mountain," and every time there is a heavy storm part of a 250-acre government recreation area slips into the Pacific.

Tests made recently by psychologists show that it is easier for most people to remember names than faces.

## Macaroni Croquettes

2 cups cooked macaroni  
¼ cup grated cheese  
½ cup evaporated milk  
1 tablespoon flour  
2 cups boiled ham  
½ teaspoon salt

Chop the macaroni and ham; add a white sauce made of the cheese, flour, salt and milk. Mix thoroughly and form into croquettes; chill. Roll in cracker crumbs, dip in egg, and again roll in cracker crumbs. Fry in deep hot fat.

Mrs. W. H., Prospect Hill

## Cheese Toast

Cover bread almost to edge with Swiss or American Cheese. Dip in egg-and-milk mixture (1 egg to ½ cup milk), and fry in deep fat until light brown. Drain on soft paper and serve at once.

## New Pear Salad

½ cup uncooked carrots, grated  
½ cup uncooked spinach, chopped  
4 teaspoons lemon juice  
½ teaspoon salt  
½ (3 ounce) package cream cheese  
3 teaspoons light cream  
12 canned pear halves  
Watercress, chicory or lettuce  
Mayonnaise

Put grated carrot and finely chopped spinach in separate small bowls and to each add 2 teaspoons of lemon juice and ¼ teaspoon salt. Mix well. In another bowl combine the cream cheese and cream and a pinch of salt; blend thoroughly. Slightly enlarge the cavities in the pear halves and fill 4 with each kind of filling. For each serving, arrange 3 pear halves, each with a different filling, on bed of watercress or chicory or lettuce, as preferred; with stem end of pears toward center. Serve with mayonnaise. This recipe will make 4 salads.

## SUMMER BREEZES

A warm weather friend—"Geneva Club" Carbonated Beverages. Pure, healthful, invigorating. And economical, too—an extra glass in every bottle.

Need a new sidewalk? Coblio is making a special price on sidewalk construction during July and August. (See ad on another page)

That new open air Starlight Ballroom at Roseland, Canandaigua Lake, is attracting much attention. It's the only one in Western New York. Manager Muar knows what amusement seekers and summer tourists want and is right there to give it to them. Free acts every day at 4, 7:30 and 10 p. m.

On account of inclement weather St. Stephen's Annual Lawn Festival, which was to have been held on Tuesday, July 9, on the De Sales High School lawn, has been postponed until Tuesday evening, July 16.

Relief from annoying interference with Radio reception may be looked for if an ordinance introduced by Alderman Yells at the July meeting of the Common Council is passed. The proposed ordinance will come up for passage or rejection on Thursday, August 1. Electrical devices have been raising havoc with radio reception in all parts of the city for a long time and it is surely hoped that this proposed ordinance will be passed.

Guest: "Most laudable. But why in diamonds?"

### Confusion

An old lady approached a postmaster and said: "I've been expecting a package of medicine for a week back and it hasn't come yet."

"For a week back?" asked the postmaster. "What do you take for it? I have a week back myself."

"I'm not interested in your back," replied the lady. "What I want is my package of medicine."

"Very well," said the postmaster, "please fill out this form and state the nature of your complaint."

"To escape criticism, do nothing,  
say nothing, be nothing."

"It is a sign of courage to stand  
alone."

"Its better to give a tiny flower  
To one who can see and know  
Than to place a sheaf of roses rare  
On their bier to make a show."

"It is better to say a kindly word  
To one who can hear what is said  
Than to make a speech of eulogy  
After our friends are dead."

"It is better to do or say one thing  
Or do one kindly deed  
Than to plan to do great things  
some day  
To the friend who is now in  
need."

"It is better to do a deed today  
Than wait for future years  
Tomorrow may be a day too late  
And bring but regret and tears."  
(To be continued)

## Protecting Him

A small boy, leading a donkey,  
passed by an army camp. A couple  
of soldiers wanted to have some fun  
with the lad.

"What are you holding on to  
your brother so tight for, sonny?"  
said one of them.

"So he won't join the army," the  
youngster replied without blinking  
an eye.

## The Word "Lily"

The word "lily" is used loosely in  
connection with many plants which  
are not "liliums," but belong to the  
genera that are quite distinct botanically. In this category fall the  
Lent lily, the African lily, the Belladonna (Amaryllis), the Jacobea lily,  
the Mariposa lily, the lily of the Incas, St. Bruno's lily and the Arum lily.

## Service

The genteel motorist had just  
pulled into the gasoline station for  
the inevitable gasoline. That being  
over, the attendant was going  
through his little ritual.

"Check the oil, sir?"

"Naw, it's O. K."

"Got enough water in the radiator?"

"Yep, filled up."

"Anything else, sir?"

"Yes, would you please stick out  
your tongue so I can seal this letter?"—*Pitt Panther.*

## SUMMER BREEZES

The "Gold Dust Twins", just  
back from a successful European  
tour, are the featured free attrac-  
tion at Roseland Park, Canandaigua  
Lake, this week, including  
Sunday, July 21. This act is de-  
scribed as "America's Foremost  
Laugh Riot," and includes singing,  
dancing and banjo novelties. Danc-  
ing every night at Roseland; also  
a matinee dance Sunday after-  
noons, 4:30 to 7. (See ad, page 3).

A slight error: In last week's  
Welch's Clothing ad we listed  
Shirts at \$1.65 as "white and col-  
lars". This should have been white  
and colors, but, anyway, white or  
colors they have collars, too, so  
we weren't so far out of the way.

Good time now to get a new Gas  
Range. (See page 12).

Just what a wonderful organiza-  
tion the Red Cross really is has  
been brought home forcibly to Ge-  
neva residents during the past sev-  
eral days. We read, from time to  
time, about disasters in other parts  
of the world and that the Red  
Cross has gone to the assistance of  
the afflicted, but fortunately, it isn't  
often we have a major disaster so  
near home and where many of us  
have relatives or friends. But no  
matter in what part of the world  
calamities occur the Red Cross is  
always quickly and efficiently "on  
the job."

That man Miller, out on the Ly-  
ons road, is a hustler. He's going  
right after business — and getting  
it, too."

## RADIO FLASHES

By Ralph Le Brun

Geo. Frame Brown, author and co-star of the popular Tony and Gus sketches. Well known for his "Real Folks" programs, Brown and Mario Chamlee, the former Metropolitan Opera star are now heard daily except Saturday and Sunday over NBC-WHAM at 6:15 P. M.

Actual cases from the official files of the Federal Bureau of Investigations of the United States Department of Justice, will form the background for "G MEN" a new series of dramatic broadcasts to be inaugurated over NBC-WEAF under the sponsorship of the Chevrolet Motor Co. on Saturday evening at 8 P.M. Phillips H. Lord, nationally known for his depiction of the radio character, Seth Parker, who will write the scripts, is now in Washington making a first hand study of the operations of the Federal Bureau of Investigation, records of which have been made available to him through the cooperation of Attorney General Cummings, Director of Investigations, J. Edgar Hoover and other department heads.

## DO YOU KNOW?

(This column is sponsored by the Ontario County Medical Society)

**Birthrate** in England and Wales for 1933 was the lowest ever recorded.

**More babies** are born in families on relief than among the general population, recent statistics show.

**Sun stroke** causes few deaths, but much suffering. Afflicted persons should be taken immediately into the shade, put to bed in a cool room, clothing loosened. It is well to obtain medical advice as it may be necessary to administer drugs for a failing heart or lowered circulation.

**Babies** suffer from extreme heat. Light clothing is recommended. Sponge baths with cool

water, and plenty of water to drink, are preventives of the effects of heat. Fresh, cool air is important, and the baby should be kept in the open air as much as possible.

**Most people** believe that there is a "cure" for everything. They make the wish father to the thought. "Master minds" of science, toiling through midnight hours in a feverish search for "discoveries" is the romantic picture, false to reality, which leads the multitude to expect too much from research. Strangely enough, many of the most useful advances in science have come while the investigators were looking for something else. Much remains to be learned about our natural environment, and we have not begun to penetrate the mystery of life itself. Nobody knows how to put his finger on the precise point where the inanimate becomes animate, and how.

**More** red-headed people live in Scotland than anywhere else in the world.

**New York** has not always deserved the name of the "Empire State." Before the beginning of the nineteenth century New York was the fifth of the states in population. Virginia had double its number of inhabitants; Pennsylvania, North Carolina and Massachusetts surpassed it.

**Lower** death rates among wage-earners have marked the successive years of the depression. Many will argue this to be evidence that work is a curse.

**First** bathtub in the United States was installed in a Cincinnati home in 1842. It was made of mahogany and lined with sheet lead. Newspapers denounced it as an undemocratic vanity. Boston, in 1845, made bathing unlawful except when prescribed by a physician. Virginia "soaked the rich" by taxing bathtubs \$30 per year.

## RADIO FLASHES

(Continued from page 3)

The second in Columbia's impressive new Sunday evening series of programs called "America's Hour" presenting a panoramic picture of a great nation at work will be heard over CBS Sunday at 8 P. M. In the first program the radio audience learned of the development of American railroads, the manner of their operation—all the drama behind one of the worlds' foremost industries. In the next three Sunday evenings the stories of our nation's mining industry, of the never ending war on disease and of the government's diligent campaign against outlawry, will be brought to the radio audience.

The father of Rosario Bourdon, conductor of the Cities Service Orchestra was organist of the Notre Dame church in Montreal. His mother, Caroline Dubois Bourdon, is one of Canada's best known pianists.

Mrs. Jesse Crawford should have no difficulty in qualifying as radio's perfect wife and helpmate. Nearly ten years ago, when she agreed to love, honor and obey, the famed pipe organ virtuoso, nothing was said about substituting for him at the console either in sickness or in health. But when Jesse had to undergo an appendicitis operation recently, Mrs. Crawford stepped in and

took over his regular broadcast schedule. While he is in the hospital she will be heard daily except Saturday in the fifteen minute program of organ melodies broadcast at 10:15 P. M. over an NBC-WEAF network.

Myers is the last name of the vocalist and pianist who prefers to be known by her first name, Ramona. The daughter of Rachel M. DeCamp and Ramond P. Myers, she was born in Kansas City.

## Pineapple Cake Pie

- 1 cup sugar
- 3 tablespoons flour
- ½ teaspoon salt
- 3 eggs separated
- 3 tablespoons lemon juice
- 1 teaspoon grated lemon rind
- ½ cup grated and drained pineapple
- 1 cup heated milk

Mix sugar, flour, salt. Add eggs. Beat egg yolks lightly with lemon juice. Mix well. Add rind and pineapple, stir in milk. Add stiffly beaten egg whites. Line pie tin with pastry. Bake 400° for 10 minutes. Then lower heat to 350° for 35 to 45 minutes.

- 1 cup milk
- 5 tablespoons Mazola or other cooking oil or shortening
- 1½ cup flour
- 2 teaspoons sugar

Beat together rice, milk, beaten eggs and shortening. Sift flour, baking powder and salt into batter. Mix only enough to combine and bake in muffin pans in hot oven for 25 minutes.

Miss L. R., Exchange St.

## Mock Cherry Tart

- 1 quart tart pitted cherries
- 1 cup granulated sugar
- Salt
- 3 tablespoons all-purpose flour
- ⅛ teaspoon almond extract
- 2 egg whites
- ¼ cup powdered sugar
- ½ teaspoon vanilla

Arrange cherries in a deep pie plate mixing with sugar, salt, flour and flavoring which have been combined. Cover dish and bake in moderate oven (350 degrees F.) until fruit is tender. Beat egg whites until stiff but not dry, adding powdered sugar and vanilla a little at a time. Place in mounds on cooked cherries and return to the oven until browned lightly. This recipe makes 4 portions.

## Grape Zip

- 1 package lemon gelatine
- 1 cup warm water
- 1 cup grape juice

Dissolve gelatine in the warm water. Add grape juice. Chill until cold and syrupy. Place in a bowl of cracked ice, or ice water and whip with a rotary beater until fluffy and thick like whipped cream. Pile lightly into sherbert glasses. Chill until firm. Very refreshing and delightful served with wafers. Serves eight.

Mrs. W. H., Prospect Hill

## Bicycles Replace Donkeys

With the improvement of roads in the interior of Egypt the natives are using the bicycle in place of the faithful donkey, which long has been the only means of communication.

## Wells Supply Fish

Flowing wells on a farm in the Camrose district of Alberta hurl up fingerling wall-eyed pike. The only solution of this mystery is that the flow of water comes from some underground river connected with far removed inland lakes that have wall-eyed pike.

Kashong Inn, seven miles south of Geneva on the West Lake road, has opened a spacious new dining room and is in a position to cater to much larger parties than formerly. Dances are also being held each Wednesday and Saturday evening.

**Author of "Robinson Crusoe"**

Daniel Defoe, author of "Robinson Crusoe" died in poverty in 1731 and was buried in Bunhill Fields, London. His grave was marked only by a small headstone, but the English boys and girls who read "Robinson Crusoe" subscribed the money for a monument with a suitable inscription.

**Fine Chance for Waiters**

Jud Tunkins says if after-dinner speeches were genuinely instructive the waiters where they give the big banquets would be the wisest men on earth.

**Depth of Lake Superior**

Lake Superior is the deepest of the Great Lakes, most of it being more than 600 feet, as compared to Lake Erie's maximum depth of 180 feet. North of Copper Harbor, Mich., Lake Superior attains 954 feet, but the greatest depth is about 20 miles off Otter Head, Ontario —1,008 feet.

**GLEANINGS**

"A cynic is one who knows the cost of everything and the value of nothing."

"Ethics are something that's in the book, but like bunkers in golf with a little manipulating they can be avoided."

"Ability is a poor man's wealth, the more he spends the more he has."

"The strong character does not care for roads or loads, but only for destinations."

"Neglect a personal grievance for forty-eight hours and it will die from starvation."

"We can make up all losses except the loss of turning back."

"When I hate I take something from myself and when I love I make myself better for having loved."

"Facts are stubborn things that never apologize and they are our scarcest raw material."

"When you're up against a bruiser and things are getting the best of you just smile, smile, smile."

"Genius is 90% directness."

## THE FUNNYBONE

### The Egoist

She: "Did anyone ever tell you how wonderful you are?"

He: "Don't believe they ever did."

She: "Then where'd you get the idea?"

### At Cross Purposes

Family Doctor: "Your husband's not so well today, Mrs. Maloney. Is he sticking to the simple diet I prescribed?"

"He is not, sorr," came the reply. "He says he'll not be after starvin' himself to death just for the sake of livin' a few years longer."

### The Relieved Youngster

Little Edna was visiting the museum with her aunt. In the Egyptian room the child saw the desiccated remains of an ancient queen and asked what it was.

"That is someone's mummy, dear," replied auntie.

"Goodness!" said Edna. "I'm glad my mummy doesn't look like that."

### Effect and Cause

"Did you hear the awful shriek that engine gave as it flew by?" asked a motorist as he approached a railroad crossing.

"Yes. What caused it?" rejoined his companion.

"I presume the engineer had it by the throttle."

### What's More Important

Druggist: "Yes, miss, you'll find that most ladies like this lipstick."

Young Lady: "You couldn't—er—tell me the kind the men like, could you?"

### What Else?

Susie: "Papa, what makes a man always give a woman a diamond engagement ring?"

Her Father: "The woman."

### Proof

Employer: "My boy, I started out of college on the theory that the world had an opening for me."

Office Boy: "And you found it, sir?"

Employer: "I did. In fact, I'm in the hole right now."

### The Proof

John had given the information on his test paper in geography that a furlough was a donkey. The teacher was interested in knowing why John gave this information.

Teacher: "John, where did you find the information that a furlough was a donkey?"

John: "In my geography."

Teacher: "Please bring the geography to me."

John did so, and a picture was shown of a soldier sitting on a donkey. The caption under the picture read: "Off on a Furlough."

### The Tibetan Terrier

The Tibetan terrier, a dog resembling the Skye terrier, was originally smuggled from Lhasa in Tibet.

## • HOW MODERN IS YOUR GAS RANGE?

Don't confuse the modern GAS range with those of but a few years ago. Radical changes have been made. Today's GAS range takes all the hard work out of cooking. Oven heat control provides unvarying oven temperature. A smokeless broiler in a vented oven provides the cleanest of all cooking. Super insulation keeps the heat in the oven—out of the kitchen. An automatic pilot lights the burner as soon as the gas valve is opened. What is more important, a modern range is more efficient. The insulated oven does 15 to 20% more cooking—improved top burners 30% more—on the same amount of gas. See the modern GAS ranges today.

as America's most perfect diver.  
Dancing at Roseland every night  
and Sunday afternoons.

Strange how typographical errors  
in the news sometimes bring out the  
real truth in an item. The following  
appeared in a Salina (Kans.) news-  
paper: "The doctor felt the patient's  
purse and announced there was no  
hope."

Metal radio tubes, much smaller  
than the familiar glass ones, tubes  
whose metal envelopes serve as their  
own shield, with a consequent elim-  
ination of the metal cans necessary  
in the shielding of glass tubes, are  
the latest radio development. One of  
the leading radio manufacturers sets  
are now being shown with these new  
tubes and other sets will undoubtedly  
soon have them.

## PERSISTENCE

Persistence is the mother of miracles. It is half of achievement. In advertising persistence is the first law of success. Spasmodic advertising, no matter how good, is seldom resultful.

Persistence appeal builds good will, creates confidence, develops interest and tends to make your advertising efforts produce results.

It is the cumulative effort of your advertising that makes it pay.

**RADIO FLASHES**

(Continued from page 3)

Corp. During Miss Wicker's absence, her stories will be told by Bob Brown, Singing Lady program announcer. This program is heard daily except Saturday and Sunday at 4:30 P. M. over NBC-WJZ.

The "March of Time", famous radio series of weekly news dramatizations will return to the Columbia network in August as a five-day a week feature. The program will continue to dramatize the news in a graphic and dramatic style. The same large cast of noted radio actors, who have won such wide favor for their ability to impersonate the leading figures of the day, will again be heard on this program.

The "death" of Mrs. Roland Weber, in the Amos 'n Andy series brought a substantial expression of grief from a San Francisco florist in the form of a large funeral bouquet. The florist sent the actual flowers by air-express. The same florist made a floral contribution when Mr. Weber went out of the script several months ago. Amos 'n Andy are now heard over NBC-WEAF-WBEN daily at 6:00 P. M. with a repeat broadcast over western stations at 10:00 P. M.

**New Engine Powerful**

In a test of a new locomotive in France it hauled three huge locomotives, with their pressure turned on as a brake, and a heavy observation car, over the 70 miles between Orleans and Tours in an hour.

**Bicycles Replace Donkeys**

With the improvement of roads in the interior of Egypt the natives are using the bicycle in place of the faithful donkey, which long has been the only means of communication. They call the bicycle the "iron donkey."

## DO YOU KNOW?

(This column is sponsored by the Ontario County Medical Society)

**Germ**s to the number of more than 50,000 were found by two professors of the Michigan State College on a supposedly perfectly clean drinking glass.

**Quacks** there have been in all ages. In New York state during the seventeenth and eighteenth centuries the practise of medicine was wholly unregulated. In 1760 Dr. Middletown said: "So amazingly easy of belief are some people in these miracle-mongers that, as if there were something creative in the name of Doctor, seldom any other test of their skill is required than their assuming that title; so that this appellation with a competent presence of mind and a string of ready-coined cures, carefully propagated by such

as find their account in carrying on the cheat, have seldom failed of procuring traffic in New York."

**Little girls** cry more than little boys, but they fight just as much, we are told as the result of a scientific study made at Columbia by Dr. Arthur T. Jersild. He watched two thousand engagements between children ranging in age from two to four years. The doctor emerged unscathed.

**Hot weather** is dangerous for babies; from the middle of July to the middle of September is the most serious period. Intestinal disorders increase during this period. Cholera infantum is almost exclusively confined to artificially fed babies. Physicians persist in warning parents that a child's life is in greater danger when it is fed artificially, and that it should not be weaned during the summer and early fall.

**Ancient Egyptians** planned their own funerals, conferred with undertakers, arranged for the mummy mask to be a good likeness, and decided upon the inscription for the coffin. These items were considered essential for the soul's happiness after death.

**Hay fever** comes from the pollen of various trees, grasses, and other vegetation. As with most ailments, prevention is better than cure. Hay fever may be prevented by determining the specific pollen that is affecting the individual, and injecting this into the patient. If delayed until after symptoms appear, the treatment often aggravates the disease.

### Discovery of Aniline Purple

An attempt to make some quinine by a young English chemist in 1856 caused the discovery of the first synthetic dyestuff, aniline purple.

### Once Called Sommer

Bermuda has not always had its present name. According to an old record, it was first called "Sommer Island," as well in respect to the continual temporal area as in remembrance of Sir George Sommer.

Conducted by **BETTY BROWN**

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Burnt Sugar Dessert

2½ tablespoons cornstarch  
2 tablespoons cold water  
2 cups boiling water  
1 cup granulated sugar  
½ cup chopped walnuts  
Dash of salt  
Whipping cream

Blend cornstarch and cold water. Gradually add the boiling water, then cook, stirring frequently until thickened, about 20 minutes. Place the sugar in a heavy frying pan and heat slowly, stirring constantly, until an amber colored syrup is formed. Do not allow to become brown. Pour first mixture slowly over the syrup and stir until thoroughly dissolved. Remove from heat and add the nuts and salt. Chill and serve with whipped cream. This makes 6 servings.

## Cherry Butter

8 cups seeded cherries  
½ cup orange juice.  
2 tablespoons lemon juice  
8 cups sugar

Mix ingredients. Simmer until butter is thick. This will require about 40 minutes. Pour into sterilized jars and serve with breads or for topping puddings.

A. A., Lafayette Ave.

## Yum Yum Sandwiches

1 package cream cheese or equal amount of cottage cheese  
2 cups minced ham  
20 slices white or rye bread  
1 small bunch watercress

Pick leaves from watercress and cream them together with cheese and ham, mayonnaise or French dressing may be added if desired. Spread filling on unbuttered bread. Makes 10 sandwiches.

M. P., Park Place

## Jellied Ham Loaf

2 cups finely diced cooked ham  
1½ tablespoons gelatine  
¼ cup boiling water  
¼ cup vinegar, a little salt  
½ cup diced celery  
1 green pepper, chopped  
1 pimento, chopped  
2 tablespoons finely chopped onion  
Soak gelatine in cold water, then pour over it ¼ cup boiling water. Add ¼ cup vinegar and the salt and cool. When mixture is cool, add chopped ham and remaining ingredients. When mixture begins to jell, turn into mold lined with sliced hard-boiled eggs. Place in ice box until ready to serve.

A. C., South Main St.

## Maple Sugar Once Staple

Maple sugar was a household staple, especially in New York and New England, in Colonial days. About 1875 cane sugar cut into the market because it was cheaper. Later maple became a much-sought luxury, as it still is, although maple sirup passed maple sugar in the race for public favor.

## Aim of Fine Arts

The purpose of all the fine arts is eminently social, and the truly great artist in any society derives his fame from his power to give expression to the common perception of what is noble and beautiful.

## THE FUNNYBONE

### In Bad Company

Johnny had used some unparliamentary language, much to his mother's distress. "Johnny," she cried, "do stop using such dreadful expressions, I can't imagine where you pick them up."

"Well, mother," replied Johnny. "Shakespeare uses them."

"Then don't play with him again," commanded his mother; "he's not a fit companion for you, I'm sure."

### Placing the Blame

"I sent my little boy for two pounds of strawberries, and you only sent a pound and a half."

"My scales are all right, madam. Have you weighed your little boy?"

### Unpoliced

A little girl was explaining to her younger brother that it was wrong to work on Sunday.

"Well, policemen work on Sundays", said the boy. "Don't they go to heaven?"

"No", she replied; "they don't need policemen up there."

### Just Reversed

Ezry: "So you've got back from the big city, have you, Eben? What difference did you find between the city an' the country?"

Eben: "They hain't much difference after all. In the country you go to bed feelin' all in and get up feelin' fine, and in the city you go to bed feelin' fine an' get up feelin' all in."

### Of Little Use

A man who stuttered badly went to a specialist, and after ten difficult lessons learned to say quite distinctly, "Peter Piper picked a peck of pickled peppers." His friends congratulated him upon this splendid achievement.

"Yes," said the man doubtfully, "but it's s-s-such a d-d-deucedly d-d-difficult remark to w-w-work into an ordin-n-ary c-c-convers-s-ation, y'-know."

### Slight Error

Mother (from staircase): "Tommy, for goodness sake, turn off that loudspeaker. That horrible woman's voice is giving me a splitting headache."

Tommy: "But, Mother, that isn't the radio—it's Mrs. Brown come to visit you."

### Next Best

Seeing her little one washing the kitten with soap and water, a mother exclaimed, "Oh, Betty darling, I don't think the mother pussy would like her kitten washed like that."

Betty replied, "Well, I really can't lick it, mother."

### Back On the Job

Captain: "Did you enjoy your leave, Paymaster?"

Paymaster: "Yes, but there's nothing like the feeling of a good desk under your feet again."

### Still Doubtful

The small delivery boy was bringing groceries to a new customer and had encountered a huge dog in the yard. "Come in," said the lady of the house. "He does not bite." The boy still hung back. "Does he swallow?" he asked.

### Charge for Delivery

"I presume—ah—every one here dresses for dinner?"

"I charge extra for meals served in bed," said the boarding-house keeper.

### Poor Service

Woman: "Can I get these shoes half-soled here?"

Druggist: "Sorry, madam, this is a drug store. We handle only shoe polish, overshoes, baby shoes, laces, and such."

### Dead But Not Buried

Mr. Binks was busily engaged with a spade in the mud beside his car when a stranger hailed him.

"Stuck in the mud?" he asked.

"Oh, no!" replied Mr. Binks cheerily. "My engine died here and I'm digging a grave for it."

## SUMMER BREEZES

With this week's issue the GENEVA COMMUNITY NEWS reaches its third anniversary. It is very gratifying that a number of those whose ads appear in today's issue were in our first issue in August, 1932. A number of other advertisers came with us shortly after our initial issue and have been consistent advertisers with us ever since.

In the case of bald-headed men, it's hair today and gone tomorrow.

Are you following the interesting "Do You Know?" column now being sponsored each week in "THE NEWS" by the Ontario County Medical Society?

Every man's greatest asset is his belief in himself. No big pennant success ever came easily.

With the coming of more settled weather the open air ballroom at Roseland Park, Canandaigua Lake, is coming into its own in popularity. Mighty good dinners are served in the Roseland Tap Room and at reasonable prices, too. Roseland goes a long way toward making Canandaigua Lake one of the most popular of the Finger Lakes.

An opportunist is a man who, when left holding the sack, cuts it up and makes himself a suit of clothes.

A new comer in the Geneva business field is welcomed in today's "News"—the Georgian Bay Lumber Co. (See page 12).

"How many film stars can you name who never have been in a divorce court?" asked a New York clergyman during a recent sermon. Well, there was Rin-Tin-Tin.

BELCHER

Jerry Belcher and Parks Johnson, the two Texas newspapermen who conduct "sidewalk" interviews for the "Voice of the People" programs heard over the NBC-WHAM network each Sunday at 6:30 P. M.

Belcher,

long, lean, and red-headed, is the humorous, laugh-getting member of the team.

Johnson,

on the other hand, is the more serious and interested in bringing out the character of the person he is interviewing.

JOHNSON

"The Desert Song" outstanding Broadway musical hit of a few seasons ago, will be the production which will introduce the Palmolive Beauty Box Theatre to Friday evening NBC-WHAM network listeners, when that popular air series is transferred to a new day and network on August 9 at 8:00 P. M. Like all the Beauty Box Theatre productions, the Romberg-Harbach operetta will be on the air for a full hour. If you did not

### GENERAL TIRE AGENCY MOVES

Announcement is made this week of the removal of the General Tire Agency from 280 Main Street to Fink's Super Service Station on Lake Street. Fred C. Garver, who has held the General Agency in Geneva for a number of years, will be in charge of this new department at Fink's and William Hickey who has been associated with Mr. Garver will continue in the same capacity as at present.

The entire second floor of the Fink building has been remodeled to take care of the tire department and the association of the General agency now makes Fink's a complete one-stop service station and is in line with their policy of handling only absolutely first-class merchandise in every department.

### Grew by War

Vladivostok, at the eastern end of the world's longest railroad, owes a great part of its recent growth to the World War. Normally, before the war, the city had about 50,000 inhabitants. A recent census gives its population as 128,000. Russia maintains a huge arsenal there.

Wallace Beery, noted actor of the screen and stage, will play the title role in "Lightnin'," a classic play of the modern theatre, as the second production of the Lux Radio Theatre in its new series over the Columbia network Monday at 8:00 P. M.

Have you noticed all the fine write-ups Station WNBf in Binghamton is getting for its work during the recent flood? Normally operating on 100 watts, but realizing the gravity of the situation, Washington was called for permission to use greater power. A few hours later, permission was granted and work started in earnest. During the first night the power went out and it was necessary to find a gasoline driven motor and install it. The citizens of the vicinity highly praise the fine work done by WNBf. Mr. Dickinson of the Red Cross gives them credit for saving many lives.

On Monday at 3:00 P. M., Tony Sarg, prominent artist and caricaturist, and his daughter, Mary Eleanor Norcliffe, will be guests of Mary Madison, hostess of "America's Little House" over the Columbia network.

## PERSISTENCE

Persistence is the mother of miracles. It is half of achievement. In advertising persistence is the first law of success. Spasmodic advertising, no matter how good, is seldom resultful.

Persistence appeal builds good will, creates confidence, develops interest and tends to make your advertising efforts produce results.

It is the cumulative effort of your advertising that makes it pay.

"Cool as a cucumber" is a correct expression—this vegetable usually remains at a temperature one degree lower than the surrounding air.

Children's teeth are improved by certain foods. Growing teeth require calcium and phosphorus, while certain vitamins aid in the assimilation of these minerals. Among the foods recommended are: milk, eggs, dairy products, whole wheat cereals, meat and fish. Vitamin A is found in cod liver oil, butter, milk, cheese, carrots and spinach; Vitamin C in oranges, lemons, tomatoes, grapefruit; Vitamin D in egg yolk and cod liver oil.

Injured workmen, who formerly were required by the compensation law to accept the services of a doctor designated by the employer or the insurance company, may now choose their own physician from a roster approved for this type of practise by county medical societies. This new law went into effect July 1 in New York State, and its operation is being watched with interest throughout the country.

Babies need less food in summer, the same as grown-ups; the most vital factor is cleanliness in all the implements used in connection with its food.

Hazards of summer days include drowning. Many lives are saved by the prone pressure method of resuscitation. Get the person on his stomach with one arm extended overhead. Crook the other arm at the elbow so the head rests on the hand or forearm, with nose and mouth free for breathing.

Kneel, straddling person's thighs, place palms of the hands on the small of the back with fingers resting on the ribs, the little finger just touching the lowest rib, and the tips of the fingers just out of sight. The position of the hands is important. Swing back to remove the pressure on the lungs, after two seconds, swing forward again. Repeat, twelve to fifteen times per minute, the double movement of compression and release should take four or five seconds. While this is going on, another person should loosen clothing about the neck, chest and waist. Have anybody send for a doctor.

Prone pressure should not be stopped, even for a brief period. When the operator becomes tired, another should take his place, keeping up the rhythm. Do not give the victim up for dead until stiffening of the body has begun. If successful, and breathing commences, do not mistake this for the end of the work, as the breathing may stop again. Great pressure is not needed. A boy 12 years old is heavy enough to give this treatment to a grown man.

## Cornflake Macaroons

2 egg whites  
 1/2 cup sugar  
 1/3 teaspoon salt  
 2 cups cornflakes  
 1/2 cup shredded cocoanut

Beat egg whites until stiff. Add gradually sugar and salt. Fold in cornflakes and cocoanut and drop mixture from teaspoon on well greased tin. Bake in moderate oven until a delicate brown.

A. M., Maple St.

## Liver and Rice En Casserole

1 pound liver  
 1/4 cup cooked chopped mushrooms  
 1/4 cup chopped carrots  
 1 cup rice

Wash liver in cold water, and cut in narrow strips. Brown these on bacon fat. Cover with hot water or stock, and allow to simmer about one hour. Thicken the liquid to make a thin gravy, using one tablespoon flour to each cup of liquid. Add mushrooms and carrots.

Boil rice in boiling salted water. Arrange alternate layers of rice and liver in a casserole, with rice as the top layer. Pour the gravy over all. Cover and bake in a moderate oven 20 to 30 minutes. Garnish with finely minced parsley.

L. S., Exchange St.

## Maple Parfait

3 egg whites  
 1/2 cup maple syrup  
 1 pint cream

Pour over the beaten whites of three eggs one-half cup of pure maple syrup; fold into one pint of cream beaten stiff. Mold and pack two hours. Serve in frappe glasses with whipped cream.

L. M., Lafayette Ave.

## Cafe Frappe

1 egg white  
 1/2 cup cold water  
 1/2 cup ground coffee  
 1 quart boiling water  
 1 cup sugar  
 Whipped cream

To the white of egg slightly beaten, add cold water and ground coffee. Place this in a hot coffee-pot and pour over it boiling water. Boil two minutes, then stand where it will infuse. After ten minutes, strain, add sugar and cool. Freeze with equal parts of salt and ice. Serve in tall thin glasses with whipped cream.

L. A., Lafayette Ave.

The American Junior Red Cross is the outgrowth of a meeting of educators held in Washington in July, 1917, and at their instance President Wilson, as president of the American Red Cross, issued a proclamation, in September, 1917, asking the schools to enroll in the Junior Red Cross department of the American Red Cross.

#### Quelling Passions

History shows that where passions are aroused, a song and a symbol carry greater weight than logic or sense.

Good luck to the Chamber of Commerce and to the newly appointed chairmen of various activities in the work plan announced during the past week. An extensive program has been outlined and while parts of it may fall short of the goals in mind at present, or may possibly be found impractical after further study, there is no question about parts of the program being crying needs of the city at present. Car parking is a serious problem and we have mentioned the old car tracks in these columns many times before. Practically all other surrounding communities have succeeded in one way or another of eliminating the car track hazard, but Geneva lags behind.

## FREE BRAKE TEST

Under the sponsorship of the Ontario County Auto Club and in co-operation with the Geneva Police Department a free brake test is to be held on Nursery Avenue on Tuesday and Wednesday, August 6 and 7.

It is now unlawful to drive with faulty brakes and at the present time State Troopers are stopping cars on the highways for brake inspections. Operators of cars with faulty brakes are subject to arrest.

Every motorist is urged to take advantage of the opportunity now presented them for a free test, which is for the benefit of all motorists, whether or not they are members of the Automobile Club.

The instrument to be used in these tests is a James Decelerometer—the official testing apparatus of the State Motor Vehicle Department. Windshield stickers will be provided for all cars passing the test and these will be evidence of good faith on the part of car operators in the eyes of State and City Police or in cases of accident.

Small sparks due to static electricity are known to cause occasional fires.

## Human Hearing Capacity

The average human hearing capacity ranges over nearly nine octaves, varying in vibrations per second from about 30 to more than 16,000. Ordinarily the human ear is most sensitive to sound of a frequency of from 1,000 to 2,000 cycles a second. The soprano high "C" is approximately at the lower of these two frequencies.

## SUMMER BREEZES

(Continued from page 2)

When they say "Good Chicken Dinners" at the Dixie Inn, Bean's Hill, they mean "good". As for the "Southern Biscuits", Mr. and Mrs. Davis are from the South and know how to prepare real Southern dishes.

We would all like to pay our taxes with a smile, but the Government seems to insist on cash.

A kind word, a kind thought, a kind deed will get under the skin of the crabbiest fossil on earth. The magic power of kindness should be studied and practiced by every individual in the business world, for kindness and friendship are like magnets which exert a mighty influence on all that comes within their environment.

Farmers and cottage owners along the east shore of Seneca Lake are certainly entitled to an improved road and it would seem the Seneca County Supervisors would be glad to see them have it and do everything in their power to make it possible. Such a road would greatly increase the valuation of Seneca County Lake property and increased valuations mean increased school and county taxes. If the property owners are not only agreeable but anxious, why not the county officials? Other of the Finger Lakes are getting improved roads entirely around them. Why not Seneca? The east lake road has been a disgrace for years.

## FUTURE PHILHARMONIC PRODUCTIONS

Exceptionally fine performances  
of the opera "Aida" were given by  
the newly organized Finger Lakes  
Philharmonic Society at the Geneva  
High School last Thursday and Fri-  
day evenings.

The attendance, although better  
on Friday night than on Thursday,  
was, however, disappointingly small  
on both nights.

Perhaps it would have been bet-  
ter to have held the performance  
but one night; perhaps it was held  
on too short notice. In any event  
nowhere near the deserved support  
was given. The voices of the leading  
characters were outstanding and the  
chorus, orchestra and ballet were  
surprisingly well trained.

We are glad to learn that the So-  
ciety is not discouraged, but is plan-  
ning future productions. It is to be  
hoped that these may meet with the  
whole hearted support of the entire  
community.

## LAST WEEK OF THE CONTEST

(See page 6)

Prize winning letters, correctly listing mis-spelled words in our issue of Oct. 3, were written by Laura B. Merritt, Lafayette Ave., Geneva and Betty Hoefler, Prospect Hill, Geneva.

Mis-spelled words last week — Oct. 10 — were in ads of Fairfax Bros. Co., Page Electric Co., S. A. Gilbert, Hadlow's Haberdashery and Chas. E. Cool.

Read the heading on page 6 — pick out the ads with mis-spelled words and write your letter at once.

Try for the cash prizes as well as the weekly merchandise prizes.

This is the last issue in which the contest ads will appear.

**SPECIAL** — To the writers of the first ten letters received correctly listing the mis-spelled words in ads on page 6 we will mail a ticket to Schine's Geneva Theatre. And you have a chance to win a merchandise prize, besides.

No young man can afford to be imperfectly dressed. Advancement in life is based on competition. Personal appearance weighs heavily in the count. Suits, Topcoats, Overcoats. **A. P. Petersen, 476 Exchange St.**

—D—

Glamorous evening frocks of gold-powdered black taffeta, black velvet and flame and gold lames, are designed with wide skirts and fairly low cut décolletés and finish with touches that recall the Renaissance. For instance, some are worn with sleeveless "coat of mail" boleros made of metal links.

**Seneca Furniture Mfg. Co., Middle St.**, are showing the new fall fabrics for living room suites including new curled mohair called "Kinkimo". Studio Divans with chair and Ottoman to match are on display, and can be purchased at factory prices.

—D—

Many think only emery-boards should be used to file the nails. They are easier to use, less irritating to the nerves and never leave harsh, rough edges.

—D—

**The Stewart Studio, 35 Seneca St.**, has a fine, new assortment of standard frames in metal, crystal and wood. All sizes. Prices range from \$1.00 . . . You are invited to stop in the studio and look them over.

—D—

Skirts with front fullness, often carried out by pleats, and necklines with a new pertness, are this year's darlings of fashion. They are suitable for your favorite fall color in silk, rayon, or wool.

—D—

**Le Brun's Fur Shoppe, 38 Linden St.**, has a fine reputation for excellent repairing, cleaning and glazing, of fur garments. Fur coats, neckpieces and muffs are made to order.

—D—

One way to change the look of your suit is to pick out two skirts, a plain one and a contrasting check or plaid. Even newer is the idea of two jackets. A jacket blouse in velvet may match or contrast with the skirt. And a stitched brimmed sports hat to match, of course.

—D—

Hectic summer days demand fall reconditioning of your scalp and hair. Expert operators at **The Harper Method Beauty Salon, 10 Seneca St.** are the very smart ones to trust. Ask for a new fall coiffure. **Call 6783.**

**This is the only authorized Harper Method Salon in Geneva.**

Mistaken Elmer—thinks he can't, but he can have his watch cleaned and repaired at a reasonable price. **Prince's Jewelry Store, 20 Linden St.** Prompt service. All work guaranteed.

## MIS-SPELLED WORD AND LETTER-WRITING CONTEST

Starting August 22 and continuing until October 17 some of the following ads have mis-spelled words in them each week.

To the writers of the two most interesting letters received each week stating which ads contain mis-spelled words, together with some facts of interest to us regarding the Geneva Community News, we offer \$2.00 in merchandise from the advertisers on this page. (Two \$2.00 merchandise prizes each week).

Letters need not be long and may be in answer to any of the following questions: Do you read "The News" every week? Do you buy from its advertisers? Do you like the size of it? The quality of its paper? What department do you like best? Have you any suggestions for making it more interesting to you? How long have you been reading it? What is the

oldest copy you have of it? (Or write any other information you think interesting).

ALSO—to the reader who first reports to us purchases, no matter how small, from all of the advertisers on this page—or to the one first reporting purchases from the largest number during the contest—we will give \$3.00 cash. (Start your purchases at once).

AND—to the reader reporting the largest single purchase during the contest we will pay \$3.00 in cash.

On these last two offers it is not necessary to write regarding mis-spelled words or answer any questions.

University of Stockholm. John B. Kennedy will fly to the scene of the biggest news story of the week in the United States and give a first hand report of what has occurred.

A new Suite for String Orchestra by Arnold Schoenberg will be featured by Otto Klemperer when he conducts the New York Philharmonic-Symphony Society's second broadcast of the season over the Columbia network Sunday, at 3 p. m. The program will open with the prelude to Wagner's music drama, "Lohengrin". The second half of the concert will be devoted to Tschai-kovsky's Symphony in E minor, No. 5. The new Schoenberg Suite, finished in December, 1934, had its world premier under Klemperer with the Los Angeles Philharmonic last May. It is a suite in the old style, consisting of an overture, adagio, gavotte, minuet and gigue, taking about 35 minutes to play.

### PERSISTENCE

Persistence is the mother of miracles. It is half of achievement. In advertising persistence is the first law of success. Spasmodic advertising, no matter how good, is seldom resultful.

Persistence appeal builds good will, creates confidence, develops interest and tends to make your advertising efforts produce results.

It is the cumulative effort of your advertising that makes it pay.

## Baked Peas

6 slices bacon  
1 pint fresh peas  
1 cup cream  
A little salt and pepper  
½ cup bread crumbs

Cut bacon into small pieces and brown. Add peas which have been cooked and well drained, the cream and seasoning. Place in casserole, cover with the bread crumbs and bake for 20 minutes at 400°. Serves 6.

The Kashouty Shoe Store, formerly at 372 Exchange Street, is now located at 64 Seneca Street. This store features high quality shoes at moderate prices.

### Most Rulers Liked Dogs

The breeding and keeping of dogs always have been the hobby of kings and other rulers. For example, it is known that Arabian kings more than 2,000 years ago gave to the Saluki (a racy hunting hound) the choicest tid-bits from the table and the finest linen from their beds.

### All Gypsies Must Attend Funeral

Brazilian gypsy custom requires that whenever a member of the ruling house dies every member of the tribe must attend the funeral. Sometimes burial has been delayed as long as six months to permit this.

### Paris Consumes Much Wine

Paris drinks one-tenth of all the wine of France and her African colonies. This means about 360,000 gallons a day and comes to one pint a day for every person in the city.

### Back Warmer

Old timers loved their comfort. Jacques Coeur, financial genius of Joan of Arc's day, in Bourges, built a fireplace in his private chapel to warm his back on chilly mornings, while he prayed.

## Peculiarities of Cormorants

Cormorants seldom breed in captivity. Therefore the fishermen must hunt for young wild birds along the seashore. This is extremely difficult. But even after the birds are caught they must be trained, and it often takes several months to do this.

GENEVA COMMUNITY NEWS:—

Rapalee Coke &amp; Coal Corporation on whom you may rely,

Spell their name with an "a" instead of an "i";

And in C. F. Barth's ad you really should know,

"Or" is not spelled with a "u", but always an "o";

Mr. Smith of Trautman &amp; Smith I am sure will agree,

That Smith is spelled with an "i" instead of an "e".

Now these mis-spelled words have been a lot of fun,

And I have studied them close ever since they begun;

Their run in the News will soon be over,

But THE COMMUNITY NEWS will still be read from cover to cover.

Everything in it gives us interest and saving

Of its splendid qualities we could keep on raving.

Take the "Community Kitchen" by Betty Brown,

Read by the housewives all over town;

There are many delightful items of news,

That in many a heart drive away the blues;

There are "Radio Flashes" to tell us the best on the air,

Try them and you will drive away care.

Advertisements that save you money and time,

Are very reliable so must be in rhyme;

Let's take M. F. Devaney's "Gleanings" so true to life,

Read them and live them to drive away strife.

If you want to laugh when all alone,

Get out your COMMUNITY NEWS and read the "Funnybone".

With Dorothy I would like to go shopping,

For she knows all the places where its worth while stopping;

Really THE COMMUNITY NEWS is so very fine,

Its a wise citizen that reads every line.

As a rhymester I admit I'm a flop,

And with apologies to you all, I hereby stop.

## OVER THE FENCE

By DAPHNE A. McVICKER

Copyright McClure Newspaper Syndicate. WNU Service.

In ten minutes her father would drive into the garage. He would have the payroll money in the loose pocket of his topcoat. This man beside her, with his hand ominously under his coat where a nasty bulge disfigured the natty lines of his checked suit would step inside the garage door.

Her father would not obey. Not her father, that snorting, fire-breathing warrior of an older day. He wouldn't realize that you couldn't argue with the modern bandit as you might have with Robin Hood. He'd fight back. And then—

Then the man would shoot. And to stop him, there remained ten minutes, a hundred and ten pound girl, and a tall pale boy in the next yard who was a peaceable soul at best and who was gaily whistling now as he watered his garden.

Rose gulped unhappily. If only she hadn't come home early to wash her hair. She'd have come riding in with her father and perhaps—perhaps she could have helped. Somehow.

But she had come home early and gone into the back yard to dry her froth of yellow curls. Bob Wood was next door, as usual, watering his lawn. He greeted her gaily and came over to the fence.

"Flowers all under control?" Rose asked him with a sniff. It had

been an old battle with them even before Bob had had the long illness which made the sunny back yard his only exercise.

"Mostly under control," he told her. "Only—there's a rose that needs transplanting. She—this rose, I mean—is not blooming the way I'd like. I could give it excellent care, the best nourishment, a suitable environment—"

"And insect powder to taste?" Rose inquired haughtily. "I'm afraid I'm not interested, Bob. Excuse me if I follow the sun to get my hair dry. I'm expecting company."

"In fact," Bob said, shading his eyes, "I think it has arrived. Out by your garage? A nice flashy job."

Rose had gone to the garage in astonishment to greet this loudly dressed stranger. He motioned her nearer and then laid a hand on her arm.

"Quiet, sister. Just stick around over here and you're going to be all right! We understand you rode home with your old man. Well, now that you're here, you just stay here, see? And not a word to your dad when he drives up if you want to see him come out of the garage the right way."

The pay roll. She understood instantly. She stood very still, her little heart-shaped face white and drained, her lips motionless.

Success in the treatment of pneumonia depends much upon a prompt diagnosis, and good nursing care. Immediately after it is known the patient has pneumonia, steps should be taken to determine the type of the disease. Serums are available for the most prevalent forms, but not for all. To determine the type requires a laboratory examination of a sample from the patient's throat. Modern science has developed the technique so that now the type may be determined within 15 minutes of the receipt of the sample. Experts say that in type one pneumonia, for example, the use of serum saves 40 to 50 per cent of those who otherwise would die. The Medical Society of the State of New York is initiating an organized attack on pneumonia during the coming months.

Is it bad for children to eat between meals? No; depending on the child and on the food. If it does not interfere with his appetite for the next meal, he will be benefited by light lunches of fruits, fruit juice, whole wheat bread, or prepared cereals.

**K. OF C. FROLIC**

Frank Foley, general chairman of the Knights of Columbus Frolic, which is to be held at the State Armory on November 12 and 13, has appointed a committee of seventeen members to have charge of the various entertainments.

A Treasure Chest, which will be offered as a prize on Wednesday, November 13, is on display at The Loan, Seneca Street. Day by day, until the 13th, the chest will be enriched by donations of money and merchandise. It is estimated that the approximate value of the chest will be \$250. Watch the chest grow.

Many other valuable prizes are to be awarded and the Frolic is sure to be one of the big events of the season.

## RADIO FLASHES

by Ralph Le Brun

A casual glimpse of Tom Waring, brother of Fred, and leading vocalist with the Pennsylvanians, heard with Colonel Lemuel Q. Stoopnagle and Budd over the Columbia network each Tuesday. Except for a brief period, Tom has been with Fred's organization since its humble beginning several years ago in their home town of Tyrone, Pa. (Picture through courtesy of WFBL)

A play-by-play description of the Princeton-Navy football game in the Palmer stadium at Princeton, N. J. will be broadcast over the Columbia network by Ted Husing on Saturday. Preceding the game, at 1:30 p. m., the usual CBS Football Souvenir program will present the songs of the competing college and academy. At 6:35 p. m., Paul Douglas will give the results of football contests all over the country.

Richard Crooks, famous Metropolitan Opera tenor will rejoin Margaret Speaks, young soprano star, as featured soloists on the Voice of Firestone's new winter series beginning Monday at 8:30 P. M., over the NBC-WEAF network.

### RADIO FLASHES

(Continued from page 5)

Celebrated friends and admirers of Will Rogers will be heard in a broadcast over the combined NBC and CBS networks on Saturday, at 10:30 p. m. The program will open from New York with Gene Buck, Geo. M. Cohan, Fred Waring and His Pennsylvanians, Arthur Brisbane and Ray Noble's orchestra; switch to Chicago for Amos 'n Andy; back to New York for an unannounced feature; out to the West Coast for Fred Stone, Herbert Hoover, Charles Chaplin, Billie Burke, Captain Frank Hawks and Irvin S. Cobb; and return to New York for Kirsten Flagstad, Eddie Rickenbacker and Rudy Vallee and his Orchestra.

They haven't built a statue for Major Bowes yet, but the director of NBC's amateur hour seems destined for posterity. A street was named for him in Trenton, N. J., and a wing of Kernan's Hospital in Baltimore, Md. has just been dedicated to him. The Major already is centennial captain of the Texas Rangers, honorary member of the Dallas Chamber of Commerce and honorary lieutenant colonel of the governor's staff of the state of Georgia.

## Y. M. C. A. ACTIVITIES

The Junior Red Cross First Aid Class will hold its first session Tuesday, November 5, at 4 p. m. This class is open to all boys in the sixth and higher grades. A Y. M. C. A. membership is not required. Registration should be made at once.

The Senior Hi-Y boys are to have a paper and magazine campaign this week Saturday and will appreciate any contributions, especially old magazines. Phone the "Y" and the boys will call.

The Junior Hi-Y boys will hold a bake sale at the former Downy-flake Shoppe on Linden Street on Saturday, Nov. 2. The money is to go toward the paying of the boys' pledges for the "Y". The support of the public will be appreciated.

Pledges on the recent 1935-36 drive are still coming in, but if any were missed in the recent campaign if they will phone the "Y" it will be appreciated and someone will call.

The Junior Comrade Club has changed its schedule and will meet on Thursdays at 4 instead of Fridays. This week Saturday the club will have its first dinner of the season and moving pictures will be shown.

# THE COMMUNITY KITCHEN

Conducted by **BETTY BROWN**

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Jellied Chicken and Egg Salad

- 1½ cups chicken broth or water
- 1 onion, chopped
- 1 red pepper, chopped
- 1 teaspoon salt
- 1 tbs. Worcestershire sauce
- 2 lbs. gelatin
- 2 cups diced chicken
- Eggs (3 or 4)

Cook eggs until hard. Cool. Cook onion, pepper, salt and sauce in stock and add this hot to gelatin which has been soaked in enough cold water to cover. When thoroughly dissolved, pour into oblong mould to ½" depth. Set on ice to stiffen. Arrange slices of egg on jelly. Add remainder of egg and diced chicken to gelatin and pour all into mold. Chill and serve on lettuce in slices with dressing.

Mrs. J. M. T., Hamilton St.

## Creamed Oysters for Twelve

- 3 cups milk
- 6 level tablespoons flour
- ½ cup butter
- 1 quart oysters drained
- 6 small stalks celery minced
- ½ to 1 teaspoons salt

- 2 teaspoons Worcestershire sauce
- ½ teaspoon paprika

Heat milk in a double boiler, add butter and flour stirred to a paste with 4 tablespoons water. Bring to a boil, stir and add the minced celery. Heat the oysters in their liquid until plump and their edges slightly curled. Season the sauce as directed add the drained oysters, allow to stand over hot water a few minutes. Serve in patty shells or deep dishes with crisp toast triangles.

Mrs. W. H., Prospect Hill

## Peach Pecan Roll

- 2 cups flour
- 2 teaspoons baking powder
- ½ teaspoon salt
- 2 tablespoons butter
- ¾ cup milk
- 5 peaches
- ½ cup pecans
- 1 tablespoon butter
- ½ cup brown sugar
- 1 teaspoon cinnamon

Sift together flour, baking powder and salt, mix two tablespoons

butter with fork, add to first mixture; add milk, roll dough one-half inch thick. Pare and slice peaches, spread over dough; sprinkle with chopped pecans, cinnamon and brown sugar; dot with butter; roll up like jelly roll, slice about 1-inch thick, place in well buttered baking dish, mix one-fourth cup brown sugar with two cups water, pour over slices and bake 30 minutes.

#### First Head on U. S. Coins

The profile of George Washington was the first head used on American coins.

#### Birds Know Their Own Eggs

Some birds recognize eggs that are not their own placed in their nests or laid there by other birds and they will push them out or destroy them rather than sit on them.

#### "Galop," Spirited Dance

The "galop" is a spirited dance of German origin in 2-4 time. It was introduced into Paris in 1892 and subsequently became a favorite dance of the Victorian era.

#### Important South American Harbors

Bahia and Rio de Janeiro, Brazil, and Bahia, Argentina, are probably the largest commercially important harbors of South America.

Chet Anderson, grinning broadly, slid into a seat beside mine at Tony's.

"I've got time for one drink," he decided. "Then I've got to scoot over to the office. Just about make the deadline."

"Since when did you start writing deadline stuff?" I scoffed. "I thought the obit column was your specialty."

"One of Brown's brainstorms," explained Chet. "He's turned me into a sort of male sob-sister. I take a ride into the sticks every afternoon and come back with a local color jag on. I've got the biggest howl here in my pocket . . ." He tapped a couple of sheets of folded copy paper. "This story will knock 'em right off their pins. It's a natural. Let me tell you about it."

"I was driving along a road down East Orange way when I saw this old hick leaning on a rail fence, chewing a blade of grass and looking at the sky to see if it would rain tomorrow. He was the typical stage 'Rube' if ever I saw one. One slant

at him and I knew I had my story for the day. I pulled up the car.

"'Hyah, Pop!' I said, 'How's tricks?'"

"'Wal,' he opined, 'things could be better; they could be wuss.'"

"'Guess it's pretty noisy around here sometimes,' I said, taking a squint at the vacant fields and the lonely road, 'when all the folks come down to market.'"

"'Well, you'd have died laughing. I don't think the old boy quite knew whether I was kidding or serious. He just stood there looking at me.'"

"'Never very busy around these parts, Son,' he says, 'but there sure is lots of time for thinkin'.'"

"I laughed. 'That might be all right for you, old timer,' I told him, 'but give me the Broadway glims every time. I'd get the jitters out here.'"

"'Does a man good to do some thinkin' once in a while,' drawls the old fellow."

"'Maybe so,' I said, 'but in my business you have to act first and do your thinking afterward. I'm a newspaper reporter.'"

"He nodded; sort of impressed. 'I've done a mite of writin' myself,' he says, finally, 'long time sense.'"

"'Well,' I said, 'why didn't you stick to it?'"

"'I gave it up,' said the old geezer seriously. 'I found that I couldn't worry and fret about handsome writin' and still live happy.'"

## DO YOU KNOW?

This column is sponsored by the Ontario County Medical Society

All the land area in the world does not equal in extent the area occupied by the Pacific Ocean, which, as any traveller will agree, is not especially peaceful, despite its name.

There are 50 million "untouchables" in India; they provide the greatest single obstruction to modern public health measures.

Statistics show that it is four times as dangerous to drive an automobile at night as during the day.

There are records in the possession of the National Tuberculosis Association which show that more than 600 fake "cures" for tuberculosis have been foisted on the public. Every few months there is a new one. There is no cure for tuberculosis but the slow, proved regime of rest, fresh air, nourishing food and sunshine. Leading physicians say that this cure may be taken in sanatoriums near home, and there is no need for a patient to seek a better climate far away from friends.

Rest, said Shakespere, "knits up the ravelled sleeve of care" and is "Nature's sweet restorer." But it took modern medical science to prove it to be the principal weapon of mankind in his fight against tuberculosis and also heart disease. Today both these diseases are controllable, if the early signs are acted upon, and stress and strain leading to undue fatigue are avoided. The degree of activity allowable will be indicated by the physician.

Cancer experts recently issued warnings to the public about a new lead cure for the disease, advanced at a meeting of chemists in San

Francisco. The danger from claims for cures is that patients desert the recognized method of treatment, lured by hopes of quick relief. It is not too much to say that every false cure which is proclaimed kills many people just as surely as if they had been shot down with a bullet.

Beneath part of the city of Paris are catacombs the walls of which are constructed of the bones of human beings.

### Existence

If ever the time arrives that existence becomes so easy that effort and courage are not required, the decline and fall of civilization will be at hand. The glory of our history has been in the display of these qualities.—Calvin Coolidge.

### How a Punkah Is Made

A punkah is a gigantic fan used to keep the air stirring in rooms in India and other tropical countries. It consists of a light frame of wood, covered with calico and suspended from the ceiling. It is usually operated by a native servant.

# DOMESTIC ELECTRIC RATES CAME DOWN MARCH 1<sup>ST</sup> THEY WILL COME DOWN AGAIN JANUARY 1<sup>ST</sup>

## PRESENT RATE

## JANUARY 1<sup>ST</sup> RATE

## Customers Will Save \$198,000 Annually

On March 1st, 1935, the Company put into effect a new lower electric rate which saved the customers \$116,000 annually. Another domestic rate reduction to become effective on January 1st, 1936, was promised—HERE IT IS!

This new electric rate will effect a substantial saving to all domestic customers over the present rate now in effect.

Inasmuch as the more electricity you use the

less it costs per kilowatt hour, you can readily appreciate why it is to your advantage to make a wide use of your electric service, thus adding to the comfort and convenience of your home. Find out today how little it costs to use any of the appliances you may have in mind. Remember, the more electricity you use the less it costs per kilowatt hour. Most appliances may be bought on easy monthly terms.

ABOVE RATES APPLY TO CITIES ONLY

### GENEVA'S MYSTERY MAN

Well, he's here. "WHO IS WHO", the big mystery. What does it mean? Cash Awards. Gee, everybody all over the territory in which THE GENEVA COMMUNITY NEWS circulates is talking about WHO IS WHO and asking questions. Have YOU seen WHO IS WHO?

Nobody seems to be able to answer the question, "Who Is Who?" Thousands of people have seen and read the ads in last week's issue of THE NEWS—have seen the picture of the back of a man's head—also noticed that cash rewards are offered for finding WHO IS WHO.

Men have been stopped on the streets and asked to kindly remove their hats that a better view could be had of the back of their heads.

Others have written to the publishers requesting more information. We are anxious to help you all we can and will furnish from time to time such information as we get that we feel will assist you in finding WHO IS WHO, as we are naturally desirous to see some one of our many readers capture a nice bunch of easy money. And readers of THE NEWS know from past experience that there is no catch, trick, or strings tied to any offer made by this paper.

So we say now, don't give up, find WHO IS WHO. Ask everybody, get all the information you can and we'll help you and, above all, DON'T MISS NEXT WEEK'S ISSUE of THE GENEVA COMMUNITY NEWS and each of the succeeding issues.

Sponsored by the Geneva Teachers Association the Olvera Street Marionettes of Los Angeles will present Mark Twain's "Huck Finn and Tom Sawyer" at the High School Auditorium tonight (Thursday, Nov. 14) at 8:15.

## ANNUAL FUR SHOW

"Bigger and better than last year" stated Harold R. Vrooman, Secretary, when interviewed regarding the second annual Mink and Fur Show of the New York State Fur Breeder's Association scheduled for the afternoon and evening of Friday and Saturday, November 15 and 16, at the Geneva Convention Hall (formerly Dance Inn), Lake Street.

The show this year is open to entrants from all States, East of the Mississippi River.

Mr. Vrooman further advised that it was through the efforts of Lee Taylor, Secretary, and Wm. G. Warr, chairman of the convention committee, of the Geneva Chamber of Commerce, that the show is being held in Geneva again this year. (See ad, page 1.)

In connection with the show, educational meetings are to be held at the Masonic Temple at 1 p. m. and 7 p. m. on the afternoon and evening of Thursday, November 14. These meetings, which will be of special benefit to anyone interested in the breeding of fur bearing animals, are open to the public. There will be no admission charge and a number of speakers from different parts of the United States are expected.

by Ralph Le Brun

**Jacques Renard**, conductor of the orchestra heard on the weekly programs featuring George Burns and Gracie Allen over the Columbia network Wednesdays at 8:30 P. M. Renard, who hails from Boston, is one of radio's pioneer and best liked conductors.

"A Discussion of the New Deal" will be the subject of an address which Herbert Hoover will deliver at the dinner of the Ohio Society in the grand ballroom of the Hotel Pennsylvania in New York and which will be broadcast over the Columbia network on Saturday at 10 P. M.

The first transatlantic broadcast from Bucharest, Roumania, will be heard over CBS on Sunday, at 12:45 P. M. It will consist of folk songs by the Carmen Choir, and the Dinicu Gypsy Orchestra.

Ted Husing will describe the Army-Notre Dame game for CBS listeners, Saturday, at 1:15 P. M. At 1 P. M. the Notre Dame Glee Club will broadcast from South Bend, Ind., with a program of football songs. Also over CBS on Saturday the University of Pennsylvania Glee Club will be heard at 12 noon.

Wendell Hall is always prepared for emergencies. He appears for his broadcasts armed to the teeth with musical paraphernalia. His ukeleles—he has two exactly alike—are especially built from his own designs. Each

## WILL ROGERS MEMORIAL

Starting Tuesday, Nov. 12, and continuing until Wednesday, Nov. 27, Geneva is co-operating in a national Will Rogers Memorial campaign. John Eden Farwell of "The Loan" is chairman of the Geneva drive.

No definite type of memorial has been decided upon, nor any financial goal set, the plan being to have a group of nationally known personages select a fitting memorial upon completion of the campaign.

Newspapers, banks and civic organizations throughout the nation are co-operating.

In Geneva contribution boxes have been placed in the lobbies of the banks and also in Schine's Geneva Theater. All are invited to contribute whatever amount they may care to and sign a pad provided for that purpose.

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Banana Pudding

- 1 cup sugar
- 1 cup milk
- 2 egg yolks
- 1 tablespoon butter

Combine these ingredients and cook until thick.

Line pudding pan with vanilla wafers. Slice two or more bananas, then alternate a layer of wafers, one of bananas and custard until all ingredients have been used. Beat the 2 egg whites for a meringue, place on pudding and brown in oven.

Mrs. J. E. S., S. Main St.

## Apple Corn Bread

- 1 cup whole wheat flour
- 1 cup corn meal
- 3 tablespoons sugar
- 4 tablespoons baking powder
- 1 teaspoon salt
- 1½ cups milk

THE ABOVE LABEL assures you of Quality Service and Sanitary Conditions and is only issued to plants passing a rigid inspection as to same.

- 1 egg
- 3 tablespoons melted lard
- 2 cups chopped raw apples

Mix and sift dry ingredients, add egg and milk which have been beaten together; add melted lard and apple, bake in shallow tin 40 minutes in hot oven, serve hot with butter.

L. S., Exchange St.

## Scalloped Apples and Sweet Potatoes

- 6 small sweet potatoes
- 3 tart apples
- 1/3 cup molasses
- ¼ cup hot water
- ½ teaspoon salt
- 2 tablespoons butter
- 6 tablespoons fine bread crumbs
- 2 tablespoons brown sugar

Boil potatoes for ten minutes, peel and cut in thin slices. Pare, core and thinly slice apples. Arrange potatoes and apples in alternate layers in buttered baking dish. Mix together molasses, water and salt and pour over potatoes and apples, then sprinkle with the brown sugar and crumbs and dot with butter. Bake until apples are tender.

Mrs. C. S. L., Geneva St.

## Christmas Fruit Cake

### "BOOK WEEK" AT THE LIBRARY

Each November one week is set aside to be devoted to the furthering of interest in good books for children. This year November 19 to 23 will be known as "Book Week" and all over the country schools and libraries will be having exhibits of books for children—new books by new authors, as well as new editions of the old much loved authors.

For the past few weeks the staff of the Geneva Free Library have been preparing for Book Week. Many new books have been bought and will be on display at that time. While, of course, the exhibit will be devoted mainly to children's books, the adults have not been forgotten and there will be on display many new books for adults, as well as for children, covering a wide range of interests.

It is hoped that all Genevans will visit the library during Book Week—new borrowers, as well as old ones—to look at and browse among the books.

## RADIO FLASHES

(Continued from page 3)

has double the number of strings found on an ordinary uke, and he tunes the strings in pairs. So, if one string breaks while he is on the air he has one string still in tune. He is heard each Tuesday at 10 P. M. over NBC-WJZ.

Thornton Fisher

With action all along the nation's football front picking up speed each week, possible All-America selections are beginning to stand out in bolder relief, so that Thornton Fisher's selections and predictions in the "Sports Page of the Air" are getting more and more attention from the listeners. On Saturday, at 7 P. M., over NBC-WEAF, Andy Kerr, football coach of Colgate, will be guest of Fisher. Andy will go on the air from Syracuse directly after the game there between his "Red Raiders" and the Syracuse Univ. eleven.

The fact that sales of radio sets this year may surpass the all-time peak established in 1929, is attributed by Dunn & Bradstreet, Inc., in their survey to the popularity of the all-wave set. Sales for the first nine months of 1935 have averaged 40 to 80 per cent in excess of the comparative 1934 totals.

The long promised International bridge game between the outstanding experts of North and South America, to be played by short wave radio, has been definitely set for Monday, Nov. 25, at 9 P. M., E.S.T. The stations that will carry the broadcast will be W2XAF, Schenectady, on 31.5 meters and LSX, Buenos Aires, on 28.9 meters. Mr. and Mrs. Ely Culbertson and Sidney S. Lenz will represent the United States.

## DO YOU KNOW?

This column is sponsored by the Ontario County Medical Society

**Money** spent for milk gives a greater return in nutritive value than money spent for any other food.

**Surveys** are to be made by A. A. to determine whether milk is a public utility and ought to be handled through the Federal Trade Commission, according to the "Financial World."

**Mothers** who stuff babies to see them gain weight may also see them get eczema.

**Lazy** colons do not cause so much constipation as lazy people. Nature has a cure for these conditions which is the best one: Plenty of vegetables in the diet, plenty of exercise in the open air; regular habits.

**Chimpanzees** are found to have among their numbers both chronic beggars and liberal givers, according to studies made by Dr. M. P. Crawford of the Yale University Psychological Laboratories. A few will never beg food of another, whether hungry or not; others are permanently on relief and ask for food even when they have plenty. Some are generous and give voluntarily to others though they are very strong and could hold their possessions; others never respond to pleas for food, no matter how well their own wants are supplied.

**Rarely** is the human body given an opportunity to wear out; few people die a natural death. When man is not at war with other men, he is at war with himself, and his environment.

**Constant** scientific experiment and the accumulation of all facts about a problem, whether they seem of value or not, is the price paid for progress in medical research. Insulin is one of the few great discoveries which was directly sought.

**Reputable** physiologists have said that so far as the durability of the tissues is concerned, man might live to be a hundred years more often than he does. Generally in the animal world, to estimate longevity of a species, we may safely multiply the period taken to reach maturity by five. It must be said that man, the most intelligent, lags behind other animals in average length of life.

## NEXT THURSDAY

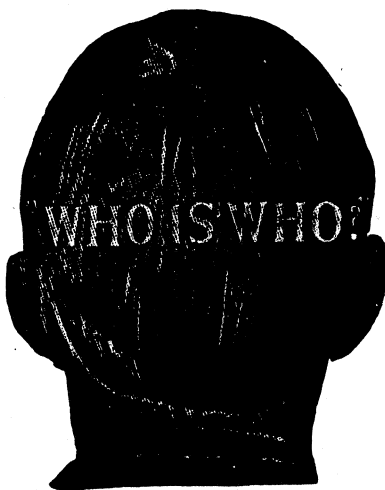

A full description of "Who Is  
Who" will appear in The Ge-  
neva Community News

The mysterious "Who Is Who,"  
one of the most interesting and most  
talked-about affairs that has ever  
aroused the curiosity of the people  
of Geneva and the entire vicinity,  
will soon be solved.

Next Thursday's issue of THE  
GENEVA COMMUNITY NEWS will  
contain a full description of "Who  
Is Who."

It will pay everyone to watch for  
this description, read it and study  
it carefully and then get busy.

There are cash awards offered  
for finding "Who Is Who" and no  
strings are tied to them; no coupons  
are necessary either. Simply follow

directions that will be given Thurs-  
day. Only associates of the News  
are barred.

"Who Is Who" is something en-  
tirely new and far more interesting  
than you can imagine, therefore it  
will pay you to keep watching for  
this mystery. It will pay you in dif-  
ferent ways.

The more you ask your friends  
about "Who Is Who" the more you  
will learn about it. Don't give up.  
Nothing succeeds like success. Ask  
everyone about it.

There will be a number of people  
living here who will have the in-  
formation for finding "Who Is

Who." These people will gladly give  
you all the information you need.

When the News conducts an af-  
fair you know it is right, so make  
up your mind to keep your eyes  
open for "Who Is Who."

Again we say, watch for next  
Thursday's issue of the NEWS.

## LOCAL BUSINESS CONCERN REPORTS INCREASED OUTPUT

Growing Customer Demand  
Exceeds National Average

Production of electricity in the United States has recently reached an all-time high. A year ago, electric output both for the local utility company and for the country as a whole was not quite back to the 1929 level. But, at present, it is running ahead of 1929 and indications are that it will continue to increase.

During the week ended Nov. 16, 1935, according to Mr. H. O. Palmer, President of the Empire Gas & Electric Co., this company supplied to its customers 20% more electricity than during the corresponding week of 1934 and 14% more than in the same week of 1929. It is hoped that this growing demand for the company's services, if continued, will increase net earnings sufficiently to offset, in part, recent losses of revenue resulting from lower rates, higher operating expenses, and larger tax bills.

The use of electricity in the area served by the Empire Gas & Electric Company is now increasing

- 1 teaspoon soda
- 1 cup chopped nut meats

Cream shortening and add sugar. Beat egg until light and blend the prune juice and graham flour alternately with first mixture. Sift dry ingredients and add with sour milk in which soda has been dissolved. Add prunes and nuts. Pour into well buttered loaf pan and bake in a 325 degree oven for about an hour. Cool in pan for about two minutes, then turn to cake cooler and cool thoroughly before icing.

## Frozen Cranberry Pudding

- 2 cups sugar
- 1 cup water
- 2 egg yolks
- 2 cups cranberry pulp
- ¼ cup lemon juice or 1 teaspoon lemon extract
- 1 cup heavy sour cream

Boil sugar and water until in threads, 230° F. Beat the egg yolks until light, pour the sirup slowly over them, beating constantly. Cook until the mixture coats the spoon. Chill. Add the cranberry pulp and lemon juice and fold in the cream whipped until firm. Freeze.

**Diamonds** are not so rare as is commonly believed. Great mounds of them are on hand in the mining district of Kimberley. Their price is kept high because their flow into the market is regulated by the mine owners.

The original copy of the Declaration of Independence is guarded by an ex-officer of the British Army.

**Finger rings** that would prevent cramps were popular in England from the 15th to the 20th century. At first they had to be blessed by the King to be of value, but later they became so popular the King's blessing was omitted. Finally millions of them were sold for every imaginable ill.

Got a cold? Go to bed.

**Lightning** struck the editor of the "Do You Know?" column the other day when a constant reader and admirer in Trumansburg, New York, wrote in to ask what kind of an "ignoramus" was writing the column. He said we were crazy when we stated that lightning rods have been found not to be protection from lightning. He is right. The Underwriters Laboratory states that "lightning rods are considered a very effectual protection." Funny, isn't it, that this would happen after we have been preaching so hard that one should not assume to know that which he does not know? **DO WE KNOW?—NOT ALWAYS.**

There is no truly "acid" condition of the body. It is always alkaline. "Acidosis" is merely reduced alkalinity.

even more rapidly than for the country as a whole. In October, the amount of electricity supplied to customers was greater than for any previous month in the history of the company. Lower electric rates resulting from the reduction last March and from the new reduction in domestic rates to take effect January 1st continue to increase the value and usefulness of electric service.

## THE FUNNYBONE

### A Nocturnal Job

Teacher: "When was Rome built?"

Stude: "At night."

Teacher: "Who told you that?"

Stude: "You did; you said Rome wasn't built in a day."

### Most Inexpensive

Housewife: "You said I would find that coal an economical kind to buy. Why, it won't burn at all."

Coalman: "Well, ma'am, what could be more economical than that?"

### Same Old Excuse

Judge: "You admit you drove over this man with a loaded truck?"

Driver: "Yes, your honor."

Judge: "And what have you to say in your defense?"

Driver: "I didn't know it was loaded."

### Not Specific Enough

"Boy, I'm scared! I just got a letter from a man telling me he'd shoot me if I didn't stay away from his wife."

"Well, all you have to do is stay away."

"Yeah, but he didn't sign his name."

### Reward

Minister: "And what does your mother do for you when you've been a good girl?"

Little Girl: "She lets me stay home from church."

### Gave It Every Chance

"What's the trouble, kid? Why are you crying?"

"Aw! Me kite won't fly, and me old man made it out of fly paper, too."

### Complimentary

"So that dumb sugar daddy of yours has given you a beautiful country home?"

"That's right; I'm living on the fathead of the land."

### The Finishing Touches

"Mother," said a little boy after coming from a walk, "I've seen a man who makes horses."

"Are you sure?" asked the mother.

"Yes," he replied, "he had a horse nearly finished when I saw him; he was just nailing on his back feet."

**AIDING HEALTH CAMP**

The American Legion Auxiliary is again this year helping the Legion to finance a part of the Child Health Program thru the collection of coupons.

Last season's receipts from the listed coupons amounted to \$1,225 and was the means of providing a week each for more than 200 children at the Children's Health Camp. The Auxiliary goal this year is 400,000 coupons saved from Octagon Soap products, Borden Premium Brand Milks, Kirkman Soap Products, Knox Sparkling Gelatine, Knox Jell, Luzianne Tea and Coffee, Rumford Baking Powder, and Creamettes.

This is an easy way to support a worthy charity and costs nothing. A phone call to 6790 will bring someone to call for your coupons. Irene Frautz is coupon chairman of the local Auxiliary.

## GARDENING BOOKS IN LIBRARY

Now that Spring is here, or "just around the corner", it is time to start planting a garden. Why not let your library help you plan your garden? At the Geneva Free Library may be found quite an extensive collection of books on all phases of gardening. Here is a partial list of books that all gardeners might find helpful:

"Gardens for Town and Suburb", by V. N. Lally

"Putnam's Garden Handbook", by M. S. Cray

"Garden Guide", by A. T. De la Mare

"American Alpines in the Garden", by A. McCully

"Book of Garden Flowers", by R. M. McCurdy

"1001 Garden Questions Answered" by A. C. Hottes

"Bulbs for the American Garden", by J. C. Wister

"Landscaping the Home Grounds", by L. W. Ramsey

"How to Grow Roses", by Robert Pyle

"Home Floriculture", by E. E. Rexford

"Complete Gardens", by A. D. Taylor and G. D. Cooper

"Pleasures and Problems of a Rock Garden", by L. B. Wilder

"Garden Leaves", by V. H. Davis

"How to Grow Vegetables and Garden Herbs", by Allen French

## Origin of Name "Petrel"

The origin of the name "petrel" as applied to the group of birds is derived from their apparent habit of walking on the water as St. Peter is recorded to have done.

Most of the fashion changes are found in important details, in colors and in fabrics. One of the most important details is the waistline. Belts wide and draped, look like crushed girdles. The bolero jacket emphasizes, in some cases, these draped girdles.

## RADIO FLASHES

by Ralph Le Brun

**Richard Himber** and his Studebaker Champions will begin a new series of weekly programs over the NBC-WEAF network on Friday, at 9 P. M., featuring each week a new celebrity as guest artist, and the singing of Stuart Allen, Himber's protege and baritone soloist.

Daylight Saving Time returns Sunday. Tune in your favorite programs one hour earlier. We will use only Eastern Standard ("Geneva") Time in this column.

Starting Monday, at 3:45 P. M.—"Derby Week at Churchill Downs". Bryan Field, CBS race announcer, will conduct a series of five 15-minute interviews, one-a-day, at the same time.

Amos 'n' Andy have no more devoted fans than Freeman Gosden, Jr., aged seven, and his sister, Virginia Marie, aged five, children of the Amos member of the team. But Mrs. Gosden has a problem on her hands trying to break them of using "undisrecouraged" for disgusted, "unlax" for relax and similar expressions they hear on the A. and A. broadcast. Words favored by daddy and his partner are plenty good enough for them and they can't understand why anybody thinks differently.

In a letter made public recently, K. B. Warner, secretary of the American Radio Relay League, national amateur organization, called upon Mayor Daniel J. Shields

**DO YOU KNOW?**

Sponsored by the Medical Society  
of the State of New York

The nose, ears, fingers and toes are likely to be colder than the rest of the body.

After the first year of a child's life a common mistake is catering too much to his appetite. Variety is unnecessary and undesirable. Adults need variety; young children do not. Until the age of three or four, young children are better off if they do not eat at the family table; it is easier to satisfy them with plain, simple, well-cooked foods. Refusal to eat should be met by termination of the meal.

Andrew Carnegie's first job paid him \$1.25 per week.

"Robber of the Prime of Life" and "On Your Guard" are the titles of two pamphlets distributed by tuberculosis and health associations in connection with the early diagnosis campaign conducted by the National Tuberculosis Association. Tuberculosis still causes one out of every five deaths between

the ages of 15 and 25. The campaign aims to persuade people to seek medical treatment while the disease is still incipient, emphasizing the value of tuberculin test for all children in contact with a case of the disease, and X-Ray examinations for all suspected children.

It is interesting to note that 1936 is the fortieth anniversary of the discovery of the X-Ray by William Konrad Roentgen. As is usual with all such brilliant discoveries, it was at first taken up by quacks who proclaimed it as a cure for innumerable ailments. It has great value, as an aid to diagnosis in many diseases, when the negatives are read by competent and experienced men. But no machine can take the place of the intelligence and knowledge which are needed to interpret the meaning of shadows on plates in connection with the significance of other symptoms.

Cream and eggs sweetened with saccharine is found to make a satisfactory ice-cream for diabetic patients.

**The Moon and the Sun**

Why the moon should be partial to lovers one might easily explain on very prosaic grounds — perhaps not unlike the reasoning of the Irishman who called the sun a coward because he goes away as soon as it becomes dark, whereas the blessed moon stays with us most of the night!

(Continued from page 5)

mitted false reports concerning the bursting of the Quemahoning Dam and the destruction of Johnstown but that he had done so with intentional malice in order that news-reel cameramen might secure panic scenes, and also that the deaths of a number of persons were attributable to Coleman. These reports are branded as false.

Citing the service performed by radio amateurs in Johnstown in securing relief aid and supplies and in providing volunteer communication facilities for both authorities and individuals when the city was without other means of communication, Warner suggested that Coleman's work deserved commendation rather than censure.

Citizens of Waters, Ark., have some busy days ahead of them between the present time and Sunday, April 26, when the name of the town officially will be changed to Pine Ridge, Ark., in honor of Lum and Abner, whose Jot 'Em Down Store always has been located in a mythical village named Pine Ridge. The United States Post Office Department has given its sanction to the change in names and a radio broadcast of ceremonies marking the occasion has been scheduled for the NBC-WJZ network, Sunday, at 4 P. M.

## NOT a lot of USED CARS and WHY?

Let's get confidential and go "behind the scenes", so to speak, and ask ourselves why a car dealer has a large stock of used cars — or the reverse — a SMALL stock. Where Used Cars are properly re-conditioned and properly priced — they do not accumulate in a dealer's stock.

We are proud of the fact that we have never had a large stock of used cars. We re-condition them thoroughly, as soon as they come in, then price them right and "out they go". A small, fast moving stock of used cars — unquestionably runs to the used car buyer's benefit.

# THE COMMUNITY KITCHEN

Conducted by BETTY BROWN

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Ginger Pops

- 2 cups sifted flour
- 1 teaspoon baking soda
- $\frac{1}{2}$  teaspoon salt
- 2 tablespoons sugar
- 4 tablespoons butter
- $\frac{3}{4}$  cup ginger ale
- 3 tablespoons lemon juice
- 18 pecan halves

Sift flour once, measure, add baking soda, salt and sugar and sift again. Cut in butter. Add ginger ale and lemon juice. Mix only until blended. Turn into small greased cup cake pans. Top each with half pecan meat. Bake in hot oven 15 minutes. Makes 18 pops.

## Orange Pie

- $\frac{1}{4}$  cup all-purpose flour
- 1 cup granulated sugar
- $\frac{1}{4}$  teaspoon salt
- 3 tablespoons butter
- 1 cup milk
- 2 eggs, separated
- Juice of 1 orange
- Grated rind of 1 orange
- 1 baked, but not browned, pastry shell

Sift together the flour, sugar and salt, then blend in the butter. Add milk to the well beaten egg yolks and combine with the first mixture. Add the juice and grated orange rind; fold in the egg whites, beaten until stiff but not dry. Pour into a previously baked, but not brown, pastry shell and bake in a moderately slow oven (325 degrees F.) for 25 minutes. This makes 1 (9-inch) pie.

## Refrigerator Rolls

(Made with compressed yeast)

- $\frac{3}{4}$  cup of milk
- $\frac{1}{4}$  cup sugar
- 3 tablespoons shortening
- $3\frac{1}{2}$  cups flour
- 1 cake compressed yeast
- $\frac{1}{4}$  cup luke warm water
- 1 teaspoon salt

Scald the milk and pour it over the sugar, shortening and salt in a mixing bowl. Cool to luke warm. Soften yeast in luke warm water; add beaten egg and mix well; stir into milk mixture. Add about one-half of the flour and beat well. Add remainder of flour and mix well. Grease top of the dough cover with oil paper and a towel held in place by a rubber band. Store in the refrigerator until needed. About  $2\frac{1}{2}$  hours before baking take it from the refrigerator, form into rolls, let rise about 2 hours or until double in bulk. Bake 20 min. in hot oven, 425 degrees F.

M. S., Prospect Hill.

### CHAMBER OF COMMERCE DINNER

Approximately 150 members attended the annual Chamber of Commerce dinner at Hotel Seneca last Monday evening.

Following the dinner a debate was held on the subject, "Resolved, that Geneva solve its Parking Problem by the creation of a Municipal Parking Area."

At the end of the debate a vote was taken to determine the views of the members on the establishment of a municipal parking section in connection with Lakeside Park. The vote was overwhelmingly in favor of such action.

### YMCA NEWS

Basketball games will finish this week. Gymnasium classes will continue and as soon as the weather permits, classes will be held at the playgrounds.

The Friendly Indians and Junior Comrades are planning an all-day hike for this Saturday.

Within a week the City Soft Ball League and the Twilight League will hold a meeting. The League will start around May 4. There are about 10 teams in the Soft Ball League and 20 in the Twilight League. About 300 adults will play all summer until September 1.

Classes in Life Saving will be held every Friday evening and Saturday morning.

## THE FUNNYBONE

### Worthy Citizen

The pompous judge glared sternly over his spectacles at the tattered prisoner who had been dragged before the bar of justice on a charge of vagrancy.

"Have you ever earned a dollar in your life?" he asked in scorn.

"Yes, your honor," was the response. "I voted for you at the last election."

### Destiny

Comrade H. W. Cunningham, now on duty in Honolulu, tells a yarn about a hardboiled top kick who was lecturing a bunch of young recruits.

"Don't forget that the army is just one big family," he said. "And that in each one of you there is the making of an unknown soldier!" — *American Legion Monthly*.

### Pardonable Pride

The minister had just finished an excellent chicken dinner. As he looked out of the window, a rooster strutted across the yard.

"My!" said the minister. "That is certainly a proud rooster."

"Sho," said the host, "he has reason to be proud. One of his sons just entered the Ministry."

### Slippershod Dressing

"I was awfully embarrassed this morning. I got a block from home before I noticed that I still had on bedroom slippers."

"What did you do?"

"I had to limp all the way home."

### Years Late

She wanted to be in the beauty chorus, so she wrote an application, enclosing her photograph, and was asked to come for an interview. Imagine her surprise when she was told by the manager that she was too late.

"Is the position filled, then?" she asked.

"No," replied the manager; "I meant that you should have come when you had your photograph taken."

### Legacy

"I hear that Jones left everything he had to an Orphan Asylum."

"Is that so? What did he leave?"

"Twelve children."

### The Indicator

Boss: "That bell at the end of your typewriter, Miss Jones—"

Miss Jones: "Yes, sir."

Boss: "Well, it isn't there to remind you to powder your nose."

### Well Recommended

A young man who had unexpectedly inherited a fortune decided to learn how to behave himself in society. He went to a school of deportment. A bowing Frenchman begged him to enter.

"Do you give lessons in deportment?" asked the young man.

"The best, m'sieu," gushed the proprietor. "My system ees perfect. Two weeks ago a young man like you, m'sieu — he only take two lessons in deportment — then he was deported!" — *El Paso Herald News*.

### Old Standard Yard

The standard yard originally varied with the girth of succeeding chieftains. Later it was fixed as the distance from the point of Henry I's nose to the end of his thumb.

## GLEANINGS

(From collection of quotations  
compiled by M. F. Devaney)

"Glamor is simply a rain of events falling on an individual who happens to be on the right corner at the right moment without an umbrella."

"Repetition is retention."

"Do what you have to do no matter how tough things look."

"As long as there is a top and a bottom everyone cannot be on top and no one on the bottom."

"Social tact is making one's guests feel at home where we wish they were."

"An important attribute of a successful politician is his lie-ability."

"Happiness must be paid for. Nothing is free. Things sort of work out right in the end."

"Greet your misfortunes with laughter and you have them half licked."

"Just an extra push of a pound or so will put it over."

"One way to succeed is to refuse to fail."

## Catbird Has Odd Habit

Gifted with the song of the Mock-er and the Brown Thrasher, the Cat-bird has the ridiculous habit of paus-ing in the midst of a beautiful song to scold and mew like a cat. This little girl was born lucky—because her father is a man who doesn't believe in luck.

Rich? Oh no, he is far from rich. But he is a thoughtful man.

He knew that it would take years, with his salary, to save enough to make certain that the little new-comer—and her mother—would not be in want if anything should happen to him.

So, like millions of others, he found the shortest road to peace of mind and security—in LIFE INSURANCE.

Now, whether he is here or not, his little girl

will still have the advantages he planned for her. His wife will not have to worry about the necessities of life. And if he lives, his insurance will pay HIM an income, too, in later years.

That's one of the grandest things about life insurance. You win BOTH WAYS.

‡ ‡ ‡ ‡

Your life insurance representative will give you a booklet, "Seven Wise Men." It tells you how you—ON YOUR PRESENT INCOME—can start a plan that means security for your family if you die, and security for your wife and yourself if you live.

### NEW STUDIO LOCATION

The Stewart Studio, located for a number of years on the upstairs floors at 35 Seneca Street, today announces the opening on Saturday, May 9, of new ground-floor studios at 41 Seneca Street.

In addition to specializing, as in the past, in portrait and commercial photography, a picture framing department will be one of the features of the new studios and a stock of Kodaks and Kodak supplies will also be carried.

### STUDENT RECITAL

On the evening of Tuesday, May 12, at 7:45, the violin and piano students of Fred G. Drewett and Wm. H. Thompson will be presented in a joint recital. This will be the twelfth annual joint recital given by Mr. Drewett and Mr. Thompson.

At the conclusion of the recital Mr. Drewett's Little Symphony of thirty pieces will play.

Students have tickets for distribution and the public is cordially invited.

### THIRTY MINUTE PARKING?

A stormy session is expected when the Common Council meets tonight to vote on proposed revisions in traffic laws, included in which is a thirty minute parking provision for Seneca St. and part of Exchange St.

There is no question but what nearly 100% of the merchants in the affected area are not only unalterably opposed to even giving the proposal a trial, but are very much "up in arms." A large delegation of merchants will undoubtedly attend tonight's meeting.

The consensus of opinion seems to be that the proposed ordinance is "putting the cart before the horse"; that if suggested improvements to Lakeside Park to include a parking area, easily accessible to the business section, were carried out first, then there would be no great objection to a thirty minute parking limit.

### WHY NOT?

One way to relieve the parking situation is for more shoppers, merchants, clerks, office workers, etc., to use regular auto parking stations.

### YOU'LL BE ASTONISHED . . .

As well as delighted to see how our new "HILD SYSTEM" restores the color to Rugs and Carpets that have become dull and dingy.

Expert workmanship and NO SHRINKAGE GUARANTEED on Orientals and Domestics.

**"THE MISSING LINKS"**

Well, it's still a mystery what could have happened to those "Missing Links".

We've offered cash rewards for any information that would lead to their recovery and, while we have received considerable information and suggestions from all parts of Geneva, Phelps, Waterloo and the surrounding territory, assuring us that a diligent and systematic search is being made, it seems strange that with the large army of searchers working on the case we do not get some definite clue that would assist us in locating those "Missing Links".

We can't believe that any one would be willfully hiding them when we are willing to pay for their return.

Well, we are going to continue to offer the attractive cash rewards in the hope that someone will eventually give us a clue to work on. Also, if the "Missing Links" Editor receives any information that will assist those who are active in the search we will advise you accordingly, so watch THE GENEVA COMMUNITY NEWS for further details.

## RADIO FLASHES

by Ralph Le Brun

**Edwin Franko Goldman,**  
director  
of the famous  
Goldman band,  
will be  
heard  
several times  
during the  
summer months.  
The  
first broadcast  
will be  
made  
from the  
Central Park  
Mall  
on June 17.

NBC will cover all details of the maiden voyage of the world's largest airship, the Hindenberg, which was scheduled to sail on its first voyage yesterday. A Radio equipped amphibian and Coast Guard cutter will herald the ship's approach to U. S. shores and from then until its docking at Lakehurst, probably after sundown on Friday, NBC will at various times carry description of all phases of this incident.

King Carol of Roumania, colorful kingdom in southeastern Europe bordering on the Black Sea, will be heard for the first time by the American radio audience on Sunday when he speaks in connection with the celebration of Roumanian Independence Day. His address will be carried over networks of both the Columbia Broadcasting System and the National Broadcasting Company. He is expected to talk from 11:45 to 12 M. Carol is familiar to Americans because of the public interest he excited first by renouncing claim to the crown which was conferred on his infant son, Michael, and later reclaiming the throne in 1930.

Ten broadcasts from the Queen Mary during her maiden voyage from Southampton, England, to New

York, will be carried over the Columbia network. On Wednesday, May 27, at 8:15 A. M., Don Ball, who will sail on the Queen Mary, will describe the departure from Southampton. At 9:15 A. M. the ship's entrance into the English Channel will be celebrated, while first-night activities on board are to be pictured at 6 P. M. May 28, will see only one broadcast from the ship at 6 P. M.; but on May 29, there will be three programs. The first is scheduled as a microphone tour of the ship at 2:15 P. M. Other programs will be presented at 6 and at 6:45 P. M., at which times it is likely that a concert and other evening activities will be heard. At 6 P. M., on May 30, and at the same time on May 31, Ball will go on the air again, reporting progress in the ship's race against time, introducing

"Welcome Valley", that mythical rural community where Edgar A. Guest, America's beloved poet philosopher, edits and publishes his newspaper, the Welcome Valley Chronicle, is making plans for a gala Centennial starting in June. The most notable feature of this Centennial celebration will be the opening of a mythical radio station which Editor Guest is building in connection with the Welcome Valley Chronicle. The program, broadcast over the NBC Blue network, Tuesdays, at 7:30 P. M., will bring to Chicago the most popular entertainers from 17 cities where the program is heard to appear over the "Welcome Valley Radio Station". Entertainers will be chosen by the individual stations and sent to Chicago. A different station will be represented each week.

## READING SUGGESTIONS FOR SPRING

With the coming of Spring also comes the urge to get out into the country. Do you know the names of the various birds, flowers and trees you would see on a jaunt to the woods and meadows?

Most of us living in town do not. Why not make your trip to the country more profitable by knowing what you see there?

Your public library can help you. At the Geneva Free Library there is a large collection of books on nature study which you would find most useful, many of them with colored pictures making them even more helpful.

Here is a list of some of the books you will find there:

"Handbook of Nature Study", by A. B. Comstock.

"How to Know the Wild Flowers", by Mrs. W. S. Dana.

"Fieldbook of American Wild Flowers", by F. S. Mathews.

"Insect Book", by L. O. Howard.

"Butterfly Book", by W. J. Holland.

"Birds Worth Knowing", by Neltje Blanchan.

"Bird Life", by F. M. Chapman.

"A Watcher in the Woods", by D. L. Sharp.

"American Bird Biographies", by A. A. Allen.

"Tree Habits", by J. S. Illick.

"Trees Worth Knowing", by J. E. Rogers.

"How to Know the Ferns", by F. T. Parsons.

"Plant World", by C. S. Gages.

## OPERA AT HIGH SCHOOL

On Friday evening, May 8, at 8:15, the Music and Dramatic Departments of Geneva High School will present, in the High School Auditorium, the Gilbert and Sullivan Opera, "The Sorcerer".

This will be the fourth Gilbert and Sullivan Opera to be given by the two departments. There will be a cast of eighty with interesting staging and tuneful music. Costumes are coming from Philadelphia and scenery has been secured in Rochester.

The musical part of the production is under the direction of Mr. Kenneth Collins and the dramatic work under the direction of Miss Barbara Witter.

Tickets are 40c for adults; 30c for students.

## LOOKING FORWARD TO MOTHER'S DAY

The Intermediate Pioneer Club of the First Methodist Church will sponsor their third annual program on Mother's Day, at 10:30 a. m.

There will be special music under the leadership of Mr. Phillip Maples and a special message by the pastor, Rev. Carl G. McConnell. An honor bouquet will be given to the oldest mother, the youngest mother and to the mother having the largest family present.

Any person wishing to give flowers or potted plants in memory of their own mother may do so. These will be used as altar decorations and will then be sent to "shut-ins" or to the hospital, as requested.

## Yellowhammer, Alabama's Bird

Alabama's choice of official bird, the yellowhammer, was also dictated by history. In the Civil war a group of young Alabamians formed a fighting band, stuck yellowhammer feathers in their hats and marched away to battle.

## DO YOU KNOW?

Sponsored by the Medical Society  
of the State of New York

Sunday, May 10, is Mother's Day. Throughout the country people will wear a carnation to signalize the day; white in memory of a mother who is gone, but if she be living, one of any color. Stop, on this day, to think of an unpleasant fact: in the past 25 years in the United States, 375,000 women have died from pregnancy and childbirth, but in all our country's wars, only 244,000 men were killed in battle.

Many of these women died because they, and their husbands, thought that having a baby was a matter that would take care of itself, with medical and nursing care delayed until the last moment. The Maternity Center Association, which sponsors a Mother's Day Campaign to save mothers' lives, has proved statistically that wherever early and continuous care has been given large groups of mothers, the death rate has dropped one-half.

Thousands of white carnations, worn on Mother's Day, do not requite the cruel toil exacted by ignorance and indifference.

Many of the difficulties which cause these deaths of mothers can be discovered early, and prevented

from becoming serious. A baby is nine months old the day it is born. The time to seek advice and guidance is just as soon as it is known a baby is expected.

In ancient Ireland, a suspected person's hand was immersed in the "Cauldron of Truth," containing boiling water; if his hand was burned he was guilty, if innocent, "no harm was done to him."

The Spartans threw their weak babies over the cliffs to strengthen their hereditary stock. If the practice had continued, we would never have had a mature Isaac Newton, Victor Hugo or Daniel Webster. Herbert Spencer lived to a ripe old age but was an invalid all his life; Darwin was never quite well; Kant's body was frail; Heine suffered painfully all his life. Always man has shown he can rise superior to any disability or obstacle. The great physician Osler's formula for a long life was to get some chronic disease and nurse it.

These are rare instances of men of genius. They are exceptional. A number of surveys have shown that in general, the superior in mind are either equal or superior in physique.

# THE COMMUNITY KITCHEN

Conducted by BETTY BROWN

For every recipe sent in by our readers and used on this page, we will mail the sender one ticket to Schine's Geneva Theatre.

Send yours to "Betty Brown," in care of Geneva Community News, Box 146, Geneva, N. Y.

Your name will not be printed, but names and addresses must accompany recipes.

## Velvet Cake

- 2 cups brown sugar
- ½ cup butter
- 1 teaspoon soda
- 2 cups flour
- 1 cup sour milk
- 2 eggs (beaten)
- 2 squares chocolate or ½ cup cocoa
- 1 teaspoon vanilla

Melt chocolate in sauce pan and sift together the dry ingredients. Cream fat, add sugar gradually, cream well together and add beaten eggs. Add chocolate, then flour and milk alternately. Bake in 2 large layer tins or large loaf. Bake in moderate oven.

Mrs. H. L. O., Wadsworth St.

## Ginger Pudding

- ¼ cup shortening
- ¼ cup granulated sugar
- 1 egg
- ¾ cup all-purpose flour
- 1 teaspoon baking powder
- ¼ teaspoon salt
- 1 teaspoon ginger
- ¼ cup milk

### Yellow Foamy Sauce

Cream shortening until soft. Blend in sugar and beat in egg, which has been well beaten. Sift together the dry ingredients and add alternately with the milk to first mixture. Turn into greased mold and steam 2½ hours. Serve with Yellow Foamy Sauce. This recipe makes 4 portions.

## Chocolate Walnut Dollars

- 2¼ cups sifted flour
- 1½ teaspoons baking powder
- ½ teaspoon cinnamon
- 1 egg, slightly beaten
- 1 cup sugar
- ½ cup soft butter
- 2 tablespoons milk
- 2 squares bitter chocolate
- ½ cup chopped walnut meats
- 1 teaspoon vanilla

Add baking powder and cinnamon to sifted flour and sift together 3 times. Combine flour and remaining ingredients and mix well. Shape into roll, wrap in wax paper and chill thoroughly. Cut in ⅛ inch slices and bake on ungreased sheet in hot oven 400° for 8 minutes. Makes 48.

Mrs. D. E. R., State St.

## Peaches Macaroon

Drain canned peach halves thoroughly. Cut out some of the peach, leaving enough of the outside to keep the halves firm. Chop peach, which has been removed and add twice as much macaroon crumbs as chopped peach. Add a few chopped nuts and a little sherry flavoring. Fill the peach halves with the macaroon mixture. Put under the broiler and cook just long enough to brown the top slightly. Chill and serve plain or with whipped cream.

L. A., Lafayette Ave.

## Yellow Foamy Sauce

- ¼ cup butter
- 1 cup confectioner's sugar
- 1 egg, well beaten
- 3 tablespoons orange juice

Cream butter thoroughly and blend in sugar. Beat in egg, until mixture is smooth. Just before serving, beat

## Y. M. C. A. NEWS

Reservations for the 50th annual meeting, Monday, May 11, at which Dr. S. Parkes Cadman will be guest speaker, will close Friday, May 8. Anyone who has not yet secured tickets should telephone Dr. H. B. Tukey (2331); the Y. M. C. A. office (2143), or Ben Whiteman (6712). The meeting is to be held in the First Presbyterian Church Parish House, instead of at the Y. M. C. A., in order to accommodate the increased attendance expected.

In the recent free swimming campaign held at the Y, 92 boys and 70 girls learned to swim. According to present plans another campaign will be held the latter part of May. Announcement will be made in the schools.

"Pud" Howell, formerly of the Geneva Y. M. C. A., now of the Chicago Y. M. C. A. College, is coach of the rifle team which recently won the Midwest Interscholastic Championship.

Physical Director Jenkins announces another hike for May 16. Forty-two boys went on the last hike.

There are now eight teams in the Y. M. C. A. Soft Ball League and twelve in the Twilight League. Physical Director Jenkins has again been elected president and has the approval of the league to appoint an arbitration committee

of five, none of whom are players, to decide all controversial matters. Hand Ball Tournament will begin this week, with two matches per week for every player.

## THE FUNNYBONE

### The Golden Rule

"Robert," said the teacher, to drive home the lesson which was on charity and kindness, "if I saw a man beating a donkey and stopped him from doing so, what virtue would I be showing?"

"Brotherly love," said Bobby.

### Fast Action Needed

A young lady rushed into a drug store and asked: "Do you sell films for pocket moving picture cameras?"

"Certainly," said the clerk.

"Then give me one, quick! Father's being chased by a bull."

### Bereaved

Friend: "And have you found a law firm that is satisfactory?"

Widow: "Don't talk to me about lawyers. I've had so much trouble over the property I sometimes wish my husband had not died."

### Probably Would Have

Salesman—Something in golf apparel, madam?

Lady—Yes; I would like to see some handicaps. Large size, please. My husband said that if he'd had a big enough handicap yesterday he'd have won the match.

### Graphic Illustration

A young attorney, taking his first case, had been retained by a farmer to prosecute a trucking company for losing a shipment of 24 pigs.

He wanted to impress the jury with the magnitude of the injury. "Twenty-four pigs, gentlemen. Twenty-four; twice the number in the jury box."

### The Cute Lad!

The man was giving away candy samples. A boy, given one piece, asked for another.

"Why do you want two?" he was asked. "Have you a brother at home?"

"No, sir," was the answer, "but my sister has!"

### Helpful

"Pardon me, does this train stop at Tenth Street?"

"Yes; watch me and get off one station before I do."

"Thank you."

### An Echo Worth While

He had visited the "Corridor of Echoes" in the West Virginia Capitol building, and wasn't impressed.

"Shucks," said he, "that's nothing like the Echo Rock up where I live. Up there, before I go to bed at night I shout, 'Hey, Jim, time to get up.' And at 5 o'clock next morning it comes back to me. Why, I haven't had no alarm clock in 17 years."

### Stayed Home

Fizzle: "I'd like to get a pair of silk stockings for my wife."

Girl Clerk: "Sheer?"

Fizzle: "Naw, I left her at home."
